[P. P. C. 616, 2d Revision]

PART 301—DOMESTIC QUARANTINE NOTICES

SUBPART—MEDITERRANEAN FRUIT FLY

REVISED ADMINISTRATIVE INSTRUCTIONS EXEMPTING CERTAIN ARTICLES FROM SPECIFIC REQUIREMENTS; INTERPRETATION RE CERTAIN PRODUCTS

Pursuant to the authority conferred on him by the fourth sentence of the Mediterranean fruit fly quarantine (Notice of Quarantine No. 78, 7 CFR 301.78, 21 F. R. 3213), under sections 8 and 9 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 161, 162), and pursuant to other delegations of authority (19 F. R. 515, as amended) the Chief of the Plant Pest Control Branch hereby issues revised administrative instructions exempting certain regulated articles from the requirements of §§ 301.78–3 (b), 301.78–4 and 301.78–5 of the regulations supplemental to the said notice of quarantine (7 CFR 301.78–3 (b), 301.78–4, 301.78–5; 21 F. R. 3214, 3215), and an interpretation re certain other products, to appear as § 301.78a in Title 7, Code of Federal Regulations, as follows:

§ 301.78a *Administrative instructions exempting certain articles from specified requirements; interpretation re nursery stock, cut flowers, bulbs, etc.* It has been found that facts exist as to the pest risk involved in the movement of the following regulated articles under the regulations in this subpart which make it safe to make less stringent the requirements of the regulations with respect to the movement of such articles from any regulated area, as hereinafter provided. The following articles are hereby exempted from the requirements of §§ 301.78–3 (b), 301.78–4 and 301.78–5:

(a) *Fruits.* (1) Coconuts.
(2) Lemons, when picked green and commercially packed.

Beach, when grown under approved conditions that include spray schedules where required, and when handled under sanitary conditions satisfactory to an inspector.

(2) Nursery stock, without fruit or berries and free of soil; bulbs, corms, tubers, and rhizomes, other than vegetables, when free of soil; and cut flowers; are not considered as being regulated articles within the meaning of the regulations in this subpart.

These revised instructions shall be effective on August 24, 1956, and on that day shall supersede P. P. C. 616, revised, which was effective June 16, 1956 (7 CFR 301.78a, 21 F. R. 4251).

The purpose of this revision is to add okra to the list of vegetables that are exempt from the requirements of the Mediterranean fruit fly quarantine and regulations, and similarly to exempt all vegetables produced in Broward, Collier, Hendry, Lee, and Palm Beach counties when they have been grown under certain approved conditions and have been handled in a manner to safeguard them from reinfestation. The latter exemption is based on progress of control work and consequent reduction of Mediterranean fruit fly population in the five counties named. It has been determined that movement of such vegetables will not result in the spread of the Mediterranean fruit fly and that the restrictions provided by the quarantine and regulations upon such movement are unnecessary. In order to be of maximum benefit to affected shippers, the revised instructions relieving such restrictions should be made effective as soon as possible. Therefore, under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) it is found upon good cause that notice and other public rule making procedure with respect to the revised instructions are impracticable and unnecessary.

Since the instructions relieve restrictions, they are within the exception in section 4 (c) of the Administrative Procedure Act and may properly be made effective less than 30 days after their publication in the FEDERAL REGISTER.

(Sec. 9, 37 Stat. 318; 7 U. S. C. 162. Interprets or applies sec. 8, 37 Stat. 318, as amended; 7 U. S. C. 161)

Done at Washington, D. C., this 21st day of August 1956.

[SEAL] L. F. CURL,
Acting Chief,
Plant Pest Control Branch.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 655, Amdt. 1]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 19 F. R. 7175; 20 F. R. 2913; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the Agricultural Marketing Agreement Act of 1937, as amended, is insufficient, and this amendment relieves restriction on the handling of lemons grown in the State of California or in the State of Arizona.

Order, as amended. The provisions in paragraph (b) (1) (ii) of § 953.655 (Lemon Regulation 21 F. R. 6222) are hereby amended to read as follows:

(ii) District 2: 325,500 cartons.

PART 1003—DOMESTIC DATES PRODUCED OR PACKED IN LOS ANGELES AND RIVERSIDE COUNTIES OF CALIFORNIA

ESTABLISHMENT OF FREE, RESTRICTED, AND WITHHOLDING PERCENTAGES FOR 1956–57 CROP YEAR

Notice was published in the August 4, 1956 issue of the FEDERAL REGISTER (21 F. R. 5847) that the Secretary of Agriculture was considering a proposed rule to establish for the 1956–57 crop year a free percentage, a restricted percentage, and a withholding percentage for Deglet Noor dates, as set forth in such notice. These percentages were proposed after consideration of the recommendation of the Date Administrative Committee and other available information, in accordance with the applicable provisions of Marketing Agreement No. 127 and Marketing Order No. 103 (20 F. R. 5056) regulating the handling of domestic dates produced or packed in Los Angeles and Riverside Counties of California. The said agreement and order are effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In the notice, opportunity was afforded interested persons to file written data, views, or arguments with respect thereto.

After consideration of the data, views, or arguments which were submitted, and other available information, it is concluded that to establish a free percentage, a restricted percentage, and a withholding percentage as set forth in the aforesaid notice will tend to effectuate the declared policy of the aforesaid act.

Therefore, it is hereby ordered, That the free percentage, restricted percentage, and withholding percentage for Deglet Noor dates for the 1956–57 crop year shall be as follows:

§ 1003.204 *Free, restricted, and withholding percentages.* The free percentage, restricted percentage, and withholding percentage of marketable dates of the Deglet Noor variety shall be, for the crop year beginning August 1, 1956 and ending July 31, 1957, as follows: Free percentage, 75 percent; restricted percentage, 25 percent; and withholding percentage, 33.3 percent.

It is hereby found and determined that good cause exists for not postponing the effective time of this order later than the date of its publication in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) in that: (1) Shipments of Deglet Noor dates will begin soon; (2) handlers need to know with certainty and as soon as is practicable the withholding percentage which shall apply against their shipments of marketable Deglet Noor dates during the 1956–57 crop year; (3) since the free, restricted, and withholding percentages established for the 1955–56 crop year continue to apply until the percentages for the 1956–57 crop year become effective, at which time the withholding obligations for the 1956–57 crop year must be ad-

justed to the new percentages, it is necessary that the percentages for the 1956–57 crop year become effective soon so as to minimize adjustments; and (4) handlers are aware that new percentages were proposed for the 1956–57 crop year and they should need no additional advance notice for compliance with this regulation. In these circumstances, this document should be made effective on the date of its publication in the FEDERAL REGISTER.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated August 21, 1956, to become effective upon publication in the FEDERAL REGISTER.

Director,
Fruit and Vegetable Division.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 13]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.109 is amended to read:

§ 600.109 *Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.).* From the Charleston, S. C., radio range station via the Myrtle Beach, S. C., nondirectional radio beacon; Wilmington, N. C., nondirectional radio beacon; New Bern, N. C., nondirectional radio beacon; the intersection of a line bearing 11° True from the New Bern, N. C., nondirectional radio beacon and the southwest course of the Norfolk, Va., radio range to the Norfolk, Va., radio range station. The portion of this airway above 5500 feet above mean sea level within 60 miles of a point at latitude 34°54'30'', longitude 76°53'00'' is excluded daily from sunset to sunrise.

2. Section 600.210 *Red civil airway No. 10 (Amarillo, Tex., to Charleston, S. C.)* is amended between Birmingham, Ala., and Atlanta, Ga., by deleting the portion which reads: "the intersection of the east course of the Birmingham, Ala., radio range and the west course of the Campbellton, Ga., radio range; Campbellton, Ga., radio range station;" and substituting the following in lieu thereof: "the intersection of the east course of the Birmingham, Ala., radio range and a line bearing 267° True from the Atlanta, Ga., radio range;"

3. Section 600.267 is amended to read:

§ 600.267 *Red civil airway No. 67 (Crestview, Fla., to Atlanta, Ga.).* From the Crestview, Fla., radio range station via the Dothan, Ala., radio range station; the intersection of the northwest course of the Dothan, Ala., radio range and the southwest course of the Columbus, Ga., radio range; Columbus, Ga., radio range station; the intersection of the northeast course of the Columbus, Ga., radio range and a line bearing 182° True from the Marietta, Ga. (Lost Mountain), nondirectional radio beacon to the intersection of the line bearing 182° True from the Marietta, Ga. (Lost Mountain) nondirectional beacon and the southwest course of the Atlanta, Ga., radio range, excluding the portions above 19,000 feet MSL which lie within Tyndall restricted area (R–336) between sunset and sunrise, and excluding the portion which overlaps Fort Benning restricted area (R–129).

4. Section 600.6001 is amended to read:

§ 600.6001 *VOR civil airway No. 1 (Charleston, S. C., to New York, N. Y.).* From the Charleston, S. C., omnirange station via the Myrtle Beach, S. C., omnirange station; Wilmington, N. C., omnirange station; point of intersection of the Wilmington omnirange 005° True and the New Bern, N. C., 297° True radials; Cofield, N. C., omnirange station; intersection of the Cofield omnirange 058° True radial and the Norfolk ILS localizer southwest course; Norfolk, Va., ILS localizer; to the point of intersection of the Norfolk ILS localizer northeast course and the Norfolk, Va., VAR north course. From the point of intersection of the Norfolk, Va., VAR north course and the Norfolk, Va., Navy radio range east course via the intersection of the Norfolk VAR north course and the Salisbury omnirange 206° True radial; Salisbury, Md., omnirange station; intersection of the Salisbury omnirange 038° True and the Coyle omnirange 203° True radials; Coyle, N. J., omnirange station; to the Idlewild, N. Y., omnirange station. These portions of this airway between the Coyle, N. J., omnirange station and the point of intersection of the Colts Neck, N. J., omnirange 073° True and the Coyle, N. J., omnirange 031° True radials lying more than 3 miles either side of the center line, and those portions in conflict with the Patuxent restricted area (R–43) and the Warren Grove restricted area (R–26), are excluded.

5. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing all after the West Chester, Pa., omnirange station to read: "West Chester, Pa., omnirange station; to the point of intersection of the West Chester omnirange direct radial to the Coyle, N. J., omnirange station and the Woodstown, N. J., omnirange 045° True radial."

6. Section 600.6013 *VOR civil airway No. 13 (Houston, Tex., to Duluth, Minn.)* is amended by changing the portion which reads: "Shreveport, La., omnirange station;" to read: "Shreveport, La., omnirange station, including an east alternate;".

7. Section 600.6016 *VOR civil airway No. 16 (Los Angeles, Calif., to Boston, Mass.)* is amended by changing all between the Big Spring, Tex., omnirange station and the Texarkana, Ark., omnirange station to read: "Big Spring, Tex., omnirange station; Abilene, Tex., omnirange station, including a south alternate; Mineral Wells, Tex., omnirange station, including a north alternate and also a south alternate via the intersection of the Abilene omnirange 096° True and the Mineral Wells omnirange 247° True radials; Dallas, Tex., omnirange station, including a south alternate; Sulphur Springs, Tex., omnirange station, including a north alternate from the Mineral Wells omnirange station to the Sulphur Springs omnirange station via the intersection of the Mineral Wells omnirange 066° True and the Sulphur Springs omnirange 272° True radials; Texarkana, Ark., omnirange station, including a north alternate;".

8. Section 600.6017 *VOR civil airway No. 17 (Laredo, Tex., to Goodland, Kans.)* is amended by changing all after the Waco, Tex. omnirange station to read: "Waco, Tex., omnirange station, including an east alternate; intersection of the Waco omnirange 352° True and the Fort Worth omnirange 159° True radials; Fort Worth, Tex., omnirange station; Oklahoma City, Okla., omnirange station; Gage, Okla., omnirange station; Garden City, Kans., omnirange station; to the Goodland omnirange station, including a west alternate."

9. Section 600.6019 *VOR civil airway No. 19 (El Paso, Tex., to Great Falls, Mont.)* is amended by changing the portion which reads: "Crazy Woman, Wyo., omnirange station, including an east alternate;" to read: "Crazy Woman, Wyo., omnirange station, including an east alternate via the intersection of the Casper, Wyo., 007° True and the Crazy Woman omnirange 146° True radials;".

10. Section 600.6020 *VOR civil airway No. 20 (Laredo, Tex., to Richmond, Va.)* is amended by changing the portion which reads: "New Orleans, La., omnirange station;" to read: "New Orleans, La., omnirange station, including a south alternate;".

11. Section 600.6026 *VOR civil airway No. 26 (Cherokee, Wyo., to Cleveland, Ohio)* is amended by changing the portion which reads: "White Cloud, Mich., omnirange station;" to read: "White Cloud, Mich., omnirange station, including a north alternate;".

12. Section 600.6027 *VOR civil airway No. 27 (Los Angeles, Calif., to Seattle, Wash.)* is amended by changing the portion which reads: "Salinas, Calif., omnirange station;" to read: "Salinas, Calif., omnirange station, including a west alternate from the Paso Robles omnirange station to the Salinas omnirange station via the intersection of the Paso Robles omnirange 314° True and the Salinas omnirange 149° True radials, excluding the portion which conflicts with the Fort Ord restricted area (R–284) and also excluding the portion which conflicts with the Camp Roberts restricted area (R–415) during the hours of daylight;".

13. Section 600.6035 *VOR civil airway No. 35 (Miami, Fla., to Syracuse, N. Y.)* is amended by changing the portion which reads: "From the Miami, Fla., omnirange station via the intersection of the Miami omnirange 274° True and the Fort Myers omnirange 133° True radials;" to read: "From the Miami, Fla., omnirange station via the intersection of the Miami omnirange 276° True and the Fort Myers omnirange 142° True radials;".

14. Section 600.6038 *VOR civil airway No. 38 (Iowa City, Iowa, to Elkins, W. Va.)* is amended by changing the portion which reads: "From the Iowa City, Iowa, omnirange station via the intersection of the Iowa City omnirange 092° True and the Joliet omnirange 265° True radials;" to read: "From the Iowa City, Iowa, omnirange station via the intersection of the Iowa City omnirange 093° True and the Joliet omnirange 265° True radials;".

15. Section 600.6054 is amended by changing the caption to read: "*VOR civil airway No. 54 (Quitman, Tex., to Charlotte, N. C.)*" and by changing the portion which reads: "From the Texarkana, Ark., omnirange station via the Little Rock, Ark., omnirange station, including a north alternate via the intersection of the Texarkana omnirange 031° True and the Little Rock omnirange 255° True radials;" to read: "From the Quitman, Tex., omnirange station via the Texarkana, Ark., omnirange station; Little Rock, Ark., omnirange station, including a north alternate via the intersection of the Texarkana omnirange 031° True and the Little Rock omnirange 255° True radials;".

16. Section 600.6061 is amended to read:

§ 600.6061 *VOR civil airway No. 61 (Fort Worth, Tex., to Lawton, Okla.).* From the Fort Worth, Tex., omnirange station via the intersection of the Fort Worth omnirange 315° True and the Wichita Falls omnirange 139° True radials; Wichita Falls, Tex., omnirange station, to the Lawton, Okla., omnirange station.

PART 601—DESIGNATION OF CONTROL AREAS CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.1127 *Control area extension (Pasco, Wash.)* is amended by changing the words "VOR civil airway No. 103" to read: "VOR civil airway No. 112".

2. Section 601.1170 *Control area extension (Campbellton, Ga.)* is revoked.

3. Section 601.1200 *Control area extension (Columbia, S. C.)* is amended by adding the following portion to present control area extension: "and the airspace south of Columbia bounded on the northeast by Blue civil airway No. 28, on the southwest by Red civil airway No. 10 and on the northwest by Red civil airway No. 16, and the airspace southeast of Columbia bounded on the north by Red civil airway No. 16, on the east by Amber civil airway No. 7, and on the southwest by Blue civil airway No. 28, excluding the portion which overlaps restricted area (R–384)."

4. Section 601.1230 is amended to read:

§ 601.1230 *Control area extension (Miami, Fla.).* That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Tamiami, Fla., nondirectional radio beacon to a circle 10 miles in radius centered on the intersection of a line bearing 276° True from the Tamiami nondirectional radio beacon and the eastern boundary of the New Orleans Oceanic control area, excluding the portion which lies within Sarasota warning area (W–168) and excluding the portion below 2,000 feet MSL which lies outside the continental limits of the United States.

5. Section 601.1223 *Control area extension (Miramar, Calif.)* is amended by changing last portion to read: "excluding the airspace below 15,000 feet MSL, which lies within restricted area (R–297)."

6. Section 601.1282 *Control area extension (Wichita, Kans.)* is amended by adding the following portion to present control area extension: "and the airspace lying within 5 miles either side of a direct line extending from the Wichita, Kans., omnirange station to the Tulsa, Okla., omnirange station."

7. Section 601.1293 is amended to read:

§ 601.1293 *Control area extension (Fort Smith, Ark.).* That airspace northeast of Fort Smith within a 25-mile radius of the Fort Smith omnirange station extending clockwise from the eastern boundary of VOR civil airway No. 13 to the northern boundary of VOR civil airway No. 74.

8. Section 601.1325 *Control area extension (Tampa, Fla.)* is amended by adding the following portion to present control area extension: "including the airspace northwest of Tampa bounded on the northeast by VOR civil airway No. 97, on the southwest by Tampa control area extension 601.1226, and on the northwest by a line 5 miles west of and parallel to the 207° True radial of the Cross City, Fla., omnirange, excluding the airspace below 2,000 feet MSL which lies outside the continental limits of the United States."

9. Section 601.1983 *Three-mile radius zones* is amended by adding the following airport: Jacksonville, N. C.: New River MCAF.

10. Section 601.2121 *Rockford, Ill., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of a line extending from the Greater Rockford Airport through the Rockford nondirectional radio beacon to a point 12 miles south of the nondirectional radio beacon."

11. Section 601.2163 *Pensacola, Fla., control zone* is amended by adding the following portion to present control zone: "and within 2 miles either side of the ILS localizer northwest course extending from the localizer to a point 15 miles northwest."

12. Section 601.2255 is amended to read:

§ 601.2255 *Aguadilla, P. R., control zone.* Within a 10-mile radius of Ramey Air Force Base, Aguadilla, P. R., and within 2½ miles either side of the extended center line of the Ramey AFB east-west runway extending to points 12 miles east and west of the runway ends.

13. Section 601.2279 is amended to read:

§ 601.2279 *Anchorage, Alaska, control zone.* That airspace within a 5-mile radius of Elmendorf Air Force Base, within 5 miles either side of a direct line from the Elmendorf AFB to and including a 5-mile radius of Anchorage International Airport, and within 2 miles either side of the ILS localizer course extending from the Anchorage International Airport to a point 10 miles beyond the outer marker, excluding the portion which overlaps restricted area (R–348).

14. Section 601.2324 is amended to read:

§ 601.2324 *New Bern, N. C., control zone.* Within a 6-mile radius of Simmons-Nott Airport and within 2 miles either side of a line bearing 265° True extending from the New Bern nondirectional radio beacon to a point 10 miles west of the radio beacon, excluding the portion which overlaps Cherry Point restricted area (R–123), and excluding the airspace above 5,500 feet above mean sea level daily from sunset to sunrise.

15. Section 601.2390 is added to read:

§ 601.2390 *North, S. C., control zone.* Within an 8-mile radius of North AF (AUX) Field, North, S. C., and within 2 miles either side of a line bearing 233° True extending from the airfield to a point 10 miles southwest.

16. Section 601.6020 is amended to read:

§ 601.6020 *VOR civil airway No. 20 control areas (Laredo, Tex., to Richmond, Va.).* All of VOR civil airway No. 20 including north and south alternates, but excluding the airspace between the main airway and its north alternate airway from the Atlanta, Ga., omnirange station to the Spartanburg, S. TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 54167]

PART 11—PACKING AND STAMPING; MARKING; TRADE-MARKS AND TRADE NAMES; COPYRIGHTS

EXCEPTIONS TO MARKING REQUIREMENTS

Under section 304 (a) (3) (J) of the Tariff Act of 1930, as amended (19 U. S. C. 1304 (a) (3) (J)), the Secretary of the Treasury is authorized by regulation to except from the marking requirements of that section articles of a class or kind with respect to which he has given notice by publication in the weekly Treasury Decisions within two years after July 1, 1937, that articles of such class or kind were imported in substantial quantities during the five-year period immediately preceding January 1, 1937, and were not required during such period to be marked to indicate their origin. Pursuant to that authority, lists of articles of such class or kind were published in (1938) T. D. 49690 (1938), T. D. 49835, and (1939) T. D. 49896. These articles have been excepted from the marking requirements by § 11.10 (a) of the Customs Regulations.

Notice was published in the FEDERAL REGISTER of June 1, 1956, that consideration was being given to the revocation of the exception from the marking requirements of "ornaments, glass Christmas tree," which is one of the articles listed in the above-mentioned T. D. 49896. Consideration has been given to all data, views, and arguments, submitted in response to that notice and it has been concluded that the public interest requires more effective notice of the country of origin of glass Christmas tree ornaments.

Therefore, the exception under section 304 (a) (3) (J) of the Tariff Act of 1930, as amended, of "ornaments, glass Christmas tree," from the marking requirements of section 304 is hereby revoked as to such ornaments entered, or withdrawn from warehouse, for consumption after the expiration of 90 days after publication of this Treasury Decision in the FEDERAL REGISTER and the Customs Regulations are amended as set forth below.

Section 11.10 (a) is hereby amended by adding the following new sentence: "The exceptions under section 304 (a) (3) (J) are set forth in T. D. 49690, T. D. 49835, T. D. 49896, and T. D. 54167."

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interprets or applies sec. 304, 46 Stat. 687, as amended; 19 U. S. C. 1304)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: August 17, 1956.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter G—Procurement

PART 591—PROCUREMENT BY FORMAL ADVERTISING

PART 592—PROCUREMENT BY NEGOTIATION

PART 596—CONTRACT CLAUSES

PART 600—FEDERAL, STATE, AND LOCAL TAXES

PART 606—SUPPLEMENTAL PROVISIONS

MISCELLANEOUS AMENDMENTS

1. The Purchases Branch, Office of the Deputy Chief of Staff for Logistics, has been redesignated as the Contracts Branch, Office of the Deputy Chief of Staff for Logistics. References to "Purchases Branch" throughout Subchapter G are changed to read "Contracts Branch".

2. In § 591.201, revise paragraphs (f) and (i), and revoke paragraph (j) as follows:

§ 591.201 *Preparation of forms.* • • •

(f) *Place of delivery.* (1) Transportation factors to be included in invitations for bids are set forth in § 606.1005 (b) of this subchapter.

(2) When transportation costs are important and the exact destination of the supplies being purchased is not known at the time bids are solicited, but the general geographical section in which delivery will be made is known, as East Coast, Middle West, or West Coast, for purposes of evaluation of bids only, a definite place may be designated in the known geographical sector as the point to which transportation costs will be computed in determining the low bidder. In order that prospective bidders may understand the method of evaluation to be used, the following clause should be incorporated in the Schedule:

For the purpose of evaluating bids (and for no other purpose), the final destination(s) for the supplies will be considered to be as follows • • •

• • • • •

(i) *Price escalation.* If it is anticipated that some or all of the bidders will respond with bids which will include a provision for escalation, the Invitations for Bids will clearly state the specific escalation clause (to be selected by the Contracting Officer from the clauses appearing in § 7.106 of this title and § 596.151 of this subchapter) which may be included in the bid and which will be considered responsive. The Invitations for Bids shall further state that all bids which include a provision for escalation will be evaluated after applying the maximum amount of escalation.

(j) *Price escalation.* [Revoked.]

3. Revise § 591.202 (a) and add §§ 592.157 and 592.158, as follows:

§ 591.202 *Methods of soliciting bids*—(a) *Issue of Invitations for Bids.* Invitations for Bids shall be issued by a Contracting Officer, or by an agency or individual authorized by him. The Contracting Officer shall, however, make each award and sign each contract.

• • • • •

§ 592.157 *Disclosure of mistakes after award.* It is the policy of the Department of the Army to conduct negotiations with a view towards complete and final understanding between the contracting parties prior to the execution of a formal contract. The consideration to be given a mistake alleged by a contractor after completion of negotiations and award of the contract will depend on whether the evidence establishes that the claim of mistake is bona fide. Except for such cases where the matter is resolved under Subpart D, Part 606 of this subchapter, mistakes alleged by contractors after award will be processed in the same manner as prescribed in § 591.405–3 for advertised procurements.

§ 592.158 *Protests involving negotiated procurements.* Protests or objections to actions taken or to be taken by a Contracting Officer in connection with a negotiated procurement will be handled in accordance with the requirements and procedure set forth in § 591.452 except that:

(a) Copies of proposals and requests for proposals, if any, and an abstract of proposals will be submitted to higher authority in lieu of the requirement for copies of bids, the invitation for bids and abstract of bids under § 591.452 (f).

(b) The file required by § 591.452 (f) will include a copy of the contract, or reference to the number and date thereof.

4. Revise §§ 596.103–12, 596.103–14, 596.103–16, 596.103–17, and 596.103–18, and revoke § 596.103–21, as follows:

§ 596.103–12 *Disputes*—(a) *General*—(1) *Contract clause.* The "Disputes" Clause contained in § 7.103–12 of this title will be inserted as specified, except for contracts entered into by major oversea commanders and to be performed outside the United States (48 States and the District of Columbia) (paragraph (c) of this section). The "disputes" Clause may be modified to provide for an intermediate appeal to the Head of a Procuring Activity upon approval of the Head of the Procuring Activity concerned.

(2) *Armed Services Board of Contract Appeals.* The charter and rules of the Armed Services Board of Contract Appeals are set forth in § 30.1 of this title. References herein to "rules" are to the mentioned rules.

(3) *Correspondence and communications.* All official correspondence with the Board will be addressed to the "Army Contract Appeals Panel, Armed Services Board of Contract Appeals, Office of the Secretary of the Army, Washington 25, D. C." All official correspondence with the Chief Trial Attorney, will be addressed "Chief Trial Attorney, Office of The Judge Advocate General, Department of the Army, Washington 25, D. C." The Chief Trial Attorney and the attorneys assigned to his office are authorized to communicate directly by telephone or otherwise with any person or organization to secure any witnesses, documents or information considered necessary in connection with properly protecting the interests of and representing the Government in matters before the Board.

(4) *Time of filing of appeal to be indorsed.* When a notice of appeal has been received by the Contracting Officer or the Head of a Procuring Activity, as the case may be, there shall be indorsed thereon the date of receipt and also, where apparent, the date of mailing or, if dispatched by appellant by other means, the date of such dispatch.

(b) *Procedure for handling disputes*—(1) *Screening.* (i) The Contracting Officer should screen disputes arising under contracts to insure that findings and decisions appealable under the "Disputes" Clause are rendered only on disputes concerning questions of fact or disputes otherwise made subject to the "Disputes" procedure by specific contract provisions, such as a dispute as to an equitable adjustment under § 7.103–2 of this title, "Changes" Clause or § 7.103–5 of this title, "Inspection" Clause, or a dispute resulting from failure to agree on a redetermined price under § 596.152–1 "Price Redetermination" Clause. For example, an appealable decision and finding should not be issued by the Contracting Officer: (*a*) Where a mistake in bid is alleged by the Contractor after award in that the procedure outlined in § 2.405–3 of this title and § 591.405 of this subchapter covers such cases, or (*b*) where § 7.104–16 of this title "Gratuities" Clause is to be invoked in that under such clause and § 30.4 of this title, findings of fact are made by duly designated representatives of the Secretary.

(ii) Whenever a Contracting Officer has doubt as to whether findings and a decision should be made pursuant to the "Disputes" Clause he should obtain the advice of legal counsel.

(2) *Findings and decision*—(i) *Definitions.* "Findings" means a separate written and signed document which contains in detail findings of fact or subsidiary matters pertinent to and supporting the Contracting Officer's "decision." The Contracting Officer's "decision" means the written and signed conclusions of the Contracting Officer based on the "findings" and deciding the matter in dispute.

(ii) Whenever it becomes necessary to render a decision on a dispute the Contracting Officer will prepare and sign findings, a true copy of which with his written decision will be promptly furnished the Contractor. When the Contractor has a right to appeal under the contract and such right is directly to the Secretary, the Contracting Officer will conclude his decision with the following paragraph:

If the decision hereinbefore set forth results in a dispute concerning a question of fact or a dispute otherwise made subject to the Disputes procedure by specific contract provisions, you are hereby notified that you may appeal from this decision to the Secretary of the Army in accordance with the provisions of Clause --------, "Disputes" of the above numbered contract. A notice of appeal must be in writing and should indicate that an appeal is thereby intended, and should identify the contract (by number) and the decision from which the appeal is taken. The original, together with two copies, should be filed with the undersigned Contracting Officer. If a Notice of Appeal is filed, it will be forwarded to the Armed Services Board of Contract Appeals and the Recorder of that Board will docket the appeal and will forward to you a copy of the Rules of the Board. Under the Rules, the original and three copies of a complaint may be filed with the Contracting Officer at the time the Notice of Appeal is filed, or it may be filed with the Recorder of the Board after the Appeal has been docketed. The rules provide that a complaint should set forth a simple, concise, and direct statement of each claim and show wherein a Contractor contends that he is entitled to relief. The rules further provide that each claim shall be stated with as much particularity as is practical, that each claim should be separately identified, that documentary evidence in support of claims may be filed as exhibits to the complaint, that all documents filed as exhibits to the complaint shall be plainly listed and identified in the complaint, and that an original and three copies of the complaint shall be filed.

(iii) It is emphasized that, where a contract provides for a decision or a determination to be made by a Contracting Officer, he must give his personal and independent consideration to the making of each determination, "decision" or "findings," with the aid of such technical and legal advice as may be available to him.

(3) *Appeals to Secretary from decisions of Contracting Officers*—(i) *Action by Contracting Officer.* (*a*) When a Contracting Officer receives a notice of appeal and does not receive therewith a copy of the complaint (see Rule 5), he will, within 10 days after receipt thereof, forward same to the Board through the Head of the Procuring Activity concerned. He will also promptly forward to the Chief Trial Attorney, through the Head of the Procuring Activity, the following:

(*1*) The findings and the decision from which the appeal is taken, and the letter or letters or other documents of claim in response to which the decision was issued;

(*2*) The contract and pertinent plans, specifications, amendments, and change orders.

(*b*) When a complaint is not filed with the Contracting Officer with the Notice of Appeal, but is filed later with the Board, the Chief Trial Attorney shall transmit a copy thereof to the Contracting Officer through the Head of the Procuring Activity concerned. Within 15 days after receipt of the complaint the Contracting Officer will forward to the Chief Trial Attorney, through the Head of the Procuring Activity concerned, a comprehensive report substantiating the Contracting Officer's position with regard to the dispute, and will include the following:

(*1*) Correspondence between the parties and other data pertinent to the appeal;

(*2*) Transcripts of any testimony taken during the course of the proceedings on the matter in dispute prior to the filing of the notice of appeal with this Board;

(*3*) The name of each witness having knowledge that will support the Government's position, a statement signed by each witness reflecting facts to which he will be able to testify, (or a summary thereof if it is impossible to get the signed statement) and a statement as to the expected availability at the hearing of each witness.

(*4*) A statement of the factual and legal issues involved in the appeal; also a comment as to each allegation of fact in the complaint or notice of appeal (treating them in the order set forth therein) and a comment as to wether it is well founded and, if not, a recital of the evidence to refute the same.

(*5*) Such additional information as the Contracting Officer may consider material.

(*c*) Where the complaint is filed with the Contracting Officer with the Notice of Appeal under Rule 3, the Contracting Officer will forward Notice of Appeal and the original and three copies of the complaint to the Board through the Head of the Procuring Activity within 10 days. Within 20 days after receipt of the notice of appeal and complaint from the Contractor, the Contracting Officer will prepare and forward to the Chief Trial Attorney, through the Head of the Procuring Activity, a single comprehensive report containing the items described in (*a*) and (*b*) of this subdivision, and substantiating the position taken by the Contracting Officer.

(*d*) In order that the Chief Trial Attorney may file an answer under Rule 6 within 60 days after service of the complaint, or in order that he may have justification for any request for extension of time, the above time limits must either be met or the Chief Trial Attorney must be notified of the reason for the delay and the estimated extent thereof.

(ii) *Action by Head of a Procuring Activity.* The Head of the Procuring Activity receiving an appeal to the Secretary from a decision of a Contracting Officer will:

(*a*) Forward the required copies of the Notice of Appeal and the complaint (if the complaint was furnished to the Contracting Officer with the Notice of Appeal) to the Board without delay.

(*b*) Carefully review the "decision" or "findings" from which the appeal is taken to ascertain that all basic "findings" are complete as to all issues bearing on the matter in dispute.

(*c*) Insure that the reports submitted by the Contracting Officer under subdivision (i) of this subparagraph are complete and ascertain that the evidence relied upon in support of the "decision" or "findings" does support the Government's position.

(*d*) Refer to the Contracting Officer for supplemental findings cases in which the original "findings" do not contain all of the basic findings required to support the decision or in which the "findings" are not complete as to all issues bearing upon the matter in dispute.

(*e*) Return to the Contracting Officer for reconsideration, along with appropriate instructions, all cases wherein a timely appeal has been taken and it is clear from the evidence, contractual provisions and the applicable law, that the Contracting Officer's "decision" or "findings" is erroneous or not supported by competent and available evidence.

(*f*) Notify the Chief Trial Attorney within 10 days after action has been taken by the Head of the Procuring Activity under (*d*) and (*e*) of this subdivision; this notification will indicate the nature thereof, and will include an estimate as to when the appeal will be either withdrawn, or ready for preparation of an answer.

(*g*) Where action is not taken under (*d*) and (*e*) of this subdivision, forward to the Chief Trial Attorney (within 10 days after receipt) each of the reports of the Contracting Officer referred to in subdivision (i) of this subparagraph together with the Head of the Procuring Activity's evaluation of the factual and legal issues involved as well as his conclusions and recommendations thereon. Where action is taken under (*d*) and (*e*) of this subdivision and the action does not dispose of the appeal, the Head of the Procuring Activity will take the same steps with regard to the reports of the Contracting Officer as are outlined in the foregoing sentence. The Head of the Procuring Activity will also furnish any additional evidence (documents, statements of witnesses, etc.) considered essential to enable the Trial Attorney to properly protect the interests of and represent the Government before the Board.

(*h*) Insure that assistance is rendered to the Chief Trial Attorney in obtaining additional evidence or in making other necessary preparations for presenting the Government's position to the Board. In order that the Chief Trial Attorney may file timely pleadings in accordance with the Rules of the Board or that he may have justification for any request for extensions of time, it is imperative that Heads of Procuring Activities furnish information within the prescribed time limit, or that the reason for the delay and estimated extent thereof be furnished to the Chief Trial Attorney.

(4) *Intermediate appeal to Heads of Procuring Activities.* Where a clause providing for intermediate appeal of the Head of a Procuring Activity has been authorized, necessary instructions covering the processing of such appeals to the Head of the Procuring Activity may be issued: *Provided*, That appeal taken from decision of the Head of the Procuring Activity must be processed in accordance with the procedure prescribed herein.

(5) *Appeals to Secretary from decisions of Heads of Procuring Activities.* Within 15 days after receipt of a Notice of Appeal, the Head of a Procuring Activity will prepare and forward to the Chief Trial Attorney a complete report containing a statement of the factual and legal issue involved in the appeal and inclosing therewith the following: a copy of his findings and decision; the advisory report, if there be one, of the contract settlement board in his office; a transcript of any testimony taken during the course of the proceedings; a duplicate original or a certified copy of the contract, including the plans and specifications and all changes and supplemental agreements; the findings and decision of the Contracting Officer; all papers and correspondence pertaining to the contract and pertinent to the consideration of the appeal; the name of each witness having knowledge that will support the Government's position; a statement signed by each witness re-

flecting facts to which he will be able to testify or a summary thereof if it is impossible to get the signed statement (a statement signed by an individual witness may be omitted if the substance of expected testimony is set forth in the transcript of proceedings); a statement as to the expected availability at the hearing of each witness; and such other information as may be necessary to substantiate the position taken by the Head of the Procuring Activity with regard to the appeal. Additionally, the Chief Trial Attorney shall transmit to the Head of the Procuring Activity a copy of the complaint, and the Head of the Procuring Activity will furnish comments as to each allegation of fact in such complaint (treating them in the order set forth therein) and comments as to whether it is well founded and, if not, a recital of the evidence to refute the same. Further, he shall insure that all essential witnesses and documentary evidence will be available at the time of the hearing of the appeal.

(6) *Appeals filed with the Secretary or the Board.* In cases wherein an appeal is filed directly with the Office of the Secretary of the Army or the Armed Service Board of Contract Appeals, the Board, pursuant to its rules of procedure, will promptly furnish a copy thereof to the Procuring Activity concerned, through the Chief, Trial Attorney's Office. Upon the receipt of such appeal the Procuring Activity will process the same as though it had been initially filed with the Activity.

(7) *Appeals improperly filed.* If any officer or agency of the Department other than the officer or agency designated in the contract, should receive a written appeal, the recipient will, after endorsing thereon the date of its receipt, immediately transmit the appeal to the Head of the Procuring Activity concerned:

(i) For appropriate action as provided in subparagraph (5) of this paragraph if the appeal is from the decision of the Head of a Procuring Activity, or

(ii) If the appeal is from the decision of a Contracting Officer, then for action as required by subparagraph (3) of this paragraph.

(8) *Functions of the Office of the Chief Trial Attorney*—(i) *New facts or circumstances.* Upon discovery of new facts or circumstances the Chief Trial Attorney is authorized, in appropriate cases, to return appeals to the Procuring Activity for reconsideration in the light of the additional facts or circumstances disclosed.

(ii) *Agreements or stipulations.* Pursuant to Rule 27, the Office of the Chief Trial Attorney may enter into an agreement, by stipulation or otherwise with appellant or his attorney on matters as to which there is no substantial controversy. Such agreements may be of two types:

(*a*) *Agreements on matters not disposing of an appeal.* An agreement on matters as to which there is no substantial controversy and which will not have the effect of disposing of an appeal may be entered into by the Chief Trial Attorney or by an individual Trial Attorney provided authority therefor shall have been granted in advance by the Chief Trial Attorney.

(*b*) *Agreement on matters disposing of an appeal.* Pursuant to Rule 27, the Board may suspend further processing of an appeal in order to permit reconsideration by the Contracting Officer whenever it appears that appellant and the Trial Attorney are in agreement as to the disposition of a controversy, subject to the provision that if the case is not actually disposed of by agreement it may be restored to the Board's calendar for hearing. In appropriate cases, such as those in which it is desirable to avoid time consuming delays incident to returning the appeal to the Contracting Officer, the Chief Trial Attorney (or an individual Trial Attorney acting with the prior approval of the Chief Trial Attorney) may enter into an agreement with an appellant which will have the effect of disposing of an appeal after concurrence has been obtained from a representative of the Head of the Procuring Activity. Such agreement may then become the basis of a Board decision disposing of the appeal.

(*c*) *Major oversea commands.* The following "Disputes" Clause will be inserted in all contracts entered into by major oversea commands and to be performed outside the United States (48 States and the District of Columbia) in lieu of the clause set forth in § 7.103–12 of this title:

DISPUTES

Except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. Within 30 days from the date of receipt of such copy, the Contractor may appeal by mailing or otherwise furnishing to the Contracting Officer a written appeal addressed to the Commanding General (--------[1]) and the decision of the Commanding General (--------[1]), or that of his duly authorized representative (other than the Contracting Officer under this contract) for the hearing of such appeals, upon personal approval by the Commanding General (--------[1]) or his designated deputy, shall unless determined by a court of competent jurisdiction to have been fraudulent, arbitrary, capricious, or so grossly erroneous as necessarily to imply bad faith, be final and conclusive upon the parties hereto when the amount involved in the appeal is $50,000 or less; provided that, if no appeal is taken, within the said 30 days, the decision of the Contracting Officer shall be final and conclusive. When the amount involved is more than $50,000 the decision of the Commanding General (--------[1]) shall be subject to written appeal within 30 days after the receipt thereof by the Contractor to the Secretary of the Army and the decision of the Secretary or his duly authorized representative for the hearing of such appeals shall, unless determined by a court of competent jurisdiction to have been fraudulent, arbitrary, capricious, or so grossly erroneous as necessarily to imply bad faith, be final and conclusive; provided that, if no such further appeal is taken, within the said 30 days, the decision of the Commanding General (--------[1]) shall be final and conclusive.

[1] Specify name of major oversea command concerned.

In connection with any appeal proceeding under this clause, the Contractor shall be afforded an opportunity to be heard and to offer evidence in support of its appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with Contracting Officer's decision.

(2) Each commanding general of a major oversea command will appoint within his command a Board to be known as "[name of command] Board of Contract Appeals." The Board will consist of three or more members who will be persons trained in the law, one of whom will be designated by the appointing authority as the President of the Board. There also will be appointed a Recorder of the Board who will perform such duties as the Board may prescribe. The Recorder of the Board also may be a member thereof.

(3) The Board, created pursuant to the provisions of paragraph 3 above, will be designated by the commanding general as his duly authorized representative to hear, consider, and decide, as fully as he might do, all appeals to him under contracts having such provisions. The Board's final decision, however, will be subject to his personal approval, or that of his deputy designated for such purposes. The Board will be granted all powers necessary and incident to the proper performance of its duties and, with the approval of the appointing authority, will adopt its own methods of procedures, rules, and regulations for its conduct and for the preparation and presentation of appeals and issuance of decisions.

(4) Each commanding general of a major oversea command will designate one or more trial attorneys, who will be qualified attorneys at law, for the preparation and presentation of the contentions of the Procuring Activity in relation to appeals filed with the Board.

§ 596.103–14 *Buy American Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted.

§ 596.103–16 *Eight-Hour Law of 1912.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted.

§ 596.103–17 *Walsh-Healey Public Contracts Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted.

§ 596.103–18 *Nondiscrimination in employment.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted.

§ 596.103–21 *Termination for the convenience of the Government.* [Revoked.]

5. Sections 596.104–1 and 596.104–2 are revised to read as follows:

§ 596.104–1 *Davis Bacon Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted.

§ 596.104–2 *Copeland Act.* In effecting procurement outside the United States, its Territories and possessions, this clause will be deleted.

6. Sections 600.452 and 600.452–1 are added as follows:

§ 600.452 *Maryland sales and use tax.* The Maryland statute exempts transactions from the taxes if the purpose of the purchaser or user of tangible personal property is to resell the property or to use or incorporate it as a material or part of other tangible personal property to be produced for sale (Md. Code Ann. 1951, Art. 81, Secs. 320 (f) and 368 (d)). Whenever a contract calls for the transfer to the Government in its original form or after processing, of property which has been purchased by a Contractor, the resale exemption is considered applicable. Where title to the property assessed was in the Government at all times when the property was in Maryland, it is constitutionally immune from the sales and use taxes. Exemption may, in many cases, depend on the place and time at which title passed to the Government under the terms of the contract. The situations where such exemption is most likely to be denied by the Maryland taxing officials are:

(a) Purchases of materials under facilities contracts, where the materials will comprise special tooling or equipment, acquired or manufactured for use in Government contracts.

(b) Purchases of materials pursuant to experimental contracts, such as research and development contracts for the development of an idea, process or theory. Many of these contracts are combined in part with production contracts.

(c) Purchases of materials which will be consumed or used in the performance of production contracts, but which will not be incorporated in the end product.

§ 600.452–1 *Procedure to be followed pending disposition of litigation.* (a) Where the total amount of the tax applicable to the Contractor is $1000 or more, the following procedure will apply:

(1) Where the tax is assessed in any manner by the Maryland authorities, the Contractor should pay the tax and apply for a refund within 30 days of the mailing of the notice of the assessment. Refunds, after assessment, must be applied for within 30 days of assessment or recovery is foreclosed (Md. Code Ann. 1951, Art. 81, Sec. 347). Where assessment has taken place, the contractor should be instructed to retain counsel for the purpose of making application for refund within the appropriate period.

(2) The contractor should be instructed to pay, at the appropriate time, the tax considered to be due, in order to avoid an assessment by the State. When the tax is paid without assessment, the contractor should be instructed not to apply for a refund except as herein directed. Under Maryland law a claim for refund may be filed at any time within three years of payment of the tax if no assessment has been made (Md. Code Ann. 1951, Art. 81, Sec. 344). To facilitate the filing of claims, contracting agencies should maintain records of the contracts and amounts of taxes involved.

(3) Whenever 30 months have elapsed from the time of initial payment, The Office of The Judge Advocate General (ATTN: Procurement Law Division) should be notified of the fact and furnished all information necessary to determine whether the tax should be contested. In this connection the provisions of § 600.350 will be strictly followed.

(4) If any substantial payment of tax was made more than 35 months previous to date of this publication, the contractor is authorized to retain counsel and to file application for refund directly. The Office of the Judge Advocate General (ATTN: Procurement Law Division) should be notified promptly of such action. Every claim for refund should be made in accordance with the provisions of Md. Code Ann. 1951, Art. 81, Sec. 344, and should state as grounds: (i) That the sales to the taxpayer were not retail sales within the meaning of Md. Code Ann. 1951, Art. 81, Sec. 320 (f) and were not subject to the tax imposed by Sec. 321 of that Article, and in the alternative, that title passed directly from the vendor to the Government without vesting in the taxpayer; (ii) that the property bought by the taxpayer was not used, stored, or consumed by the taxpayer in Maryland within the meaning of Md. Code Ann. 1951, Art. 81, Secs. 368 and 369, and that the taxpayer was not subject to the tax imposed by Sec. 369, and in the alternative, that title passed directly from the vendor to the Government without vesting in the taxpayer; and (iii) any additional grounds which counsel for the taxpayer deems applicable.

(b) Contracting Officers will insure that Contractors who are subject to the Maryland sales and use taxes are advised of the provisions of this section.

7. Section 606.204–3 is revised and in § 606.204–4, revise opening portion of paragraph (a) and paragraph (c) (7) (i), as follows:

§ 606.204–3 *Construction or rehabilitation of installations, and repairs and utilities*—(a) *Chief, Contracts Branch.* Awards of negotiated contracts for the construction or rehabilitation of installations, and repairs and utilities will be submitted to the Chief, Contracts Branch, Deputy Chief of Staff for Logistics, Department of the Army, for approval when entered into by a Contracting Officer under the jurisdiction of (1) Chiefs of Technical Services (other than the Chief of Engineers) and the amount involved exceeds $1,000,000; (2) the Chief of Engineers and the amount involved exceeds $15,000,000; or (3) the ZI army commanders or the Commanding General, Military District of Washington and the amount involved exceeds $1,000,000.

(b) *Chief of Engineers.* Awards of negotiated contracts entered into by the Chief of Engineers for construction or rehabilitation of installations and repairs and utilities will be approved by the Chief of Engineers, or personally selected members of his organization designated by him, when the amount involved does not exceed $15,000,000. Such selected members are not authorized to redelegate this authority. Subject to any further instructions which may be issued by the Chief of Engineers, awards of contracts included in this paragraph amounting to less than $100,000 do not require approval of higher authority.

(c) *Chiefs of Technical Services (other than Chief of Engineers).* Chiefs and acting chiefs of Technical Services (other than Chief of Engineers) are authorized to approve awards of negotiated contracts for construction or rehabilitation, and repairs and utilities not in excess of $1,000,000, for projects approved pursuant to AR 420–10 (Army Regulations pertaining to repairs and utilities). This authority may be redelegated by Chiefs of Technical Services to the extent deemed necessary without authority of further redelegation. Subject to any further instructions which may be issued by the Chief of a Technical Service, contracts included in this section amounting to less than $100,000 do not require approval by higher authority.

(d) *ZI army commanders.* Awards of negotiated contracts entered into by the continental armies or the Military District of Washington for construction or rehabilitation of installations, and repairs and utilities will be approved personally by ZI army commanders or their deputies, or the Commanding General, Military District of Washington, or his Deputy, when the amount involved exceeds $250,000 but does not exceed $1,000,000. ZI army commanders and the Commanding General, Military District of Washington may delegate authority to approve awards of such negotiated contracts to personally selected subordinate commanders or their deputies, without authority of further redelegation when the amount involved exceeds $100,000 but does not exceed $250,000. ZI army commanders and the Commanding General, Military District of Washington, may also personally select alternates for the subordinate commanders to exercise this authority. Subject to any further instructions which may be issued by ZI army commanders and the Commanding General, Military District of Washington, contracts included in this section amounting to less than $100,000 do not require approval by higher authority.

(e) *Commanding generals of major oversea commands.* Awards of negotiated contracts entered into by major oversea commands for the construction or rehabilitation of installations and repairs and utilities will be submitted to the commanding generals of major oversea commands for approval when the amount exceeds $1,000,000. The authority to approve awards of such contracts amounting to $1,000,000 or less may be delegated by commanding generals of major oversea commands to the extent deemed necessary to selected individuals within their commands. Such selected individuals are not authorized to redelegate this authority.

§ 606.204–4 *Architect-Engineer contracts.* (a) Awards of Architect-Engineer contracts for both the production and delivery of designs, plans, drawings, and specifications (commonly referred to as Title I services) and the supervision and inspection of construction (commonly referred to as Title II services)

will be submitted to the Deputy Chief of Staff for Logistics, Department of the Army, Attn: Chief Contracts Branch, for approval of the Assistant Secretary of the Army (Logistics) in all cases where:

• • • • •

(c) Awards approved under the foregoing authority must conform with the following further conditions:

• • • • •

(7) In the case of contracts for architect-engineer services of a personal services nature:

(i) Provision shall not be made therein for the performance of services which will exceed the delegation of authority issued for each fiscal year, except that this requirement shall not apply to contracts obligating funds which are available for expenditure during a period in excess of a fiscal year.

• • • • •

8. Revise §§ 606.204–5, 606.204–6, 606.204–9, and 606.204–11, to read as follows:

§ 606.204–5 *Utility service contracts*—(a) *Army Power Procurement Officer.* The Chief of Engineers, acting for the Secretary of the Army, is the Department of the Army Power Procurement Officer. The Army Power Procurement Officer is responsible for the administration of the purchase and sale of utilities services, and for policies, engineering, rates and legal sufficiency in connection with all utilities services transactions and contracts relating thereto in which the Department of the Army has a monetary interest.

(b) *Approval of contracts.* The purchase of utility services is governed by AR 420–62 and SR 420–470–1, administrative regulations of the Army, which define the term "utilities services" and prescribe the required approvals for utilities services contracts and supplemental agreements. All contracts and supplemental agreements which, under the provisions of the regulations cited above, are subject to the manual approval of the Army Power Procurement Officer, or his authorized representative, shall be submitted for approval to the Chief of Engineers, attn: Army Power Procurement Officer, together with the supporting information required by § 606.205 (b).

§ 606.204–6 *Negotiated contracts in general.* Award approvals required for all negotiated contracts for supplies, services, approved research and development projects within the research and development program, or construction, not included in §§ 606.204–1 through 606.204–5, are as indicated below.

(a) *Chief, Purchases Branch.* Awards of negotiated contracts not included in §§ 606.204–1 through 606.204–5, except as otherwise specifically delegated in writing, will be submitted to the Deputy Chief of Staff for Logistics, Department of the Army, ATTN: Chief, Contracts Branch, for approval when (1) the amount exceeds $5,000,000 and the contract is being entered into by a Contracting Officer under the jurisdiction of the Chief Chemical Officer, Chief of Engineers, The Quartermaster General, The Surgeon General, or Chief of Transportation, (2) the amount exceeds $10,000,000 and the contract is being entered into by a Contracting Officer under the jurisdiction of the Chief Signal Officer; (3) the amount exceeds $25,000,000 and the contract is being entered into by a Contracting Officer under the jurisdiction of the Chief of Ordnance; or (4) when the amount exceeds $100,000 and the contract is being entered into by a Contracting Officer not under the jurisdiction of a technical service.

(b) *Chief of Technical Services.* Chiefs and Acting Chiefs of Technical Services are authorized to approve awards of negotiated contracts not included in §§ 606.204–1 through 606.204–5 in the following amounts: (1) Chief Chemical Officer, Chief of Engineers, Quartermaster General, Surgeon General and Chief of Transportation, not in excess of $5,000,000; (2) Chief Signal Officer in amounts not in excess of $10,000,000; and (3) Chief of Ordnance in amounts not in excess of $25,000,000. This authority may be redelegated by Chiefs of Technical Services to the extent deemed necessary without authority of further redelegation.

(c) *Heads of Procuring Activities other than Technical Services.* Heads of Procuring Activities other than Technical Services are authorized to approve awards of negotiated contracts not included in §§ 606.204–1 through 606.204–5, in amounts not in excess of $100,000. This authority may be redelegated to the extent deemed necessary without authority of further redelegation.

(d) *Armed Services Medical Procurement Agency.* The Chief, ASMPA, and his Deputy are authorized to approve awards of negotiated contracts that come within the ASMPA Charter as approved by the Department of Defense in amounts not in excess of $1,000,000.

§ 606.204–9 *Modifications of contracts.* (a) Heads of Procuring Activities are authorized to approve supplemental agreements to existing supply, research and development or nonpersonal contracts, except Utility Service Contracts (§ 606.204–5), regardless of dollar value under the conditions set forth below. This authority may be redelegated at the discretion of the Head of a Procuring Activity, subject to the same conditions.

(1) The proposed supplement pertains to (i) a basic contract previously approved by the Deputy Chief of Staff for Logistics, or higher authority; or (ii) pertains to a basic contract having a previous supplement which has been so approved.

(2) The proposed supplement contains no deviations from procurement regulations which were not authorized for use in the previously approved basic contract or supplement.

(3) The profit or fee does not exceed any limitation imposed by ASPR, this Procedure, or other procurement directives.

(4) Terms and conditions of the proposed supplement are such that there is no statutory requirement for approval by higher authority. Supplements to facilities contracts involving nonseverable facilities will continue to be submitted to the Deputy Chief of Staff for Logistics, for approval.

(5) The proposed supplement applies to an approved program for which funds are available.

(b) Where a basic contract or a previous supplement thereto has not been approved by the Deputy Chief of Staff for Logistics, any supplement which serves to increase the total contract amount in excess of the amount delegated in §§ 606.204–3, 606.204–4 and 606.204–6 will be submitted to the Deputy Chief of Staff for Logistics for approval. Subsequent supplements may then be approved by Heads of Procuring Activities, subject to the conditions in paragraph (a) of this section.

(c) Any supplemental agreement, change order, or any other type of modification of a contract coming within the purview of § 606.204–8 (or otherwise proposed to be entered into pursuant to the authority granted in Title II, First War Powers Act, 1941, as amended), will conform to the requirements of Subpart D of this part.

§ 606.204–11 *Contract review.* At least one competent person, whether or not presently assigned to such office, will be assigned to the duty of reviewing in an advisory capacity all contracts, except purchases of $1,000 or less, prior to contract approval by the subordinate commanders or chiefs of field offices. This review will apply to both advertised and negotiated procurements, regardless of the level of procuring authority, and will be for the purpose of insuring that the clauses and conditions of the contract comply with the principles of good procurement and that the interest of the Government is adequately protected. In those instances wherein this is impracticable, this provision may be waived upon determination made to that effect by the army commander, major oversea commander, Commanding General, Military District of Washington, or the chief of a technical service, as appropriate.

9. Subpart D of Part 606 is revised to read as follows:

SUBPART D—TITLE II, FIRST WAR POWERS ACT, AS AMENDED, AND E. O. 10210

§ 606.400 *Scope of subpart.* This subpart sets forth the policy and procedures relative to the exercise of authority under title II of the First War Powers Act, as amended.

§ 606.401 *Statutory and administrative authority.* (a) Title II of the First War Powers Act, 1941, 50 U. S. Code App. 611, as amended by Public Law 921, 81st Congress (hereafter referred to as the "act"), enables the President to issue Executive orders relative to procurement and incidents of the procurement function shall be applicable without reference to existing law (such as the Armed Services Procurement Act of 1947, PL 413, 80th Congress).

(b) Executive Order No. 10210, 2 February 1951 (16 F. R. 1049) authorized the Secretary of the Army, under such regulations as may be prescribed or approved by the Secretary of Defense, to exercise the authority granted in the act cited in paragraph (a) of this section.

(c) "Regulations Governing the Exercise of Certain Authority Granted by Title II of the First War Powers Act, as amended, and Executive Order No. 10210, Issued Thereunder," 21 February 1951, have been issued jointly by the Procurement Secretaries of the Army, the Navy, and the Air Force, and approved by the Secretary of Defense. These regulations do not purport to cover all the authority conferred by the act and the Executive Order, but are confined to the areas as set forth in § 606.402 (a). All authority not expressly delegated in the regulations is reserved to the Secretary of the Army.

§ 606.402 *Limitations on authority.* (a) The regulations (cited in § 606.401 (c)) limit the authority granted by the act and the Executive Order to the actions indicated below:

(1) Amendments of contracts without consideration.

(2) Correction of mistakes in contracts.

(3) Formalization of informal commitments.

(b) The regulations (cited in §606.401 (c)) further limit the exercise of the above authority in the following respects:

(1) Approval of requests for amendments of contracts without consideration may not be delegated by the Secretary of the Army below the level of a contract adjustment board.

(2) Approval of requests for correction of mistakes and ambiguities in contracts and for formalization of informal commitments may not be delegated below the level of the Head of the Procuring Activity, without the specific authority of the Secretary of the Army.

§ 606.403 *Delegations of authority.*

§ 606.403–1 *Army Contract Adjustment Board.* The following authority has been delegated to the Army Contract Adjustment Board, heretofore established in the Office of the Assistant Secretary of the Army (Logistics):

(a) To approve all requests for amendments of contracts without consideration.

(b) To approve correction of all mistakes in contracts.

(c) To approve correction of mutual mistakes and ambiguities in contracts, and contracts formalizing informal commitments, irrespective of amount.

(d) To consider, adjust, and make final determinations of all requests for relief under this procedure and the authorities referred to in § 606.401.

(e) All authority under the regulations not otherwise expressly delegated in these procedures is reserved to the Board.

§ 606.403–2 *Deputy Chief of Staff for Logistics, Department of the Army.* (a) To approve correction of mutual mistakes (as defined in § 606.408–1 (a)) and ambiguities in contracts when the estimated or actual increase in price granted or to be granted to the Contractor does not exceed $50,000, subject to the limitations contained in § 606.408–1 (b).

(b) To approve contracts formalizing informal commitments when the amount involved does not exceed $50,000.

(c) To redelegate to the Head of a Procuring Activity, as defined in § 1.201–4 of this title, all or part of the authority in paragraphs (a) and (b) of this section provided, however, that such authority shall not be delegated below the level of the Head of a Procuring Activity, or Acting Head of a Procuring Activity, without specific approval of the Assistant Secretary of the Army (Logistics).

§ 606.403–3 *Heads of Procuring Activities.* All of the authority delegated to the Deputy Chief of Staff for Logistics, Department of the Army, as set forth in § 606.403–2, provided, however, that such delegated authority may not be redelegated without specific approval of the Assistant Secretary of the Army (Logistics).

§ 606.403–4 *Contracting officers and field procuring agencies.* When authorized by heads of procuring activities, the authority to deny applications for relief under the authority cited in § 606.401.

§ 606.404 *General considerations.* (a) The authority granted herein is an extraordinary one and its exercise must be carefully administered.

(b) Carelessness and laxity on the part of Contractors should not be encouraged by the practice of granting relief to such Contractors even though denial of relief in a particular case may result in some lack of cooperation on the part of a Contractor.

(c) The exercise of authority hereunder is not intended as an alternative to compliance with the Armed Services Procurement Act of 1947, Public Law 413, 80th Congress. The design of the Act, Executive Order, and Regulations referred to in § 606.401, is to accomplish the actions therein authorized under such authority only when normal procurement procedures are inapplicable.

(d) No action under the above-described authority should be taken or recommended to higher authority unless the officer or official required to take such action or make such recommendation is firmly and clearly convinced that the action is necessary to facilitate the national defense.

(e) (1) Proper exercise, or recommendation of exercise, of the authority granted under Title II of the First War Powers Act, 1941, as amended, and E. O. 10210, will be facilitated, if it is clearly understood that the basic law is in part substantive, and, in part, procedural.

(2) With respect to amendment of contracts without consideration; elimination of the general requirement of advertisement, competitive bidding and certain bonds; and formalization of informal commitments, the authority is substantive, in that such authority is in derogation of existing substantive law. For example, existing law requires that no official of the Government may amend a contract so as to disburse Government funds or release a vested right of the Government, without consideration. The authority granted herein changes that law as long as this procedure is effective.

(3) With respect to the correction of mutual mistakes and ambiguities (§ 606.408), the authority granted herein does not change substantive law but only changes procedure. For example, except for the authority herein granted, mistakes in bids, etc., particularly after award, can be corrected only by the Comptroller General. This authority permits other officials to perform these functions but does not change the basic law as to the circumstances under which these functions may be performed.

(4) When acting, or recommending action in cases which are in derogation of substantive law (such as subparagraph (2) of this paragraph), the justification for such action must be clear and convincing because, on one hand, the Contractor has no further recourse to the courts; and on the other hand, the Government would not be in a position to correct errors other than in cases of fraud.

(5) When acting, or recommending action in cases where procedure only has been changed (such as subparagraph (3) of this paragraph), any doubts as to the propriety of granting relief should be resolved in favor of the Government, because the Contractor is still in a position, after denial of relief, to pursue his normal remedies. And if the official passing on the case is of the opinion that normal channels should be followed, e. g., to the Comptroller General, there is no prohibition against following such channels.

(6) Even if the applicant appears to be entitled to relief under basic law and regulation, it is reiterated and emphasized that such relief cannot be granted under this authority unless a finding can be made to the effect that the granting of such relief will facilitate the national defense.

(f) Applications for relief will be reviewed and passed upon only with full consideration of the provisions of this section.

(g) All determinations and findings required by § 606.405 will be made.

(h) The determination of whether in a particular case a contract amendment to be entered into without consideration, or the correction of a mistake or ambiguity in a contract, or the formalization of an informal commitment will facilitate the national defense is a matter of sound judgment to be made on the basis of all of the facts of such case.

§ 606.405 *Determinations and findings.* (a) Any action taken or recommended to a higher authority under this subpart must be based on a written finding that the national defense will be facilitated thereby.

(b) As to all amendments of contracts without consideration and correction of mistakes, other than mutual mistakes as defined in § 606.408–1 (a), each contract and amendment to a contract will contain an individual affirmative finding and each report and recommendation will contain an individual affirmative or negative finding, with respect to the facilitation of the national defense.

§ 606.406 *Amendments to contracts without consideration.*

§ 606.406–1 *Conditions under which relief may be granted or recommended.* (a) Where an actual or threatened loss on a defense contract, however caused,

will impair the productive ability of a Contractor whose continued operation as a source of supply is generally found to be essential to the national defense, the contract generally will be equitably adjusted to the extent necessary to avoid such impairment of the Contractor's productive ability.

(b) Where a Contractor suffers a loss (not merely diminution of anticipated profits) on a defense contract as a result of Government action, the character of the Government action generally will determine whether any adjustment in the contract will be made and its extent.

(1) Where the Government action is directed primarily at the Contractor and is taken by the Government in its capacity as the other contracting party, the contract may be equitably adjusted if fairness so requires. Thus where such Government action, although not creating any liability on its part, increases the cost of performance, considerations of fairness may make appropriate some equitable adjustment in the contract.

(2) When the action is not taken by the Government in its capacity as the other contracting party, but in its sovereign capacity, relief will generally not be granted. However, exceptional cases, depending on the nature of the action, the circumstances, and the effect on the Contractor, may require an equitable adjustment in the contract when necessary to insure maximum cooperation and production in the national defense effort.

(c) Relief recommended in appropriate cases may include such action as (1) termination of contract without cost to either party, (2) amendment to contract increasing the contract amount, (3) revision of delivery schedules, (4) other actions appropriate in the circumstances.

§ 606.406 *Administrative procedures*—(a) *Contractor's application.* (1) Written requests for amendments of contracts without consideration shall be filed by Contractors with the Contracting Officer administering the contract or his properly appointed successor, in quadruplicate.

(2) In the event that such request refers to contracts with more than one Purchasing Office or Procuring Activity, it shall be submitted initially to the Contracting Officer administering the contract or contracts involving the greatest amount (or aggregate amount if administering more than one contract) of the Procuring Activity under which the largest total dollar value of contracts has been awarded as of the date of the application.

(3) The Contractor's request for relief shall be substantially in the form set forth in § 606.406–3 (a), and shall contain, as a minimum requirement, the information requested in such form. Necessary adaptations may be made when required, as in application involving more than one contract.

(b) *Action by Contracting Officer.* (1) The Contracting Officer will review the application and verify the contents thereof.

(2) If further information is required, request the Contractor to furnish the same, in writing.

(3) If in the opinion of the Contracting Officer the application does not justify the granting of the relief sought after consideration of §§ 606.404 and 606.406–1, a written finding may be furnished to the Contractor in substantially the form indicated in § 606.406–3 (b), providing such action is authorized by Procuring Activity instructions.

(4) If in the opinion of the Contracting Officer, after consideration of the provisions of §§ 606.404 and 606.406–1, the application should be granted, an indorsement in triplicate, inclosing three copies of the Contractor's application, exhibits, and contractual documents, shall be forwarded to the Head of the Procuring Activity, in accordance with instructions issued by such Head of the Procuring Activity setting forth as a minimum the following information. (See suggested form for indorsement in § 606.406–3 (c)).

(i) That the application has been reviewed and the facts therein stated are certified to be substantially correct except as specifically indicated.

(ii) A brief description of the contract, including reference to any special pricing clauses.

(iii) Whether final payment has been made (including date, if made), or any final administrative determination made of the amount due.

(iv) The importance of the contract or the Contractor to the furtherance of the national defense effort, indicating present or future need for the item.

(v) The quality of performance by the Contractor.

(vi) Present status of deliveries and payments.

(vii) Probable future orders to the Contractor on other national defense work.

(viii) Other available sources of supply in comparison with the Contractor.

(ix) A statement of the factors causing financial distress.

(x) If relief is recommended involving an increase in price, indicate whether appropriated funds are sufficient to cover the proposed or requested additional payment to the Contractor.

(xi) Whether appropriated funds allocated to other Departments are involved; if such funds are involved, name the Department.

(xii) An opinion on the merits as to whether the requested relief should be granted, or to what extent the same or alternative relief should be granted.

(xiii) A specific recommendation as to the nature of, and extent to which relief should be granted.

(xiv) A statement of opinion as to whether the granting of such relief will facilitate the national defense effort.

(5) Contractual documents and invitations to bid or request for proposals, and abstracts thereof, will be submitted in duplicate.

(6) The Contracting Officer's indorsement will be forwarded through such channels and be reviewed and approved by such intermediate offices and commands as may be required by Procuring Activity instructions.

(c) *Action by intermediatec reviewing agencies.* (1) Each echelon reviewing and passing upon such applications subsequent to the Contracting Officer's review and verification will review and verify the contents of the application to the fullest extent practicable, provided, however, that in any case such echelons of review are authorized to rely fully upon the verification made by the Contracting Officer unless unusual circumstances require further verification.

(2) Make specific findings on the merits and specific recommendations with respect to whether, and the extent to which, the application should be approved or denied.

(3) Make a specific finding as to whether the national defense would be facilitated by the granting of the application.

(4) Heads of Procuring Activities are authorized to require all applications to be forwarded to, and initial determinations denying applications to be made in, the office of the Head of Procuring Activity or in any lower echelon, including the Contracting Officer.

(d) *Action by Heads of Procuring Activities.* (1) Heads of Procuring Activities will take appropriate action as required by § 606.406–2 (c).

(2) Heads of Procuring Activities are authorized to deny applications without further reference to the Army Contract Adjustment Board. Appropriate written findings and determinations will be made and furnished to applicants by such agencies as may be designated by the Head of the Procuring Activity for that purpose, including the Contracting Officer.

(3) If in the opinion of the Head of the Procuring Activity, after consideration of the provisions of §§ 606.404 and 606.406–1 the application should be granted, an indorsement in duplicate, enclosing copies in duplicate of the Contractor's application, all indorsements and findings, and attached papers, shall be forwarded direct to the Army Contract Adjustment Board, Office of the Assistant Secretary of the Army (Logistics), Washington 25, D. C., recommending approval to the extent noted in such indorsement.

(e) *Action in cases of general public interest or doubt.* (1) In any case where, in the opinion of any of the above mentioned officers, there is a serious doubt as to whether the relief should be granted or denied, in whole or in part, or when the matter is believed to be of such general public interest that the initial determination denying the application should be made by a higher echelon, such officer may forward such application to the next higher echelon, including the Army Contract Adjustment Board with appropriate findings, recommendations, and determinations.

(2) Cases forwarded under the authority of this paragraph should explain fully the reasons why it is believed that consideration should be given to the application by higher echelon.

§ 606.406–3 *Forms*—(a) *Contractor's application.*

Subject: Request for Relief Under Title II, First War Powers Act, 1941, As Amended.

DEAR SIR:

1. The undersigned hereby makes application for the following relief pursuant to Title II of the First War Powers Act, 1941, as amended:

_____
(State briefly relief desired including specific amounts claimed, if any)

§ 606.407 *Correction of mistakes in contracts (other than mutual mistakes and ambiguities).*

§ 606.407–1 *Conditions under which relief may be granted.* Criteria for determination and recommendations with respect to correction of mistakes in contracts (other than mutual mistakes, as

defined in § 606.408–1 (a)), and ambiguities, are identical with those contained in § 606.406–1.

§ 606.407–2 *Administrative procedures.* (a) The procedure set forth in § 606.406–2 is applicable to applications for correction of mistakes other than mutual mistakes, as defined in § 606.408–1 (a), and ambiguities and mistakes in a bid not within the scope of § 2.405 of this title and § 591.405 of this subchapter.

(b) In addition to information required by paragraph (a) of this section, the applicant will be required to submit supporting evidence of the alleged mistake such as work sheets or other data used in preparing the bid or proposal, as well as the complete facts on which the allegation of mistake is based.

(c) The Contracting Officer will indicate in his indorsement the date when a notice of the alleged mistake was received and annex copies of any written notice thereof received by him, as well as triplicate copies of (1) the invitation for bids or request for proposals; (2) abstract of bids or summary of proposals; (3) contractual documents.

§ 606.407–3 *Forms.* Forms set forth in § 606.406–3 are applicable.

§ 606.408 *Correction of mutual mistakes and ambiguities.*

§ 606.408–1 *Conditions under which relief may be granted.* (a) For the purpose of exercising authority, under the statutory and administrative authority cited in § 606.401, only, the term "mutual mistakes" includes:

(1) A mistake which consists of the failure to express in a written contract the agreement as both parties understood it.

(2) A mistake on the part of the Contractor which is so obvious that it was, or should have been, apparent to the Contracting Officer.

(3) A mutual mistake as to a material fact.

(b) Mutual mistakes, as defined in paragraph (a) of this section, and ambiguities may be corrected by the Deputy Chief of Staff for Logistics, Department of the Army, or at the level of the Head of a Procuring Activity under the authority of the statutory and administrative authorities cited in § 606.401 only if:

(1) The actual or estimated increase in cost to the Government will not, in the opinion of the Head of the Procuring Activity, exceed $50,000. Such opinion must be affirmatively stated as a finding of fact.

(2) The requested correction of mutual mistake or ambiguity must not deal with or directly affect any matter under the contract which has been referred to, or is pending before, or has been decided by, the General Accounting Office.

(3) The Contractor has furnished written notice of the mistake or ambiguity to the Contracting Officer (i) before completion of performance of the contract by the Contractor or (ii) prior to the issuance of a Notice of Termination for Convenience or Default, pursuant to § 8.304 of this title or § 596.103–11 (d) of this subchapter, as the case may be.

(4) Final payment, approval of a final voucher, or a final administrative determination of the amount due has not been made under the contract.

(5) The correction will not result in payment to the Contractor of a sum, which, when added to other payments made under the contract, exceeds the amount of the next lowest responsive bid of a responsible bidder (in the case of contracts entered into after formal advertising).

(6) The correction will not result in payment to the Contractor of a sum, which, when added to other payments made under the contract, exceeds the amount of any other proposal considered in the negotiations (in case of negotiated contracts). Where the contract was placed on the basis of considerations other than price, this limitation shall not be applicable.

(7) Notice of allegation of mistake, oral or written, has not been furnished to the Contracting Officer (i) before award of a contract entered into after formal advertising or (ii) before award of a negotiated contract upon a form not requiring execution by both contracting parties or (iii) before execution of negotiated contracts entered into on forms requiring signatures of two or more parties.

(c) Mutual mistakes (paragraph (a) of this section) and ambiguities, occurring in formally advertised procurement, notice of allegation of which was furnished to the Contracting Officer prior to award of contracts, will be processed as required by the provisions of § 2.405–2 of this title and § 591.405–2 of this subchapter. Where the notice of allegation of a mutual mistake or ambiguity was furnished to the Contracting Officer after award and prior to final payment thereunder, the Contracting Officer will process the case in accordance with the provisions of § 591.405–3 of this subchapter.

(d) Cases involving an estimated or actual increase in the amount to be paid to the Contractor, exceeding $50,000, or in which final payment or final determination of the amount due has been made, will be processed to the Army Contract Adjustment Board in accordance with § 606.408–2.

§ 606.408–2 *Administrative procedure.* (a) This procedure is applicable to the type of mistake and ambiguity only as set forth in § 606.408–1 (a).

(b) Contractor's application: The contractor will submit, in quadruplicate, an application for relief, substantially in the form set forth in § 606.408–3 (a). In addition thereto, he will submit supporting evidence of the alleged mistake such as work sheets used in preparing the bid or proposal or other data, as well as the complete facts on which the allegation of mistake is based.

(c) Action of Contracting Officer: (1) The Contracting Officer will examine and review the application.

(2) If further information is required request the Contractor to furnish the same in writing.

(3) If, after consideration of the elements set forth in §§ 606.404 and 606.408–1 he determines that the application under this authority should be denied, and provided such action is authorized by Procuring Activity instructions, he will prepare written findings of fact and a determination which will be mailed, or otherwise furnished to the Contractor. The Contractor will be informed that he may, if he so desires, submit a claim to the Comptroller General under existing law and regulation other than Title II of the First War Powers Act, 1941, as amended; and that denial of relief under this authority is not necessarily a determination that the Contractor is not entitled to relief under normal procedures.

(4) If after consideration of the elements set forth in §§ 606.404 and 606.408–1 the Contracting Officer is of the opinion that the application should be granted, or if otherwise required by Procuring Activity instructions, the Contracting Officer will prepare an indorsement in triplicate setting forth as a minimum the following facts:

(i) That the Contractor's application has been examined and reviewed.

(ii) A brief description of the contract including any special pricing clauses.

(iii) That the facts therein stated are certified to be substantially correct except as specifically indicated.

(iv) The date when notice of the alleged mistake was received, annexing copies of any written notice.

(v) The quality of performance by the Contractor.

(vi) Present status of deliveries and payments.

(vii) Whether final payment has been made (including date, if made), or whether final administrative determination has been made of the amount due.

(viii) Other available sources of supply in comparison with the Contractor.

(ix) The importance of the contract or the Contractor to the furtherance of the national defense effort, including present or future need for the item.

(x) An opinion on the merits as to whether the requested relief should be granted, and the extent thereof recommended for approval. In the alternative, a recommendation of what relief should be granted other than that requested by the Contractor.

(xi) If relief is recommended involving an increase in price, whether appropriated funds are sufficient to cover the proposed additional payment to the Contractor.

(xii) Whether appropriated funds allocated to other Departments are involved; if such funds are involved, name the Department.

(xiii) A finding that the granting of such relief will facilitate the national defense effort.

(5) The following documents will be inclosed, in triplicate:

(i) Invitation for bids or request for proposals.

(ii) Abstract of bids or summary of proposals.

(iii) Contractual documents.

(6) The Contracting Officer's indorsement and inclosures will be forwarded, in triplicate, through such channels and be reviewed and approved by such intermediate offices and commands as may

be required by Procuring Activity instructions.

(d) Action by intermediate reviewing agencies: (1) Each echelon reviewing and passing upon such applications, subsequent to the Contracting Officer's review and verification will review and verify the contents of the application to the fullest extent practicable, provided, however, that in any case such echelons of review are authorized to rely fully upon the verification made by the Contracting Officer unless unusual circumstances require further verification.

(2) Make specific findings on the merits and specific recommendations with respect to whether the application should be approved or denied.

(3) Make a specific finding as to whether the national defense would be facilitated by the granting of the application.

(4) Heads of Procuring Activities are authorized to require all applications to be forwarded to, and initial determinations denying applications to be made by, the office of the Head of the Procuring Activity or by any lower echelon, including the Contracting Officer.

(e) Action by Heads of Procuring Activities: (1) Heads of Procuring Activities will take appropriate action as required by § 606.408–2 (d).

(2) Heads of Procuring Activities are authorized to deny applications without further reference to the Army Contract Adjustment Board. Appropriate written findings and determinations will be made and furnished to applicants by such agencies as may be designated by the Head of the Procuring Activity for that purpose, including the Contracting Officer.

(3) If in the opinion of the Head of Procuring Activity, after consideration of the provisions of §§ 606.404 and 606.408–1 and subject to the limitation contained in § 606.408–1 (d), that the application should be granted, written findings of fact will be prepared and furnished to the Contracting Officer together with proper instructions relative to amendment or termination of the contract.

(4) In cases involving an increase in price in excess of $50,000, if in the opinion of the Head of the Procuring Activity, the application should be granted, an indorsement in duplicate, inclosing two copies of the Contractor's application and all indorsements and findings, shall be forwarded direct to the Army Contract Adjustment Board, Office of the Assistant Secretary of the Army (Logistics), Washington 25, D. C., recommending approval to the extent noted in such indorsement.

(f) Action in cases of general public interest or doubt: (1) In any case where, in the opinion of any of the above mentioned officers there is a serious doubt as to whether the relief should be granted or denied, in whole or in part, or when the matter is believed to be of such general public interest that the initial determination denying the application should be made by a higher echelon, such officer may forward such application to the next higher echelon, including the Army Contract Adjustment Board with appropriate findings, recommendations, and determinations.

(2) Cases forwarded under the authority of this paragraph should explain fully the reason why it is believed that consideration should be given to the application by higher echelon.

§ 606.408–3 *Forms*—(a) *Contractor's application.* (1) Application shall be made on a form substantially similar to that set forth in § 606.406–3 (a), except that:

(i) Subject will be referred to as follows:

Subject: Request for Correction of Mistakes Under Title II, First War Powers Act, 1941; as amended.

(ii) Heads of Procuring Activities may authorize omission of replies to items 3j and 3p of the form.

(2) The applicant will submit satisfactory evidence of the alleged mistake, including, but not limited to, original work sheets.

(b) *Denial of application.* Form set forth in § 606.406–3 (b) may be adapted.

(c) *Contracting Officer's indorsement recommending approval of application.* Form suggested in § 606.406–3 (c) may be used and/or adapted.

§ 606.409 *Formalization of informal commitments.*

§ 606.409–1 *Conditions under which relief may be granted.* (a) Where any person has arranged to furnish or has furnished, on or after 25 June, 1950, to a contracting agency of the Department of the Army or (at the request of such agency) to a defense Contractor any materials, services, or facilities relating to the national defense, without a formal contract, relying in good faith upon the apparent authority of an officer or agent of such contracting agency, written or oral instructions, or any other request to proceed from a contracting agency, such contracting agency may enter into an appropriate contract providing fair compensation therefor. The formalization of informal commitments may be finally approved at the level of the Head of a Procuring Activity when the amount involved does not exceed $50,000. Where the amount involved exceeds $50,000, the case will be processed to the Army Contract Adjustment Board in accordance with § 606.409–2 (d).

(b) The above authority shall not be used (1) as a substitute for modification of existing contracts in accordance with existing regulations or (2) for the purpose of eliminating competition. Where the instruction or request to proceed was of the type which, when given, could properly have been embodied in a change order, supplemental agreement, or other amendment under a then existing contract, this authority will not be exercised if final payment has been made under such contract.

(c) Informal commitments shall be made only in situations where the need therefor is compelling and of unusual urgency, as when the national defense would be seriously impaired or impeded, if the supplies or services were not furnished before the contracting agency has an opportunity to prepare the necessary contractual forms. See also § 592.409 (c) of this subchapter. The following are illustrative of circumstances with respect to which this authority may be used:

(1) Supplies or services needed at once because of a fire, flood, explosion or other disaster.

(2) Essential equipment for or repair to a ship when such equipment or repair is needed at once for compliance with the orders of the ship.

(3) Essential equipment for, or repair to, aircraft grounded or about to be grounded, when such equipment or repair is needed at once for the performance of an operational mission.

(4) Supplies or services needed at once because of requirements of operational missions or emergencies, and so certified in advance by the Head of a Procuring Activity.

(d) Resultant contracts formalizing informal commitments shall contain a finding of fact justifying the informal commitment as well as the action of formalization.

(e) Compensation shall be awarded or recommended in an amount which provides fair compensation for the services or supplies furnished. Fair compensation normally will be the reasonable market value of the supplies or services furnished at the time and place furnished, including such considerations as extra cost involved in immediate compliance with informal commitment or necessary performance and delivery during other than normal business hours.

§ 606.409–2 *Administrative procedure*—(a) *Contractor's application.* Written requests for formalization of informal commitments shall be filed by Contractors with the purchasing office which entered into the commitment, in quadruplicate, within 10 days after completion of performance of the informal commitment. The request shall be substantially in the form set forth in § 606.409–3 (a).

(b) *Action by Contracting Officer.* (1) The Contracting Officer will review the application and verify the contents thereof.

(2) If further information is required, request the Contractor to furnish the same in writing.

(3) If in the opinion of the Contracting Officer (i) an informal commitment was not entered into, or (ii) such informal commitment was made by an unauthorized person, or (iii) the Contractor should not as a reasonably intelligent businessman have relied upon the apparent authority of a person who ordered the supplies, services, or construction, a written finding will be furnished to the Contractor to that effect, setting forth appropriate findings of fact, providing such action is authorized by Procuring Activity instructions.

(4) If in the opinion of the Contracting Officer, after consideration of the provisions of §§ 606.404 and 606.409–1, the application should be granted, an indorsement in triplicate, inclosing three copies of the Contractor's application, shall be forwarded to the Head of the Procuring Activity, in accordance with

instructions issued by such Head of Procuring Activity, setting forth as a minimum, the following information (see suggested form in § 606.409–3 (b)).

(i) That the application has been reviewed and the facts therein stated are certified to be substantially correct except as specifically indicated.

(ii) That no payments have been made, nor any final administrative determination made of the amount due.

(iii) The importance of the material furnished or work performed to the furtherance of the national defense effort.

(iv) The quality of performance by the Contractor.

(v) Present status of deliveries.

(vi) Whether appropriated funds are sufficient to cover the proposed payment to the Contractor.

(vii) Whether appropriated funds allocated to other Departments are involved; if such funds are involved, name the Department.

(viii) A statement of the reasons why an informal commitment was necessary, and why an authorized form of contract could not have been prepared and processed before the supplies or services involved were furnished to the Government.

(ix) That the formal commitment was entered into by an authorized individual, and, if prior approval was required, that such prior approval was obtained from the proper authority.

(x) That the fair compensation for the supplies or services furnished or construction performed is as stated. Justification shall set forth as to amount by reference to the reasonable market price or other reasonable price at the time and place of delivery or performance.

(xi) A specific recommendation as to the proposed contract or purchase order or modification of a then existing contract to be issued, including unit price (where applicable) and total contract amount. The proposed contract or modification should be annexed.

(xii) A finding that the national defense would be facilitated by granting of the relief requested.

(5) The Contracting Officer's indorsement will be forwarded through such channels and be reviewed and approved by such intermediate offices and commands as may be required by Procuring Activity instructions.

(c) *Action by intermediate reviewing agencies.* (1) Each echelon reviewing and passing upon such applications subsequent to the Contracting Officer's review and verification will review and verify the contents of the application to the fullest extent practicable: *Provided, however,* That in any case such echelons of review are authorized to rely fully upon the verification made by the Contracting Officer unless unusual circumstances require further verification.

(2) Make specific findings on the merits and specific recommendations with respect to whether the application should be approved or denied.

(3) Make a specific finding as to whether the national defense would be facilitated by the granting of the application.

(4) Heads of Procuring Activities are authorized to require all applications to be forwarded to, and initial determinations denying applications to be made in, the office of the Head of the Procuring Activity or in any lower echelon, including the Contracting Officer.

(d) *Action by Heads of Procuring Activities.* (1) Heads of Procuring Activities will take appropriate action as required by § 606.409–2 (c).

(2) Heads of Procuring Activities are authorized to deny applications without further reference to the Army Contract Adjustment Board. Appropriate written findings and determinations will be made and furnished to applicants by such agencies as may be designated by the head of the Procuring Activity for that purpose, including the Contracting Officer.

(3) If in the opinion of the Head of the Procuring Activity, after consideration of the provisions of §§ 606.404 and 606.409–1 and subject to the limitation contained in § 606.409–1, the application should be granted, written findings of fact will be prepared and furnished to the Contracting Officer together with proper instructions as to the form of and required clauses to be inserted in resultant contracts.

(4) In cases involving contracts exceeding $50,000 in amount, if in the opinion of the Head of the Procuring Activity, the application should be granted, an indorsement in duplicate, inclosing two copies of the Contractor's application and all indorsements and findings, shall be forwarded direct to the Army Contract Adjustment Board, Office of the Assistant Secretary of the Army (Logistics), Washington 25, D. C., recommending approval to the extent noted in such indorsement.

(e) *Action in cases of general public interest or doubt.* (1) In any case where, in the opinion of any of the above mentioned officers, there is a serious doubt as to whether the relief should be granted or denied, in while or in part, or when the matter is believed to be of such general public interest that the initial determination denying the applition should be made by a higher echelon, such officer may forward such application to the next higher echelon, including the Army Contract Adjustment Board with appropriate findings, recommendations and determinations.

(2) Cases forwarded under the authority of this paragraph should explain fully the reason why it is believed that consideration should be given to the application by higher echelon.

§ 606.409–3 *Forms*—(a) *Contractor's application.*

§ 606.416 *Contract clauses required.* All contracts and amendments to contracts made under the authority of this subpart, shall:

(a) Make reference to Title II, First War Powers Act, 1941, as amended; and

(b) Contain a statement of facts and circumstances which justify action;

(c) Include a finding that the national defense is facilitated thereby;

(d) Include the following clause:

EXAMINATION OF RECORDS

(a) The Contractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under this contract, have access to and the right to examine any directly pertinent books, documents, papers and records of the Contractor involving transactions related to this contract.

(b) The Contractor further agrees to include in all his subcontracts hereunder which may hereafter be made, a provision to the effect that the subcontractor agrees that the Comptroller General of the United States or any of his duly authorized representatives shall, until the expiration of three years after final payment under the subcontract, have access to and the right to examine any directly pertinent books, documents, papers and records of such subcontractor involving transactions related to the subcontract. The term "subcontract" as used in this clause excludes (i) purchase orders not exceeding $1,000 and (ii) subcontractor purchase orders for public utility services at rates established for uniform applicability to the general public.

(e) Include a statement regarding the approval obtained indicating specifically the office or officer duly authorized to make, and who granted, such final approval.

§ 606.417 *Records.* Complete written data, including but not limited to memorandum to file a personal conferences and telephone conversations and all approvals or denials of application, shall be maintained in the Contracting Officer's files as the office of record. Such data shall be available for inspection by authorized personnel at all times.

§ 606.418 *Reporting under Tile II, First War Powers Act (Reports Control Symbol CSGLD–376 (R2)).*

§ 606.418–1 *Reporting agencies.* Heads of procuring activities will render monthly, a report relative to claims received and actions taken pursuant to the authority contained in §§ 606.406, 606.407, 606.408 and 606.409 (Amendments to contracts without consideration, correction of mistakes in contracts and formalization of informal commitments).

§ 606.418–2 *Reporting procedure.* (a) A separatee DA Form 1763–R (8 by 10½-inch) will be completed for each claim received. These forms will be dispatched in duplicate, to the Deputy Chief of Staff for Logistics, Department of the Army, attn: Chief, Contracts Branch, on or before the 15th day of the month following the month in which the claim is received. Letters of transmittal will not be used. Negative reports are not required.

(b) For the initial report, a separate DA Form 1763–R will be completed for each claim pending as of 30 June 1956. This report will be dispatched on or before 15 July 1956.

(c) A report of all actions taken, i. e., approvals, denials, withdrawals, adjustments (transfer of claim from one category to another, increase or decrease of dollar value and other adjustments) with respect to each claim will be submitted on the following DA Form 1764–R (8" x 4" paper):

Reporting Under Title II, First War Powers Act (Claims Received) (App. 30–418.2)	Case Number	Reports Control Symbol CSGLD-376 (RS)

(d) A listing, by case number only, of claims pending as of the end of each quarter will be submitted with DA Forms 1763–R and 1764–R.

(e) The following list of instructions covers only those portions of the forms which are not self-explanatory.

(1) *Case number.* Heads of procuring activities will assign a serial number to each case by numbering consecutively each claim received, beginning with number "1".

(2) *Contractual instrument number.* Enter the number of the basic contract. If the contractual instrument is not numbered, so state.

(3) *Type of claim.* Check the appropriate block to indicate the type of claim involved. (Aw/oC–Amendments Without Consideration, C/M–Correction of Mistakes, F/C–Formalization of Informal Commitments). If "Other" is checked, include in the block "Circumstances Upon Which Claim of Contractor is Based," the specific authority under which the claim will be considered.

(4) *Item produced or service performed.* Except for classified items, enter a brief description of the items or service involved.

(5) *Value of claim.* Enter, to the nearest dollar, the amount of the claim. If none, or none stipulated, so state.

(6) *Value of contract.* Enter the total dollar value of the contract.

(7) *Circumstances upon which the claim of the contractor is based and reasons for action.* Enter only a brief summary which will provide information sufficient for a general understanding of the claim or action taken.

(f) Claims referred to the Army Contract Adjustment Board for action will be reported as pending, by the Head of the Procuring Activity submitting the claim. Final action on such claim will be reported by the Head of the Procuring Activity with a notation that such action was taken by the Army Contract Adjustment Board.

§ 606.418–3 *Reproduction of forms.* DA Forms 1763–R and 1764–R will be locally reproduced, and will conform to arrangement and size as set forth in § 606.418–2.

10. Section 606.1003 is revised, paragraph (c) is added to § 606.1004, and in § 606.1005, revise paragraphs (b) (3) and (c) as follows:

§ 606.1003 *General responsibilities*—(a) *Contracting Officers and Contract Administrators.* (1) To afford, during the procurement cycle, proper analysis and consideration of transportation factors affecting both domestic and export purchases.

(2) To seek advice, assistance, or traffic information from appropriate sources as indicated in § 606.1004.

(3) To incorporate the soundest available transportation provisions in contracts and to see that transportation requirements are met during the performance of contracts.

(4) To bring to the attention of appropriate authorities any practicable improvements in procedures, practices, contract clauses, the terms or quantities of requirements, or similar methods by which transportation factors and other procurement elements may be better coordinated to the advantage of the Government.

(5) At the earliest possible phase in the procurement cycle, to provide, through installation transportation officers, information of prospective procurements or movements so as to facilitate rate negotiation or other traffic management actions.

(b) *Transportation officers.* (1) To analyze and determine the effect of transportation factors on purchases.

(2) To advise Contracting Officers of transportation costs, methods of shipment, and other transportation information for the evaluation of bids and award of contracts in a manner most advantageous to the Government.

§ 606.1004 *Sources of transportation assistance.* • • •

(c) Transportation officers will furnish the best rates available for appropriate means of shipment and any other transportation information which would assist the Contracting Officer in evaluating the bids and awarding the contract in a manner most advantageous to the Government. The best rates available may be rates in effect or to become effective at a later date. The use of freight rates to become effective at a later date for evaluation of bids will be limited to those rates or rate changes on file in the rate-furnishing office prior to the date of opening bids. Whenever a rate request to a rate-furnishing office does not specify a date, rates furnished will be those on file in that office at the time the files are examined.

§ 606.1005 *Transportation considerations in the procurement cycle.* • • •

(b) *Solicitation phase.* • • •

(3) Invitations for bids or requests for proposals to be solicited on an FOB origin basis will include the following information:

(i) That evaluation of bids will be on the basis of bid price plus Government transportation cost from point of origin to the destinations named herein or to be determined prior to the award of the contract.

(ii) The best available freight rates in effect or to become effective at a later date, for the selected method of shipment, will be used for the evaluation of bids.

(iii) The use of freight rates to become effective at a future date for evaluation of bids, will be limited to those rates or rate changes on file in the rate-furnishing office prior to the opening date of bids.

(iv) Bidders will be informed, to the extent possible and practicable, when any of the following factors apply to shipments:

(*a*) Method of shipment as well as rail, water, air, or truck.

(*b*) Minimum quantities or lots such as LCL, LTL, CL, or TL.

(*c*) Actual or designated destinations for evaluation purposes.

(*d*) Packing, crating, and other preparations.

(*e*) Use of transit arrangements (paragraph (c) (4) of this section).

(*f*) Special arrangements for shipment such as the movement of unusually large or heavy items.

(c) *Evaluation and award phase.* From issuance of invitation through actual award.

(1) In evaluating bid or proposals submitted on an FOB origin basis when destinations or distribution patterns are known, the cost of transportation must be added to the bid or proposal in calculating the actual cost to the Government. Accurate weights and cubage, current transportation rates, and use of the proper modes of transportation are essential in his process. When oversea destination is known and more than one United States port is appropriate for use in the evaluation, the difference in ocean costs or other costs among the pertinent ports will be considered, so that award will reflect the most advantageous basis of cost of the supplies landed at the oversea port. In such case, the precise total cost is not important, but the comparative cost through the ports respectively serving the bidders is quite important. Pertinent information can be obtained upon request to Zone Transportation Offices.

(2) Contracting Officers will consider transportation costs, methods of shipment, and other transportation factors in the evaluation of FOB origin bids and in the award of contracts. The best available freight rates in effect or to become effective at a later date should be used. The use of rates to become effective at a later date will be limited to those on file in the rate-furnishing office prior to the date for opening bids.

(3) In determining, by preaward survey or otherwise, the capabilities of a bidder to carry out a contract, definite consideration should be given to the adequacy of transportation facilities at the bidder's plant, including his ability to accumulate and ship in carload or truckload lots.

(4) Consideration should be given to the possibility of obtaining benefit for the Government through the use of transit arrangements. Such arrangements permit the forwarding of a shipment in the same direction after it has been halted in transit (sometimes for as much as 2 years), for storage, processing, fabrication, or other purpose as specified by the carriers; all at the through rate (as contrasted with the combination of rates in and out of the transit point) plus nominal surcharges. Transit arrangements are not universal and are varied; traffic management personnel can furnish necessary information and analysis of situations where transit may be beneficial.

(5) When comparing the initial portion of a procurement and the "set aside" portion in conjunction with "set asides" under Defense Manpower Policy No. 4 (§§ 1.302–4, 2.205, and 3.219 of this title) or partial joint or Small Business determinations, the transportation aspects involved in each portion must be considered to insure correct comparison.

(6) Whenever it appears to the Contracting Officer that award for shipment to the designated destination will plainly result in cross-hauling or back-hauling to the disadvantage of the Government, considering subsequent moves of the supplies, the matter will be brought to the attention of the requiring agency or appropriate distribution authorities.

(7) If information for possible rate negotiation purposes has not been furnished earlier, or if adjustment in such information is required appropriate advice will be furnished the Chief of Transportation, through the local transportation officer, immediately upon execution of a contract indicating firm shipment plans.

(8) Contracts, when executed, must be specific with respect to all transportation responsibilities.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 1322]

ARIZONA AND WASHINGTON

REVOKING DEPARTMENTAL ORDER OF NOVEMBER 1, 1906, AND PUBLIC LAND ORDER NO. 23, OF AUGUST 7, 1942, WHICH WITHDREW LANDS FOR USE OF FOREST SERVICE AS ADMINISTRATIVE SITES

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910, ch. 421 (36 Stat. 847; 43 U. S. C. 141) and otherwise, and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

ARIZONA

[71355]

1. The departmental order of November 1, 1906, reserving the following-described public lands within the Tonto National Forest, Arizona, for use of the Forest Service, Department of Agriculture, as an administrative site, is hereby revoked:

GILA AND SALT RIVER MERIDIAN

T. 7 N., R. 10 E.,
Sec. 26, E½SW¼;
Sec. 35, NE¼NW¼.

The areas described aggregate 120 acres.

WASHINGTON

[1866530]

2. Public Land Order No. 23 of August 7, 1942, which temporarily withdrew the following-described public lands in Washington for use of the Forest Service, Department of Agriculture, as an administrative site in connection with the administration of the Columbia (now Gifford Pinchot) National Forest, is hereby revoked:

WILLAMETTE MERIDIAN

T. 7 N., R. 5 E.,
Sec. 28, SE¼NE¼.

The area described contains 40 acres.

3. The lands described in paragraph 1 of this order are within the Tonto National Forest, Arizona, and have been open to applications and offers under the mineral-leasing laws. They will be open to such other applications, selections, and locations as are permitted on national forest lands effective at 10:00 a. m. on September 26, 1956.

4. The SE¼NE¼, sec. 28, T. 7 N., R. 5 E., Willamette Meridian, is included in Federal Power Project No. 2111 of the Pacific Power and Light Company, being constructed under a license issued under the Federal Power Act, with respect to which the provisions of section 2 of the act of August 11, 1955 (69 Stat. 682; 30 U. S. C. 621 (a) (1)) are applicable. These lands are therefore not open to mining location.

FRED G. AANDAHL,
Assistant Secretary of the Interior.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

[Service Order 915]

PART 95—CAR SERVICE

SUBSTITUTION OF REFRIGERATOR CARS FOR BOX CARS

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 20th day of August A. D. 1956.

It appearing that the number of freight cars available for the movement of box car freight in the States of Oregon, California, Arizona and Nevada, has seriously decreased recently; that at present the supply is insufficient to move such freight traffic of carriers serving those States; that there are certain SFRD, PFE and WP refrigerator cars in that territory not suitable for transporting commodities requiring protective service and that such cars are suitable for transporting other freight; in the opinion of the Commission an emergency exists requiring immediate action in Oregon, California, Arizona and Nevada. Accordingly, the Commission finds that notice and public procedure are impracticable and contrary to the public interest, and that good cause exists for making this order effective upon less than thirty days' notice.

It is ordered, That:

§ 95.915 *Substitution of refrigerator cars for box cars.* (a) (1) Except as provided in subparagraph (2) of this paragraph, common carriers by railroad subject to the Interstate Commerce Act transporting carload freight from origins in the States of Oregon, California, Arizona or Nevada, and destined to points in the States of Oregon, California, Arizona or Nevada, may, at their option, furnish and transport not more than three (3) refrigerator cars of SFRD, PFE or WP ownership, not suitable for transporting commodities requiring protective service, in lieu of each box car ordered, subject to the carload minimum weight which would have applied if shipment had been loaded in a box car.

(2) On shipments on which the carload minimum weight varies with the size of the car.

(i) Two (2) refrigerator cars not suitable for transporting commodities requiring protective service may be furnished in lieu of one (1) box car ordered of a length of 40' 7'', or less, subject to the carload minimum weight which would have been applied if the shipment had been loaded in a box car of the size ordered.

(ii) Three (3) refrigerator cars not suitable for transporting commodities requiring protective service may be furnished in lieu of one (1) box car ordered of a length of over 40' 7'', but not over 50' 7'', subject to the carload minimum weight which would have applied if the shipment had been loaded in a box car of the size ordered.

(b) Application: The provisions of this section shall apply to shipments moving in intrastate commerce as well as to those moving in interstate commerce.

(c) Effective date: This section shall become effective at 7:00 a. m., August 27, 1956.

(d) Expiration date: This section shall expire at 11:59 p. m., December 31, 1956, unless otherwise modified, changed, suspended or annulled by order of this Commission.

(e) Rules and regulations suspended: The operation of all rules and regulations insofar as they conflict with the provisions of this section is hereby suspended.

(f) Announcement of suspension: Each of such railroads, or its agents, shall publish, file, and post a supplement to each of its tariffs affected hereby, in

substantial accordance with the provisions of Rule 9 (k) of the Commission's Tariff Circular No. 20 (§ 141.9 (k) of this chapter) announcing the suspension of any of the provisions therein.

It is further ordered, That a copy of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and per diem agreement under the terms of that agreement; and that notice of this order be given to the general public by depositing a copy in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director, Division of the Federal Register.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12. Interprets or applies sec. 1, 24 Stat. 379, as amended; 49 U. S. C. 1)

By the Commission, Division 3.

SUBPART D—TRANSPORTATION OF PERSONS

§ 42.4261.0-1 *Introduction*—(a) *Scope of regulations.* The regulations contained in this subpart relate to the tax on the transportation of persons imposed by part I of subchapter C of chapter 33 of the Internal Revenue Code of 1954, as amended.

(b) *Period covered.* The regulations in this subpart apply to amounts paid on or after October 1, 1956, for transportation of persons commencing on or after such date. The regulations with respect to amounts paid after December 31, 1954, and before October 1, 1956, for transportation of persons commencing at any time and with respect to amounts paid after September 30, 1956, for transportation of persons commencing before October 1, 1956, are contained in Regulations 42 (1942 edition) (26 CFR (1939) Part 130), as prescribed and made applicable to part I of subchapter C of chapter 33 of the Internal Revenue Code of 1954 by Treasury Decision 6091, signed August 16, 1954. The regulations relating to certain related administrative provisions contained in Subpart G of Regulations 42, and the provisions of Treasury Decision 6131, approved April 29, 1955, apply to amounts paid for the transportation of persons which are covered by the regulations in this subpart. The regulations with respect to other applicable administrative provisions contained in subtitle F (Procedure and Administration) of the Internal Revenue Code of 1954 are set forth in the Regulations on Procedure and Administration (26 CFR Part 301).

§ 42.4261 *Statutory provisions; amounts paid within the United States; amounts paid outside the United States; seats, berths, etc.; by whom paid.*

SEC. 4261. *Imposition of tax*—(a) *Amounts paid within the United States.* There is hereby imposed upon the amount paid within the United States for taxable transportation (as defined in section 4262) of any person by rail, motor vehicle, water, or air a tax equal to 10 percent of the amount so paid.

(b) *Amounts paid outside the United States.* There is hereby imposed upon the amount paid without the United States for taxable transportation (as defined in section 4262) of any person by rail, motor vehicle, water, or air, but only if such transportation begins and ends in the United States, a tax equal to 10 percent of the amount so paid.

(c) *Seats, berths, etc.* There is hereby imposed upon the amount paid for seating or sleeping accommodations in connection with transportation with respect to which a tax is imposed by subsection (a) or (b) a tax equivalent to 10 percent of the amount so paid.

(d) *By whom paid.* Except as provided in section 4264, the taxes imposed by this section shall be paid by the person making the payment subject to the tax.

[Section 4261 as amended by section 1 and section 4 (b) of Pub. Law 796 (70 Stat. 644, 646) approved July 25, 1956]

§ 42.4261-1 *Scope of tax; in general.* Section 4261 imposes a tax at the rate of 10 percent upon payments made for taxable transportation of persons by rail, motor vehicle, water, or air. For a definition of the term "taxable transportation", see section 4262 and § 42.4262-1. The tax accrues at the time payment is made for the transportation, irrespective of when the transportation is furnished. The purpose of the transportation, whether business or pleasure, is immaterial. It is not necessary that the transportation be between two definite points. If not otherwise exempt, a payment for continuous transportation beginning and ending at the same point is subject to the tax.

§ 42.4261-2 *Rate and application of tax.* (a) The tax under section 4261 is 10 percent of the amount paid for taxable transportation.

(b) The tax is measured by the total amount paid, whether paid at one time or collected at intervals during the course of a continuous transportation, as in the case of a carrier operating under the zone system.

(c) The tax is determined by the amount paid for transportation with respect to each person. Thus, where a single payment is made for the transportation of two or more persons, the taxability of the payment and the amount of the tax, if any, payable with respect thereto, must be determined on the basis of the portion of the total payment properly allocable to each person transported.

(d) Where a payment covers charges for nontransportation services as well as for transportation of a person, such as charges for meals, hotel accommodations, etc., the charges for the nontransportation services may be excluded in computing the tax payable with respect to such payment, provided such charges are separable and are shown in the exact amounts thereof in the records pertaining to the transportation charge. If the charges for nontransportation services are not separable from the charge for transportation of the person, the tax must be computed upon the full amount of the payment.

§ 42.4261-3 *Payments made within the United States*—(a) *Transportation beginning and ending in the United States or the 225-mile zone.* The tax imposed under section 4261 (a) applies to payments made within the United States for transportation which begins in the United States or in the 225-mile zone and ends in the United States or in the 225-mile zone. For example, an amount paid within the United States for transportation between New York and Montreal, Canada; between Vancouver, Canada, and Windsor, Canada; or between Nogales, Mexico, and Hermosillo, Mexico, would be fully taxable. See section 4262 (c) (2) for definition of the 225-mile zone.

(b) *Other transportation.* In the case of transportation other than that described in paragraph (a) of this section for which payment is made in the United States, the tax applies with respect to the amount paid for that portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States. Thus, on a trip from Chicago to London, England, with a stop at New York, for which payment is made in the United States, tax would apply on the part of the payment which is applicable to the transportation from Chicago to New York.

(c) *Method of computing tax on taxable portion.* Where a payment is made for transportation which is partially taxable under paragraph (b) of this section—

(1) The tax may be computed on that proportion of the total amount paid which the mileage of the taxable portion of the transportation bears to the mileage of the entire trip, or

(2) The tax may be computed on the basis of the applicable local fare for transportation of a like class between the ports or stations described in paragraph (b) of this section. In the absence of such a local fare, the tax must be determined in accordance with subparagraph (1) of this paragraph.

(d) *Cross reference.* See section 4262 (b) and regulations thereunder for a partial exclusion with respect to amounts paid for certain transportation.

§ 42.4261-4 *Payments made in the United States; evidence of nontaxability*—(a) *Presumption of taxability.* The tax imposed by section 4261 (a) shall apply to any amount paid within the United States for the transportation of any person, unless the taxpayer establishes in accordance with the provisions of this section that at the time of payment the transportation is not transportation in respect of which tax is imposed by section 4261 (a). See section 4264 (d).

(b) *Through tickets.* In the case of transportation which is wholly or in part not taxable transportation, the issuance of one ticket (commonly known as a "through ticket") covering such transportation will be sufficient to establish that the amount paid for such transportation is wholly or in part not subject to tax. Thus, if A purchases a through ticket in the United States for transportation by air from Chicago to Edmonton, Canada, with a stop at Minneapolis, no further evidence will be required to establish that no tax applies with respect to the amount paid for the portion of the transportation between Minneapolis and Edmonton.

(c) *Separate tickets.* Where a separate ticket or order is issued for taxable transportation as defined in section 4262 (a) (1) (hereinafter referred to as the "domestic ticket or order"), but the domestic ticket or order is to be used in conjunction with a ticket or order for additional transportation (hereinafter referred to as the "international ticket or order") which changes the tax consequences, unless the domestic ticket or order and the international ticket or order are purchased from a single agency or carrier at the same time, the person making payment for the domestic ticket or order shall at the time of payment exhibit the international ticket or order to the agency or carrier receiving such payment. The agency or carrier which receives the payment for the domestic ticket or order shall inscribe the tickets or orders for the entire journey in the following manner:

(1) The international ticket or order shall be inscribed or stamped with an appropriate legend (for example, "Cannot be reused to obtain any tax exemption on a domestic ticket or order") to show that a domestic ticket or order has been purchased wholly or partially tax free for use in conjunction therewith.

(2) The domestic ticket or order shall be inscribed to show (i) the identity of the agency or carrier which received payment therefor (unless otherwise shown on the ticket or order), (ii) the origin and destination of the additional transportation, (iii) the identity of the carrier furnishing the additional transportation, and (iv) the serial number of the ticket or order covering such additional transportation. If the domestic ticket or order is not large enough to accommodate the prescribed inscription, a statement setting forth the required information shall be attached to such ticket or order.

§ 42.4261-5 *Payments made outside the United States*—(a) *In general.* The tax imposed under section 4261 (b) applies to amounts paid outside the United States for the taxable transportation of persons, but only if such transportation begins and ends in the United States. Thus, in addition to the exclusion provided for certain travel under section 4262 (b), the tax imposed by section 4261 (b) shall not apply unless the transportation both begins and ends within the United States. Accordingly, the tax does not apply to a payment made without the United States for one-way or round-trip transportation between a point within the United States and a point outside the United States.

(b) *Transportation between two or more points in the United States.* (1) For purposes of this section, a payment made outside the United States for transportation between two or more points in the United States is a payment for transportation which begins and ends in the United States, even though additional transportation to or from a point outside the United States is involved in the entire journey, if at the time of making payment for the transportation between two or more points in the United States it is not definitely established, under the rules set forth in § 42.4261-6, that such transportation is purchased for use in making the journey from or to a point outside the United States. In such case, the fact that the entire journey includes transportation from or to a point outside the United States is not in itself determinative of the liability for tax.

(2) The following examples illustrate the application of this paragraph:

Example (1). W travels from Havana, Cuba, to New York by way of Miami. He purchases in Havana a steamship ticket for his transportation from Havana to Miami and an exchange order for air transportation from Miami to New York. The ticket for the connecting transportation from Havana to Miami, and the order for the transportation from Miami to New York were not appro-

priately inscribed by the agency or carrier which received the payment for the air transportation involved at the time such payment was received so as to clearly show that the ticket and order were purchased for use in conjunction with each other. Therefore, the agency or carrier which accepts the exchange order and issues the ticket for the transportation from Miami to New York is required to collect the tax which applied to the amount paid outside the United States for such transportation.

Example (2). X travels on a round trip from Montreal, Canada, to Los Angeles by way of New York. He purchases in Montreal air transportation for the round trip between New York and Los Angeles, and uses a private automobile for transportation from Montreal to New York and return to Montreal. The amount paid in Montreal for the round-trip transportation between New York and Los Angeles is a payment for transportation which begins and ends in the United States, and is therefore subject to tax.

(c) *Cross reference.* See section 4262 (b) and regulations thereunder for a partial exclusion with respect to amounts paid for certain transportation.

§ 42.4261–6 *Payments made outside the United States; evidence of nontaxability*—(a) *In general.* The tax does not apply to a payment made outside the United States for transportation which begins or ends outside the United States. For purposes of the preceding sentence, a payment made outside the United States for transportation between two or more points within the United States (such transportation being referred to hereinafter in this section as "the United States portion"), which is part of transportation from or to a point outside the United States is a payment for transportation which begins or ends outside the United States, where it is definitely established at the time of making payment for the United States portion that such portion is purchased for use in making the journey from or to a point outside the United States. The nontaxable character of the payment made outside the United States for the United States portion shall be established under the rules set forth in paragraphs (b) through (e) of this section.

(b) *Through tickets.* Where one ticket (commonly known as a "through ticket") is issued to cover all of the United States portion of a journey which begins or ends outside the United States and to cover also the connecting transportation from or to a point outside the United States, no further evidence of the nontaxable character of the transportation covered by such ticket will be required.

(c) *Separate tickets.* Where separate tickets or orders are issued for the United States portion of a journey which begins or ends outside the United States, the agency or carrier which receives payment for such tickets or orders shall definitely determine at the time of receiving the payment that the United States portion is being purchased for use in conjunction with connecting transportation from or to a point outside the United States, and shall appropriately inscribe the tickets or orders issued outside the United States for the United States portion and for the connecting transportation from or to a point outside the United States to show clearly that such tickets or orders are purchased for use in conjunction with each other. Such tickets or orders shall be inscribed in the following manner:

(1) The ticket or order for the connecting transportation from or to a point outside the United States shall be inscribed or stamped with an appropriate legend (for example, "Not to be used again for purchase of tax-free United States transportation") to show that the United States portion has been purchased tax free for use in conjunction therewith.

(2) Where the ticket for the United States portion is issued outside the United States, it shall be inscribed to show (i) the identity of the agency or carrier which received payment therefor (unless otherwise shown on the ticket), (ii) the origin and destination of the connecting transportation, (iii) the identity of the carrier furnishing the connecting transportation, and (iv) the serial number of the ticket or order covering such connecting transportation. If the ticket is not large enough to accommodate the prescribed inscription, a statement setting forth the required information shall be attached to such ticket.

(3) Where an order for the United States portion is issued outside the United States, it shall be inscribed to show (i) the origin and destination of the connecting transportation, (ii) the identity of the carrier furnishing the connecting transportation, and (iii) the serial number of the ticket or order covering such connecting transportation.

(d) *Ticket issued pursuant to inscribed order.* Where the ticket for the United States portion is issued in the United States pursuant to an order which was purchased and properly inscribed outside the United States under the rules set forth in paragraph (c) (3) of this section liability for payment or collection of tax will not be incurred upon the issuance of the ticket provided the agency or carrier issuing such ticket stamps or inscribes thereon an appropriate legend, for example, "Tax not paid—furnished on order", or "Exempt—order".

(e) *Maintenance of records.* In any case where a payment for the United States portion is not subject to tax under the rules set forth in this section, the carrier furnishing transportation for the United States portion shall procure and maintain appropriate evidence which will clearly show that the tickets or orders for such transportation were purchased for use in conjunction with connecting transportation from or to a point outside the United States.

(f) *Examples.* The following are examples of nontaxable transportation:

Example (1). Y travels from London, England, to San Francisco by way of New York. He purchases from an agency or carrier in England all of the transportation involved in such journey, which includes air transportation from London to New York and from New York to San Francisco, for which separate tickets are issued. The agency or carrier which receives the payment for Y's transportation from New York to San Francisco will not be required to collect tax with respect to the payment, provided it determines at the time such payment is received that the transportation in question is being purchased for use in conjunction with the connecting transportation from London to New York and it appropriately inscribes both of the tickets for the journey.

Example (2). Z travels from Havana, Cuba, to New York by way of Miami. He purchases in Havana, Cuba, a ticket for his transportation by water from Havana to Miami, and later purchases from a travel agency in Havana air transportation from Miami to New York for which the travel agency issues an exchange order. To establish the nontaxable character of the payment for Z's transportation from Miami to New York the travel agency shall determine at the time payment is received by it that the transportation in question is being purchased for use in conjunction with the connecting transportation from Havana to Miami, and shall make the appropriate inscription on the ticket and the order. The carrier which accepts the exchange order and issues the ticket for the transportation from Miami to New York will not be required to collect tax with respect to the ticket so issued if it appropriately inscribes the ticket as provided in paragraph (d) of this section.

§ 42.4261–7 *Examples of payments subject to tax.* The following are examples of payments for transportation which, unless otherwise exempt under section 4263, 4292, or 4293, are subject to tax.

(a) *Cash fares.* The tax applies to payments of so-called "cash fares" where no ticket or other evidence of the right to transportation is issued to the passenger.

(b) *Scrip books.* The tax applies to the amount paid for scrip books. The tax shall be collected from the purchaser at the time the scrip book is sold, and not when and as the scrip is used for transportation.

(c) *Additional charges.* Amounts paid as additional charges for changing the class of accommodations, changing the destination or route, extending the time limit of a ticket, as "extra fare", or for exclusive occupancy of a section, etc., are subject to the tax.

(d) *Round-trip tickets.* An amount in excess of 60 cents paid for a round-trip ticket is taxable (1) if the one-way fare of like class is more than 60 cents, or (2) if there is no established one-way fare of like class.

(e) *Commutation or season tickets.* (1) An amount paid for a commutation or season ticket good for more than one month is subject to tax where the single trip is 30 miles or more. For this purpose the term "30 miles" means 30 constructive miles where the rate for transportation is fixed on the constructive mileage. The tax shall be collected from the purchaser at the time of payment for the commutation or season ticket, and not when and as the ticket is used for transportation.

(2) In the event that a partly used exempt commutation or season ticket is redeemed and the carrier makes a charge at regular rates for the used portion of the ticket, the tax applies to such charge, if the one-way fare is more than 60 cents.

(f) *Prepaid orders, exchange orders, or similar orders.* The tax applies to the amount paid for a prepaid order, exchange order, or similar order for transportation. An additional amount paid in procuring transportation in connection with the use of a prepaid order, exchange order, or similar order, is likewise subject to tax.

(g) *Combinations of rail, motor vehicle, water, or air transportation.* The tax applies to the total amount paid for transportation over the lines of a number of connecting carriers; and also to the total amount paid for any combination of rail, motor vehicle, water, or air transportation, such as rail-air line, air line-motor bus, or motor bus-steamship, etc.

(h) *Chartered conveyances.* (1) An amount paid for the charter of a special car, train, motor vehicle, aircraft, or boat for transportation purposes, provided no charge is made by the charterer to the persons transported, is subject to tax if the amount paid represents a per capita charge of more than 60 cents for each person actually transported. For the exemption of amounts paid for transportation of persons on boats chartered for fishing purposes, see § 42.4263 (c)–1.

(2) The charterer of a conveyance who sells transportation to other persons must collect and account for the tax with respect to all amounts paid to him for transportation which are in excess of 60 cents. In such case, no tax will be due on the amount paid for the charter of the conveyance but it shall be the duty of the owner of the conveyance to advise the charterer of his liability for collecting and accounting for the tax.

(i) *All-expense tours.* An amount paid for an all-expense tour is subject to tax with respect to that portion representing taxable transportation.

(j) *Payments remitted to foreign countries by persons in the United States.* Payments for transportation tickets, prepaid orders, exchange orders, or similar orders are subject to the tax where the payment for such tickets or orders is accomplished by the purchaser either (1) by transmission from within the United States via telegraph or mail of cash, checks, postal or telegraphic money orders, and similar drafts to ticket offices or travel agencies, etc., located in any place without the United States, or (2) by the delivery of the funds to an agency located in the United States for transmission to ticket offices, or travel agencies, etc., without the United States. Such payments are considered to be payments made within the United States.

§ 42.4261–8 *Examples of payments not subject to tax.* In addition to payments specifically exempt under sections 4263, 4292, and 4293 the following are examples of payments not subject to tax.

(a) *Exchange of prepaid order, scrip, etc., for tickets.* A ticket issued pursuant to an exchange order, prepaid order, airline pilot order, or scrip, is not subject to tax where the tax is paid at the time of payment for the order or scrip.

(b) *Caretakers and messengers accompanying freight shipments.* The tax on the transportation of persons does not apply to an amount paid for transportation of freight that includes also the transportation of caretakers or messengers for which no specific charge as such is made. However, such amount is subject to the tax on the transportation of property imposed by section 4271.

(c) *Special baggage cars.* An amount paid for a special baggage car is not subject to the tax on the transportation of persons if separable from the payment for transportation of persons and if shown in the exact amount of the charge on the records covering the taxable transportation payment. However, such amount is subject to the tax on the transportation of property imposed by section 4271.

(d) *Circus or show trains.* The amount paid pursuant to a contract for the movement of a circus or show train where the amount covers only the transportation of the performers, laborers, animals, equipment, etc., by the circus or show train is not subject to the tax on the transportation of persons imposed by section 4261, but is subject to the tax on the transportation of property imposed by section 4271. However, if the contract payment also covers the issuance to advance agents, bill posters, etc., of circus or show scrip books, or other evidence of the right to transportation, for use on regular passenger trains, that portion of the contract payment properly allocable to such scrip books or other evidence is subject to the tax on the transportation of persons. The balance of the contract payment is subject to the tax on the transportation of property.

(e) *Corpses.* The tax on the transportation of persons does not apply to the amount paid for the transportation of a corpse, but does apply to the amount paid for the transportation of any person accompanying the corpse. The amount paid for the transportation of the corpse is subject to the tax on the transportation of property imposed by section 4271.

(f) *Miscellaneous charges.* Where the charge is separable from the payment for the transportation of a person and is shown in the exact amount thereof on the records pertaining to the transportation payment, the tax on the transportation of persons does not apply to the following and simliar charges:

(1) Charges for transportation of baggage, including incidental charges such as excess value, storage, transfer, parcel checking, special delivery, etc.

(2) Charges for transportation of an automobile in connection with the transportation of a person.

(3) Charges for bridge or road toll, or a ferry charge of 60 cents or less, made in connection with the transportation of a person by bus. Charges incurred by the carrier which are part of its costs of operation, such as bridge tolls, road tolls, or ferry charges, paid by the carrier on account of the bus and driver, cannot be deducted from the charge made to the passenger in determining the taxable charges for transportation.

(4) Charges for admissions, guides, meals, hotel accommodations, and other nontransportation services, for example, where such items are included in a lump sum payment for an all-expense tour.

(5) Charges in connection with the charter of a land, water, or air conveyance for the transportation of persons, such as for parking, icing, sanitation, "layover" or "waiting time", movement of equipment in deadhead service, dockage, wharfage, etc.

In the case of subparagraphs (1) and (2) of this paragraph the amounts paid are, however, subject to the tax on the transportation of property imposed by section 4271.

§ 42.4261–9 *Seats and berths; rate and application of tax.* (a) Section 4261 (c) imposes a tax upon payments of any amount for seating or sleeping accommodations in connection with transportation with respect to which a tax is imposed by section 4261 (a) or (b).

(b) The tax is 10 percent of the amount of the taxable payment for the seating or sleeping accommodations.

(c) The rules and provisions of §§ 42.4261–1 to 42.4261–6, inclusive, with respect to the tax on payments for transportation imposed by section 4261 (a) or (b) are also applicable to the tax on payments for seating or sleeping accommodations.

§ 42.4261–10 *By whom paid.* The tax imposed by section 4261 is payable by the person making the taxable payment for transportation or for seats, berths, etc., and is collectible by the person receiving such payment. See section 4264 (a) and (c) for special rules relating to payment and collection of tax.

§ 42.4262 (a) *Statutory provisions; taxable transportation.*

SEC. 4262. *Definition of taxable transportation*—(a) *Taxable transportation; in general.* For purposes of this part, except as provided in subsection (b), the term "taxable transportation" means—

(1) Transportation which begins in the United States or in the 225-mile zone and ends in the United States or in the 225-mile zone; and

(2) In the case of transportation other than transportation described in paragraph (1), that portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States.

[Section 4262 (a) as added by section 3 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956]

§ 42.4262 (a)–1 *Taxable transportation*—(a) *In general.* Except as excluded under section 4262 (b) (see § 42.4262 (b)–1), taxable transportation means—

(1) Transportation which begins in the United States or in that portion of Canada or Mexico which is not more than 225 miles from the nearest point in the continental United States (the "225-mile zone") and ends in the United States or in the 225-mile zone; and

(2) In the case of any other transportation, that portion of such transportation which is directly or indirectly from one port or station in the United States to another port or station in the United States. Transportation from one port or station in the United States to another port or station in the United States occurs whenever a carrier, after leaving any port or station in the United States, makes a stop at another port or station in the United States. In determining whether a stop takes place, the purpose for which the carrier stops (except for emergencies), whether stop-overs are

permitted or whether the passenger disembarks, is immaterial.

(b) *Illustrations of taxable transportation under section 4262 (a) (1).* In each of the following examples the transportation is taxable transportation and the amount paid within the United States for such transportation is subject to the tax:

(1) New York to Seattle;

(2) New York to Vancouver, Canada, with a stop at Jasper, Canada;

(3) Chicago to Monterrey, Mexico;

(4) Montreal, Canada, to Toronto, Canada; and

(5) Miami to Los Angeles via Panama.

If in subparagraphs (1) and (5) of this paragraph, payment for the transportation had been made outside the United States, such payment would nevertheless have been subject to tax since in each case the transportation begins and ends in the United States.

(c) *Illustrations of taxable transportation under section 4262 (a) (2).* The following examples will illustrate the application of section 4262 (a) (2):

Example (1). A purchases in New York a round-trip ticket for transportation by air from New York to Havana, Cuba, with a stop at Miami. The amount paid for that part of the transportation between New York and Miami on both going and return trips is subject to tax, since such transportation is from one station in the United States to another station in the United States.

Example (2). B purchases a ticket in San Francisco for combination rail and water transportation from San Francisco to New York to Halifax, Canada, to London, England. The amount paid for that part of the transportation between San Francisco and New York is subject to tax, since such transportation is from one station in the United States to another station in the United States. Although Halifax is in the 225-mile zone, the transportation between New York and Halifax is not taxable because it is not transportation from one port in the United States to another port in the United States.

Example (3). C purchases a ticket in Seattle for transportation from Seattle to Lisbon, Portugal, with stops at Vancouver, Edmonton, and Montreal, Canada, and New York. The amount paid for that part of the transportation from Seattle to New York is subject to tax, since it is indirectly from one station in the United States to another station in the United States.

Example (4). E purchases in Chicago a ticket for transportation by air from Chicago to New York to Gander, Newfoundland, to London, England. Only the amount paid for that part of the transportation between Chicago and New York is subject to tax. If, while on the New York-Gander leg of the journey the aircraft is forced to land at Boston, because of weather or other emergency, no tax is imposed by reason of such emergency stop.

Example (5). G charters a plane in New York for transportation to Bogota, Colombia, and pays the charter charges in New York. The plane stops at Miami for refueling. The tax attaches with respect to that part of the transportation which is between New York and Miami.

(d) *Illustrations of transportation which is not taxable transportation.* The following examples will illustrate transportation which is not taxable transportation:

(1) New York to Trinidad by water with no stops in the United States;

(2) Minneapolis to Edmonton, Canada, with a stop at Winnipeg, Canada; and

(3) Los Angeles to Mexico City, Mexico, with stops at Tia Juana and Guadalajara, Mexico.

Amounts paid for the transportation referred to in the examples in this paragraph are not subject to the tax regardless of where payment is made, since none of the trips (i) begins in the United States or the 225-mile zone and ends in the United States or the 225-mile zone, nor (ii) contains a portion which is directly or indirectly from one port or station in the United States to another port or station in the United States.

§ 42.4262 (b) *Statutory provisions; exclusion of certain travel.*

SEC. 4262. *Definition of taxable transportation.* • • •

(b) *Exclusion of certain travel.* For purposes of this part, the term "taxable transportation" does not include that portion of any transportation which meets all 4 of the following requirements:

(1) Such portion is outside the United States;

(2) Neither such portion nor any segment thereof is directly or indirectly—

(A) Between (i) a point where the route of the transportation leaves or enters the continental United States, or (ii) a port or station in the 225-mile zone, and

(B) A port or station in the 225-mile zone;

(3) Such portion—

(A) Begins at either (i) the point where the route of the transportation leaves the United States, or (ii) a port or station in the 225-mile zone, and

(B) Ends at either (i) the point where the route of the transportation enters the United States, or (ii) a port or station in the 225-mile zone; and

(4) A direct line from the point (or the port or station) specified in paragraph (3) (A), to the point (or the port or station) specified in paragraph (3) (B), passes through or over a point which is not within 225 miles of the United States.

[Section 4262 (b) as added by section 3 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956]

§ 42.4262 (b)–1 *Exclusion of certain travel*—(a) *In general.* Under section 4262 (b) taxable transportation does not include that portion of any transportation which meets all four of the following requirements:

(1) Such portion is outside the United States;

(2) Neither such portion nor any segment thereof is directly or indirectly—

(i) Between (*a*) a point where the route of the transportation leaves or enters the continental United States, or (*b*) a port or station in the 225-mile zone, and

(ii) A port or station in the 225-mile zone;

(3) Such portion—

(i) Begins at either (*a*) the point where the route of the transportation leaves the United States, or (*b*) a port or station in the 225-mile zone, and

(ii) Ends at either (*a*) the point where the route of the transportation enters the United States, or (*b*) a port or station in the 225-mile zone; and

(4) A direct line from the point (or the port or station) specified in subparagraph (3) (i) of this paragraph, to the point (or the port or station) specified in subpardgraph (3) (ii) of this paragraph, passes through or over a point which is not within 225 miles of the United States.

For purposes of this section, the route of the transportation shall be deemed to leave or enter the United States when it passes over (1) the international boundary line between any part of the United States and a contiguous foreign country, or (2) a point three nautical miles (3.45 statute miles) from low tide on the coast line.

(b) *Transportation to or from the Territories of Alaska and Hawaii.* (1) Under the provisions of section 4262 (b) transportation between the continental United States or the 225-mile zone and the Territory of Alaska or the Territory of Hawaii will be partially exempt from the tax. The portion of such transportation which (i) is outside the United States, (ii) is not transportation between ports or stations within the continental United States or the 225-mile zone, and (iii) is not transportation between ports or stations within the Territory of Alaska or the Territory of Hawaii, meets all the requirements set forth in section 4262 (b) and is excluded from taxable transportation.

(2) The provisions of subparagraph (1) of this paragraph may be illustrated by the following examples:

Example (1). A buys a ticket for transportation by air from Seattle to Fairbanks, Alaska, via Ketchikan, and Juneau, Alaska, and Whitehorse, Yukon Territory, Canada. The portion of the transportation between the point where the route of the transportation leaves the continental United States and the point where it first enters Alaska is not subject to tax.

Example (2). B purchases a ticket in the United States for transportation by air from Vancouver, Canada, to Honolulu, T. H. No part of the route followed by the carrier passes through or over any part of the continental United States. The only part of the payment made by B for this transportation which is subject to the tax is that applicable to the portion of the transportation between the three mile limit off the coast of Hawaii and the airport in Honolulu.

(c) *Method of computing tax on travel not excluded.* (1) Where a payment is made for transportation which includes transportation excluded under the provisions of section 4262 (b)—

(i) The tax may be computed on that proportion of the total amount paid which the mileage of the taxable portion of the transportation bears to the mileage of the entire trip, or

(ii) If the taxable portion of the transportation includes transportation from one port or station to another port or station for which an applicable local fare of a like class is available, the tax may be computed on the amount of such local fare, plus an amount equivalent to that proportion of the remainder of the total amount paid which the mileage of the remainder of the taxable portion of the transportation bears to the remainder of the mileage of the entire trip. In the absence of such a local fare, the tax must be computed in accordance with subdivision (i) of this subparagraph.

(2) The basis for determining the proportions described in subparagraph (1) (i) and (ii) in this paragraph shall be the average mileage of the established route traveled by the carrier between given points under normal circumstances.

(d) *Illustration.* The application of § 42.4262 (b)–1 (c) may be illustrated by the following example:

Example. A purchases in San Francisco a ticket for transportation by air to Honolulu, T. H. The portion of the transportation which is outside the continental United States and is outside the Territory of Hawaii is excluded from taxable transportation. The tax applies to that part of the payment made by A which is applicable to the portion of the transportation between the airport in San Francisco and the three-mile limit off the coast of California (a distance of 15 miles) and between the three-mile limit off the coast of Hawaii and the airport in Honolulu (a distance of 5 miles). The part of the payment made by A which is applicable to the taxable portion of his transportation and the tax due thereon are computed in accordance with paragraph (c) (1) of this section as follows:

Mileage of entire trip (San Francisco airport to Honolulu airport)	2,400 miles.	
Mileage in continental United States	15	
Mileage in Hawaii	5	
	20 miles.	
Fare from San Francisco to Honolulu		$168.00.
Payment for taxable portion (20/2400 × $168)		$1.40.
Tax due (10% × $1.40)		$0.14.

All distances and fare assumed for purposes of this example.

§ 42.4262 (c) *Statutory provisions; definitions; continental United States; 225-mile zone.*

SEC. 4262. *Definition of taxable transportation.* • • •

(c) *Definitions.* For purposes of this section—

(1) *Continental United States.* The term "continental United States" means the existing 48 States and the District of Columbia.

(2) *225-mile zone.* The term "225-mile zone" means that portion of Canada and Mexico which is not more than 225 miles from the nearest point in the continental United States.

[Section 4262 (c) as added by section 3 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956]

§ 42.4262 (c)–1 *Definitions*—(a) *The continental United States.* For the purposes of this subpart, the term "continental United States" means the existing 48 States and the District of Columbia, plus a distance of 3 nautical miles (3.45 statute miles) from low tide on the coast line.

(b) *The 225-mile zone.* For purposes of this subpart, the term "225-mile zone" means that portion of Canada and Mexico which is not more than 225 miles from the nearest point in the continental United States. Whether any point in Canada or Mexico is not more than 225 miles from the continental United States is to be determined by measuring the distance from such point to the nearest point on the boundary of the continental United States.

§ 42.4263 (a) *Statutory provisions; exemptions; commutation travel.*

SEC. 4263. *Exemptions*—(a) *Commutation travel, etc.* The tax imposed by section 4261 shall not apply to amounts paid for transportation which do not exceed 60 cents, to amounts paid for commutation or season tickets for single trips of less than 30 miles, or to amounts paid for commutation tickets for one month or less.

[Section 4262 (b), redesignated section 4263 (a) by section 2 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956, and as amended by Pub. Law 1015 (70 Stat. 1077) approved August 7, 1956]

§ 42.4263 (a)–1 *Commutation tickets.* (a) Amounts paid for commutation or season tickets or books for single trips of less than 30 miles are exempt from the tax imposed under section 4261, regardless of the length of time for which such tickets or books are valid. The phrase "less than 30 miles" means less than 30 constructive miles in instances where the charge is based on constructive mileage.

(b) Amounts paid for commutation tickets or books for one month or less are exempt from the tax regardless of the distance of a single trip.

§ 42.4263 (a)–2 *Charges not exceeding 60 cents*—(a) *In general.* The tax imposed by section 4261 does not apply to transportation payments of 60 cents or less.

(b) *Round trips.* The exemption is determined by the amount paid for a single one-way trip. Thus, an amount of more than 60 cents paid for round-trip transportation is exempt from tax, if the regular one-way single fare of like class between the terminal points of the round trip does not exceed 60 cents.

(c) *Charters.* An amount paid for the charter of a car, train, motor vehicle, aircraft, or boat is exempt from the tax, if the payment represents a per capita charge of 60 cents or less for each person actually transported.

(d) *Seating or sleeping accommodations.* Any amount paid for seating or sleeping accommodations is not subject to tax under section 4261 (c) where the amount of the related payment for transportation is 60 cents or less. However, where the payment for transportation exceeds 60 cents, a payment for seating or sleeping accommodations in connection with such transportation is subject to the tax regardless of the amount thereof.

§ 42.4263 (b) *Statutory provisions; exemptions; small vehicles on nonestablished lines.*

SEC. 4263. *Exemptions.* • • •

(b) *Small vehicles on nonestablished lines.* The tax imposed by section 4261 shall not apply to transportation by motor vehicles having a passenger seating capacity of less than ten adult passengers, including the driver, except when such vehicle is operated on an established line.

[Section 4262 (c), redesignated section 4263 (b) by section 2 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956]

§ 42.4263 (b)–1 *Motor vehicles with seating capacity of less than ten.* No tax is imposed under section 4261 on transportation by a motor vehicle having a seating capacity of less than ten adult passengers, including the driver, unless such vehicle is operated on an established line. The term "operated on an established line" means operated with some degree of regularity between definite points. It does not necessarily mean that strict regularity of schedule is maintained; that the full run is always made; that a particular route is followed; or that intermediate stops are restricted. The term implies that the person rendering the service maintains and exercises control over the direction, route, time, number of passengers carried, etc.

§ 42.4263 (c) *Statutory provisions; exemptions; fishing trips.*

SEC. 4263. *Exemptions.* • • •

(c) *Fishing trips.* The tax imposed by section 4261 shall not apply to amounts paid for transportation by boat for the purpose of fishing from such boat.

[Section 4262 (d), redesignated section 4263 (c) by section 2 of Public Law 796 (70 Stat. 644) approved July 25, 1956]

§ 42.4263 (c)–1 *Fishing trips.* No tax is imposed under section 4261 upon any amount paid for transportation by boat where the transportation is for the purpose of fishing from such boat.

§ 42.4263 (d) *Statutory provisions; exemptions; certain organizations.*

SEC. 4263. *Exemptions.* • • •

(d) *Certain organizations.* The tax imposed by section 4261 shall not apply to the payment for transportation or facilities furnished to an international organization, or any corporation created by act of Congress to act in matters of relief under the treaty of Geneva of August 22, 1864.

(Section 4262 (e), redesignated section 4263 (d) by section 2 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956)

§ 42.4263 (d)–1 *Transportation furnished to certain organizations*—(a) *The American National Red Cross.* The tax imposed by section 4261 does not apply to amounts paid for transportation or facilities furnished to any corporation created by act of Congress to act in matters of relief under the treaty of Geneva of August 22, 1864 (The American National Red Cross).

(b) *International organizations.* The tax imposed by section 4261 does not apply to amounts paid for transportation or facilities furnished to an international organization. See section 7701 (a) (18) for the definition of "international organization". An international organization is designated as such by the President through an Executive order or orders. When an organization has been designated by the President as entitled to enjoy the privileges, exemptions and immunities conferred by the International Organizations Immunities Act, or part thereof, including exemption from the tax, the exemption applies to amounts so paid unless the President otherwise provides. The exemption is subject to withdrawal or revocation by the President. In case of withdrawal or revocation, unless otherwise provided by the President, the exemption is inapplicable to payments on or after the date of issuance of the order of withdrawal or the date of revocation.

(c) *Evidence of right to exemption.* The right to exemption under section 4263 (d) shall be established by the use of exemption certificate, Form 731. See § 42.4292–1 (b) for the rules applicable

when the right to exemption is evidenced by exemption certificates.

§ 42.4263 (e) *Statutory provisions; exemptions; members of the armed forces.*

SEC. 4263. *Exemptions.* • • •

(e) *Members of the armed forces.* The tax imposed by section 4261 shall not apply to the payment for transportation or facilities furnished under special tariffs providing for fares of not more than 2.025 cents per mile applicable to round-trip tickets sold to personnel of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard traveling in uniform of the United States at their own expense when on official leave, furlough, or pass, including authorized cadets and midshipmen, issued on presentation of properly executed certificate.

[Section 4262 (f), redesignated section 4263 (e) by section 2 of Pub. Law 796 (70 Stat. 644) approved July 25, 1956]

§ 42.4263 (e)–1 *Members of the armed forces.* The tax imposed by section 4261 does not apply to amounts paid for transportation or for seating or sleeping accommodations furnished under special tariffs providing for fares of not more than 2.025 cents per mile applicable to round-trip tickets sold to personnel of the United States Army, Air Force, Navy, Marine Corps, and Coast Guard, including authorized cadets and midshipmen, traveling in unlform of the United States at their own expense when on official leave, furlough, or pass. A person claiming exemption under this section will be required to exhibit to the agent of the carrier a properly executed certificate to show that he is traveling on official leave, furlough, or pass, but the submission of an exemption certificate on Form 731 is not necessary in such case.

§ 42.4264 (a) *Statutory provisions; special rules; payments made outside the United States for prepaid orders.*

SEC. 4264. *Special rules.*

(a) *Payments made outside the United States for prepaid orders.* If the payment upon which tax is imposed by section 4261 is made outside the United States for a prepaid order, exchange order, or similar order, the person furnishing the initial transportation pursuant to such order shall collect the amount of the tax.

[Section 4264 (a) as added by section 4 (a) of Pub. Law 796 (70 Stat. 645) approved July 25, 1956]

§ 42.4264 (a)–1 *Duty to collect the tax; payments made outside the United States.* Where payment is made outside the United States for a prepaid order, exchange order, or similar order for transportation which begins and ends in the United States or for seating or sleeping accommodations in connection therewith, the person furnishing the initial transportation pursuant to such order shall collect all the tax applicable to such transportation or accommodations. See section 4291 and the regulations thereunder for cases where persons receiving payment must collect the tax.

§ 42.4264 (b) *Statutory provisions; special rules; tax deducted upon refunds.*

SEC. 4264. *Special rules.* • • •

(b) *Tax deducted upon refunds.* Every person who refunds any amount with respect to a ticket or order which was purchased without payment of the tax imposed by section 4261, shall deduct from the amount refundable, to the extent available, any tax due under such section as a result of the use of a portion of the transportation purchased in connection with such ticket or order, and shall report to the Secretary or his delegate the amount of any such tax remaining uncollected.

[Section 4264 (b) as added by section 4 (a) of Pub. Law 796 (70 Stat. 645) approved July 25, 1956]

§ 42.4264 (b)–1 *Duty to collect the tax in the case of certain refunds*—(a) *Special rule for collection of tax.* Section 4264 (b) provides a special rule for the collection of the tax where an unused ticket or order (or portion thereof) purchased without payment of tax is presented for refund and, as a result of the use of only a portion of the transportation purchased in connection with such ticket or order, liability for payment of tax has been incurred. In such a case, the person making the refund shall deduct the amount of the tax due, to the extent available, from the amount which would otherwise be refundable. If the redemption value of the unused ticket or order (or portion thereof) is less than the amount of the tax due on the amount paid for the travel actually performed, the person redeeming the unused ticket or order (or portion thereof) shall make no refund but shall apply the entire amount against the tax due and shall, within 90 days, make a report of the amount of the tax remaining uncollected, together with the name and address of the person who sought the refund. The report shall be made to the office of the district director of internal revenue for the district in which the person making such report is located, and a copy of the report shall be furnished to the person presenting the unused ticket or order for redemption.

(b) *Return of tax.* Any person who has made a collection of tax in accordance with the preceding paragraph shall include such amount in his regular return of taxes required to be collected under section 4291.

(c) *Illustration.* A carrier receives for redemption a ticket purchased in the United States for transportation from Calgary, Canada, to Edmonton, Canada, which the purchaser bought for use in conjunction with a ticket for non-stop transportation from Seattle to Calgary. The person applying for the refund does not establish to the satisfaction of the carrier that the tax on the Seattle-Calgary ticket has been paid or that the Seattle-Calgary ticket has been redeemed. The carrier, before making any refund for the unused ticket, is required to deduct from the amount otherwise refundable the tax applicable to the amount paid by the purchaser for the transportation from Seattle to Calgary and to report the tax so collected in its quarterly return on Form 720. In the event that the redemption value of the unused Calgary to Edmonton ticket is less than the amount of the tax due on the amount paid for the transportation from Seattle to Calgary, the carrier should not make any refund to the purchaser but should apply against the outstanding tax the entire amount refundable and should make a report, within 90 days, to the office of the district director of internal revenue for the district in which the carrier is located, setting forth the name and address of the purchaser and the amount of the tax remaining uncollected.

§ 42.4264 (c) *Statutory provisions; special rules; payment of tax.*

SEC. 4264. *Special rules.* • • •

(c) *Payment of tax.* Where any tax imposed by section 4261 is not paid at the time payment for transportation is made, then, under regulations prescribed by the Secretary or his delegate, to the extent that such tax is not collected under any other provision of this subchapter—

(1) Such tax shall be paid by the person paying for the transportation or by the person using the transportation;

(2) Such tax shall be paid within such time as the Secretary or his delegate shall prescribe by regulations after whichever of the following first occurs:

(A) The rights to the transportation expire; or

(B) The time when the transportation becomes subject to tax; and

(3) Payment of such tax shall be made to the person to whom the payment for transportation was made or to the Secretary or his delegate.

[Section 4264 (c) as added by section 4 (a) of Pub. Law 796 (70 Stat. 645) approved July 25, 1956]

§ 42.4264 (c)–1 *Special rule for the payment of tax*—(a) *Rule.* When any tax imposed by section 4261 is not paid at the time payment for the transportation is made, then to the extent that such tax is not collected under any other provision of law, such tax shall be paid by the person paying for the transportation or by the person using the transportation. The provisions of section 4264 (c) apply where the amount paid for transportation is (1) subject to tax at the time such payment is made, but no tax is paid at that time, or (2) not subject to tax at the time such payment is made, but because of some subsequent event the payment becomes subject to tax. The payment of tax shall be made to the district director of internal revenue for the district in which the taxpayer resides, or to the person from whom the transportation was purchased, within thirty days after whichever of the following first occurs: (i) The rights to the transportation expire, or (ii) the transportation becomes subject to tax. Such payment shall be accompanied with an explanation that it is being made in accordance with section 4264 (c).

(b) *Relationship to other sections.* Section 4264 (c) and this section are not intended in any way to relieve the person receiving the payment for taxable transportation of persons from his duty under section 4291 of collecting the tax at the time such payment is received by him. The provisions of section 4264 (c) and this section also do not apply in any case where the tax is collected in the manner provided in section 4264 (a) or (b) or in other provisions of law.

(c) *Illustration.* The provisions of this section may be illustrated by the following example:

Example: A purchases in New York a round-trip ticket for transportation between New York and London, England, with a stop-over in Montreal, Canada. After arriving in Montreal A decides not to continue his trip to London and returns to New York. A is liable for tax with respect to the amount paid for his transportation from New York to Montreal and return. A's transportation became taxable transportation at the time he began his return trip to New York, and within thirty days thereafter A must pay the tax to either the person from whom he purchased the ticket or the appropriate district director of internal revenue.

§ 42.4264 (d) *Statutory provisions; special rules; application of tax.*

SEC. 4264. *Special rules.* • • •

(d) *Application of tax.* The tax imposed by section 4261 shall apply to any amount paid within the United States for transportation of any person unless the taxpayer establishes, pursuant to regulations prescribed by the Secretary or his delegate, at the time of payment for the transportation, that the transportation is not transportation in respect of which tax is imposed by section 4261.

[Section 4264 (d) as added by section 4 (a) of Pub. Law 796 (70 Stat. 645) approved July 25, 1956]

§ 42.4264 (d)–1 *Cross reference.* For the rules applicable under section 4264 (d) see § 42.4261–4.

§ 42.4264 (e) *Statutory provisions; special rules; round trips.*

SEC. 4264. *Special rules.* • • •

(e) *Round trips.* In applying this part to a round trip, such round trip shall be considered to consist of transportation from the point of departure to the destination, and of separate transportation thereafter.

[Section 4264 (e) as added by section 4 (a) of Pub. Law 796 (70 Stat. 645) approved July 25, 1956]

§ 42.4264 (e)–1 *Round trips*—(a) *In general.* For purposes of this subpart, a round trip shall be considered to consist of two separate trips, i. e., one trip from the point of departure to the destination and a second trip in returning from the destination. A round trip includes certain journeys in which the same routing is not followed on the return trip from the destination to the point of departure as was taken on the going trip (sometimes referred to as "circle trips"). In the case of a cruise or tour (i. e., transportation to no set destination but with one or more intermediate stops en route) the point farthest from the point of departure will be regarded as the destination for purposes of applying the term "round trip". If a cruise or tour ends at a point other than the one at which it began, the rules of "open jaw" transportation set forth in paragraph (b) of this section apply.

(b) *Open jaw transportation.* Transportation which qualifies under this paragraph as "open jaw" transportation will be treated in the same manner as a round trip. For purposes of this subpart, "open jaw" transportation means (1) transportation from the point of departure to a specified destination and return from the specified destination to a point other than the original point of departure, or (2) transportation from the point of departure to a specified destination and return from a point other than the specified destination to the original point of departure, provided that where the points of the open jaw are within the continental United States or the 225-mile zone, the distance between the points of the open jaw does not exceed the distance of the shorter segment traveled. For example, a trip from New York to New Orleans via Panama would be considered as one trip from New York to Panama and separate trip from Panama to New Orleans, since the distance between the points of the open jaw (i. e., New York and New Orleans) is shorter than the distance between Panama and New Orleans (the shorter of the two segments traveled). Both trips would be nontaxable. On the other hand, transportation from New York to Miami via Bermuda does not qualify as "open jaw" transportation and therefore would be considered a single trip from New York to Miami and would be taxable.

§ 42.4264 (f) *Statutory provisions; special rules; transportation outside the northern portion of the Western Hemisphere.*

SEC. 4264. *Special rules.* • • •

(f) *Transportation outside the northern portion of the Western Hemisphere.* In applying this part to transportation any part of which is outside the northern portion of the Western Hemisphere—

(1) If the route of such transportation leaves and re-enters the northern portion of the Western Hemisphere, such transportation shall be considered to consist of transportation to a point outside such northern portion, and of separate transportation thereafter.

(2) If such transportation is transportation by water on a vessel which makes one or more intermediate stops at ports within the United States on a voyage which begins or ends in the United States and ends or begins outside the northern portion of the Western Hemisphere, a stop at an intermediate port within the United States at which such vessel is not authorized both to discharge and to take on passengers shall not be considered to be a stop at a port within the United States.

For purposes of this subsection, the term "northern portion of the Western Hemisphere" means the area lying west of the 30th meridian west of Greenwich, east of the International Date Line, and north of the equator, but not including any country of South America.

[Section 4264 (f) as added by section 4 (a) of Pub. Law 796 (70 Stat. 645) approved July 25, 1956]

§ 42.4264 (f)–1 *Transportation outside the northern portion of the Western Hemisphere*—(a) *Transportation which leaves and re-enters the northern portion of the Western Hemisphere.* For purposes of this subpart, transportation, any part of which is outside the northern portion of the Western Hemisphere (as defined in paragraph (c) of this section) shall, if the route of the transportation leaves and re-enters the northern portion of the Western Hemisphere, be considered to consist of transportation to the point outside such northern portion and of separate transportation thereafter. The amount paid for such transportation will be considered to be a payment made for two trips and the taxability of the payment will be determined accordingly. Thus, an amount paid for transportation from New York to San Francisco with a stop at Caracas, Venezuela, will be considered an amount paid for a trip from New York to Caracas and for a separate trip from Caracas to San Francisco neither of which is taxable transportation.

(b) *Transportation by water on a vessel*—(1) *Special rule.* Section 4264 (f) (2) provides a special rule in the case of transportation, any part of which is outside the northern portion of the Western Hemisphere, by water on a vessel which makes one or more intermediate stops at ports within the United States on a voyage which (i) begins or ends in the United States, and (ii) ends or begins outside the northern portion of the Western Hemisphere. In such a case, a stop at an intermediate port within the United States at which such vessel is not authorized both to discharge and to take on passengers shall not be considered to be a stop at a port within the United States. A vessel is considered to be authorized both to discharge and to take on passengers at an intermediate port unless there is a legal or other authoritative prohibition of such traffic. For purposes of the preceding sentence, an order issued by the owner or operator of a vessel prohibiting such vessel from other discharging or taking on passengers at the intermediate port is not a legal or other authoritative prohibition of such traffic.

(2) *Illustrations.* The provisions of this paragraph may be illustrated by the following examples:

Example (1). A purchases a steamship ticket in New York for transportation from New York to Southampton, England. The vessel on which A sails makes an intermediate stop during the course of such voyage at Boston to take on passengers. The vessel is not, however, authorized to discharge passengers at such port. No tax applies to the portion of the transportation between New York and Boston since under section 4264 (f) (2) the vessel is not considered to have made a stop at Boston.

Example (2). B purchases a steamship ticket in San Francisco for a voyage from San Francisco to Tokyo, Japan. The vessel on which B travels makes a stop at Honolulu, T. H., to discharge passengers. The vessel is also permitted to take on passengers in Honolulu. Since the vessel is permitted both to discharge and take on passengers at the stop in Honolulu, the portion of the transportation between San Francisco and Hawaii not excluded under section 4262 (b) (i. e., the portion of such transportation between the pier in San Francisco and the three-mile limit off the coast of California and between the three-mile limit off the coast of Hawaii and the pier in Honolulu) is taxable under section 4262 (a) (2) as transportation from one port in the United States to another port in the United States.

(c) *Northern portion of the Western Hemisphere.* For purposes of this subpart, the term "northern portion of the Western Hemisphere" means the area lying west of the 30th meridian west of Greenwich, east of the International Date Line, and north of the equator, but not including any country of South America.

§ 42.4291 *Statutory provisions; cases where persons receiving payment must collect tax.*

SEC. 4291. *Cases where persons receiving payment must collect tax.* Except as pro-

vided in section 4264 (a), every person receiving any payment for facilities or services on which a tax is imposed upon the payor thereof under this chapter shall collect the amount of the tax from the person making such payment. • • •

[Section 4291 as amended by section 4 (c) of Pub. Law 796 (70 Stat. 646) approved July 25, 1956]

§ 42.4291–1 *Duty to collect tax.* Except as provided in section 4264 (a) and § 42.4264 (a)–1, the rules applicable under section 4291 by reason of Treasury Decision 6091, signed August 16, 1954, remain in full force and effect until superseded.

§ 42.4292 *Statutory provisions; State and local government exemption.*

SEC. 4292. *State and local governmental exemption.* Under regulations prescribed by the Secretary or his delegate, no tax shall be imposed under section • • • 4261 • • • upon (1) any payment received for services or facilities furnished to • • • the Government of any State, Territory of the United States, or any political subdivision of the foregoing or the District of Columbia.

§ 42.4292–1 *State and local government exemptions*—(a) *In general.* The tax imposed by section 4261 shall not apply to amounts paid by a State, Territory of the United States, any political subdivision of the foregoing, or the District of Columbia, for the transportation of persons or for seating or sleeping accommodations furnished therewith. Amounts paid for transportation or facilities by an officer or employee of a State, Territory, etc., who is traveling on a mileage or other allowance basis are exempt from tax where reimbursement is made to such officer or employee.

(b) *Evidence of right to exemption.* The right to exemption under section 4292 (referred to in paragraph (a) of this section) shall be established by the use of (1) government transportation requests, or (2) exemption certificates, Form 731. When exemption certificates are used a separate certificate must be furnished with respect to each amount paid for transportation or for seating or sleeping accommodations furnished in connection therewith. Where an exempt agency purchases transportation or facilities for a group of persons, as in the case of an officer conducting a number of prisoners, one certificate covering the total amount paid may be accepted by the carrier. Where an exempt agency makes periodic payments for transportation or facilities furnished officers or employees, one certificate covering the total amount paid at any one time may be accepted by the carrier. One exemption certificate covering a number of separate payments may not be accepted by the carrier. Every person claiming exemption from the tax must identify himself by presenting credentials in the form of papers, documents, or other evidence which will reasonably assure the agent of the carrier collecting a payment that he is the person covered by the exemption certificate issued on behalf of the exempt agency. The exemption certificate must be submitted to the carrier at the time the payment for transportation or facilities is made. The carrier will retain all exemption certificates accepted, with the record of services and facilities rendered, available for inspection by internal revenue officers for at least three years from the date the tax would have become due if payable.

§ 42.4293 *Statutory provisions; exemption for United States and possessions.*

SEC. 4293. *Exemption for United States and possessions.* The Secretary may authorize exemption from the taxes imposed by • • • subchapters • • • C of chapter 33, as to any particular • • • service or class of • • • services, to be purchased for the exclusive use of the United States. If he determines that the imposition of such taxes with respect to such • • • services, or class of • • • services will cause substantial burden or expense which can be avoided by granting tax exemption and that full benefit of such exemption, if granted, will accrue to the United States.

§ 42.4293–1 *Exemption for the United States and possessions.* The tax imposed by section 4261 does not apply to any payments for transportation of persons or for seating or sleeping accommodations in connection therewith furnished to the United States upon a United States of America Transportation Request.

HANDLING OF TOKAY GRAPES GROWN IN CALIFORNIA

NOTICE OF PROPOSED RULE MAKING WITH RESPECT TO EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1956–57 SEASON

Notice is hereby given that the Department is giving consideration to the following recommendations, submitted by the Industry Committee, established pursuant to the marketing agreement, as amended, and Order No. 51, as amended (7 CFR Part 951), regulating the handling of Tokay grapes grown in San Joaquin and Sacramento Counties in California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.).

(a) That the Secretary of Agriculture find that expenses not to exceed $27,050.00 are likely to be incurred by said committee during the season beginning April 1, 1956, and ending March 31, 1957, both dates inclusive, for its maintenance and functioning under the aforesaid amended marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the share of such expenses which each handler who first ships grapes shall pay in accordance with the provisions of the aforesaid amended marketing agreement and order during the aforesaid season, the rate of assessment at $0.006 per standard package, or the equivalent thereof in weight of Tokay grapes shipped by such handler during said season.

All persons who desire to submit written data, views, or arguments for consideration in connection with the aforesaid proposals may do so by mailing such to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, Room 2077, South Building, Washington 25, D. C., not later than the fifth day after the publication of this notice in the FEDERAL REGISTER.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

Dated: August 21, 1956.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11798]

TELEVISION BROADCAST STATIONS; BOZEMAN-HELENA, MONT.

ORDER EXTENDING TIME FOR FILING COMMENTS

In the matter of amendment of § 3.606 *Table of assignments*, Television Broadcast Stations (Bozeman-Helena, Montana).

1. On July 25, 1956, the Commission issued a Notice of Proposed Rule Making (FCC 56–750) instituting the subject rule making proceeding. The notice provided that comments should be filed on or before August 22, 1956, and that reply comments should be filed on or before September 1, 1956.

2. On August 15, 1956, Montana State College, filed a petition requesting the Commission to extend the time for filing comments to September 10, 1956.

3. In support of its request Montana State College states that it is concerned over the Commission's alternate proposal to delete the reservation of Channel 9 for an educational station at Bozeman and is in the process of preparing its comments; that additional time is required for the preparation of its comments in final form; and that the President of the College will be in Washington early in September to discuss the matter with the attorney for the petitioner.

4. The Commission believes that good cause for an extension of time for filing reply comments in this proceeding has been established and that such extension will serve the public interest, convenience and necessity.

5. In view of the foregoing: *It is ordered*, That the time for filing comments in the above-entitled proceeding is extended from August 22, 1956, to September 10, 1956, and that the time for filing reply comments is extended from September 1, 1956, to September 20, 1956.

Adopted: August 16, 1956.

Released: August 17, 1956.

HARDBOARD FROM SWEDEN

ANTIDUMPING

AUGUST 17, 1956.

The Acting Secretary of the Treasury partially rescinds the finding of dumping with respect to Swedish hardboard.

After due investigation, I find, as of August 17, 1956, that the following exporters of hardboard from Sweden are no longer selling, or likely to sell, hardboard in the United States at less than its fair value: Ankarsviks A/B, Backa-Hosjo A/B, Kramfors A/B, Ljusne-Woxna A/B, Wifstavarfs A B.

The finding of dumping made August 26, 1954, is modified accordingly.

MEMORANDUM OF AGREEMENT BETWEEN DEPARTMENT OF COMMERCE AND DEPARTMENT OF THE INTERIOR WITH RESPECT TO TRANSFER OF THE ALASKA ROAD COMMISSION FROM THE DEPARTMENT OF THE INTERIOR TO THE DEPARTMENT OF COMMERCE

By virtue of the authority vested in each of us under section 107 of the Federal-Aid Highway Act of 1956 (Public

Law 627, 84th Congress, 2d Session), and in the interests of the internal management of the Government, the following areas of agreement are set forth:

1. All records, property, personnel, funds and activities of the Alaska Road Commission shall be transferred from the Department of the Interior to the Department of Commerce, effective on September 16, 1956.

2. All records in the headquarters office of the Office of Territories, Department of the Interior, pertaining exclusively to the Alaska Road Commission, shall be transferred from the Department of the Interior to the Department of Commerce, effective on September 16, 1956.

3. Any claims pending before the Interior Board for Contract Appeals will be determined by that board and such determination will be binding upon the Department of Commerce.

4. Any existing contract, lease, easement, license, permit, or agreement heretofore entered into by or granted by or to the Department of the Interior by and through the Alaska Road Commission shall remain in full force and effect and shall be transferred to the Department of Commerce and shall be binding upon that Department.

5. All actions pursuant to this agreement will be consonant with applicable procedures approved by other appropriate Government agencies, including, but not limited to, the General Services Administration, Civil Service Commission, General Accounting Office, and Bureau of the Budget.

6. Such further measures as may be determined to be necessary to effectuate the purposes and provisions of this agreement shall be carried out in such manner as is mutually agreed upon by our representatives.

BUREAU OF THE BUDGET

ORDER TRANSFERRING TO TENNESSEE VALLEY AUTHORITY USE, POSSESSION, AND CONTROL OF CERTAIN RIGHTS-OF-WAY WITHIN THE AREA OF THE OLD HICKORY LOCK AND DAM PROJECT

By virtue of the authority vested in the President of the United States by section 7 (b) of the Tennessee Valley Authority Act of 1933, 48 Stat. 63, and delegated to the Director of the Bureau of the Budget by section 1 (i) of Executive Order No. 10530 of May 10, 1954, it is ordered that the use, possession, and control of the easement and right-of-way hereinafter described be, and they are, hereby transferred from the Department of the Army to the Tennessee Valley Authority, subject, however, to the right of the Department of the Army to flood said right-of-way as required by the operation and maintenance of the Old Hickory Lock and Dam. Said transfer is necessary and proper for the purposes of the Authority as stated in the said Tennessee Valley Authority Act of 1933, as amended:

A permanent easement and right-of-way, for the following purposes, namely: the perpetual right to enter at any time and from time to time and to erect, maintain, repair, rebuild, operate, and patrol one or more electric power transmission lines, and one or more telephone lines, including the right to erect poles and other transmission line structures, wires, cables, and any necessary appurtenances; the right to clear said right-of-way and keep the same clear of brush, trees, buildings, and fire hazards; and the right to remove danger trees, if any, located beyond the limits of said right-of-way; all over, upon, across, and under the following described tract of land:

A strip of land for a right-of-way located in the Fourth Civil District of Sumner County, State of Tennessee, as shown on a map entitled "South Nashville-Springfield Gallatin Tap Transmission Line" filed in the office of the Register of Sumner County, said strip being 100 feet wide, lying 50 feeet on each side of the centerline of a transmission line relocation, the centerline being more particularly described as follows:

Commencing at a point where the center line of the present location of the South Nashville-Springfield Gallatin Tap Transmission Line crosses the center line of a road, which is the east line of the land of the U. S. A. Corps of Engineers, U. S. Army and the west line of the land of E. N. Frye, at survey station 839+07 on the center line of said present location, said point being 53 feet, as measured along the center line of the road in a southerly direction, from the corner of the lands of the U. S. A. Corps of Engineers, U. S. Army and E. N. Frye; thence with the center line of the present location N. 78° 20' W., 370.1 feet to a point where there is an equation in stationing on the center line survey, survey station 835+36.9 on the center line of the relocation of the South Nashville-Springfield Gallatin Tap Transmission Line; thence, leaving the center line of the present location, with the center line of the relocation N. 41° 50' W., 84.1 feet to the point of beginning where the center line of the relocation crosses the north line of the present right-of-way at survey station 836+51.9, the strip being bounded on the southeast end by the said present right-of-way line, a line that bears S. 78° 20' E.; thence, entering the strip herein described, N 41° 50' W., 414.4 feet to survey station 832+37.5; thence N. 61° 26' W., 1449.5 feet to survey station 817+88.0; thence S. 62° 24' W., 591.3 feet to a point where the center line crosses the northeast line of the present right-of-way at survey station 811+96.7, the strip terminating at the said present right-of-way line, a line that bears S. 39° 55' E.

The above described strip of land is a continuous right-of-way 100 feet wide through the said property between the above named boundary lines and includes the center line for a net distance of 2455.2 feet.

PERCIVAL F. BRUNDAGE,
Director of the Bureau of the Budget.

[Docket No. G-10396 etc.]

AMERICAN LOUISIANA PIPE LINE CO. AND GULF REFINING CO.

NOTICE OF APPLICATIONS AND DATE OF HEARING

AUGUST 20, 1956.

In the matters of American Louisiana Pipe Line Company, Docket No. G-10396; Gulf Refining Company, Docket Nos. G-10398, G-10399, G-10400, G-10442 and G-10443.

Take notice that American Louisiana Pipe Line Company (American Louisiana), a Delaware corporation with principal place of business at 645 Griswold Street, Detroit 26, Michigan, filed on May 14, 1956, Docket No. G-10396, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing it to construct and operate certain facilities for the transportation and sale of natural gas, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

American Louisiana seeks a certificate of public convenience and necessity authorizing it to construct and operate (as additions to the facilities heretofore certificated in Docket No. G-2306) [1] 35.8 miles of 8⅝ inch "gathering" pipeline, meter and regulator stations, four new compressor stations with an aggregate of 42,000 horsepower and an addition of 2,000 horsepower to two of its three presently certificated compressor stations.

American Louisiana proposes to construct the facilities in two steps as follows:

"Step one" consists of the construction of two new 12,000 horsepower compressor stations, numbers 8 and 11 to be constructed in Indiana and Ohio, and the addition of 2,000 horsepower in each of the presently certificated compressor stations 3 and 6. American Louisiana proposes to complete this construction and place the additional facilities in operation by November 1, 1956, thereby increasing system daily delivery capacity from approximately 300,000 Mcf to approximately 360,000 Mcf of natural gas per day.[2]

"Step two" consists of the construction of two new compressor stations, numbers 2 and 5, one of 8,000 horsepower to be constructed in Louisiana and one of 10,000 horsepower to be constructed in Tennessee. American Louisiana proposes to complete and place in operation the two new compressor stations by July 1, 1957.

American Louisiana's overall system daily delivery capacity would be increased to approximately 400,000 Mcf of natural gas per day upon the completion and operation of all the proposed facilities.

American Louisiana proposes to construct and operate the 35.8 miles of 8⅝ inch "gathering" lines, as needed to enable it to purchase additional supplies of natural gas from Gulf Refining Company in five fields in Louisiana from which it is not now obtaining natural gas.

The estimated total cost of the additional facilities is $16,078,000.

Further take notice that Gulf Refining Company (Gulf) a Delaware corporation, filed on May 14, and May 21, 1956, the applications hereinafter referred to for certificates of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to sell natural gas to American Louisiana for transportation and resale in interstate commerce from the fields as shown in the several docketed applications as follows:

Docket No. G-10398; Krotz Springs, La.
Docket No. G-10399; Church Point, La.
Docket No. G-10400; West Little Chenier, La.
Docket No. G-10442; Hayes, La.
Docket No. G-10443; Washington, La.

The several foregoing applications are on file with the Commission and open for public inspection.

These related matters should be heard on a consolidated record and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the

[1] See In the Matters of American Louisiana Pipe Line Company, et al. Docket Nos. G-2306, et al., Opinion Nos. 276 and 291 issued October 1, 1954, and May 7, 1956, respectively.

[2] On July 13, 1956, American Louisiana filed an application for temporary authorization to proceed with "Step one" of its construction program, and temporary authorization therefor was granted by the Commission on August 8, 1956, without prejudice to the ultimate disposition of American Louisiana's application.

Commission's rules of practice and procedure, a hearing be held commencing on October 9, 1956 at 10:00 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by the applications in Docket Nos. G–10396, G–10398, G–10399, G–10400, G–10442 and G–10443.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 10, 1956.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1–3243]

WARREN PETROLEUM CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 20, 1956.

In the matter of Warren Petroleum Corporation, Common Stock, File No. 1–3243.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2–1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

All but 3,935 of the outstanding 1,947,925 shares of Warren Petroleum Corporation stock have been exchanged for shares of Gulf Oil Corporation capital stock, pursuant to an offer of the latter by prospectus dated February 1, 1956, according to advices dated August 3, 1956, from the Mellon National Bank & Trust Company, agent for the Gulf Oil Corporation. In the opinion of the Exchange, further dealings on its floor in Warren Petroleum Corporation stock are inadvisable and dealings were suspended therein before the opening of the trading session on August 8, 1956.

Upon receipt of a request, on or before September 4, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

CONTINENTAL FOUNDRY & MACHINE CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

In the matter of Continental Foundry & Machine Company, Common Stock, File No. 1–3849.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2–1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

The stockholders on October 31, 1955, adopted a plan of complete liquidation of the Company pursuant to which its plant properties, inventories and certain other assets were sold to Blaw-Knox Company and cash distributions to stockholders aggregating $53 per share were made through May 31, 1956. The company by circular letter dated May 15, 1956 indicated that the further liquidating value amounted to about $2.25 per share without allowance for a claim for a $500,000 refund for Federal income taxes, there being 510,835 outstanding shares. In the opinion of the Exchange, further dealings in the stock on its floor are inadvisable and dealings therein were suspended before the opening of the trading session on June 11, 1956.

Upon receipt of a request, on or before September 4, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. N. I. LIQUIDATING CO.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 16, 1956.

In the matter of C. N. I. Liquidating Company, Common Stock, File No. 1–3303.

New York Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2–1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

The stockholders on April 3, 1956, adopted a plan of complete liquidation of the Company and authorized sale of all its principal properties and assets to Standard Brands, Inc., change of name from Clinton Foods, Inc., to C. N. I. Liquidating Company, and dissolution thereof. The sale occurred on April 16, 1956, and an initial liquidating distribution of $43 per share was made payable April 26, 1956. An unaudited balance sheet of the Company as of March 31, 1956, indicated a possible further net asset value of approximately $4.30 per share, there being 1,364,828 shares outstanding. A certificate of dissolution was filed in the office of the Secretary of State in Delaware on June 8, 1956, and has become effective. In the opinion of the Exchange, further dealings on its floor in the subject stock are inadvisable and dealings therein were suspended at the opening of the trading session on July 2, 1956.

Upon receipt of a request, on or before September 4, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING TRANSACTIONS BETWEEN AFFILIATES INCIDENT TO LIQUIDATION

In the matter of Railway and Utilities Investing Corporation, File No. 812–1023.

Notice is hereby given that Railway and Utilities Investing Corporation ("RUIC"), a registered closed-end, non-diversified investment company, has filed an application pursuant to section 17 (b) of the Investment Company Act of 1940 ("act") for an order exempting from the provisions of section 17 (a) of the act certain transactions between affiliates incident to a proposed dissolution and complete liquidation of RUIC.

RUIC, a Delaware Corporation, had outstanding as of June 30, 1956, 18,443 shares of Convertible Preferred Stock $3.50 Series, 5,138 shares of Convertible Preferred Stock $3 Series, 145,939 shares of Class A Common Stock and 10,000 shares of Class B Common Stock. The preferred stock is entitled in liquidation to $50 per share, plus accrued and unpaid dividends which, as of June 30, 1956, were $39.585 per share on the $3.50 Series and $33.93 per share on the $3 Series. The two classes of common stock rank equally as to assets and dividends. The assets of RUIC consist primarily of common stocks of railroad and public utility companies.

It is proposed that RUIC be liquidated pursuant to a plan of dissolution and complete liquidation. The plan provides that the preferred stockholders of RUIC will be paid the liquidating value of their shares at the date of distribution in cash or, at their option, in market value of portfolio securities and cash. The market value of portfolio securities will be computed as of a day determined by the board of directors of RUIC, such day to be within ten days prior to the date of distribution but not earlier than the day on which such determination is made by the board of directors.

The portfolio securities which are to be set aside for distribution pro rata (by Series) to the preferred stockholders duly electing to receive them comprise all of RUIC's holdings of the common stocks of Florida Power & Light Company, General Public Utilities Corporation, Great Northern Railway Company, Kentucky Utilities Company, Niagara Mohawk Power Corporation, Puget Sound Power & Light Company, United Gas Corporation and Utah Power & Light Company, 50 percent of RUIC's holdings of the common stock of Seaboard Air Line Railroad Company and approximately 55 percent of its holdings of the common stock of Western Pacific Railroad Company. To the extent that some of the preferred stockholders may choose cash, it may be necessary to reduce the aggregate amount of portfolio securities reserved for the preferred stockholders. Any such reduction will be effected by a reduction, to the extent necessary, in the common stock of Seaboard Air Line Railroad Company set aside for distribution to the preferred stockholders. On the other hand, if the portfolio securities reserved for preferred stockholders should be insufficient for the distribution, additional shares of common stock of Seaboard Air Line Railroad Company will be set aside for distribution to the preferred stockholders. The per share allotments of portfolio securities to the $3.50 Series and the $3 Series will be substantially the same except for such adjustments as are practicable to give effect to the difference in the liquidation value of the two series.

The portfolio securities and cash of RUIC not required to satisfy the prior claims of the preferred stockholders will be divided among the common stockholders of RUIC on a pro rata basis. The portfolio securities to which common stockholders who do not duly elect to receive such securities are entitled will be sold for the account of such stockholders and the net proceeds will be distributed to them. Shares of portfolio securities representing fractional shares distributable under the plan to preferred and common stockholders will be sold for their account and the net proceeds will be distributed to the stockholders entitled thereto.

The plan of dissolution and complete liquidation of RUIC will be effective upon the affirmative vote of the holders of at least two-thirds of all of the outstanding shares of capital stock of RUIC and the filing by the owners of at least 80 percent of the outstanding shares of capital stock beneficially owned by non-corporate owners of elections to be governed by the provisions of section 333 of the Internal Revenue Code of 1954. The application states that such elections are required in order to qualify the plan under that section of the Code so that stockholders who so elect may postpone taxation on gains derived from the receipt of portfolio securities acquired by the company prior to 1954 until such time as said securities may be disposed of by the holders. Substantially all of the portfolio securities of RUIC were acquired prior to 1954.

Applicants declare that the proposed dissolution and complete liquidation is the most desirable course of action and the one in the best interests of the company and its stockholders.

Section 17 (a) of the act prohibits an affiliated person of a registered investment company, or an affiliated person of such a person, from selling to or purchasing from such registered investment company or any company controlled by such registered investment company, any security or other property, subject to certain exceptions, unless the Commission upon application pursuant to section 17 (b) grants an exemption from the provisions of section 17 (a), after finding that the terms of the proposed transaction, including the consideration to be paid, are reasonable and fair and do not involve overreaching on the part of any person concerned, that the proposed transaction is consistent with the policy of each registered investment company concerned, as recited in its registration statement and reports filed under the act, and is consistent with the general purposes of the act. Since certain of the officers, directors and holders of 5 percent or more of the voting securities (affiliated persons) of RUIC own shares of RUIC to be exchanged in the liquidation for portfolio securities, the application requests an order pursuant to section 17 (a) of the act exempting from the provisions of section 17 (b) the transactions between affiliated persons incident to the liquidation.

Notice is further given that any interested person may, not later than September 4, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notifide if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

PART 728—WHEAT

SUBPART—1957–58 MARKETING YEAR

PROCLAMATION OF RESULTS OF MARKETING QUOTA REFERENDUM

Section 728.708 is issued to announce the results of the wheat marketing quota referendum for the marketing year, July 1, 1957 through June 30, 1958 under the provisions of the Agricultural Adjustment Act of 1938, as amended. The Secretary proclaimed a marketing quota for wheat for the 1957–58 marketing year (21 F. R. 3217). The Secretary announced (21 F. R. 3234) that a referendum would be held on July 20, 1956 to determine whether wheat producers were in favor of or opposed to marketing quotas for the marketing year July 1, 1957 through June 30, 1958. Since the only purpose of this proclamation is to announce results of the referendum, it is found and determined that with respect to this proclamation application of the notice and procedure provisions of the Administrative Procedure Act is unnecessary.

§ 728.708 *Proclamation of the results of the wheat marketing quota referendum for the marketing year 1957–58.* In a referendum of farmers engaged in the production of wheat for the 1957 crop held on July 20, 1956, 280,466 farmers voted. Of those voting 245,081 or 87.4 percent favored quotas for the marketing year beginning July 1, 1957. Therefore, wheat marketing quotas will be in effect for the 1957–58 marketing year.

[Valencia Orange Reg. 83]

PART 922—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 922.383 *Valencia Orange Regulation 83*—(a) *Findings.* (1) Pursuant to the marketing agreement and Order No. 22, as amended (7 CFR Part 922; 21 F. R. 4392), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Valencia Orange Administrative Committee held an open meeting on August 23, 1956, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recom-

mendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) The quantity of Valencia oranges grown in Arizona and designated part of California which may be handled during the period beginning at 12:01 a. m., P. s. t., August 26, 1956, and ending at 12:01 a. m., P. s. t., September 2, 1956, is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 831,600 cartons;

(iii) District 3: Unlimited movement.

(2) All Valencia oranges handled during the period specified in this section are subject also to all applicable size restrictions which are in effect pursuant to this part during such period.

(3) As used in this section, "handled," "handler," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said marketing agreement and order, as amended.

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.763 *Lemon Regulation 656*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 8451; 21 F. R. 4393), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on August 22, 1956, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., August 26, 1956 and ending at 12:01 a. m., P. s. t., September 2, 1956 is hereby fixed as follows:

(i) District 1: Unlimited movement;

(ii) District 2: 232,500 cartons;

(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in the said amended marketing agreement and order.

IDAHO

INTERFOREST TRANSFERS OF LANDS IN BITTERROOT, CLEARWATER, LOLO, AND NEZPERCE NATIONAL FORESTS

By virtue of the authority vested in the President by the act of June 4, 1897 (30 Stat. 34, 36; 16 U. S. C. 473), and pursuant to Executive Order No. 10355 of May 26, 1952 and upon the recommendation of the Department of Agriculture, it is ordered as follows:

The following-described lands within the exterior boundaries of the Bitterroot National Forest are hereby transferred to the Nezperce National Forest, effective July 1, 1956:

Beginning at a point on the Montana-Idaho State Line at the first angle point on the 295 mile and identified as Blodgett Mountain, thence in a westerly direction along the hydrographic divide between Big Sand Creek on the north and Dead Elk Creek on the south to Jeanette Mountain, thence southwesterly down the divide just east of Jeanette Creek to the mouth of said creek, thence westerly and southerly down Moose Creek to the mouth of Cedar Creek, thence due west approximately 2 miles to the intersection with Maple Lake ridge, thence northeasterly along said ridge to Bench Mark 7565, thence northwesterly along the hydrographic divide at the head of the Isaac drainage to the saddle or pass at the head of the North Fork of Moose Creek in approximate Section 27 in unsurveyed T. 35 N., R. 13 E., B. M.,

thence southwesterly down the North Fork of Moose Creek to the mouth of Rhoda Creek, thence westerly up Rhoda Creek to the mouth of Wounded Doe Creek, thence southerly in a direct line to Big Rock Mountain, thence southerly along the hydrographic divide just east of Three Link drainage which includes Saddle Fork Creek to the mouth of Three Link Creek, thence easterly up the Selway River to the mouth of Martin Creek, thence southeasterly up the hydrographic divide just east of Martin Creek to its intersection with Moose Ridge at a point on the unsurveyed line between Sections 3 and 4, T. 31 N., R. 12 E., B. M., thence southwesterly along said ridge and easterly along the hydrographic divide at the head of Ditch Creek to Wylies Peak, thence southerly in a direct line to the mouth of the North Fork of Goat Creek, thence easterly down Goat Creek to the mouth of Box Car Creek, thence southeasterly in a direct line to Archer Mountain, thence easterly along and down the hydrographic divide forming the southerly boundary of the Long Prairie Creek drainage passing over Archer Point Lookout and thence northeasterly to the Selway River, thence down the Selway River approximately one-half mile to a point directly south of Elevator Mountain, thence north to Elevator Mountain, thence easterly along the hydrographic divide around the head of North Star Creek to Gardiner Peak, thence easterly following the hydrographic divide between the headwaters of Gardiner Fork, Fry Pan, Brushy Fork and Cub Creeks on the north and the headwaters of Gardiner, Bad Luck, Lookout Creeks, and the tributaries of White Cap Creek on the south to the Montana-Idaho State Line at Monument 323.925, thence northerly along the said Montana-Idaho State Line to the point of beginning.

The following-described lands within the exterior boundaries of the Clearwater National Forest are hereby transferred to the Nezperce National Forest, effective July 1, 1956:

Beginning at Stanley Butte on the hydrographic divide between the Boulder Creek drainage on the north and the Old Man Creek drainage on the south in approximately what may be Section 33 of T. 34 N., R. 10 E., when surveyed, thence northeasterly along the hydrographic divide between Boulder and Fish Lake Creeks and their tributaries on the north and Rhoda; Wounded Doe and West Moose Creeks on the south to its intersection with the hydrographic divide between the drainage of Warm Springs Creek on the East and the drainages of Fish Lake and West Moose Creeks on the West and South respectively, thence southeasterly along said divide passing over McConnell Mountain and through Chain Meadows to its intersection, in approximate Sec. 27 of unsurveyed T. 35 N., R. 13 E., B. M., with the North Fork of Moose Creek, thence southwesterly down the North Fork of Moose Creek to its junction with Rhoda Creek, thence westerly up Rhoda Creek to its junction with Lizard Creek, thence westerly up Lizard Creek to Lizard Lake, thence westerly in a direct line to East Peak on the hydrographic divide between the Rhoda Creek drainage on the East and the Old Man Creek drainage on the West, thence northwesterly along said hydrographic divide to Stanley Butte, the place of beginning.

The following-described lands within the exterior boundaries of the Nezperce National Forest are hereby transferred to the Clearwater National Forest, effective July 1, 1956:

Beginning at a point approximately on the section line between Sections 32 and 33 in T. 35 N., R. 7 E., B. M., on the hydrographic divide between the Lolo Creek drainage on the west and the Lochsa River drainage on the east where the hydrographic divide between the Fish Creek drainage on the north and the Canyon Creek drainage on the south intersects said divide, thence easterly along the said hydrographic divide between the Fish Creek drainage on the north and the Canyon, Deadman and Bimerick Creek drainages on the south to McLendon Butte, passing over Frenchman and Middle Buttes, thence southeasterly down the hydrographic divide just south of Snowshoe Creek to the mouth of said creek, thence southeasterly in a direct line to Huckleberry Butte, thence southeasterly along the hydrographic divide between the Boulder Creek drainage on the north and the Old Man Creek drainage on the south to Stanley Butte, thence southeasterly along the hydrographic divide between the Rhoda Creek drainage on the east and the Old Man Creek drainage on the west to East Peak, thence southwesterly along the hydrographic divide between the drainages of the Selway River to the south and the Lochsa River to the north, passing over Fenn Mountain, The Craigs, Chimney Peak, Louse Point, Ghost Mountain, and Coolwater Ridge to an intersection with the east line of T. 32 N., R. 7 E., B. M., at or near the east ¼ corner of Section 1 of said township, thence southwesterly in a direct line to the south ¼ corner of said Section 1, thence west along the south lines of Sections 1, 2, 3, and 4 to the meander corner on the south line of said Section 4 on the east bank of the Selway River, thence northerly along the meander line on the east bank of the Selway River to its confluence with the Lochsa River, at which point is the beginning of the Middle Fork of the Clearwater River, thence across said river to its north bank, thence westerly along the meander line on the north bank of the Middle Fork of the Clearwater River to the west line of T. 32 N., R. 6 E., B. M., thence north along the west lines of Townships 32 and 33 N., R. 6 E., B. M., to an intersection with the hydrographic divide between the drainage of Lolo Creek on the north and the Lochsa River on the southeast, at or near the west ¼ corner of Section 18, T. 33 N., R. 6 E., B. M., thence northeasterly along said divide approximately 15 miles to the point of beginning.

The following-described lands within the exterior boundaries of the Lolo National Forest are hereby transferred to the Clearwater National Forest, effective July 1, 1956:

Beginning at Indian Grave Peak on the hydrographic divide between the drainages of the North Fork of the Clearwater River on the north and the Lochsa River on the south at or near what probably will be, when surveyed, the southwest corner of Section 36, T. 37 N., R. 10 E., B. M., thence northerly along the hydrographic divide around the head of the Gravey Creek drainage on the east of Raspberry Butte, thence easterly down the hydrographic divide just north of Gravey Creek to Cayuse Creek at the mouth of Gravey Creek, thence northeasterly up the hydrographic divide just west and north of Potatoe Creek to Lund Peak, thence easterly and northerly along the hydrographic divide between Toboggan Creek to the north and Cayuse Creek to the south to Toboggan Ridge, thence easterly along Toboggan Ridge to Blacklead Mountain, thence southerly and westerly along and down the hydrographic divide just east of Mink Creek to Cayuse Creek at the mouth of Mink Creek, thence southerly in a direct line to Spring Mountain and Bench Mark 6310 on the hydrographic divide between Cayuse Creek on the north and the Lochsa River drainage on the south, thence southwesterly along said hydrographic divide approximately 16 miles to Indian Grave Peak, the place of beginning.

The exterior boundaries of the Forests involved are hereby adjusted in accordance with the transfers made by this order, and any transferred land now having a national-forest status shall become a part of the forest to which it is transferred.

This order shall not be construed as giving a national-forest status to any lands which do not now have such status, or as changing the status of any lands which now have a national-forest status.

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

[Amdt. 14]

Subchapter A—Armed Services Procurement Regulations

MISCELLANEOUS AMENDMENTS TO SUBCHAPTER

The following miscellaneous amendments are made to this subchapter:

PART 1—GENERAL PROVISIONS

SUBPART C—GENERAL POLICIES

In furtherance of Congressional policy, expressed in the Agricultural Trade Development and Assistance Act of 1954 (Pub. Law 480, 83d Cong.), a procedure has been developed, in coordination with the Departments of State and Agriculture, which authorized procurement, on a barter basis, in connection with certain procurements both within and outside of the United States. Details are set forth in a new § 1.310. In general, procedures for evaluation and solicitation of bids and proposals do not differ from usual procedures; however, a copy of the bid or proposal is sent to the Commodity Credit Corporation, Department of Agriculture. If the Commodity Credit Corporation can enter into a barter agreement with the successful bidder, payments under the contract are made to the Department of Agriculture, which, in turn, makes payment to the contractor in the form of agricultural products. Section 1.310 reads as follows:

§ 1.310 *Procurement by barter—Commodity Credit Corporation.*

§ 1.310–1 *General.* The purpose of this section is to establish procedures which will assist the Commodity Credit Corporation to arrange and to make, through private trade channels, barters and exchanges of United States surplus agricultural commodities.

§ 1.310–2 *Procurement effected within the continental United States.* (a) On requirements of $100,000 or more for:

(1) Materials or equipment required in connection with foreign economic and military aid and assistance programs;

(2) Materials or equipment required for off shore construction programs; or

(3) Other supplies not subject to the Buy American Act or the limitations contained in the annual appropriations act (Berry Amendment), or which have been previously excepted therefrom pursuant to Part 6, Subpart A;

the purchasing office shall send a copy of the Invitation for Bids or Request for Proposals to the Commodity Credit Corporation, Barter and Stockpiling Division, U. S. Department of Agriculture, Washington 25, D. C.

(b) Such Invitations for Bids or Requests for Proposals shall contain appropriate space for indicating alternate prices, one clearly labeled for barter prices and the other clearly labeled for nonbarter prices. In addition, such Invitations for Bids and Requests for Proposals shall include the following clause:

NOTE—PAYMENT BY BARTER

Attention is directed to Section 303 of the Agricultural Trade Development and Assistance Act of 1954 (P. L. 480, 83d Cong.) which authorizes the disposal by barter or exchange of surplus agricultural commodities for use outside of the United States. Bidders or Offerors Interested in a Barter Arrangement (accepting payment in agricultural commodities for use outside of the United States rather than in dollars) Should Consult, and Make Appropriate Arrangements With, The Commodity Credit Corporation, Barter and Stockpiling Division, United States Department of Agriculture, Washington 25, D. C., prior to submitting a bid.

Simultaneously with the issuance of this Invitation for Bids or Request for Proposals, a copy thereof is being furnished to the Commodity Credit Corporation.

Bids or proposals may be made on a barter basis, or on a non-barter basis, or on both bases in the alternative. Bids or proposals on either basis shall be stated in terms of dollars, not in terms of the desired commodity. Arrangements for converting dollar receipts under the contract into commodities must be made by separate agreement with the Commodity Credit Corporation.

Any bid or proposal based on a barter arrangement must be submitted directly to the purchasing office issuing this Invitation for Bids or Request for Proposals. In addition, a copy of the official bid or proposal must be forwarded to the Commodity Credit Corporation, by the time specified for submitting bids or proposals, in a sealed envelope marked with the Invitation for Bids or Request for Proposals number, and the date and time of opening by the purchasing office.

The Commodity Credit Corporation will consider the barter aspects of all such bids or proposals and will then advise the purchasing office issuing this Invitation for Bids or Request for Proposals which bids or proposals, if any, based on a barter arrangement are acceptable to the Commodity Credit Corporation. Any such bids or proposals which are acceptable to the Commodity Credit Corporation will be considered and evaluated by the purchasing office in connection with the evaluation of the non-barter bids or proposals received hereunder. If the lowest acceptable barter type bid or proposal is equal to or less than the price of the lowest responsive non-barter bid or proposal, preference will be given to the barter type bid or proposal.

No award will be made on a barter basis unless the bidder or offeror has entered into a suitable agreement with the Commodity Credit Corporation and the Commodity Credit Corporation has informed the purchasing office that the barter bid or proposal is acceptable. If the award is made on the basis of a barter type bid or proposal, the bidder or offeror, pursuant to the clause of the contract entitled Assignment of Claims and notwithstanding any language to the contrary contained therein, hereby irrevocably assigns all the moneys due or to become due under the resultant contract to the Commodity Credit Corporation. The bidder or offeror will be entitled to acquire commodities on the basis of its agreement with the Commodity Credit Corporation.

(c) The Commodity Credit Corporation will retain the barter bids or proposals which it receives in a locked container until at least 24 hours after the specified opening time for bids or proposals. The bids or proposals based on a barter arrangement will then be opened and analyzed by the Commodity Credit Corporation, which will advise the contracting officer as to which such bids or proposals are acceptable to the Commodity Credit Corporation.

(d) The contracting officer shall make an award on the basis of the lowest responsive bid or proposal, and shall advise the Commodity Credit Corporation in the event the award is made on the basis of a barter type bid or proposal. No award will be made until the Commodity Credit Corporation advises the procuring office as to which barter type bids or proposals, if any, are acceptable, or until ten days after the date set for the opening of bids or receipt of proposals. If the lowest acceptable bid or proposal is on a barter basis, the contracting officer, prior to making the award, shall require such bidder or offeror to furnish evidence of an agreement with the Commodity Credit Corporation covering the payment and assignment arrangements. Where no barter type bids are received by the Commodity Credit Corporation, the Commodity Credit Corporation will promptly advise the contracting officer.

(e) Where the award is made on the basis of a barter type bid or proposal, payment will be made in accordance with the terms of the contract, but to the Commodity Credit Corporation rather than directly to the contractor.

(f) Negotiated contracts based on a barter type proposal shall contain a provision reciting the irrevocable assignment of the contractor's claim for payment to the Commodity Credit Corporation.

§ 1.310–3 *Procurement effected outside the continental United States.* On procurements of $100,000 or more for supplies or services, except those procurements to be funded and denominated in local currencies or funded in dollars and denominated in local currencies, major oversea commands shall utilize the procedures outlined below:

(a) Major oversea commands shall make available to designated representatives of the Commodity Credit Corporation a copy of all new contracts resulting from procurements described above.

(b) Contracting officers shall distribute to prospective contractors, with the Invitation for Bids or Request for Proposals, or during the course of negotiations, a Commodity Credit Corporation information sheet describing the procurement by barter program.

(c) Designated representatives of the Commodity Credit Corporation are authorized direct contact with contracting officers for the purpose of obtaining information with respect to pertinent clauses in specific existing contracts which may affect barter negotiations.

(d) Commodity Credit Corporation may obtain from a contractor an assignment of moneys due or to become due to the contractor and must, in accordance with the provisions of the Assignment of Claims clause, forward a Notice of Assignment of Claims to the contracting officer, to the disbursing officer, and to any sureties on the contract. The contracting officer shall insure that the Notice of Assignment of Claims is signed by an authorized representative of the Commodity Credit Corporation and that a true copy of the instrument of assignment between the contractor and the

Commodity Credit Corporation is attached to the notice. The contracting officer shall acknowledge receipt of the Notice of Assignment of Claims from the Commodity Credit Corporation.

(e) Upon presentation of invoices by the contractor, the contracting officer shall insure that each invoice contains a statement by the contractor that he recognizes the assignment to the Commodity Credit Corporation, its validity, and the right of the Commodity Credit Corporation to receive payment. Disbursing officers shall effect appropriate payment to the Commodity Credit Corporation for the amount of the invoice, less any authorized deductions.

PART 3—PROCUREMENT BY NEGOTIATION

SUBPART B—CIRCUMSTANCES PERMITTING NEGOTIATION

Section 3.212–2 has been revised so as to authorize negotiation of certain contracts made by the Department of Defense for certain highly sensitive agencies, which contracts, though unclassified, are required by such agencies not to be publicly disclosed. The revised language is to be applied strictly to such situations, and does not constitute a general authority to negotiate unclassified contracts.

§ 3.212 *Classified purchases.*

§ 3.212–2 *Application.* This authority may be used for purchases or contracts classified "Confidential" or higher, or where, because of other considerations, the purchase or contract should not be publicly disclosed.

PART 4—COORDINATED PROCUREMENT

SUBPART B—POLICIES AND GENERAL PRINCIPLES

An editorial change has been made to § 4.202–3, as follows: § 4.202 *Responsibilities under single procurement.*

* * * * *

§ 4.202–3 *Plant cognizance procurement.* Responsibilities for procurement and mobilization planning are as set forth in Department of Defense Instruction 4115.1, dated October 12, 1955, subject: "Department of Defense Procurement Assignments", and any amendments thereto.

PART 7—CONTRACT CLAUSES

SUBPART A—CLAIMS FOR FIXED-PRICE SUPPLY CONTRACTS

In order to permit the Departments to employ procedures best adapted to a particular situation (including Part 8 procedures), a new contract clause is set forth in § 7.103–2 (b), for insertion in fixed-price supply contracts, which gives the contracting officer the right to select methods of effecting equitable adjustments when change orders render inventory obsolescent for the performance of a contract. Section 7.103–2 as revised, reads as follows:

§ 7.103 *Required clauses.*

* * * * *

§ 7.103–2 *Changes and disposition of inventory resulting from changes*—(a) *Changes.*

CHANGES

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes, within the general scope of this contract, in any one or more of the following: (i) drawings, designs, or specifications, where the supplies to be furnished are to be specially manufactured for the Government in accordance therewith; (ii) method of shipment or packing; and (iii) place of delivery. If any such change causes an increase or decrease in the cost of, or the time required for, performance of this contract, an equitable adjustment shall be made in the contract price or delivery schedule, or both, and the contract shall be modified in writing accordingly. Any claim by the Contractor for adjustment under this clause must be asserted within 30 days from the date of receipt by the Contractor of the notification of change; *provided*, however, that the Contracting Officer, if he decides that the facts justify such action, may receive and act upon any such claim asserted at any time prior to final payment under this contract. Failure to agree to any adjustment shall be a dispute concerning a question of fact within the meaning of the clause of this contract entitled "Disputes." However, nothing in this clause shall excuse the Contractor from proceeding with the contract as changed.

In the foregoing clause, the period of "30 days" within which any claim for adjustment must be asserted may be varied in accordance with Department procedures.

(b) *Disposition of inventory resulting from changes.*

DISPOSITION OF INVENTORY RESULTING FROM CHANGES

Where the cost of property made obsolete or excess as a result of a change is included in the Contractor's claim for adjustment pursuant to the Changes clause of this contract, the Contracting Officer shall have the right to prescribe the manner of disposition of such property.

SUBPART B—CLAUSES FOR COST-REIMBURSEMENT TYPE SUPPLY CONTRACTS

The last paragraph (unnumbered) of § 7.203–7 Records, has been amended by changing the organizational element under the Department of the Navy, as follows:

§ 7.203–7 *Records.* * * *

In the foregoing clause, insert, in contracts of the Department of the Army and the Department of the Air Force, the words "the Contracting Officer," and insert, in contracts of the Department of the Navy, the words "the Contract Audit Division of the Comptroller of the Navy," in the space designated by an asterisk (----*).

PART 11—FEDERAL, STATE AND LOCAL TAXES

Several changes have been made in Subpart A of Part 11 to reflect the extension of existing tax rates in connection with special fuels, motor vehicles, and gasoline, in accordance with the Tax Rate Extension Act of 1956 (Pub. Law 458, 84th Cong.). Minor adjustments of clarifying nature have also been made in various paragraphs of this part.

SUBPART A—FEDERAL EXCISE TAXES

§ 11.101–5 *Special fuels.* (a) A tax of 2 cents per gallon through 31 March 1957, and 1½ cents per gallon thereafter, is imposed upon certain fuels, other than those taxable as gasoline under section 4081 of the Internal Revenue Code (see § 11.102–3) as follows:

(1) Diesel fuel—any liquid—

(i) Sold by any person to an owner, lessee, or other operator of a diesel-powered highway vehicle, for use as a fuel in such vehicle, or

(ii) Used by any person as a fuel in a diesel-powered highway vehicle unless there was a taxable sale of such liquid under subdivision (i) of this subparagraph; and

(2) Special motor fuels—benzol, benzene, naphtha, liquid petroleum gas or any other liquid (other than kerosene, gas oil, fuel oil, or a product taxable under subparagraph (1) of this paragraph—

(i) Sold by any person to an owner, lessee, or other operator of a motor vehicle, motorboat, or airplane for use as a fuel for the propulsion of such motor vehicle, motorboat, or airplane; or

(ii) Used by any person as a fuel for the propulsion of a motor vehicle, motorboat, or airplane unless there was a taxable sale of such liquid under subdivision (i) of this subparagraph.

(b) If fuel upon which this tax has been paid is not used as a fuel in a diesel-powered highway vehicle or to propel a motor vehicle, motorboat, or airplane, the retailer is entitled to a credit or refund for the tax paid, if such retailer has not included the tax in the sales price or otherwise collected the tax from the purchaser, has repaid the tax to the purchaser, or has the purchaser's written consent to take the credit or refund. When it is economically advantageous to do so, this credit or refund shall be utilized in accordance with Departmental procedures.

(c) If the manufacturers' excise tax on gasoline (see § 11.102–3) has been paid on any material used in the production of a special motor fuel taxable under paragraph (a) (2) of this section, the manufacturer of the gasoline is entitled to a refund or credit of such tax, subject to the conditions stated in paragraph (b) of this section. The contract price for special motor fuels purchased by any Department shall not include an amount for any manufacturers' excise tax on gasoline that was used in the production of the special motor fuel.

§ 11.102–1 *Motor vehicles.* (a) A tax at the indicated rates is imposed upon the following supplies (including parts and accessories sold therewith) sold by a manufacturer, producer, or importer:

(1) Chassis and bodies of trucks, buses, truck and bus trailers and semitrailers, and tractors of the kind chiefly used for highway transportation in combination with a trailer or semitrailer—8 percent through 31 March 1957, and 5 percent thereafter; except that this tax does not apply to equipment designed for off-the-road use, such as self-propelled construction equipment and equipment designed for use at mines, factories, railroad stations, and farms;

(2) Chassis and bodies of automobiles, and trailers (other than house trailers) suitable for use with passenger automobiles—10 percent through 31 March 1957, and 7 percent thereafter; and

(3) Parts or accessories—8 percent through 31 March 1957, and 5 percent thereafter. Parts or accessories are defined to include any article—

(i) The primary use of which is to improve, repair, replace, or serve as a component part of a motor vehicle;

(ii) Designed to be attached to or used in connection with a motor vehicle or to add to its utility or ornamentation; or

(iii) The primary use of which is in connection with a motor vehicle whether or not essential to its operation or use.

Spark plugs, storage batteries, leaf springs, coils, timers, and tire chains, which are suitable for use on or in connection with, or as component parts of, a taxable motor vehicle are treated as parts or accessories whether or not primarily adapted for such use. The tax on parts or accessories does not apply to any article sold for use (or for a single resale for use) as material in the manufacture of, or as a component part of, any article, whether or not such article is subject to a manufacturers' excise tax. If, after August 31, 1955, a manufacturer uses a tax-paid part or accessory as material in the manufacture of, or as a component part of, any article, such manufacturer is entitled to a credit or refund of the tax paid on the part or accessory. The contract price of supplies purchased by any Department shall not include an amount for the manufacturers' excise tax on automobile parts or accessories purchased for use, or after August 31, 1955 used in the manufacture of any article.

(b) The tax on automotive parts or accessories does not apply to tires, inner tubes, and automobile radio and television receivers. If a manufacturer of motor vehicles sells these articles in connection with the sale of a taxable motor vehicle, he may take a credit against the motor vehicle tax in the amount of the motor vehicle tax rate applied to his purchase price of the tires, inner tubes, and automobile radio and television receivers. The contract price for supplies purchased by any Department shall not include an amount for the manufacturers' excise tax on motor vehicles or automotive parts or accessories to the extent that these credits are available.

§ 11.102–3 *Gasoline.* A tax of 2 cents per gallon through March 31, 1957, and 1½ cents per gallon thereafter, is imposed on gasoline sold by a producer or importer. Gasoline means all products commonly or commercially known as gasoline, including casinghead and natural gasoline, but excluding kerosene gas oil, or fuel oil, and also excluding any product taxable as a special motor fuel under section 4041 of the Internal Revenue Code (see § 11.101–5). The tax does not apply to the sale of gasoline to a producer, which is defined to include a refiner, compounder, blender, or dealer who sells gasoline exclusively to producers of gasoline.

§ 11.103–3 *Transportation of property.* (a) A tax of 3 percent (4 cents per short ton on coal, including lignite, coal dust, coke briquettes) is imposed upon amounts paid to a person engaged in the business of transporting property for hire by rail, motor vehicle, water, or air. The tax applies to—

(1) Amounts paid within or without the United States for transportation from one point in the United States to another; and

(2) Amounts paid within the United States for that portion within the United States of transportation from a point outside to a point within the United States.

(b) The tax does not apply to the transportation of property in the course of exportation or shipment to a possession of the United States (see § 11.201), nor to an uninterrupted shipment moving through the United States from a possession or a foreign point to a possession or a foreign point. If any such shipment is interrupted in the United States for any purpose of the shipper rather than a fault of transportation, it is treated as two shipments, one to and the other from the point of interruption, of which the former may be taxable in whole or in part according to the rules stated above. If the tax is expressly excluded from the contract (or subcontract) price and an exemption certificate prescribed by the Treasury Regulations is filed with the carrier, the tax is inapplicable to shipments for export under a commercial bill of lading consigned to an officer of a Military Department at a port of exportation. When it is economically advantageous to do so, this exemption shall be utilized in accordance with Departmental procedures.

(c) For the taxability of exported domestic shipments under a Government bill of lading, see § 11.202 (c).

(d) The amount subject to tax includes—

(1) Any charges for services incident to the transportation movement, such as loading, unloading, blocking, staking, elevation, transfer in transit, ventilation, refrigeration, icing, storage, demurrage, lighterage, trimming of cargo in vessels, wharfage, and handling, feeding, and watering of livestock; and

(2) Separate and itemized charges for baggage transported in connection with the transportation of persons, including incidental charges for excess weight or value, storage, transfer, special delivery, and the like.

The tax applies to all forms of transportation, local or otherwise, including drayage, towing, ferrying, and switching; however, it does not apply to the transportation of earth, rock, or other material excavated within the boundaries of, and in the course of, a construction project and transported to any place within, or adjacent to, the boundaries of such project, nor does it apply to the transportation of coal from the mine to a preparation plant. No amount paid for the transportation of property is subject to tax if and to the extent that a tax on such transportation previously has been paid. An amount paid for the transportation of coal, coke, or briquettes is not taxable if there has been a previous taxable transportation of the coal or coal dust from which the coke or briquettes were made.

PART 13—GOVERNMENT PROPERTY

Section 13.000 has been revised as follows:

§ 13–000 *Scope of part.* This part sets forth the general policies of the Departments with respect to providing property for use by contractors in connection with procurement by the Military Departments and sets forth applicable contract clauses.

SUBPART A—GENERAL

Based upon the report of a Special Committee (the Cooper Committee) on Accounting Control and Management of Inventory of Government-owned Industrial Facilities and Equipment in the Department of Defense, changes have been made in § 13.101 and in various paragraphs of Part 30.2, Appendix B—"Manual for Control of Government Property in Possession of Contractors." The effect of these changes is to: (i) establish monetary control for industrial facilities, as required by Public Law 216, 83d Congress; (ii) reduce administrative costs in connection with minor plant equipment; (iii) strengthen control over Government property in the hands of subcontractors; (iv) encourage single department property administration; (v) clarify applicability of Part 30.2, above, to reserve plants; and (vi) provide improved definitions.

§ 13.101 *Definitions.* As used in this part, the following terms have the meaning stated below:

(a) "Property" includes all physical property, both real and personal. For the purpose of this Part, it consists of and is treated under three separate categories—material, special tooling, and industrial facilities.

(b) "Government property" means all property owned by or leased to the Government, including property acquired by the Government under the terms of a contract; except that property to which the Government has acquired a lien or title solely as a result of partial, advance or progress payments shall not for the purpose of this Part be classified as Government property. With this exception, Government property includes both Government-furnished property and contractor-acquired property as defined below:

(i) "Government-furnished property" is property in the possession of or acquired directly by the Government and delivered or otherwise made available to the contractor; and

(ii) "Contractor-acquired property" is property procured or otherwise provided by the contractor for the performance of a contract, pursuant to the terms of which title is vested in the Government.

The term "provide," as used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property," is intended to include both Government-furnished property and contractor-acquired property.

(c) "Contractor-furnished property" means all property used by the contractor in the performance of a contract, other than Government property.

(d) "Material" means such property which may be incorporated into or attached to an end product to be delivered to the Government or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed materials, parts, components, assemblies, and small tools and supplies which may be consumed in normal use during the life of the contract.

(e) "Special tooling" means property of such specialized nature that its use, without substantial modification or alteration, is limited to the production of the particular supplies or performance of the particular services for which acquired or furnished. It includes, but is not limited to, jigs, dies, fixtures, molds, patterns, special taps, special gauges, and special test equipment.

(f) "Industrial facility" means property, other than material and special tooling, of use for the performance of a contract or subcontract, including real property and rights therein, buildings, structures, improvements, and plant equipment.

(g) "Industrial property," as distinguished from military property, means any contractor-acquired or Government furnished property, including materials, special tooling, and industrial facilities furnished or acquired in the performance of a contract or subcontract.

(h) "Non-severable industrial facility" means an industrial facility which, after erection or installation, cannot be removed without substantial loss of value or damage thereto, or to the premises where installed.

(i) "Plant equipment" means personal property of a capital nature (consisting of machinery, equipment, furniture, vehicles, machine tools, accessory and auxiliary items, and other production equipment, but excluding special tooling) used or capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

(j) "Production equipment" means those items of plant equipment located within a manufacturing, processing, assembly or service establishment and used for cutting, abrading, grinding, shaping, forming, joining, measuring, testing, heating or treating production materials or work in process.

(k) "Machine tools" means those items of production equipment which are power-driven, non-portable machines used for cutting, abrading, grinding, shaping or forming metal.

(l) "Accessory item" means an item which facilitates or enhances the operation of plant equipment but which is not essential for its operation, such as remote control devices.

(m) "Auxiliary item" means an item without which the basic unit of plant equipment cannot operate, such as motors for pumps and machine tools.

(n) "Salvage" means property recoverable for further use or which, because of its worn, damaged, deteriorated, or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations but which has some value in excess of its scrap value.

(o) "Scrap" means property in such condition that it has no reasonable prospect of being sold except for the recovery value of its basic material content.

(p) "Facilities contract" means a contract under which industrial facilities are provided by the Government for use in connection with the performance of a separate contract or contracts for supplies or services.

(q) "Educational or other non-profit organization" means any corporation, foundation, trust, or institution operated for scientific or educational purposes, not organized for profit, no part of the net earnings of which inures to the profit of any private shareholder or individual.

SUBPART D—INDUSTRIAL FACILITIES

Sections 13.400, 13.407, and 13.408, have been amended, based upon the Cooper Committee Report, setting forth uniform procedures regarding use and maintenance of Government-owned industrial facilities by contractors in connection with (i) military contracts and (ii) civilian work and contracts of other Government departments. In general, contractors will pay rental at rates set forth in the procedures for the use of facilities in connection with civilian work and contracts with other Government departments. Contractors may use such facilities in connection with military contracts when no undue competitive advantage is gained thereby and the Government receives consideration by way of reduced costs or otherwise. Facilities contracts will not be continued for the sole purpose of enabling contractors to use facilities on work other than in connection with military contracts.

§ 13.400 *Scope of Subpart.* This subpart sets forth policies with respect to providing industrial facilities for use by contractors in connection with procurement by the Military Departments and for other incidental uses. Nothing in this Subpart D shall be construed as affecting any authority granted under Departmental procedures to employ a lease as a means of making property available to a contractor for performing Government work.

§ 13.407 *Right of contractor to use.* (a) Each facilities contract shall limit the right of the contractor to use the industrial facilities to the performance of the contracts specified or otherwise identified in the facilities contract or added thereto by amendment. Such use may be without charge to the contractor, provided:

(1) The contractor is not thereby placed in a favored competitive position; and

(2) The Government receives adequate consideration through reduced cost for the supplies or services or otherwise. Such reduced cost may be established in the initial negotiation of new contracts, or by the readjustment of prices (including fixed-fees and allowable costs) of existing contracts, or by price redetermination in the case of negotiated fixed-price contracts where the saving to the contractor cannot be accurately forecast.

When use without charge to the contractor is not advisable because of the competitive aspect, administrative difficulties, or other considerations, the contract shall require the contractor to pay a fair and reasonable use charge. Such fair and reasonable use charge shall be established on the basis of sound commercial practice, including any prevailing commercial rates, and shall be such as to prevent the contractor from obtaining an unfair competitive advantage by reason thereof. The use charge for metal-working equipment and for other personal property and equipment constituting industrial facilities shall conform to the rates prescribed in § 13.601–2 (a) and (b) except that the charge may be negotiated without regard to said prescribed rates, to the extent provided in § 13.601–3. Unless determined by the contracting officer to be impracticable or contrary to the best interest of the Government, the use charge shall be made on the basis of the time during which the property is available for the contractor's use, rather than on the basis of the time during which the property is actually used.

(b) A facilities contract may also provide that the contractor may be authorized by the contracting officer to make incidental use of all or part of the facilities covered by the contract for work other than for a Military Department. However, where a facilities contract is no longer required in connection with the performance of a Government contract or contracts, as provided in (a) above, it shall not be continued solely for the purpose of authorizing commercial use of all or any part of the facilities covered by the facilities contract. The rental rates applicable to Government facilities as provided in § 13.601, shall be applicable to facilities furnished under a facilities contract for the period that such facilities are authorized for use for commercial purposes. The rental shall be charged on the basis of the time during which the property is available for use rather than on the basis of the time during which the property is actually used, unless determined to be impracticable or contrary to the best interest of the Government. Where rental is to be charged on a time-in-use basis, the terms and conditions of such rental shall be in accordance with appropriate Departmental procedures designed to insure that no unfair competitive advantage has been thereby granted.

§ 13.408 *Maintenance.* Each facilities contract shall require the contractor, without cost to the Government thereunder, to protect, preserve, maintain, and repair the facilities provided thereunder, in accordance with sound industrial practice, until relieved of responsibility therefor. However, when authorized by the Department concerned, such contract may provide for:

(a) A specified degree of protection, preservation, maintenance and repair that is less than sound industrial practice as to any part or parts of the facilities as are determined by the Department concerned to be nonessential to future utilization of the facilities as a whole;

(b) Reimbursement by the Government for the cost of protecting, maintaining, preserving and repairing facilities not authorized for use by the contractor; and

(c) Reimbursement by the Government for repairs, replacements, and restoration performed by the contractor when such repairs, replacements and restoration are in excess of normal maintenance and are directed or approved by the contracting officer.

The facilities contract shall contain no warranty, express or implied, regarding the condition or fitness for use of any item of industrial facilities. Nothing in this section shall limit a contractor's rights with respect to costs properly allowable under other contracts.

A new Subpart F has been added to Part 13, as follows:

SUBPART F—USE OF GOVERNMENT OWNED INDUSTRIAL FACILITIES ON WORK OTHER THAN FOR A MILITARY DEPARTMENT

§ 13.600 *Scope of subpart.* The preceding subparts of this part are intended to be applicable only to those situations in which Government property is provided to contractors or subcontractors of any tier, for use in connection with procurement by the Military Departments. This subpart relates to making available to contractors, former contractors, or other parties, Government owned industrial facilities under the control of a Military Department for use solely or principally on work other than for a Military Department. (As to making industrial facilities available principally for use in connection with procurement by the Military Departments, and incidentally for use on work other than for a Military Department, see § 13.407.) The question of making industrial facilities available for use on work other than for a Military Department may arise with respect to such property in the possession of the Government (e. g., machine tools in reserve storage) or in the possession of the potential user (e. g., where a contractor has completed the contract under which the property was originally provided). Basic authority to permit the use of Government property on work other than for a Military Department is found in statutes authorizing the Secretaries of the Military Departments to lease property under their control (see 34 U. S. C. 522a; 10 U. S. C. 1270; 5 U. S. C. 626s–3; 50 U. S. C. App. 1173).

§ 13.601 *Rental.*

§ 13.601–1 *General.* Whenever industrial facilities are made available for use on work other than for a Military Department, the user shall be charged a fair and reasonable rental: *Provided*, That under Departmental procedures consistent with § 13.407 (a) (1) and (2) rental may be waived with regard to such property furnished solely for use in performing work for Government agencies. Such rental shall be established on the basis of sound commercial practice, including any prevailing commercial rates. Except as otherwise provided in § 13.601–2 (a), such rental may, where permitted by the law under which the contract or agreement is executed (see statutes cited in § 13.600), take into consideration obligations assumed by the user to protect and maintain the property as well as to perform other services as all or part of the consideration for the contract or agreement. The rental shall, in any event, be such as to prevent the user from obtaining an unfair competitive advantage by reason thereof over competitors who own their facilities or obtain them from private sources. The rental shall be charged on the basis of the time during which the property is available for use rather than on the basis of the time during which the property is actually used, unless determined by the Secretary of the Department concerned, or his representative duly authorized to approve the contract or agreement by which the property is made available, to be impracticable or contrary to the best interest of the Government. The Government shall make no warranty, express or implied, regarding the condition or fitness for use of any item of property.

§ 13.601–2 *Minimum rent.* Except as provided in § 13.601–3, rental charged under § 13.601 for personal property and equipment constituting industrial facilities shall conform to the following rates, which rates have been determined to be fair and reasonable:

(a) As to metalworking equipment of the types referred to in paragraph 401.2 of Part 30.2, Appendix B of this subchapter, or paragraph 307.2 of part 30.3 appendix C of this subchapter, a rent equivalent to that computed as follows shall be charged regardless of the extent and value of any obligations undertaken by the user to provide maintenance or other services:

Year of Purchase of Tool or Equipment and Rate
1950 and subsequent: 2 percent per month of the tool acquisition cost.
1942 through 1949: 1.5 percent per month of the tool acquisition cost.
Prior to 1942: 1 percent per month of the tool acquisition cost.

The tool acquisition cost to be used in the above formula for determining rental rates shall be the price of the machine charged the Government when the machine was purchased. When special tools, attachments or accessories are rented with the machine, the tool acquisition cost for determining rental rates shall be increased to include the price charged the Government for such tools, attachments or accessories. If this information as to price is not available or cannot be accurately estimated or obtained from the manufacturer of the machine, the Office of the Assistant Secretary of Defense (Supply and Logistics) will provide a basis for estimating the acquisition cost.

(b) As to personal property and equipment constituting industrial facilities other than metal working equipment covered in paragraph (a) of this section, and with respect to which there are no prevailing commercial rates, a rent at the rate of not less than 1 percent per month of the original acquisition cost of such property or equipment shall be charged.

Except to the extent otherwise permitted by Departmental procedures in the case of property covered by paragraph (b) of this section, the contract or agreement under which property covered by this § 13.601–2 is made available shall require the user to protect, preserve, maintain and repair the property in accordance with sound industrial practice without cost to the Government under such contract or agreement.

§ 13.601–3 *Exceptions.* The requirements of § 13.601–2 shall not be applicable.

(a) In the case of leases which cover entire Government-owned plants or otherwise involve substantial Government-owned real property as well as equipment; or

(b) With respect to Government-owned industrial facilities which a procuring activity, in aid of the Government's program for maintaining capacity for essential military production needs in the event of mobilization, desires to make or keep available at any plant for use by a contractor: *Provided*, That, as to any machine tools and metalworking equipment involved, either or both of the following conditions prevail:

(1) The items of machine tools and metalworking equipment are such that the size, complexity or performance characteristics present unusual problems reflected in the time required in connection with preparing for shipment, shipping from storage or supply point, installing and making ready for operation;

(2) The items of machine tools and metalworking equipment are contained in a complete complement of production equipment and tools, capable of producing military end items or components thereof, and provided under a facilities contract, lease, or contract for operation of a Government-owned plant and being used for current production or being administered under standby provisions such as those referred to in § 13.414.

The following paragraphs of Part 30.2—Appendix B, have been amended.

PART 1—INTRODUCTION

102. *Applicability of Manual.* This Manual applies to all types of contracts, leases and bailments pursuant to which Government property is furnished to or acquired by a contractor.

103. *Definitions.* As used in this Part 30.2, the following terms have the meanings shown:

(a) "Contract administrator" means the individual duly designated by appropriate authority in the Military Departments to administer the contract. In the case of the Army and Air Force, usually this is a contracting officer, and in the Navy, usually this is the authorized representative of the contracting officer having administrative cognizance over the contract.

(b) "Property administrator" means the Government representative responsible to the contract administrator for:

(i) reviewing the contractor's industrial property control procedures;

(ii) examining the records maintained by the contractor of Government-furnished and contractor-acquired property;

(iii) making usage analyses of industrial property; and

(iv) the maintenance of such Government property records as are required by this Manual.

(c) "Government property" means all property owned by or leased to the Government, including property acquired by the

Government under the terms of a contract; except that property to which the Government has acquired a lien or title solely as a result of partial, advance or progress payments shall not for the purpose of this Part 30.2 be classified as Government property. With this exception, Government property includes both Government-furnished property and contractor-acquired property as defined below:

(i) "Government-furnished property is property in the possession of or acquired directly by the Government and delivered or otherwise made available to the contractor; and

(ii) "Contractor-acquired property" is property procured or otherwise provided by the contractor for the performance of a contract, pursuant to the terms of which title is vested in the Government.

The term "provide", as used in the context of such phrases as "Government property provided to the contractor" and "Government-provided property", is intended to include both Government-furnished property and contractor-acquired property.

(d) "Industrial facility" means property, other than material and special tooling, of use for the performance of a contract or subcontract, including real property and rights therein, buildings, structures, improvements, and plant equipment.

(e) "Industrial property," as distinguished from military property, means any contractor-acquired or Government-furnished property, including materials, special tooling, and industrial facilities furnished or acquired in the performance of a contract or subcontract.

(f) "Real property," for purposes of accounting classification means (i) land and rights therein, (ii) utility distribution systems, and (iii) buildings, structures, and improvements thereto, excluding plant equipment.

(g) "Utility distribution system" means a system (including distribution and transmission lines, substations, and installed equipment forming an integral part of the system), by which gas, water, steam, electricity, sewerage, or other utility services are transmitted between (i) the outside of the building or structure in which the services are used, and (ii) the point of origin or disposal, or the connection with some other system. For the purpose of this Manual it does not include communication services.

(h) "Plant equipment" means personal property of a capital nature (consisting of machinery, equipment, furniture, vehicles, machine tools, accessory and auxiliary items, and other production equipment, but excluding special tooling) used or capable of use in the manufacture of supplies or in the performance of services or for any administrative or general plant purpose.

(i) "Minor plant equipment" means an item of plant equipment having a unit value of less than $100 and other plant equipment, regardless of cost, when so designated by the Government.

(j) "Production equipment" means those items of plant equipment located within a manufacturing, processing, assembly or service establishment and used for cutting, abrading, grinding, shaping, forming, joining, measuring, testing, heating or treating production materials or work in process.

(k) "Machine tools" mean those items of production equipment which are power-driven, non-portable machines used for cutting, abrading, grinding, shaping or forming metal.

(l) "Accessory item" means an item which facilitates or enhances the operation of plant equipment but which is not essential for its operation, such as remote control devices.

(m) "Auxiliary item" means an item without which the basic unit of plant equipment cannot operate, such as motors for pumps and machine tools.

(n) "Special tooling" means property of such specialized nature that its use, without substantial modification or alteration, is limited to the production of the particular supplies or performance of the particular services for which acquired or furnished. It includes, but is not limited to, jigs, dies, fixtures, molds, patterns, special taps, special gauges, and special test equipment.

(o) "Material" means such property which may be incorporated into or attached to an end product to be delivered to the Government or which may be consumed or expended in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, and small tools and supplies which may be consumed in normal use during the life of the contract.

PART II—GENERAL PROVISIONS

202. *Designation of property administrator.* (a) A property administrator shall be designated for each Government contract involving Government property. In appropriate cases the contract administrator may be assigned the additional duty of property administrator.

(b) It is the Department of Defense policy to encourage single property administration at each industrial facility. Consequently when a contractor is engaged in the performance of contracts for more than one procuring activity, a single property administrator shall be designated for all contracts if mutually agreeable to the procuring activities concerned.

(c) Assistant property administrators for specific contracts may be appointed in accordance with the procedures of each Department.

(d) Property administrators may be civilian or military personnel.

(e) The property administrator will not be required by virtue of his duty as property administrator to post a bond.

203. *Duties and responsibilities of the property administrator.* (a) The property administrator shall familiarize himself with the provisions of this Part 30.2 and the contract provisions pertaining to Government property.

(b) He shall, as the authorized representative of the contract administrator or administrators, insure compliance with the contract requirements relative to Government property and insure fulfillment of all obligations imposed by this Part 30.2.

(c) He shall examine the documents, including but not limited to consumption or usage reports, adjustment reports, reports of spoilage or shrinkage, sales, shipments, transfers, etc., recorded by the contractor in the property account, to the extent necessary to establish the correctness and completeness of such records.

(d) It shall be his responsibility to determine whether the contractor is using Government property for the purposes authorized by the contract, and whether the contractor is exercising the degree of care in the handling of Government property prescribed in the contract.

(e) He shall make usage analyses to determine the reasonableness of the consumption and expenditure of Government property. Control records shall be utilized in the performance of the usage survey and, to the extent necessary, selective physical inspections of Government property shall be made in the appropriate stages of production.

(f) He shall periodacilly examine all property records to determine whether such records reflect the status of Government property and indicate compliance with the provisions of the contract and applicable directives. He shall report promptly in writing to the contract administrator any noncompliance by the contractor with the contract provisions and applicable directives.

(g) He shall advise the contract administrator on all property matters.

PART III—RECORDS TO BE MAINTAINED

301. *General.* (a) In order satisfactorily to perform work under a Government contract, a contractor must maintain some form of control records for all Government property, whether furnished to or acquired by a contractor for the account of the Government. It is the Government's policy to designate and use such records as the official contract records, and not to maintain duplicate property control records, other than those required by paragraph 303, and other than industrial facility records. With respect to industrial facilities, additional records shall be maintained by the property administrator or higher headquarters, as may be required by the respective Departments pursuant to paragraph 303.1 (c). Exceptions to the above policy may be authorized by the respective Departments in special circumstances, such as where the administrative expense of maintaining Government personnel at the contractor's plant or providing frequent official visits to the plant would exceed the cost of maintaining Government records or otherwise not be in the best interest of the Government.

(b) The contractor's property control records and procedures shall be reviewed and approved in writing by the contract administrator at the inception of the contract. Any necessary corrective action will be required of the contractor prior to approval.

(c) The contractors' property control system will provide financial accounts for Government-owned industrial facilities in the contractors' possession or control. The system will be subject to internal control standards and be supported by property records for such facilities; in the manner described in paragraph 304.

(d) The official records shall be kept in such condition that at any stage of completion of the work under a contract the status of Government property may be readily ascertained.

(e) Separate property records for each contract are desirable but a consolidated property record may be maintained provided that the consolidated record provides the information set forth in paragraph 304.

(f) Property records shall be established for any usable components which are permanently removed from items of Government property, as a result of modification, or otherwise.

(g) Special tooling and equipment fabricated from materials which are the property of the Government will be appropriately recorded immediately upon fabrication. Special tooling and equipment fabricated from materials which are the property of the contractor will be appropriately recorded at the time title passes to the Government.

(h) Departmental policies will govern the establishment of monetary levels below which individual item records of plant equipment will not be required.

304. *Records to be maintained by the contractor.* It is the contractors' responsibility (i) to maintain adequate control records in accordance with the requirements of this Manual of all Government property provided under a contract, including property provided under such contract as may be in the possession or control of a subcontractor, and to establish separate property accounts to be located at the subcontractor's plant and at the contractor's secondary site when so requested by the contract administrator.

304.1 *Records of material.* All Government material furnished to the contractor, as well as all other material, title to which has passed to the Government, by reason of allocation from contractor-owned stores, or by reason of purchase by the contractor for direct charge to a Government contract, or otherwise, shall be recorded in accordance with the contractor's property control system, as follows:

(a) *Contractor's property control system.* Except as provided in (d) below, the contractor's property control system shall be such as to provide the following information:

(1) Contract number.
(2) Nomenclature or description of item.
(3) Quantity received.
(4) Quantity issued.
(5) Balance on hand.
(6) Posting reference.
(7) Date received or issued.
(8) Unit price.
(9) Location.
(10) Disposition action taken.

(b) *Consolidated stock record.* Where a contractor has more than one Government contract, under which Government property is provided, a consolidated record for materials may be authorized, provided the total quantity of any item is allocated to each contract by contract number and each requisition of property from the contractor's stores is charged to the contract on which the property is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

(c) *Custodial records.* Custodial records shall be maintained for tool crib items, guard force items, protective clothing and other items issued for the use of individnals in the performance of their work under the contract.

(d) *Use of receipt and issue documents.* Based on a determination of the contracting officer in accordance with paragraph 301 (b), the contractor may maintain in lieu of "stock records" a file of appropriately cross-referenced documents representing receipt, issue, and adjustments of Government-provided material in performance of a Government contract. Such determination shall be consistent with generally accepted accounting practices and a low frequency of receipt and issue of the items of material specified (i. e. usually issued directly upon receipt). In accordance with Departmental procedures:

(i) The contracting officer may authorize this method of property control for Government-provided material, including but not limited to items used in manufacturing or maintenance, office supplies, etc.

(ii) This method of property control may be used for research and development contracts.

304.3 *Records of plant equipment.* Plant equipment shall be accounted for by individual item except as provided in subparagraphs (a), (b), and (c) below. The form of property records to be maintained for plant equipment shall be prescribed by the respective departments and will include as a minimum the information prescribed by Exhibit A.

(a) *Record of accessory and auxiliary equipment.* Individual records for accessory and auxiliary equipment which is attached to or otherwise a part of an item of plant equipment and which is required for its normal operation need not be maintained, but the description of such accessory and auxiliary equipment shall be entered on the respective plant equipment records.

(b) *Record of manufacturing systems.* Where plant equipment and accessory type items are assembled and interconnected to form a single operating unit designed to perform continuously the same manufacturing process, such equipment may, for property and inventory control purposes, be grouped and reported as a single item of plant equipment on one plant equipment record in lieu of an individual record for each component comprising the item of plant equipment. This does not preclude the requirement for completely describing the component items nor does it preclude the use of more than one plant equipment record when additional space is required.

(c) *Record of minor plant equipment.* Summary stock records, rather than individual item records, shall generally be maintained for minor plant equipment.

304.7 *Financial control accounts.* The contractors' property control system should be such as to provide annually, or not more often than quarterly if required in accordance with Departmental procedures, the dollar amounts of Government-owned industrial facilities in the following classifications.

(i) Land and rights therein,
(ii) Utility distribution systems,
(iii) Buildings, structures and improvements thereto, excluding plant equipment,
(iv) Plant equipment, excluding production equipment and minor plant equipment, and
(v) Production equipment.

The contractor's accounts will be susceptible to local reconciliation in total and subtotals as to whether contractor-acquired or Government-furnished.

1. Section 505.1 (b) is hereby amended to read as follows:

(b) Any communication, letter, note, or memorandum from a claimant, or his duly authorized representative, or a person acting as next friend of a claimant who is not sui juris, setting forth sufficient facts to apprise the Commission of an intent to apply under the provisions of section 5 (a) through (e), as amended, section 5 (g), section 6 (e), as amended, 7 (h), section 15, section 16 and section 17 of the act shall be deemed to be an informal claim. When an informal claim is received and an official form is forwarded for completion and execution by the applicant, such official form shall be considered as evidence necessary to complete the initial claim, and unless such official form is received within thirty (30) days from the date it was transmitted for execution, if the claimant resides in the continental United States or forty-five (45) days if outside the continental United States, the claim will be disallowed.

2. In § 505.2, paragraphs (d), (e) and (f) are redsignated (e), (f), and (g) respectively, and a new paragraph (d) is added to read as follows:

(d) Claims of religious organizations made under section 7 (h) of the act will be received by the Commission during the period August 6, 1956 through February 6, 1957, pursuant to the provisions of section 7 (h) (3) of Public Law 997, 84th Congress, approved August 6, 1956. Claims to be accepted must be postmarked before midnight February 6, 1957, or delivered to the Office of the Foreign Claims Settlement Commission of the United States, Washington, D. C., or to any person or agency authorized by the Commission to receive claims on its behalf, before midnight February 6, 1957.

3. In § 505.3, the introductory sentence preceding paragraph (a) is hereby amended to read as follows:

§ 505.3 *Official forms.* Official forms are provided for use in the preparation of claims for submission to the Commission for processing. Claim forms are available at the Washington offices of the Commission and through other agencies as the Commission shall designate. An official form is provided for each type of claim that may be made under all the provisions of sections 5, 6, 7, 15, 16, and 17 of the War Claims Act of 1948, as amended. The official forms provided for use with respect to each type of claim under the provisions of these sections are designated and identified as follows:

* * * * *

4. In § 505.3, paragraphs (d), (e) and (f) are redesignated (f), (g) and (h) respectively, and new paragraphs (d) and (e) are added to read as follows:

(d) For reimbursement for relief furnished by a religious organization, FCSC Form 997-A,[1] Application for Reimbursement for Relief Furnished by Religious Organizations.

(e) For compensation to a religious organization for loss of or damage to certain property or facilities as a consequence of the war, FCSC Form 997-B,[1] Application by Religious Organization for Compensation for Loss and Damage to Property as a Consequence of World War II.

5. Section 505.5 is hereby amended to read as follows:

§ 505.5 *Documents to accompany forms.* All claims filed pursuant to the provisions of section 5 (a) through (e), 5 (g), 6 (e), 7 (h), 15, 16, and 17 of the act shall be accompanied by all the evidentiary documents, instruments and records prescribed in the instructions which accompany each type of official form (see § 505.3). If such evidentiary documents, instruments, and records do not accompany the claim and are not furnished within 30 days provided the claimant resides within the continental United States or 45 days if the claimant is outside continental United States following the date of request, the claim may be deemed to have been abandoned and be disallowed.

6. In Part 507—Entitlement to Award, after Subpart C add new Subpart D, as follows:

SUBPART D—REIMBURSEMENT TO RELIGIOUS ORGANIZATIONS UNDER SUBSECTION (h) OF SECTION 7

Sec.
507.200 Eligible claimants.
507.201 Religious organization functioning in the Philippines.
507.202 Expenditures incurred.
507.203 Fair value of supplies used.
507.204 Furnishing shelter, food, clothing, hospitalization, medicines, and medical services and other relief.
507.205 Members of the Armed Forces of the United States.
507.206 Civilian American citizens (as defined in section 5 of the act).
507.207 Definitions of "compensated."
507.208 Loss or damage sustained as a consequence of the war.
507.209 "Other property or facilities connected with" within the meaning of section 7 (h) of the act.
507.210 Educational, medical and welfare work within the meaning of section 7 (h) of the act.
507.211 Cost of replacement.

AUTHORITY: §§ 507.200 to 507.211 issued under sec. 2, 62 Stat. 1240, as amended; 50 U. S. C. App. 2001.

§ 507.200 *Eligible claimants.* Eligible claimants under subsection (h) of section 7 of the act are restricted to religious organizations functioning in the Philippines and of the same denomination as a religious organization functioning in the United States which furnished relief as described, and during the period designated in subsection (a) of section 7 of the act.

§ 507.201 *Religious organization functioning in the Philippines.* The term "religious organization functioning in the Philippines" for purposes of section 7 (h) of the act, means any church, sect, denomination, religious order or congregation, or any group, body, corporation, association or other entity formed for religious purposes, professing and adhering to the tenets of some particular religious faith or form of worship and which maintained under its auspices in the Philippine Islands, on or after December 7, 1941, a church, chapel, or other place of divine worship or a religious house, community, mission, convent or facilities for divine worship, or operated a school, dormintory, hospital, dispensary, orphanage or other like institutions under religious auspices; or any part, division or association of such churches, sects, denominations, religious orders, congregations, groups, bodies, corporations or entities. Such religious organization must not have received an award under subsection 7 (a) or (b) of the act and for the purposes of section 7 (h) (1) (B) of the act must have received an award for war damages from the Philippine War Damage Commission under the provisions of the Philippine Rehabilitation Act of 1946, as amended.

§ 507.202 *Expenditures incurred.* An expenditure shall be deemed to have been incurred by such Philippine organization when money or any other article of calculable value which was the property of, or for which such organization was obliged to make repayment or restitution, was voluntarily spent, paid over, donated, contributed, used or consumed or which, after being designated for use in accordance with the terms of section 7 of the act of 1948, was lost, confiscated, or destroyed, while held for delivery or during delivery, to, or in behalf of members of the Armed Forces of the United States or civilian American citizens in the Philippines the persons described in §§ 507.205 and 507.206: *Provided,* That the aforesaid expenditures were not incurred in accordance with an agreement with the Japanese authorities which provided for compensation.

§ 507.203 *Fair value of supplies used.* The term "fair value of supplies used" means the original cost of such supplies or the present replacement value, whichever is greater. In the event the supplies have already been replaced at a cost in excess of either the original cost or the present replacement price, the actual amount thus expended shall constitute the fair value. If such amount expended for replacement is less than the present replacement price then the original cost or the actual amount expended in replacing such supplies, whichever is greater, shall constitute the fair value. The term "fair value of services furnished in accordance with the provisions of section 7 of the act" means either the fee, price or rental charge prevailing in the Philippine Islands at the time such services were furnished or such fixed or standard valuation as the Commission shall establish. In computing the fair value of supplies used or services furnished any compensation received by the claimant, in pursuance thereof, whether at the time of the delivery or use of the supplies, at the time of performance of the service, or subsequent thereto shall be deducted. Whenever the claimant is unable to adduce relevant, reliable and probative evidence which tends to establish fair value, the Commission will establish as the fair value of the supplies used or the services performed, an amount which, being consistent with the intent and purpose of section 7 of the act, it deems equitable and reasonable.

§ 507.204 *Furnishing shelter, food, clothing, hospitalization, medicines, and medical services and other relief.* A religious organization functioning in the Philippines will be deemed to have furnished shelter, food, clothing, hospitalization, medicines and medical aid in the Philippines when such organization voluntarily, either directly or indirectly, provided refuge for, fed, clothed, provided hospital, medical, and nursing services to, or supplied medicines, drugs, religious articles and the like, or furnished such other services and supplies determined by the Commission to be consistent with the intent and purpose of section 7 or the act, or provided funds or other means whereby such things were provided, or where items of supply after being designated for such use were confiscated, or destroyed while held for delivery or during delivery, to or in behalf of members of the Armed Forces of the United States or civilian American citizens in the Philippines the persons described in §§ 507.205 and 507.206: *Provided,* That such shelter, food, clothing, hospitalization, medicines, and medical aid, and the like were not furnished in accordance with an agreement with Japanese authorities which provided for compensation.

§ 507.205 *Members of the armed forces of the United States.* The term "members of the armed forces of the United States" means any regularly appointed, enrolled, enlisted, or inducted member of the military or naval forces of the United States Army, Navy, Marine Corps and Coast Guard; commissioned officers of the United States Public Health Service who were detailed for active duty with the Army, Navy, Marine Corps or Coast Guard; commissioned officers of the United States Coast and Geodetic Survey who were assigned to duty during World War II on projects of the War and Navy Departments outside the continental United States; members of the organized Philippine Army of the government of the Commonwealth of the Philippines and other units who were called or ordered into service of the armed forces of the United States in valid orders by the General, United States Army, designated by the Secretary of War, pursuant to and in compliance with the Military Order of the President of the United States, dated July 26, 1941 (3 CFR, 1943 Cum. Supp.).

§ 507.206 *Civilian American citizen (as defined in section 5 of the act).* The term "civilian American citizen" means any person who, being then a citizen of the United States, was captured by the Imperial Japanese Government on or after December 7, 1941, at Midway, Guam, Wake Island, the Philippine Islands, or any territory or possession of the United States attacked or invaded by such government, or while in transit to or from any such place or who went into hiding at any such place in order to avoid capture or internment by such government.

§ 507.207 *Definitions of "compensated".* (a) Within the contemplation of section 7 (h) (1) (A) of the act the word "compensated" means (1) with respect to "expenditures incurred" that the award shall be made in dollars, the amount of the award to be computed on the basis of the rate of exchange applicable at the date such expenditures were incurred, and (2) with respect to "payment of the fair value of supplies used", that the award shall be made in dollars, the amount of the award to be computed in accordance with the provisions of § 507.203.

(b) The word "compensated" as employed in section 7 (h) (1) (B) of the act shall be deemed to include a computation of the loss or damage sustained, deducting therefrom any amounts which such religious organization, as defined in § 507.201 or any person or entity, has heretofore received from, or which have been expended by the Philippine War Damage Commission or any other agency of the United States on account of the same loss or damage.

§ 507.208 *Loss or damage sustained as a consequence of the war.* Within the contemplation of section 7 (h) (1) (B) of the act, the term "loss or damage sustained as a consequence of the war" shall be deemed to include any such loss or damage which resulted directly from one or more of the following perils subsequent to December 6, 1941, and prior to August 15, 1945:

(a) Enemy attack;

(b) Action taken by or at the request of the military, naval, or air forces of the United States to prevent such property from coming into the possession of the enemy;

(c) Action taken by enemy representatives, civil or military, or by the representatives of any government cooperating with the enemy;

(d) Action by the Armed Forces of the United States in opposing, resisting, or expelling the enemy from the Philippines;

(e) Looting, pillage, or other lawlessness or disorder accompanying the collapse of civil authority determined by the Commission to have resulted from any of the other perils enumerated in this section or from control by enemy forces.

§ 507.209 *"Other property or facilities connected with" within the meaning of section 7 (h) (1) (B) of the act.* The term "other property or facilities connected with" within the meaning of section 7 (h) (1) (B) of the act shall be deemed to include any property, both real and personal, owned by such religious organization, as defined in § 507.201, which was substantially used and necessarily maintained in the operation of its schools, colleges, universities, scientific observatories, hospitals, dispensaries, and orphanages in the furtherance of its work in the fields of education, medicine and welfare.

§ 507.210 *Educational, medical and welfare work within the meaning of section 7 (h) (1) (B) of the act.* Educational, medical and welfare work shall be deemed to include those programs, curricula and other duly constituted procedures and services essential to the functioning of educational, medical and welfare institutions, and regularly offered by such schools, colleges, universities, scientific observatories, hospitals, dispensaries and orphanages.

§ 507.211 *Cost of replacement.* The term "cost of replacement" as used in the phrase "postwar cost of replacement" for purposes of section 7 (h) (4) of the act

shall be the amount determined to be fair and equitable for the 12-month period ending October 1, 1952, as determined by the Commission, required to restore the property lost or damaged as a consequence of the war as provided in § 507.-208 to the same actual functional capacity or degree of usefulness as existed immediately prior to the loss or damage.

7. In § 515.1, paragraph (d) is redesignated as paragraph (e) and a new paragraph (d) is added to read as follows:

(d) Any award made to a religious organization under section 7 (h) of the act will be certified to the Secretary of the Treasury for payment to an organization or individual in the United States designated by the claimant, and in the case of claims under clause (B) of paragraph (1) of section 7 (h) such religious organization or individual in the United States shall be required to certify that all money paid on said claim and received by the designated organization or individual will be used for the purpose of restoring the educational, medical, and welfare facilities described in the claims and located in the Philippines.

(Sec. 2, 62 Stat. 1240, 50 U. S. C. App. 2001)

These amendments to the regulations shall become effective upon filing with the FEDERAL REGISTER.

PROPOSED RULE MAKING

POST OFFICE DEPARTMENT

[39 CFR Part 52]

FEES FOR INSURED MAIL

NOTICE OF PROPOSED RULE MAKING

The Post Office Department proposes to revise the fees for insured mail, and to make other changes in the regulation relating to insured mail service, as indicated in the proposed amendments to §§ 52.2 and 52.3 of Title 39, Code of Federal Regulations, set forth below.

However, before he makes the proposed changes effective, the Postmaster General desires to afford patrons of the postal service an opportunity to present such written views as they may care to make with respect to the proposed amendments. Such written views may be submitted to Albert J. Robertson, Assistant Postmaster General and Controller, Bureau of Finance, Post Office Department, Washington 25, D. C., at any time prior to September 22, 1956.

1. In § 52.2 *Fees* amend the table in paragraph (a) to read as follows:

Liability:	*Fee*
$0.01 to $10	$0.10
$10.01 to $25	.15
$25.01 to $50	.20
$50.01 to $100	.30
$100.01 to $200	.35

Liability for insured mail is limited to $200.

2. In § 52.3 *Mailing* amend subparagraph (1) of paragraph (d) to read as follows:

(1) Parcels on which the 10-cent fee is paid are not numbered and should be listed on separate sheets or grouped together. Prepare only one copy.

(R. S. 161, 396, as amended, sec. 12, 65 Stat. 676; 5 U. S. C. 22, 369, 39 U. S. C. 246f)

[Economic Regs. Draft Release 81B]

UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

MANUAL TO BE MADE IMMEDIATELY EFFECTIVE; WITHDRAWAL OF NOTICE OF PROPOSED RULE MAKING

AUGUST 13, 1956.

On May 15, 1956, a notice of proposed rule making concerning this matter was published in the FEDERAL REGISTER (21 F. R. 3188). This draft release proposed to incorporate into the uniform system presently in effect certain important changes embodied in the revised system scheduled to become effective on January 1, 1957.

Subsequently, the industry requested and was granted a substantial extension of time within which to file its comments. Upon consideration of these comments, it appears that the industry may require some additional time to make the necessary conversions to the new accounting system. Furthermore, it does not appear that any significant time could be saved by immediate implementation of these provisions.

In view of the foregoing circumstances the Board finds that it is proper to withdraw the provisions of the aforementioned notice so that the industry will have until January 1, 1957, to complete the task of converting its internal accounting procedures to conform to the modified provisions of the new system. Accordingly, the Board hereby withdraws Draft Release No. 81.

(Sec. 205 (a), 52 Stat. 984; 49 U. S. C. 425)

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

The Wyoming National Guard has filed an application, Serial No. Wyoming 029381, for the withdrawal of the lands described below, from all forms of appropriation under the public land laws, including the mining laws but excluding the mineral leasing laws subject to the following condition:

Future oil and gas leases or present leases when extended, on the lands described within this withdrawal shall contain the stipulation that drilling will not be conducted within the withdrawn area except during periods from September 1, to April 1, unless the oil and gas lessee and/or operator can negotiate an agreement with the Wyoming National Guard to discontinue the use of the range during the period of such drilling, and in the event of discovery of oil or gas, that the Wyoming National Guard be reimbursed for expenditures on the withdrawn area so that it could establish a similar rifle range elsewhere.

The applicant desires the land for use as a National Guard Rifle Range.

For a period of thirty days from date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, at room 409, Federal Office Building, Cheyenne, Wyoming.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 16th day of August 1956.

VERL E. ROBERTS,
Authorized Representative of the Administrator.

These matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held on September 13, 1956, at 9:30 a. m., e. d. s. t., in a hearing room of the Federal Power Commission, 441 G Street, NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of § 1.30 (c) (1) or (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised it will be unnecessary for applicants to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before August 29, 1956. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-10000]

TRANSCONTINENTAL GAS PIPE LINE CORP.

NOTICE OF SUPPLEMENTAL APPLICATION

AUGUST 21, 1956.

Take notice that Transcontinental Gas Pipe Line Corporation (Transco), a Delaware corporation, having its principal place of business in Houston, Texas, filed on July 20, 1956, pursuant to section 7 of the Natural Gas Act, a Supplemental Application for a certificate of public convenience and necessity, authorizing the construction and operation of certain facilities in addition to those set out in its original application in Docket No. G-10000 as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in its said Supplemental Application, which is on file with the Commission and open for public inspection.

Transco's original application was filed on February 27, 1956 and noticed on April 20, 1956. Hearings are currently in progress before this Commission on the original application.

Transco states in its Supplemental Application that it proposes to construct and operate 73.84 miles of 30" and 36" loop lines along its main transmission system in addition to the facilities described in its original application. These facilities are to be constructed in 1957.

Transco estimates that the cost of these additional facilities is approximately $8,550,000, which will be met out of a financing program of Transco, involving the issuance of bonds and debentures.

Transco proposes to utilize these additional facilities:

(1) To provide an additional capacity of 20,000 Mcf per day above the 40,000 Mcf of capacity provided in its original application, or an aggregate of 60,000 Mcf per day of capacity for delivery of natural gas to the Tidewater Areas of North Carolina, and South Carolina and

(2) To eliminate the bottleneck heretofore existing on Transco's system and to avoid the accumulation of idle capacity below Transco's Compressor Station 16 by providing 40,000 Mcf per day of additional capacity above that proposed in its original application for delivery of said quantity of gas anywhere on its system above station 16 and to utilize initially said 40,000 Mcf per day of capacity above station 16 for the sale and delivery of "E" gas to its northern customers and for the transportation of gas to Sun Oil Company on an interruptible basis.

In addition, Transco proposes in its said Supplement to render service to the following intervenors in Docket No. G-

10000 who were not listed as proposed customers in the original application: The United Gas Improvement Company, Abbeville Natural Gas Company, the Cities of Laurence, Greer and Simpsonville, South Carolina, and the Cities of Greensboro and Union Point, Georgia.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before September 4, 1956.

M. H. MARR

ORDER SUSPENDING PROPOSED CHANGES IN RATES

M. H. Marr (Applicant) on July 23, 1956, tendered for filing a proposed change in the presently effective rate schedule for sales of natural gas subject to the jurisdiction of the Commission. The proposed change, which constitutes an increased rate is contained in the following designated filing which is proposed to become effective on the date shown:

Description; Purchaser; Rate Schedule Designation; and Effective Date[1]

Notice of change, dated July 20, 1956; Louisiana-Nevada Transit Co.; Supplement No. 3 to Applicant's FPC Gas Rate Schedule No. 6; August 22, 1956.

The increased rates and charges proposed in the aforesaid filing have not been shown to be justified, and may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds it is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the said proposed change, and that the above-designated supplement be suspended and the use thereof deferred as hereinafter ordered.

The Commission orders:

(A) Pursuant to the authority contained in sections 4 and 15 of the Natural Gas Act and the Commission's general rules and regulations (18 CFR, Chapter I), a public hearing be held upon a date to be fixed by notice from the Secretary concerning the lawfulness of said proposed change in rates and charges; and, pending such hearing and decision thereon, the above-designated supplement be and the same hereby is suspended and the use thereof deferred until January 22, 1957, and until such further time as it is made effective in the manner prescribed by the Natural Gas Act.

(B) Neither the supplement hereby suspended, nor the rate schedule sought to be altered thereby, shall be changed until this proceeding has been disposed of or until the period of suspension has expired, unless otherwise ordered by the Commission.

(C) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Issued: August 20, 1956.

PUBLIC SERVICE COMPANY OF INDIANA, INC.

NOTICE OF APPLICATION FOR PRELIMINARY PERMIT

AUGUST 21, 1956.

Public notice is hereby given that Public Service Company of Indiana, Inc., of Plainfield, Indiana, has filed an application under the Federal Power Act (16 U. S. C. 791a-825r) for preliminary permit for proposed Project No. 2211 located on the Ohio River at the proposed highlift U. S. Government Markland Navigation Dam, approximately one mile upstream from Markland, in Switzerland County, Indiana, affecting navigable waters of the United States and utilizing surplus water or water power from the United States' Markland Navigation Dam, and consisting of a powerhouse located at the Indiana end of the Markland Dam with installed capacity of 80,000 kilowatts; a substation; and a transmission line to deliver project energy to the applicant's existing transmission system.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10). The last date upon which protests may be filed is October 4, 1956. The application is on file with the Commission for public inspection.

INTERSTATE POWER CO. AND NORTHERN STATES POWER CO.

NOTICE OF APPLICATION

AUGUST 21, 1956.

Take notice that Interstate Power Company (Interstate) and Northern States Power Company (Northern), by separate applications filed August 20, 1956, seek authorization, pursuant to section 203 of the Federal Power Act, for the sale and transfer by Interstate of the electric transmission and distribution systems and related rights and assets constituting its "Waconia Area" properties located in the State of Minnesota, and the purchase and acquisition of the same by Northern.

Interstate's application (E-6703) shows it to be a corporation organized and existing under the laws of the State of Delaware, qualified to do business as a foreign corporation in the States of Illinois, Iowa, Minnesota, and South Dakota, having its principal place of business in Dubuque, Iowa. Northern's application (E-6704), shows it to be a corporation organized and existing under the laws of the State of Minnesota, qualified to do business as a foreign corporation in the States of North Dakota and South Dakota, having its principal place of business in Minneapolis, Minnesota.

The proposed transaction between the companies would be carried out in accordance with an agreement of sale dated July 26, 1956, between Interstate and Northern. Under that agreement, Northern would pay a base cash purchase price of $2,275,000, subject to closing adjustments, which consideration is said to have been arrived at by arm's-length bargaining. According to Interstate's application, the properties to be sold constitute all of the real estate included in 16 parcels which it owns in the Waconia area, all of the transmission lines, sub-stations and urban and rural distribution systems located in Carver, Hennepin, McLeod, Sibley, Scott and Wright counties, Minnesota, all of the franchises and other rights pertinent to said electric systems and all customer and merchandise accounts receivable, unbilled revenue, materials and supplies and merchandise and appliances appurtenant to said electric systems. Interstate's application further states that the properties proposed to be sold are isolated from the remainder of its utility system and for many years they have been connected with the generating and transmission system of Northern, from whom Interstate has heretofore purchased all of the electric energy requirements of the general public served by the electric transmission and distribution systems proposed to be sold; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to either application, should on or before the 14th day of September 1956, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

FOREIGN CLAIMS SETTLEMENT COMMISSION

RELIGIOUS ORGANIZATIONS IN PHILIPPINES[1]

FILING OF CLAIMS FOR COMPENSATION FOR RELIEF

Notice is hereby given that pursuant to Public Law No. 997, 84th Congress, approved August 6, 1956, which amended the War Claims Act of 1948, as amended, the Foreign Claims Settlement Commission of the United States will receive, during the 6-month period ending at midnight February 6, 1957, claims by any religious organization functioning in the Philippines during World War II and of the same denomination as a religious organization functioning in the United States in accordance with the terms and conditions prescribed in such Public Law and in accordance with the regulations of the Commission made with respect thereto.

Public Law No. 997, 84th Congress, in adding new subsection (h) to section 7 of the War Claims Act of 1948, as amended, authorizes the filing of claims by such religious organizations for compensation for relief furnished in the Philippines during World War II to members of the armed forces of the United States and civilian American citizens, and claims for compensation for war damage to educational, medical and welfare property of such organizations if they furnished relief as prescribed in subsection (a) of section 7 of the act. Payments cannot be made under Public Law 997 to any such organization which has previously received an award under section 7 (a) or 7 (b). Similarly, no payments for war damages can be made under Public Law 997 to any such religious organization unless it received an award for war damages from the Philippine War Damage Commission under the provisions of the Philippine Rehabilitation Act of 1946, as amended.

The basis of any claim by an eligible organization, under Public Law 997 is generally the same as that provided for in the case of claims filed under sections 7 (a) and 7 (b) of the War Claims Act of 1949, as amended.

Dated: August 17, 1956.

By the Commision.

UTAH POWER & LIGHT CO.

ORDER APPROVING PROPOSED AMENDMENT OF CERTIFICATE OF ORGANIZATION AND BY-LAWS CHANGING COMMON STOCK FROM NO-PAR TO PAR, SPLITTING EACH PRESENT SHARE INTO TWO SHARES, AND INCREASING AUTHORIZED NUMBER OF SHARES

AUGUST 21, 1956.

Utah Power & Light Company ("Company"), a registered holding company which is also a public-utility company, has filed with this Commission a declaration and an amendment thereto pursuant to sections 6 (a), 7 and 12 (e) of the Public Utility Holding Company Act of 1935 ("act") and Rule U-62 thereunder regarding the following proposed transactions:

Pursuant to its Certificate of Organization and By-Laws, as amended, the Company is authorized to issue 2,500,000 shares of Common Stock without par value, of which there are issued and outstanding 2,220,000 shares having a stated value of $56,771,563.38, or approximately $25.58 per share. The Company proposes: (1) To transfer $60,436.62 from its earned surplus to its capital stock account, resulting in a stated value of $25.60 per share for each share of its Common Stock presently outstanding; and thereupon (2) to amend its Certificate of Organization and By-Laws so as (a) to increase the authorized Common Stock from 2,500,000 shares without par value to 7,500,000 shares with a par value of $12.80 per share, (b) to change the outstanding Common Stock from 2,220,000 shares without par value to 4,440,000 shares with a par value of $12.80 per share, and (c) to authorize its Board of Directors to fix the consideration, not less than the par value, at which the Company may issue and dispose of its par value stock.

The Company proposes to hold a special meeting of its stockholders on October 8, 1956, to consider and act upon the proposals aforesaid, and to solicit proxies in favor of the proposed amendments. When the proposed charter amendment becomes effective, the old no-par common shares will represent an equal number of new $12.80 par value shares; and certificates representing an additional share of new $12.80 par value Common Stock for each outstanding share of no-par value stock will be mailed to holders of record.

The proposed transactions have been approved by the Idaho Public Utilities Commission and by the Public Service Commission of Wyoming, the only other regulatory commissions which, in the opinion of the Company's counsel, have jurisdiction in the matter.

Total fees and expenses paid and to be paid by the Company in connection with said transactions are estimated at $30,000, including legal fees in the amount of $2,500.

Due notice of the filing of said declaration having been given in the manner provided by Rule U-23, and no hearing having been requested of or ordered by the Commission; and the Commission finding that the applicable standards of the act and the rules thereunder are satisfied, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and hereby is, permitted to become effective forthwith, subject to the terms and conditions prescribed in Rule U-24.

By the Commission.

AMERICAN LOUISIANA PIPE LINE CO.

ORDER GRANTING APPLICATION REGARDING PROPOSAL TO ISSUE AND SELL TO BANKS FIVE YEAR NOTES

AUGUST 21, 1956.

American Louisiana Pipe Line Company ("American Louisiana"), a nonpublic utility subsidiary of American Natural Gas Company, a registered holding company, has filed with this Commission, pursuant to section 6 (b) of the Public Utility Holding Company Act of 1935 ("act"), an application and amendments thereto, regarding the following proposed transactions:

American Louisiana proposes to enter into a credit agreement providing for its borrowing, from time to time, prior to July 1, 1957, of up to $28,000,000 from the banks and in the respective amounts set forth below:

The First National City Bank of New York, N. Y.	$7,000,000
The Hanover Bank, New York, N. Y.	7,000,000
Mellon National Bank & Trust Company, Pittsburgh, Pa.	7,000,000
National Bank of Detroit, Michigan	7,000,000
Total	28,000,000

The amounts borrowed are to be evidenced by unsecured installment notes maturing in five equal amounts on December 15 of each of the years 1957 through 1961. The notes are to bear interest, with respect to the first two maturities, at the prime rate for commercial loans at The First National City Bank of New York on the dates of the respective borrowings, with a minimum rate of 3½ percent and a maximum rate of 4 percent. The rate with respect to the last three maturities is to be ¼ of 1 percent higher than such prime rate, with a minimum rate of 3¾ percent and a maximum rate of 4¼ percent. The notes are to be prepayable in whole, or in part, pro rata, without premium, except that if prepayment is made from the proceeds of other bank borrowings a prepayment premium is to be paid in an amount equal to ¼ of 1 percent per annum of the amount prepaid for the unexpired term of the notes. The company is to pay a stand-by charge equal to ¼ of 1 percent per annum on the average daily unused balance of the commitments computed from the date of the credit agreement to the date on which the aggregate borrowings equal the total aggregate commitment, or July 1, 1957, whichever is earlier. The company may reduce the commitment at any time without penalty.

Approximately $12,000,000 of the proceeds from the proposed bank loans are to be used to complete the initial development of American Louisiana's natural gas pipeline from Louisiana to Michigan. The remaining proceeds are to be used to pay the costs of expansion, estimated at $16,000,000, of such pipe line capacity beyond the initial development stage by approximately 100,000 Mcf per day, authorization for which is now being sought in proceedings before the Federal Power Commission.

It is represented that no State commission, and no Federal regulatory authority other than this Commission, has jurisdiction over the proposed transactions.

The fees and expenses to be incurred in connection with the proposed transactions are estimated as follows:

Counsel fees: Sidley, Austin, Burgess & Smith	$1,000
Accountant fees: Arthur Andersen & Co.	1,000
Service Company: American Natural Gas Service Company (at cost)	2,000
Miscellaneous	500
Total	4,500

Due notice of the filing of the application having been given in the manner prescribed by Rule U-23 promulgated under the act, and no hearing having been requested of or ordered by the Commission; and

It appearing that the applicable provisions of the act and of the rules and regulations thereunder are satisfied, and the Commission observing no basis for the imposition of terms and conditions and it further appearing that the fees and expenses to be incurred in connection with the proposed transactions are not unreasonable if they do not exceed the estimates set forth herein; and the Commission deeming it appropriate in the public interest and in the interest of investors and consumers that the application be granted, effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that the application, as amended, be, and it hereby is granted, effective forthwith, subject to the terms and conditions contained in Rule U-24.

By the Commission.

WARREN PETROLEUM CORP.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 21, 1956.

In the matter of Warren Petroleum Corporation, Common Stock, File No. 1-3243.

San Francisco Stock Exchange has made application, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, to strike the above named security from listing and registration thereon.

The reasons alleged in the application for striking this security from listing and registration include the following:

According to advices from counsel for Warren Petroleum Corporation, all but 3,935 of its shares have been exchanged for shares of Gulf Oil Corporation capital stock pursuant to an offer of the latter by prospectus dated February 1, 1956. The Warren Petroleum Corporation stock was suspended from dealings by the applicant Exchange prior to the opening of business on August 8, 1956, and this application is based on the limited number of such shares currently outstanding.

Upon receipt of a request, on or before September 5, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

HARSCO CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 22, 1956.

In the matter of application by the Philadelphia-Baltimore Stock Exchange for unlisted trading privileges in Harsco Corporation, Common Stock, File No. 7-1819.

The above named stock exchange, pursuant to Section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before September 10, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

SCUDDER, STEVENS & CLARK FUND, INC.

NOTICE OF FILING OF APPLICATION FOR ORDER EXEMPTING OFFER BY OPEN-END COMPANY TO SELL ITS SHARES AT A PRICE OTHER THAN PUBLIC OFFERING PRICE IN CONNECTION WITH MERGER OF NON-AFFILIATED COMPANY

AUGUST 22, 1956.

Notice is hereby given that Scudder, Stevens & Clark Fund, Inc. ("Scudder"), an open-end diversified, investment company, registered under the Investment Company Act of 1940 ("act"), has filed an application pursuant to section 6 (c) of the act for an order exempting from the provisions of sections 10 (d) (4) and 22 (d) of the act the proposed issuance of shares of Scudder for substantially all of the assets of Phillips Investment Company ("PIC"), not registered under the act.

Scudder, a Massachusetts corporation, is an investment company of the kind described in section 10 (d) of the act and, as such, sells its shares to investors directly and through Scudder Fund Distributors, Inc., a wholly owned subsidiary of Scudder, at their net asset value as described in the prospectus, without the addition of any sales charge.

PIC, a Delaware corporation, is a personal holding company. PIC was founded as a family holding corporation, and holds a substantial amount of common stock of Phillips Petroleum Company. The firm of Scudder, Stevens & Clark ("Adviser"), a partnership registered with this Commission under the Investment Advisers Act of 1940, furnishes investment advice to PIC for a fee based on Adviser's standard fee schedule for such services. Adviser is also investment adviser to Scudder.

The application states that after various negotiations, an agreement and Plan of Reorganization dated June 11, 1956, was entered into between Scudder, PIC and the stockholders of PIC. The agreement provides for a sale of all the assets of PIC, less (a) certain PIC claims for refund of taxes, and (b) a cash reserve for certain expenses, in exchange for shares of stock of Scudder on the basis of the net asset value of the Scudder and PIC stock on the closing day except that the value of the PIC stock is to be reduced by an amount equal to 12½ percent of the capital gains which would be realized for Federal income tax purposes if the PIC assets were sold at that time. PIC will distribute the Scudder shares received for its assets to its stockholders in liquidation.

The agreement also provides that PIC will, prior to the closing date, sell all assets other than investment securities, and will also sell certain investment securities set forth in the Agreement and other investment securities designated by Scudder as not suitable investments for Scudder. PIC will also realize capital gains to the extent necessary so that the percentage of PIC assets representing unrealized appreciation will approximate the percentage of Scudder's assets representing unrealized appreciation at the closing date While the unrealized appreciation of each company will thus bear the same relationship to the total assets of each company, the discount of 12½ percent of the possible capital gain of PIC was insisted upon by Scudder. The small number of holders of PIC who would become the holders of large blocks of the redeemable shares of Scudder made a discount necessary to afford protection to the existing shareholders of Scudder from the tax consequence of possible redemption by such PIC stockholders even though for tax reasons it would not be in the interests of said stockholders to redeem. The 12½ percent discount is the result of arm's-length bargaining between Scudder and PIC.

At August 9, 1956, the Scudder assets had a value of $60,078,369. Unrealized appreciation amounted to $20,216,310 or an amount which is 33.65 percent of Scudder's total assets. As of this date PIC's assets had a value of $16,580,018 of which unrealized appreciation accounted for $9,432,712 or 56.89 percent of the total. To achieve the result required in the agreement of equalizing the relative percentages of unrealized appreciation on the assets of the two companies at the date of closing, it will be necessary for PIC to sell about $6,360,000 of its investment securities. Assuming no change in market values at the date of closing, Scudder will thus acquire $15,368,743 of assets consisting of $5,437,587 of cash and $9,931,156 of investment securities with unrealized appreciation of $4,987,614. On this basis the discount on the unrealized appreciation would amount to $623,451.

Section 22 (d) of the act prohibits the sale of redeemable securities of a registered investment company except at a current public offering price described in the prospectus, with certain exceptions not pertinent here. Since PIC will receive the shares of Scudder on the basis of net asset value, less a discount as discussed above, PIC may be said to be paying more than the public offering price of Scudder's shares described in its prospectus. In addition, Scudder, as a company which complies with the requirements of section 10 (d) must also comply with section 10 (d) (4) which provides in substance that any premium over net asset value charged by such company upon the issuance of any such security, plus any discount from net asset value charged on redemption thereof, shall not in the aggregate exceed 2 per centum. It may therefore be said that the operation of the formula would prevent Scudder from complying with the provisions of section 10 (d) (4) of the act.

Section 6 (c) of the act authorizes the Commission by order upon application conditionally or unconditionally to exempt any transaction from any provision or provisions of the Act or of any rule or regulation thereunder, if and to the extent that the Commission finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the act. In all the circumstances Scudder believes that an exemption is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the provisions of the act.

Notice is further given that any interested person may, not later than September 5, 1956 at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

OHIO EDISON CO.

NOTICE OF PROPOSED ACQUISITION OF UTILITY ASSETS

AUGUST 22, 1956.

Notice is hereby given that Ohio Edison Company ("Company"), a registered holding company and a public-utility company, has filed with this Commission an application pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 9 (a) (1) and 10 of the act as applicable to the proposed transaction, which is summarized as follows:

Pursuant to a Sale Agreement dated August 9, 1956, between the Company and the Village of Plain City, Ohio ("Village"), the Company proposes to acquire, for a cash consideration of $410,000 (of which $102,500 has already been paid on account), the Village's generating plant other than land and buildings, and its electric distribution and street lighting systems including land and land rights necessary for the operation of such systems, together with materials and supplies and all related fixtures and appliances. The property includes five diesel engine generators with a total capacity of 1,550 Kw., 15 pole miles of overhead distribution facilities, 111 street lights, and 113 line transformers of 2,716 Kva. aggregate capacity. The property presently serves about 825 customers. The company estimates that operating revenues for the first full year of operation will approximate $110,000.

It is stated that the Village is situated within the Company's service area and in close proximity to communities presently served by the Company. Upon consummation of the acquisition, the property will be physically connected with the Company's facilities. It is expected that integration of the acquired property with the Company's system will result in improvement of the local serv-

ice and an overall reduction in electric rates.

The Sale Agreement was entered into as the result of the acceptance of a sealed bid filed by the Company pursuant to public notice by the Village that it would dispose of the property upon the receipt of bids from prospective purchasers. The Company is advised by representatives of the Village that its records do not contain an accumulated total cost of the property. The Company proposes to record the property on its books on the basis of original cost, actual or estimated, and to dispose of the difference, if any, between the purchase price and such original cost in accordance with the accounting regulations and orders of The Public Utilities Commission of Ohio and the Federal Power Commission, which will have jurisdiction with respect thereto. It is stated that no commission other than this Commission has jurisdiction over the proposed acquisition.

The Company estimates its fees and expenses herein as follows:

Commonwealth Associates, Inc., for engineering services	$250
Winthrop, Stimson, Putnam & Roberts, for legal services	1,500
Company payroll costs and expenses	6,000
Miscellaneous	300
Total	8,050

It is requested that the Commission's order herein be made effective upon issuance.

Notice is further given that any interested person may, not later than September 4, 1956, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, said application, as filed or as amended, may be granted as provided by Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

ARROW GRAPHIC CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 22, 1956.

I. Arrow Graphic Corporation, a Delaware company, 210 Fifth Avenue, New York, New York, filed with the Commission on February 20, 1956, a notification and offering circular, and subsequently filed amendments thereto, relating to a proposed public offering of 50,000 shares of its 1¢ par value common stock to be offered at $3.50 per share and $70,000 ten year 8 percent debentures to be offered at $10 per unit or $245,000 in the aggregate without the services of an underwriter, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A thereunder.

II. The Commission, on the basis of information reported to it by its staff as a result of an investigation, having reasonable cause to believe:

A. That the promoter and a principal stockholder of the issuer, John V. Holmes, on July 6, 1956, consented to the entry of a judgment of the New York State Supreme Court permanently enjoining him from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security.

B. That a principal underwriter of the offering herein, Abraham Stein, on July 10, 1956, consented to the entry of a judgment of the New York State Supreme Court permanently enjoining him from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security.

C. That an exemption under Regulation A is not available for the present offering in that the aggregate offering price of all securities being offered exceeds the limitation of $300,000 as prescribed by Rule 217 (a) (iii) since John V. Holmes is an affiliate of the issuer and an affiliate of Central Reserve Oil Company which filed on May 31, 1955, a notification and offering circular (File No. 240-1683) in connection with an aggregate offering of $300,000 of its securities.

D. That the terms and conditions of Regulation A have not been complied with in that:

1. Item 1 of the notification failed to state all the jurisdictions in which the issuer's securities are being offered;

2. Item 4 of the notification failed to list as an affiliate of the issuer, the name and address of Central Reserve Oil Company, 210 Fifth Avenue, New York, New York;

3. An offering of the securities of the issuer has been made by communications not filed with the Commission pursuant to Rule 221 under Regulation A; and

4. Ronald Sugden Tilley, Robert M. Schulster, Abraham Stein, Sheldon Gottheim, Harry Kass, Norman Grant and Al Rich are acting as underwriters without being named as such in the notification and offering circular.

E. That the offering of securities by the issuer would and did operate as a fraud and deceit upon the purchasers.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

By the Commission.

APACHE URANIUM CO.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 22, 1956.

I. Apache Uranium Company, 519 Carson Street, Las Vegas, Nevada, having filed with the Commission on December 27, 1955 a Notification on Form 1-A and an Offering Circular, and amendments thereto, relating to a proposed public offering of 1,425,000 shares of its 1¢ par value common capital stock at 7¢ per share, and a proposed offering of rescission to persons who had previously purchased 4,695,500 shares of its 1¢ par value common capital stock for an aggregate of $40,450.00, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable grounds to believe that:

A. The terms and conditions of Regulation A have not been complied with in that:

(1) The written consent of the principal underwriter or underwriters is not attached as an Exhibit to the Notification on Form 1-A, as required by Item 7 (b) thereof;

(2) The name and address of the principal underwriter or underwriters are not stated in the Offering Circular; the tabular data on the facing page of the Offering Circular does not reflect the per unit or any amount of underwriting commissions to be paid; and the aggregate amount of underwriting commissions is not stated in the Offering Circular; all as required by Rule 219 (c) (4);

(3) A report on Form 2-A filed with the Commission on May 8, 1956 pursuant to Rule 224 is false, inaccurate and misleading with respect to the number of shares sold, the per unit and aggregate sales price thereof, and the disposition of the proceeds of such sale.

B. The Offering Circular contains untrue statements of material facts, and omits to state material facts necessary in order to make the statements made in the light of the circumstances under which they were made not misleading, particularly in that:

(1) The Offering Circular falsely states that the Company has no present intention of engaging the services of an underwriter, and that no underwriting commissions will be paid;

(2) The Offering Circular fails to disclose the existence of outstanding options issued by the Company for its 1¢ par value common capital stock at prices less than the public offering price, and the contemplated issuance of options for additional stock at prices less than the public offering price;

(3) The Offering Circular contains an offer of rescission by the issuer with respect to the prior sale of 4,695,500 shares of the issuer's common capital stock for an aggregate of $40,450, and states that Mr. Robert Stanley personally guarantees the refund of the money to the purchasers of such stock; however, the Offering Circular fails to disclose that neither the issuer nor Mr. Robert Stanley is financially able to repay moneys to purchasers who tender their stock for rescission.

III. *It is ordered,* Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933 that the exemption under Regulation A be, and it hereby is temporarily suspended.

Notice is hereby given, that any person having any interest in the matter may file with the Secretary of the Commission a written request for a hearing that, within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

TITLE 1—GENERAL PROVISIONS

Appendix A—Guide to Record Retention Requirements

NOTE: Appendix A to Title 1 (20 F. R. 2217) is revised to read as follows:

Introduction. The following list was compiled as a guide to generally applicable provisions of Federal laws and regulations relating to the retention of records by the public. The list is derived from the laws contained in the United States Code as amended by the laws enacted in 1955, and from the regulations contained in the Code of Federal Regulations as amended in the daily issues of the FEDERAL REGISTER through December 31, 1955. It represents an effort to show (1) what published requirements there are on the keeping of non-Federal records, (2) what records must be kept and who must keep them, and (3) how long they must be kept.

The list does not have the effect of law, regulation, or ruling. It is merely a guide to requirements that appear to be in effect at the end of 1955.

Coverage. The list is confined to generally applicable published requirements on record retention. Not included are requirements applying to named individuals and corporations such as professional or patriotic associations, port or bridge authorities. Also not included are requirements as to the furnishing of reports to Government agencies, the filing of tax returns, the submission of supporting evidence with applications or claims, and similar materials. Likewise the provisions of individual Government contracts may require the keeping of records, but no attempt has been made to include all such provisions.

In many laws and regulations there is an implied responsibility to keep copies of reports and other papers furnished to Federal agencies, or to keep working papers necessary to the preparation of a report. Ordinarily such implied requirements are not included.

The list also does not contain requirements as to the keeping of papers furnished by the Government, such as passports, licenses, permits, and similar documents, unless they are closely related to other records which must be kept. It does not include requirements as to the display of posters, notices, or other signs in factories, hotels, or other places of business.

Arrangement. The list is arranged alphabetically by the names of the Departments, followed by the major agencies imposing or having a special interest in the requirements, and thereunder by the bureau or office immediately concerned with the requirements. Individual items are numbered to simplify indexing, but they are not alphabetically arranged.

Four supplements to the list contain generalized information about certain requirements under the Defense Production Act of 1950 and the Emergency Price Control Act of 1942; a detailed listing of National Production Authority orders and regulations that were still in effect on December 31, 1955; a detailed listing of requirements of the Petroleum Administration for Defense, some of which are still in effect; and detailed information on requirements imposed by the Civil Aeronautics Board relative to the availability of credentials for inspection.

An index to the list follows the last supplement.

5. Internal Revenue Service

NOTE: The following items refer to requirements issued under the Internal Revenue Code of 1939 and the Internal Revenue Code of 1954 which were in effect on December 31, 1955. All regulations applicable under any provision of law in effect on August 16, 1954, the date of enactment of the 1954 Code, are applicable to the corresponding provisions of the 1954 Code insofar as such regulations are not inconsistent with the 1954 Code, and such regulations remain applicable to the 1954 Code until superseded by regulations under such Code. The Internal Revenue Service points out that the omission from this compilation of any record retention requirement provided for by law or regulation issued thereunder shall not be construed as authority to disregard any such requirement. The Service also points out that persons subject to income tax are bound by the retention requirement given in item 5.11 regardless of other requirements which for other purposes allow shorter retention periods.

Citations are to the 1939 Code of Federal Regulations unless otherwise indicated.

Retention period: 3 years after final payment. 33 CFR 118.03–5

9.2 *Manufacturers of equipment used on vessels and approved by the Coast Guard.* To keep drawings, plans, blueprints, specifications, production models, qualification tests, X-ray or radiographic prints and films, etc., associated with or related to equipment or appliances or materials when required by vessel inspection laws and regulations administered by the Coast Guard.

Retention period: 6 months after termination of approval. 46 CFR 2.90–1

9.3 *Masters of tank vessels or vessels towing tank barges transporting inflammable or combustible cargo.* To keep on board a bill of lading manifest or shipping document giving name of consignee and the delivery point, the kind, grades, and approximate quantity of each kind and grade of cargo, and for whose account the cargo is being handled.

Retention period: During period of transportation or storage. 46 CFR 35.01–10

9.4 *Owners, agents, masters, or other persons in charge of vessel involved in marine casualties.* To keep such voyage records of the vessel as are maintained by the vessel, such as both rough and smooth deck and engine room logs, bell books, navigation charts, navigation work books, compass deviation cards, gyro compass records, stowage plans, records of draft, aids to mariners, radiograms sent and received, the radio log, and crew and passenger lists.

Retention period: Until notification of completion of investigation is received from Coast Guard. 46 CFR 35.15–1, 78.07–15, 97.07–15, 136.05–15, 167.65–65

9.5 *Master or senior deck officer in charge of transfer of inflammable and combustible cargo.* To keep on board copy of Declaration of Inspection Prior to Bulk Cargo Transfer.

Retention period: During period of transportation or storage. 46 CFR 35.35–30

9.6 *Welders.* To maintain qualification test records with identification data.

Retention period: Not specified. 46 CFR 56.01–10

9.7 *Owners, agents, masters and other persons in charge of nautical school ships involved in marine casualties.* To keep voyage records of nautical school ships that are maintained, such as both rough and smooth deck and engine room logs, bell books, navigation charts, navigation work books, compass deviation cards, gyro compass records, stowage plans, records of drafts, aid to mariners, radiograms sent and received, radio logs, and lists of persons aboard.

Retention period: Until notification of completion of investigation is received from Coast Guard. 46 CFR 136.05–15, 167.65–65

9.8 *Masters of vessels storing explosives for a period exceeding 24 hours (other than barges and magazine vessels).* To keep records of temperature readings.

Retention period: During period of transportation or storage. 46 CFR 146.02–12

9.9 *Owners of vessels.* To keep shipping orders, manifests, or other shipping documents, cargo lists, cargo stowage plans, reports, papers, and records as required to be prepared, unless persons or corporations charter or engage or contract for the use of these vessels under such terms and conditions that they have full and exclusive control of the management and operation of such vessels.

Retention period: At least 1 year. 46 CFR 146.02–22

9.10 *Persons or corporations chartering or engaging or contracting for the use of vessels under such terms and conditions that they have full and exclusive control of the management and operation thereof.* To keep shipping orders, manifests, or other shipping documents, cargo lists, cargo stowage plans, reports, papers and records as required to be prepared.

Retention period: At least 1 year. 46 CFR 146.02–22

9.11 *Vessel operators.* To keep copies of delivery receipts covering domestic deliveries and exportation of explosives or other dangerous articles or substances, and combustible liquids.

Retention period: Until transaction is completed. 46 CFR 146.05–12, 146.05–13

9.12 *Owners, charterers, agents, or masters of vessels.* To keep memoranda describing the shipments of explosives or other dangerous articles or substances, and combustible liquids being transported, conveyed or stored on board vessels.

Retention period: Until transaction is completed. 46 CFR 146.05–12

9.13 *Masters of vessels transporting or storing explosives or other dangerous articles or substances, and combustible liquids, as cargo.* To keep on board dangerous cargo manifests or lists.

Retention period: During the period of transportation or storage. 46 CFR 146.06–12

9.14 *Owners, charterers or agents of vessels transporting or storing explosives or other dangerous articles or substances, and combustible liquids, as cargo.* To keep ashore copies of dangerous cargo manifests or lists.

Retention period: At least 1 year. 46 CFR 146.06–18 (retention: 146.02–22)

9.15 *Vessel owners, charterers, or agents.* To keep ashore copies of cargo stowage plans or lists.

Retention period: At least 1 year. 46 CFR 146.06–19 (retention: 146.02–22)

9.16 *Vessel operators.* To keep shipping papers of railroad vehicles loaded with dangerous substances and transported on board vessels.

Retention period: At least 1 year. 46 CFR 146.07–8 (retention: 146.02–22)

9.17 *Vehicle operators carrying explosives.* Shipping papers required covering transportation of dangerous goods in highway vehicles on board common carriers.

Retention period: Until transaction is completed. 46 CFR 146.08–4

9.18 *Undocumented vessels.* To have available the certificates of award of number.

Retention period: For period of operation of vessel by the owner. 46 CFR 172.10–15

XI. ATOMIC ENERGY COMMISSION

1.1 *Cost-type contractors.* To keep justifications in support of subcontracts and purchase orders adequate to reflect the procurement practices and procedures used and the circumstances supporting particular transactions.

Retention period: Not specified. 10 CFR 5.509. (For detailed instructions and retention periods see AEC Manual, Ch. 0230.)

1.2 *Persons possessing or using radioisotopes.* To keep accurate and complete records showing the receipt, use, storage, delivery, and disposal of radioisotopes, and the safety measures used to protect health.

Retention period: Permanent. 10 CFR 30.50

1.3 *Supervisors of persons possessing or using radioisotopes.* To keep reports of overexposure to radioisotopes, including observed effect on persons so overexposed, described in detail.

Retention period: Not specified. 10 CFR 30.51

1.4 *Applicants for bonus payments for production of uranium-bearing ores.* To keep records concerning production and deliveries of uranium ores for which application for bonus payments is made.

Retention period: Not specified. 10 CFR 60.6

1.5 *Persons conducting research and development activities in atomic fields.* To keep records of activities as to fissionable materials for inspection, etc.

Retention period: Not specified. 42 U. S. C. 1810 (c)

1.6 *Contractors having negotiated contracts with Atomic Energy Commission and their subcontractors.* To keep directly pertinent books, documents, papers, and records.

Retention period: Not specified. The General Accounting Office shall, until the expiration of 3 years after final payment, have access to and the right to

examine the above-mentioned records. P. L. 703, Ch. 14, Sec. 166. 83d Cong. 2d sess. All 68 Stat. 919. (For detailed instructions on retention and disposal of contractor's records see AEC Manual, Ch. 0230.)

XII. CIVIL AERONAUTICS BOARD

1.1 *Aircraft and related products manufacturers.* To maintain complete records of all purchases and disposition of such purchases.

Retention period: At least 2 years. 14 CFR 1.32–2

1.2 *Aircraft and related products manufacturers.* To maintain records of all incoming inspections, which include information concerning source, source inspection, receiving inspection, quantity (both accepted and rejected), vendor's affidavits, or reports indicating conformity with recognized aircraft standards and disposition of materials handled.

Retention period: At least 2 years. 14 CFR 1.32–2

1.3 *Aircraft and related products manufacturers.* To maintain complete company inspection forms and records which present a historical compilation of all events during the course of manufacture.

Retention period: At least 2 years subsequent to the date of sale and delivery of the product involved. 14 CFR 1.34–1

1.4 *Airplane flight test applicants under the Civil Air Regulations, transport category.* To keep a log of all flight tests and accurate and complete records of the inspections made and of all defects, difficulties, and unusual characteristics and sources of crew error discovered during the tests, and of the recommendations made and action taken.

Retention period: Not specified. 14 CFR 4b.16–3

1.5 *Airframe, powerplant, propeller, or appliance owners or registered owners.* To keep maintenance, repair, rebuilding, or alteration records giving description of work performed, completion date of work done, name of individual, etc., doing work, and signature of person authorized to approve work done.

Retention period: Permanent. 14 CFR 18.20–18.23

1.6 *Certificated repair stations or airframe, powerplant, propeller, or appliance manufacturers.* To maintain a duplicate copy of the customer's work order, when accepted in lieu of the Major Repair and Alteration Form (ACA–337) and when an official maintenance release is furnished owner for retention as a part of the permanent record required.

Retention period: At least 2 years. 14 CFR 18.22–2

1.7 *Certified airline transport pilots.* To keep an accurate record of flying time in bound logbooks.

Retention period: Not specified. 14 CFR 21.44

1.8 *Certified lighter-than-air pilots and persons receiving flight instructions.* To maintain certified record of flying time in bound logbooks.

Retention period: Not specified. 14 CFR 22.32

1.9 *Certified parachute riggers.* To keep bound record of all packing, inspection, maintenance, repair, and alteration operations performed or supervised on parachutes other than those in military service.

Retention period: At least 2 years after the date of the last entry therein. 14 CFR 25.84

1.10 *Aircraft dispatcher course operators.* To maintain an accurate record of each student, including a chronological log of all instructions, subjects covered, and course examinations and grades.

Retention period: 1 year following filing of annual report. 14 CFR 27.7–1

1.11 *Flight radio operator course operators.* To keep an accurate record of each student, including a chronological log of all instructions, subjects covered, and course examinations and grades.

Retention period: Not specified. 14 CFR 33.31–2

1.12 *Flight navigator course operators.* To keep an accurate record of each student, including a chronological log of all instructions, subjects covered, and course examinations and grades.

Retention period: Not specified. 14 CFR 34.6–5

1.13 *Flight engineer course operators.* To keep an accurate record of each student, including a chronological log of all instructions, attendance, subjects covered, credits granted, examinations and examination grades.

Retention period: Not specified. 14 CFR 35.6–1

1.14 *Air carriers.* To keep as a part of the individual's record the instructor, supervisor, or check airmen's certificate of proficiency for particular training or flight check of each crew member and dispatcher, furnished under air carrier training and pilot check programs.

Retention period: At least 3 months after termination of employment. 14 CFR 40.280, 40.289, 40.300, 42.44–1 (retention: 40.501)

1.15 *Air carriers (scheduled interstate).* To maintain a list of airplanes in current operation and airplanes operated under interchange agreements, a load manifest and flight plan, and maintenance records, including the airplane's maintenance log and a maintenance release.

Retention period: In accordance with provisions of 14 CFR 249.4 unless otherwise specified. 14 CFR 40.502, 40.505–40.507, 40.511

1.16 *Air carriers (scheduled interstate).* To maintain current records of every crew member and aircraft dispatcher, showing compliance with the appropriate requirements of Subchapter A—Civil Air Regulations and disposition of disqualified flight crew members or aircraft dispatchers.

Retention period: At least 3 months after termination of employment. 14 CFR 40.501

1.17 *Air carriers (operating scheduled air transportation outside continental United States).* To keep records of total time in service, time since last overhaul, and time since last inspection on all aircraft components, engines, propellers, and, where practicable, on instruments, equipment, and accessories.

Retention period: In accordance with provisions specified in 14 CFR 249.4. 14 CFR 41.43

1.18 *Air carriers (operating scheduled air transportation outside continental United States).* To retain copies of maintenance release, clearance, and load manifest forms.

Retention period: 90 days. 14 CFR 41.99

1.19 *Air carriers (operating scheduled air transportation outside continental United States).* To maintain records pertaining to any flight which was interrupted because of weather conditions and failed to land at point to which flight was originally cleared.

Retention period: Not less than 1 year from the date of flight. 14 CFR 41.133

1.20 *Air carriers (irregular and off-route).* To keep full information on maintenance and inspection work performed on the aircraft.

Retention period: not specified. 14 CFR 42.31–4

1.21 *Air carriers (irregular and off-route).* To record all mechanical irregularities in operation of aircraft including the aircraft identification, irregularity experienced, the corrective action taken as a result, and identification of the person making such corrections.

Retention period: not specified. 14 CFR 42.32–4

1.22 *Air carrier operators (irregular and off-route air carriers).* To keep a continuous record for each aircraft, listing all changes affecting the weight, c. g. location, and equipment included in order that a computed weight and c. g. location may be established at any time.

Retention period: Not specified, except weight manifests to be kept at least 30 days. 14 CFR 42.32–5

1.23 *Air carriers (irregular and off-route).* To keep at principal operations base maintenance records with respect to all aircraft, aircraft engines, propellers, and, where practicable, appliances used in air transporation.

Retention period: 2 years. 14 CFR 42.91, 42.91–3

1.24 *Air carriers (irregular and off-route).* To maintain at its principal operations base or at such other location used by the air carrier as the Administrator may designate, current records of every airman utilized as a member of a flight crew.

Retention period: 1 year. 14 CFR 42.92, 42.92–1, 42.92–3

1.25 *Air carriers (irregular and off-route).* To retain copy of report to Administrator regarding emergency flights necessitating the transportation of persons or medical supplies for the protection of life or property.

Retention period: 1 year. 14 CFR 42.93, 42.93–1

1.26 *Air carriers (irregular and off-route).* To retain copy of pilot's emergency deviation report to the local Aviation Safety Agent.

Retention period: At least 1 year. 14 CFR 42.94, 42.94–1

1.27 *Air carriers (irregular and off-route).* To retain a copy of the flight manifest for large aircraft and passenger-carrying aircraft operating under instrument flight rules conditions.

Retention period: At least 1 year after completion of the flight. 14 CFR 42.95

1.28 *Registered owners of certificated aircraft.* To maintain aircraft and engine records, including flight time of aircraft and each engine, reports of inspections, minor repairs, and minor alterations of the aircraft structure, engines, and propellers.

Retention period: Not specified. 14 CFR 43.23—43.23–1

1.29 *Aircraft pilots under Civil Air Regulations.* To keep a record in a bound log book of flight time used to substantiate recent experience or qualification for certificates or ratings, with specified information as required.

Retention period: Not specified. 14 CFR 43.43

1.30 *Air carriers.* To retain copy of shipper's certification for transportation of explosives and other dangerous articles.

Retention period: Not specified. 14 CFR 49.3

1.31 *Airman agency flight or ground schools.* To keep accurate individual record of each student, which shall include a chronological log of all instructions, attendance, subjects covered, examinations, and examination grades.

Retention period: Not specified. 14 CFR 50.28

1.32 *Repair stations for airframes, powerplants, propellers, and appliances.* To maintain current records of personnel who are directly in charge of maintenance, repair, inspection, or alteration, including information concerning the experience qualifications of each such individual.

Retention period: Not specified. 14 CFR 52.24—52.24–1

1.33 *Certificated repair stations for airframes, powerplants, propellers, and appliances.* To maintain records of all work performed.

Retention period: At least 2 years. 14 CFR 52.46

1.34 *Foreign repair stations for airframes, powerplants, propellers, and appliances.* To keep maintenance record of all work performed on U. S. registered aircraft, including major repairs and alterations.

Retention period: Not specified. 14 CFR 52.61—52.61–1

1.35 *Certificated aircraft mechanic schools.* To maintain a current record of each student enrolled, including attendance, courses, examinations, and grades, and a progress chart or individual progress record for each student, showing the practical projects or laboratory work completed or to be completed, and properly authenticated transcripts of grades acquired at other accredited schools.

Retention period: At least 2 years from date of termination of enrollment. 14 CFR 53.56—53.56–1

1.36 *Holders of parachute loft certificates.* To maintain records regarding work performed.

Retention period: At least 2 years. 14 CFR 54.15

1.37 *Pilots, owners, or operators of small fixed-wing aircraft involved in accidents.* To keep aircraft wreckage and records thereof.

Retention period: Until released by authorized representative of the Civil Aeronautics Administration. 14 CFR 62.15, 62.18

1.38 *Operators of aircraft (other than small fixed-wing) involved in accidents.* To keep aircraft wreckage and records thereof.

Retention period: Until released by authorized representative of the Civil Aeronautics Board. 14 CFR 62.40, 62.41

1.39 *Holders of permits to operate foreign aircraft in the United States.* To keep true copies of all manifests, air waybills, invoices, and other traffic documents covering flights and records documenting each flight.

Retention period: Not specified. 14 CFR 190.50

1.40 *Air carriers and foreign air carriers.* To keep permanently at its principal or general office a complete file of all tariffs issued by it and by its agents and those issued by other carriers in which it concurs; to keep file of current tariffs at all places tickets are sold or property received for transportation.

Retention period: Permanent. 14 CFR 221.170, 221.171, 249.4

1.41 *Air carriers.* To maintain records of all passes issued and related correspondence or memos.

Retention period: 6 years. 14 CFR 223.5, 249.4

1.42 *Air carriers (local service).* To maintain a record pertaining to each trade agreement entered into, including all correspondence and records concerning advertising and transportation services provided.

Retention period: Not specified. 14 CFR 225.10

1.43 *Large irregular carriers, and noncertificated cargo carriers.* To keep accounts, records, and memoranda necessary for statistical and flight reports.

Retention period: Data for statistical reports—3 years; data for flight reports—1 year. 14 CFR 242.2

1.44 *Air carriers.* Preservation of accounts, records, and memoranda.

Retention periods: Listed in detail throughout the part. 14 CFR Part 249

XIII. COMMITTEE ON PURCHASES OF BLIND-MADE PRODUCTS

1.1 *Agencies for the blind (employing blind to extent of 75 percent of personnel in direct labor) selling to Government agencies and participating in the program of the Committee on Purchases of Blind-Made Products.* To keep accounting system records from which can be drawn annually a financial report and operating statement accurately reflecting operations.

Retention period: Not specified. 41 CFR 301.6

1.2 *Agencies for the blind (employing blind to extent of 75 percent of personnel in direct labor) selling to Government agencies and participating in the program of the Committee on Purchases of Blind-Made Products.* To keep eye record cards containing information establishing that employees are blind (as defined in 41 CFR 301.1).

Retention period: Not specified. 41 CFR 301.6

XIV. FEDERAL COMMUNICATIONS COMMISSION

1.1 *Licensees of standard and FM broadcast (radio) stations.* To keep at each transmitter records of equipment performance measurement data including diagrams and appropriate graphs, together with descriptions of instruments and procedures, signed by the engineers making measurements.

Retention period: 2 years. 47 CFR 3.47, 3.254

1.2 *Licensees of standard, FM, and international radio and television broadcast stations.* To keep records of time and results of auxiliary transmitter tests.

Retention period: 2 years. 47 CFR 3.63, 3.255, 3.555, 3.638, 3.757

1.3 *Licensees or permittees of standard, FM, and international radio and television broadcast stations.* To keep program and operating logs, including rough logs and transcribed portions thereof.

Retention period: 2 years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensees or permittees have been notified, shall be retained until they are specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensees or permittees have been notified shall be retained until such claim or complaint has been fully satisfied or until the same has been barred by the statute limiting the time for filing of such suits upon such claims.[1] 47 CFR 3.111, 3.112, 3.116, 3.281, 3.282, 3.286, 3.581, 3.582, 3.586, 3.663, 3.664, 3.781, 3.782, 3.786

1.4 *Licensees of standard and FM radio, and television broadcast stations.* To keep complete records of all requests for broadcast time made by or on behalf of candidates for public office, together with appropriate notations showing disposition made and change, if any, if requests granted.

Retention period: 2 years. 47 CFR 3.120, 3.290, 3.590, 3.657

1.5 *Licensees or permittees of FM broadcast stations.* To maintain logs for the SCA operations.

Retention period: Not specified. 47 CFR 3.295

1.6 *Television and FM broadcast stations.* To keep at transmitter locations accurate circuit diagrams and lists of required spare tubes, as furnished by manufacturers of the transmitters.

Retention period: Not specified. 47 CFR 3.687

1.7 *Licensees of experimental and auxiliary broadcast services including experimental and experimental facsimile broadcast stations, developmental broadcast stations, remote pickup broadcast stations, broadcast STL or FM intercity relay stations and television auxiliary broadcast stations.* To keep adequate records of operation including logs.

Retention period: 2 years. 47 CFR 4.181, 4.281, 4.381, 4.481, 4.581, 4.681

1.8 *Licensees of experimental stations.* To keep adequate station records of operation; of service or maintenance duties which may affect proper station operation; and of the illumination of antennas or antenna supporting structures.

Retention period: 1 year. 47 CFR 5.163, 5.165

1.9 *Licensees of public radiocommunication stations (other than maritime mobile).* To keep station logs.

Retention period: 1 year: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee has been notified, shall be retained by the licensee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee has been notified shall be retained by the licensee until such claim or complaint has been fully satisfied or until same has been barred by statute limiting the time for filing of suits upon such claims. 47 CFR 6.47

1.10 *Licensees of public radiocommunication stations (other than maritime mobile).* To keep records as follows: by all stations — transmitting measurements data, and service or maintenance records which may affect proper station operation; base stations and auxiliary test stations—names of persons responsible for the operation of the transmitting equipment, together with the period of their duty, and of the illumination of antennas or antenna supporting structures.

Retention period: 1 year: *Provided,* That (a) records involving communications incident to a disaster or which include communications incident to, or involved in, an investigation by the Commission and concerning which the licensee has knowledge, shall be retained by the licensee until specifically authorized in writing by the Commission to destroy them, (b) records incident to or involved in any claim or complaint of which the licensee has knowledge shall be retained by the licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims. 47 CFR 6.507, 6.511

1.11 *Licensees of radio stations on land in the maritime services including public and limited coast stations, marine utility stations, marine fixed stations, marine receiver-test stations and stations operated in the land mobile service for maritime purposes using radiotelegraphy or radiotelephony (including stations in Alaska).* To keep accurate logs.

Retention period: 1 year from date of entry and for such additional periods as required as follows: (a) Station logs involving communications incident to a distress or disaster shall be retained for a period of 3 years from date of entry; (b) station logs which include entries of communications incident to or involved in an investigation by the Commission and concerning which the station licensee has been notified shall be retained by the station licensee until such licensee is specifically authorized in writing by the Commission to destroy them; (c) station logs incident to or involved in any claim or complaint of which the station licensee has notice shall be retained by such licensee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims. 47 CFR 7.115, 7.214, 7.314, 7.370, 7.458, 7.477, 7.536, 14.109

1.12 *Licensees of limited coast stations or marine-utility stations used on shore.* To keep copy of agreement with vessel owners, verifying that licensee has sole right of control of involved ship radio station.

Retention period: Not specified. 47 CFR 7.352

1.13 *Licensees of limited coast stations, marine-utility stations, and marine fixed stations.* To keep records which reflect the cost of the service and its nonprofit, cost-sharing cooperative arrangement.

Retention period: Not specified. 47 CFR 7.352, 7.451

1.14 *Licensees of radio stations on shipboard in the maritime services including Public and Limited ship stations and marine utility ship stations including such stations in Alaska—radiotelegraph stations operating on any frequency and radiotelephone stations operating on a frequency of 30 Mc or below.* To keep accurate logs.

Retention period: 1 year from date of entry and such additional periods as required as follows: (a) Station logs involving communications incident to a distress or disaster shall be retained by the station licensee for a period of 3 years from date of entry; (b) station logs which include entries of communications incident to or involved in an investigation by the Commission and concerning which the station licensee has been notified shall be retained by the station licensee until such licensee is specifically authorized in writing by the Commission to destroy them; (c) station logs incident to or involved in any claim or complaint of which the station licensee has notice shall be retained by such licensee until such claim or complaint has been fully satisfied or until the same has been barred by the statute limiting the time for the filing of suits upon such claims. 47 CFR 9.151, 9.152, 9.153, 9.513

1.17 *Air carrier aircrafts.* To keep adequate records to permit ready identification of individual aircraft in lieu of radio station call letter, the official aircraft registration number, or company flight identification.

Retention period: Not specified. 47 CFR 9.191

1.18 *Licensees of public safety, industrial and land transportation radio services stations.* To keep records as follows: By all stations—transmitter measurements, service and maintenance records, the name of person or persons responsible for the foregoing; base and fixed stations—names of persons responsible for the operation of the transmitting equipment, together with the period of their duty; for base stations in the Industrial and Land Transportation radio services—identification of other base stations or fixed stations with which they communicate, and date, time, and nature of such communication; for stations in the special emergency service—record of the nature and time of each communication; and stations whose antenna or antenna supporting structure is required to be illuminated—a record of illumination.

Retention period: 1 year. 47 CFR 10.161, 10.163, 11.160, 16.160

1.19 *Licensees of public safety radio services.* To keep records of all Conelrad tests and operations as part of the log of radio stations.

Retention period: 1 year. 47 CFR 10.166 (retention: 10.163)

1.20 *Licensees of industrial radio stations and land transportation (base) radio stations sharing costs and facilities with other licensees in the same service.* To keep a copy of cooperative agreements and contracts as well as records which reflect the non-profit, cost-sharing nature of that sharing.

Retention period: Not specified. 47 CFR 11.6, 16.3

1.21 *Nonprofit corporations or associations organized to operate industrial radio stations in the power, petroleum, forest product, motion picture, and relay press radio services.* To keep records which reflect the cost-sharing nonprofit basis under which they operate.

Retention period: Not specified. 47 CFR 11.251, 11.301, 11.351, 11.401, 11.451

1.22 *Licensees of amateur radio stations.* To keep an accurate log of station operation.

Retention period: 1 year following the last date of entry: *Provided,* That those portions of any log covering operation of a station in connection with any actual condition jeopardizing the public safety or affecting the National Defense shall not be destroyed unless prior approval for such destruction shall have been received from the Commission. 47 CFR 12.136, 12.137, 12.244

1.23 *Radio officers of amateur civil emergency services.* To keep records of abbreviated call signs or other distinctive signals of station identification.

Retention period: Not specified. 47 CFR 12.245

1.24 *Manufacturers, owners, or distributors of radio receivers.* To keep certificate of compliance with radiation intereference limits.

Retention period: 5 years. 47 CFR 15.64

1.25 *Employees of railroads who operate radio stations in the railroad radio service.* To keep suitable records of each employee who has been examined with respect to the applicable Railroad Radio General and Operating Rules.

Retention period: Not specified. 47 CFR 16.354

1.26 *Licensees of radio stations which have antenna structures requiring illumination.* To keep station records of inspections required.

Retention period: Not specified. 47 CFR 17.38

1.27 *Licensees of citizens radio service stations.* To keep a record of illumination for those stations whose antenna or antenna supporting structure is required to be illuminated.

Retention period: Not specified. 47 CFR 19.65

1.28 *Disaster communications service radio stations.* To keep a list of all general or collective call signs, unit designators, or authorized substitutes used.

Retention period: Not specified. 47 CFR 20.25

Supplement I—Requirements Under the Defense Production Act of 1950, Executive Order 10160 of September 9, 1950, the Emergency Price Control Act of 1942, and the Second War Powers Act of 1942

Executive Order 10160 of September 9, 1950, requires that every individual, corporation, partnership, association, or other organized group which sold or delivered goods or services, or offered them for sale or delivery, in the course of trade or business during the period from May 24 to June 24, 1950, inclusive, shall preserve all records relating to prices received or asked for such goods or services and the labor, material, acquisition, and other costs incurred in connection with such goods or services (with certain exceptions). The Defense Production Act (sec. 705 (a)) empowers the President to require that these records be kept until 2 years after the expiration of the Act.

Requirements contained in World War II price control regulations have expired,

B. The following NPA orders and regulations contain special provisions for retention of records. The order or regulation itself should be consulted in each instance.

INDEX

Explanation. The index is a guide to the persons, groups, or products covered by the subject titles in the list. It does not purport to bring together under a given entry a complete analysis of all requirements relating to a given business or product. Thus a requirement affecting corporations in liquidation will be found under "corporation" because the word appears in the subject title in the list. There are many other requirements, however, affecting corporations which must be sought under "taxes", "manufacturers", "employers", "contractors", name of product, or other subject. In the same way general categories of persons to whom requirements may apply (such as manufacturers or importers) have been included only if they are particularly necessary in identifying the applicability of the requirements.

Items included in the index are keyed to the department (or agency) number shown in the contents. References are to agency and item numbers, not to FEDERAL REGISTER pages.

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 989—RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

MODIFICATION OF MINIMUM GRADE AND CONDITION STANDARDS FOR NATURAL CONDITION RAISINS AND MINIMUM GRADE STANDARDS FOR PACKED RAISINS

Pursuant to Marketing Agreement No. 109, as amended, and Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California, hereinafter referred to as the "order," effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and upon the basis of information supplied by the Raisin Administrative Committee established under the order, and other available information, it is hereby found that to modify for the 1956–57 crop year, the minimum grade and condition standards for natural condition raisins and the minimum grade standards for packed raisins as hereinafter provided will tend to effectuate the declared policy of the act.

The requirements pertaining to the maximum permissible moisture content of Layer Muscat raisins, in both their natural condition form and packed form, as set forth in the aforesaid order, were relaxed for most of the 1955–56 crop year because the then available data indicated that such requirements were unduly restricting the marketing of such raisins.

The results of limited study of this matter during the 1955-56 crop year disclosed that the average moisture content of a particular lot of Layer Muscat raisins is not necessarily correlated with the keeping quality of such raisins during the relatively short period in which a substantial part of them are marketed. Indications are that keeping quality may depend on the moisture content of the individual clusters of raisins and not so much on the average of the lot. Hence, further studies are required to provide more specific data on desirable moisture requirements and how they should be applied with respect to individual clusters and the lot as a while. In these circumstances, the relaxation of the requirements with respect to the permissible moisture content for Layer Muscat raisins as prescribed in the order should be continued during the 1956–57 crop year.

Therefore, it is hereby ordered: That effective as of September 1, 1956, and continuing until 12:00 midnight, P. s. t., August 31, 1957:

1. Section 989.97 B 3 is, pursuant to the authority contained in § 989.58 (b) of the order, hereby modified so as to change the parenthetical phrase therein reading "(except Layer Muscats shall not exceed 18 percent)" to read "(except that there shall be no maximum permissible percentage for moisture content of Layer Muscats)" and by changing subparagraph (d) of said section to read as follows:

(d) Of such quality and condition that, when processed in accordance with good commercial practice, will, except with respect to moisture content, meet "U. S. Grade B" or better grade as defined in the effective United States Standards for Grades of Processed Raisins.

2. The requirement set forth in § 989.59 (a) (2) (iii) that Layer Muscat raisins in packed form at least meet the minimum grade standards prescribed in "U. S. Grade B" as contained in effective United States Standards for Grades of Processed Raisins is, pursuant to the authority contained in § 989.59 (b) of the order, modified, insofar as operation under the order is concerned, to eliminate therefrom the moisture content restriction set forth in § 52.1847a (b) of said standards.

It is hereby further found and determined that good cause exists for not postponing the effective date of this document later than September 1, 1956 (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) in that: (1) The maximum permissible moisture content restrictions of Layer Muscat raisins, as set forth in the effective standards, will unnecessarily restrict the marketing of such raisins handled during the 1956–57 crop year; (2) it is necessary that the relaxation of such restrictions be continued so that normal marketing of such raisins may proceed without change; (3) handlers require no advance notice for preparation to comply with the continuation of this relaxation. In these circumstances, this document should be made effective on the indicated date.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: August 22, 1956.

Director,

LESTER PIANOS, INC.

Subpart—*Misrepresenting oneself and goods*—Goods: § 13.1695 *Old, second-hand, reclaimed or reconstructed as new.* Subpart—*Neglecting, unfairly or deceptively, to make material disclosure:* § 13.1880 *Old, used, reclaimed, or reused as unused or new.*

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Lester Pianos, Inc., Philadelphia, Pa., Docket 6551, Aug. 11, 1956]

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging a corporate dealer in pianos in Philadelphia with representing by oral statements and otherwise that pianos returned to it upon termination of rental agreements and thereupon refurbished and reconditioned at its shop,, were new and unused—and an agreement between the parties providing for entry of a consent order.

Upon this basis, the hearing examiner made his initial decision and order to cease and desist which, by order of August 10, became on August 11 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That the respondent Lester Pianos, Inc., its officers, agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of used pianos, or any other used product, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that such product is new or unused.

2. Offering for sale or selling such product without clearly disclosing that it is used or not new.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That the respondent herein shall within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with the order to cease and desist.

Issued: August 10, 1956.

In the Matter of William D. Cope, Individually and Doing Business as The Business Opportunities Company

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging an individual engaged in Evanston, Ill., in publishing a monthly "Business Brokers Bulletin" listing businesses and properties for sale in various States and in the selling of advertising therein, with representing falsely on letterheads and business forms and by other means that his private business was a cooperative or corporation; and with representing falsely in his advertising matter, on printed forms furnished property owners and other printed matter, and by oral statements including long distance telephone calls made to prospects by himself and his agents, that he had in his employ or under contract or was associated with 2,000 licensed real estate and business brokers and 5,000 of their sub-agents in 48 States with whom a non-exclusive open listing of the prospects' properties would be made; that purchasers of their properties were immediately available; and that upon payment of a stipulated amount of money for advertising or traveling expenses, sales would be consummated within a short stipulated period—and an agreement between the parties providing for entry of a consent order.

On this basis, the hearing examiner made his initial decision and order to cease and desist which, by order of August 3, became on August 4 the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondent William D. Cope, individually and doing business as The Business Opportunities Company, or under any other name, and respondent's representatives, agents and employees, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution in commerce, as "commerce" is defined in the Federal Trade Commission Act, of advertising in his publication designated "Business Brokers Bulletin," or any other publication or bulletin, or any other advertising matter, do forthwith cease and desist from representing, directly or by implication, that:

1. The Business Opportunities Company is a co-op or cooperative association, or a corporation.

2. Respondent has 2,000 licensed real estate and business brokers in 48 states of the United States in his employ or under contract or is associated with said number of brokers or 5,000 of their sub-agents, or has in his employ or under contract, or is associated with any other number of brokers or their sub-agents in any number of states.

3. A purchaser is immediately available, or is available at any time, to buy the business or property of those who purchase advertising in respondent's bulletin or any other publication.

4. The businesses or properties of advertisers or prospective advertisers in respondent's bulletin or any other publication will be sold upon payment of traveling expenses of a buyer, or prospective buyer or broker.

5. Respondent will effectuate a non-exclusive open listing or any other listing of the businesses or properties of advertisers or prospective advertisers with any number of brokers or salesmen that is not in accordance with the facts.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered. That the respondent herein shall, within sitxy (60) days after service upon him of this order, file with the Commission a report in writing setting forth in detail the manner and form in which he has complied with the order to cease and desist.

Issued: August 3, 1956.

By the Commission.

Appendix—Public Land Orders

[Public Land Order 1328]

[1506645]

COLORADO

PARTIALLY REVOKING THE EXECUTIVE ORDER OF SEPTEMBER 8, 1933, WHICH ESTABLISHED PUBLIC WATER RESERVE NO. 152

By virtue of the authority vested in the President by section 1 of the act of June 25, 1910 (36 Stat. 847; 43 U. S. C. 141) and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of September 8, 1933, establishing Public Water Reserve No. 152, is hereby revoked so far as it affects the following-described lands:

SIXTH PRINCIPAL MERIDIAN

T. 10 N., R. 96 W.,
Sec. 2, W½SW¼.
T. 11 N., R. 96 W.,
Sec. 24, SE¼.

The areas described aggregate 240 acres.

The released lands are embraced in State Exchange Applications, Colorado 014223 and 014224, by which the offered lands will benefit a Federal land program. The lands, therefore, are not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; U. S. C. 279-284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

AUTHORITY: §§ 100.1 to 100.13 issued under sec. 2, 62 Stat. 281, as amended; 40 U. S. C. 318a.

§ 100.1 *Applicability.* The rules and regulations in this part apply at all Federal property under the charge and control of the General Services Administration and to all persons entering in or on such property. Unless otherwise stated herein Federal property under the charge and control of the General Services Administration is referred to as "property." It is the responsibility of the occupant agencies to require observance of these rules and regulations by their employees.

§ 100.2 *Recording presence.* Persons entering or leaving properties during periods when such properties are closed to the public shall sign the register and/or display authorized identification documents when requested by the guard, watchman, or other authorized individuals.

§ 100.3 *Preservation of property.* It is unlawful to wilfully destroy, damage, or remove property or any part thereof, including signs, regulations, decorations, or other facility or equipment, or any tree or other plant life.

§ 100.4 *Conformity with signs and emergency directions.* Persons in and on property shall comply with "No Smoking" and other official signs of a prohibitory or directory nature, and at the time of a fire alarm or other emergency signal shall comply with the directions of building police and other authorized individuals.

§ 100.5 *Nuisances.* The use of loud, abusive, or otherwise improper language, unwarranted loitering, sleeping or assembly, the creation of any hazard to persons or things, improper disposal of rubbish, spitting, prurient prying, the commission of any obscene or indecent act, or any other unseemingly or disorderly conduct on property, and throwing articles of any kind from a building and climbing upon any part of a building, is prohibited.

§ 100.6 *Gambling.* Participating in games for money or other personal property, or the operation of gambling devices, the conduct of a lottery or pool, or the selling or purchasing of numbers tickets, in or on property, is prohibited.

§ 100.7 *Intoxicating beverages and narcotics.* Entering property or the operating of a motor vehicle thereon, by a person under the influence of intoxicating beverages or narcotic drug, or the consumption of such beverages or the use of such drug in or on property, is prohibited.

§ 100.8 *Soliciting and vending.* The soliciting of alms and contributions, commercial soliciting and vending of all kinds, the display or distribution of commercial advertising, or the collecting of private debts, in or on property, is prohibited. This rule does not apply to national or local drives for funds for welfare, health, and other purposes sponsored or approved by the occupant agencies, concessions, or personal notices posted by employees on authorized bulletin boards.

§ 100.9 *Photography for news, advertising, or commercial purposes.* Permission will be granted by the General Services Administration Building Superintendent or Custodian in charge, for taking photographs for news, advertising, or commercial purposes within the property, provided the consent of the occupant agency or agencies has been obtained.

§ 100.10 *Dogs and other animals.* Dogs and other animals, except seeing eye dogs, shall not be brought upon property for other than official purposes.

§ 100.11 *Vehicular and pedestrian traffic.* (a) Drivers of all vehicles in or on property shall drive in a careful and safe manner at all times and shall comply with the signals and directions of guards and all posted traffic signs; (b) the blocking of entrances, driveways, walks, loading platforms, or fire hydrants in or on property is prohibited; (c) except in emergencies, parking in or on property is not allowed without a permit. Parking without authority, parking in unauthorized locations or in locations reserved for other persons or continuously in excess of 18 hours without permission, or contrary to the direction of posted signs is prohibited. This section may be supplemented from time to time with the approval of the Administrator by the issuance and posting of specific traffic directives as may be required and when so issued and posted such directives shall have the same force and effect as if made a part hereof.

§ 100.12 *Concealed weapons.* No person while on property shall carry concealed weapons except for official purposes.

§ 100.13 *Penalties—Other Laws.* Whoever shall be found guilty of violating the rules and regulations in this part is subject to fine of not more than $50 or imprisonment of not more than 30 days, or both. Nothing contained in the rules and regulations in this part shall be construed to abrogate any other Federal laws or regulations, or any State and local laws and regulations, applicable to any area in which property is situated.

[Dockets Nos. AO-219-A7, AO-243-A3]

HANDLING OF MILK IN MEMPHIS, TENNESSEE, AND CENTRAL ARKANSAS MARKETING AREAS

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENTS AND TO ORDERS, AS AMENDED

Pursuant to the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a joint public hearing to be held at the Holiday Inn, 908 South Third Street, Memphis, Tennessee, beginning at 10:00 a. m., local time, Wednesday, September 5, 1956, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modification thereof, to the tentative marketing agreements heretofore approved by the Secretary of Agriculture and to the orders as now in effect, regulating the handling of milk in the Memphis, Tennessee, and Central Arkansas marketing areas. These proposed amendments have not received the approval of the Secretary of Agriculture.

Proposed by the Dean Milk Company, Franklin Park, Illinois:

1. For the purposes of determining the application of the respective orders, the Department shall use as the determining quantities, the volume of Class I milk shipped to the different markets.

2. The compensatory payment provisions of the Central Arkansas order should be revised to conform with any changes resulting from Proposal No. 1.

3. Consideration should be given to the establishment in the Central Arkansas order of a location adjustment which would enable this firm to be competitive in the Memphis area irrespective of which order it is regulated under.

By the Dairy Division, Agricultural Marketing Service:

4. Make such changes as may be required to make the orders in their entirety conform with any amendments thereto which may result from this hearing.

Copies of this notice of hearing, and the orders now in effect, may be obtained from the Market Administrator, 2428 Poplar Avenue, Memphis 12, Tennessee, or 1611 Main Street, Little Rock, Arkansas, or from the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington 25, D. C., or may be there inspected.

Dated: August 23, 1956.

[Docket No. AO-184-A-14]

HANDLING OF MILK IN NASHVILLE, TENNESSEE, MARKETING AREA

NOTICE OF RECOMMENDED DECISION AND OPPORTUNITY TO FILE WRITTEN EXCEPTIONS WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk, of the recommended decision of the Deputy Administrator, Agricultural Marketing Service, United States Department of Agriculture, with respect to proposals to amend the tentative marketing agreement and the order, as amended, regulating the handling of milk in the Nashville, Tennessee, marketing area. Interested parties may file written exceptions to this decision with the Hearing Clerk, United States Department of Agriculture, Washintgon, D. C., not later than the close of business the seventh day after publication of this decision in the FEDERAL REGISTER. Exceptions should be filed in quadruplicate.

Preliminary statement. The hearing, on the record of which the proposed amendments to the tentative marketing agreement and to the order, as amend-

ed, were formulated, was conducted at Nashville, Tennessee, on July 24, 1956 (21 F. R. 5378). The material issues of record related to:

1. Changes in the months in which the higher seasonal Class I price differential would apply.

2. The rate of adjustment of the Class I price based on utilization.

3. Need for emergency action to amend the order with respect to issues No. 1 and No. 2.

Findings and conclusions. The following findings and conclusions are based on the evidence presented at the hearing and the record thereof:

1. *Seasonal pricing.* The period in which the higher seasonal Class I price differential should apply should include the months of August through January, except that for the year 1957, the month of February should be included.

A proposal made by producers would change the seasonal pattern of prices for Class I milk by beginning the period with the higher differential over the basic formula price one month earlier than now provided in the order. The Class I price differentials now provided in the order are $1.40 for the months of September through February, and $1.10 for the months of March through August. The producer proposal would make the $1.40 differential regularly apply in the months of August through February.

Producers based the need for including August in the months with seasonally higher prices on the increased cost of milk production in this month compared to earlier months of spring and summer. Another reason given was the desirability of having the higher seasonal prices apply in the months when producers earn their bases. In this connection producer representatives pointed out that an amendment to the order effective July 1, 1956, moved the base-earning period forward one month by changing it from September through February, to August through January, beginning with August 1957.

In the decision issued by the Under Secretary on June 22, 1956 (21 F. R. 4678), it was stated that: "The present base-excess plan for distributing the market returns from milk among producers was established in the order as the result of a hearing held in August 1951. At the time the present base-excess plan was adopted, the months September through February were normally those of relatively low production in relation to fluid sales. Since that time, producer receipts during the months of August have generally been below average deliveries computed for each year. Likewise, deliveries of producer milk during the month of February have increased each year since 1951 to the point where such deliveries during the past two years have been above the average computed for each year. It is concluded that the base-excess plan should be revised to provide that the months August through January should include the base-forming period." It was also noted in that decision that, in view of the evidence presented concerning months of generally high and low production in connection with the base-excess plan, that consideration might need to be given in a further hearing to changing the months in which the seasonal Class I differentials apply. No such change had been considered at the hearing on which the July 1 amendment was based.

In this market, seasonal changes in the Class I price differentials have served as an incentive to producers to adjust their production to the needs of the fluid market. This pattern of prices has served conjointly with the base plan to accomplish such purpose.

In this connection, some consideration needs to be given, also, to seasonal changes in sales of Class I milk of Nashville handlers. The record data indicate that Class I sales, characteristically, are lower during the summer months of June, July and August than during other months of the year. Deliveries by producers, on the other hand, have usually been highest in the month of May, and by the end of summer are in a declining trend.

The relationship of deliveries by producers to handlers' Class I sales during the month of August each year has become closer in recent years. In August 1955, deliveries by producers were 114 percent of Class I sales as compared to 136 percent of Class I sales in August 1953. The relationship of producer deliveries to Class I sales in the month of February each year has varied considerably from year to year. Although the relation of supply to sales in February has shown a decrease in recent years, the supply has remained ample and higher in relation to sales than in August.

The request made by producers that the $1.40 Class I differential apply in the period August through February each year involves the problem of the annual level of the Class I price, since this change would mean that seven months instead of six would be at the higher level. The problem of the general level of the Class I price is dealt with elsewhere in this decision. With respect to seasonal pricing, it does not appear from this record that February needs to be regularly a month with the higher seasonal price. (An exception is made with respect to February 1957.) The record shows that the supply of milk in February has generally been adequate for market needs. Furthermore, inasmuch as February is at the beginning of, or just prior to, the flush production season, it would appear unnecessary to give producers a seasonal incentive to increase their production in this month. It is concluded that the months in which the higher Class I price differentials regularly apply should be August through January.

Following the hearing, an order suspending certain provisions of the Nashville order was issued July 31, 1956. This suspension order made the $1.40 Class I differential effective for August 1956.

With respect to the month of February 1957, however, producer representatives at the hearing stressed that this would be a base-forming month and that therefore the seasonal drop in the Class I price should not be changed until the year following. Because of this factor, it is concluded that the change in the seasonal pricing should be made fully effective at the same time as the change in the months of the base-forming period which will begin in August 1957.

2. *Supply-demand adjustment.* The rate of change in the Class I price based on the supply-demand adjustment, should be increased from one cent per percentage change in the utilization ratio, to two cents per percentage point. For the months of October 1956 through January 1957, the order should provide that there will be no price deductions due to the supply-demand adjustment, if the most recent twelve-month utilization percentage is 125 percent or less.

The order provides that the Class I price shall be adjusted each month on the basis of utilization of producer milk in the twelve-month period ending with the second preceding month, plus or minus the change from utilization similarly calculated for the twelve-month period ending with the fifth preceding month. The utilization ratio so calculated, which is in terms of the percentage that producer milk is of Class I sales, results in an increase of one cent per hundredweight in the Class I price for each percentage point that the utilization ratio is less than 125, and results in a decrease at the same rate if the utilization ratio exceeds 130 percent.

The producer association proposed that the rate of price adjustment be increased from one cent per percentage point, to four cents per point, whenever the utilization ratio is less than 125 percent. The association requested that no change be made from the present rate of price adjustment when the utilization ratio is more than 130 percent.

The computation of the supply-demand price adjustment was modified by an amendment to the order effective July 1, 1956. Prior to that time, the computation of the utilization ratio was based entirely on average utilization in the twelve-month period ending with the second preceding month. A further change at that time was the elimination from the supply-demand computation of receipts and sales of plants disposing of less than an average of 1,000 pounds of fluid milk products per day in the marketing area. These changes were designed to make the supply-demand adjustment more representative of market conditions and to make it respond faster to changes in conditions.

No supply-demand adjustment was effective from the time the individual-handler pooling arrangement was instituted (April 1955), through March 1956.

Producer witnesses pointed out that the one cent per percentage point is a relatively low rate of price adjustment compared to the rates of price adjustments in other markets, based on utilization. The record shows that the supply-demand adjustment has had little effect on prices during the period in which it has been effective.

Because of recent changes in computation of the supply-demand adjustment, it is not possible, from the record, to reconstruct precisely a supply-demand adjustment on the basis proposed by producers, for periods prior to July 1956. The record does show, however, that for the twelve-month period ending with February 1956, the average ratio of producer milk to Class I sales (excluding handlers with less than 1,000 pounds daily in the marketing area) was 117.7 percent. If the new type of adjustor had been in effect at that time, the amount of adjustment would have reflected also a decreased supply-sales ratio of the three-month period ending with February 1956, compared to a year earlier. From this it appears that the resulting price adjustment at the ratio proposed by producers would have been an addition of at least 32 cents per hundredweight.

The most recent data in the record show that the ratio of producer deliveries to Class I sales (excluding handlers with less than 1,000 pounds daily in the marketing area) during the twelve-month period ending with June 1956, was 120.8 percent. This percentage, which is part of the computation for the August Class I price, is modified by the change from the twelve-month period ending with March 1956, which was 117.8 percent. The increase in utilization percentage between these two twelve-month periods results in an adjusted utilization ratio of 124 percent, or a price adjustment of one cent added to the August Class I price.

As previously noted herein, producer and handler witnesses estimated the supply-sales relationship would be about the same for August and fall months this year as occurred in 1955. If this proves to be true, it may be estimated that, during the late fall and winter period, the supply-demand adjustment (at the current rate) would add about four cents. Furthermore, if the utilization of producer milk in Class I this year in July and months following is higher than a year previous, the amount of price adjustment in fall months would be greater.

It is apparent, from the record, that the rate of price adjustment tends to be relatively slow as presently calculated, even with the modifications of the supply-demand adjustor made effective July 1, 1956. On the other hand, the rate of price adjustment proposed by producers, which would increase the rate of change four times, could result in relatively large price adjustments. Comparison with the rates of price change per percentage point used in other Federal orders, as made in the record, is not a sufficient indication as to the most desirable rate for this market, because of different marketing conditions and because of differences in the types of supply-demand adjustors used. In view of the recent changes in the supply-demand adjustment computation and short experience as to their effect, it appears advisable to make a more moderate change in the rate of adjustment than that proposed by producers. It is concluded that a rate of adjustment of two cents per percentage point of the utilization ratio should be used until further experience is gained. Furthermore, it is concluded that, for a preliminary period, the effect of the increased rate of price adjustment should be based only on the utilization in the twelve-month period ending with the second preceding month. The complete change should become effective in February 1957.

Producers also proposed that when the ratio exceeds 130 percent, the present rate of price adjustment should be retained, so that the producers who have entered the market or increased their production at a time when the market needs additional milk do not suffer financial loss if the market subsequently becomes over-supplied. It was contended that a producer cannot readily reduce his level of production in response to price changes, and that, therefore, a higher rate of price decline does not benefit the market. It is here concluded that this proposal should be denied, since such a pattern of price adjustments could result in serious misalignment of prices with the supply and demand situation.

3. *Emergency action.* Omission of a recommended decision is not necessary with respect to the amendments herein proposed. A price adjustment for the month of August 1956 was effected by the Assistant Secretary in an order suspending certain provisions, issued July 31, 1956.

Rulings on proposed findings and conclusions. A number of briefs were filed which contained proposed findings and conclusions, and arguments with respect to the proposed amendments. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in the recommended decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the marketing area, and the minimum prices specified in the proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(c) The proposed order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and will be applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Recommended marketing agreement and order. The following amendment to the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out. The recommended marketing agreement is not included in this decision because the regulatory provisions thereof would be identical with those contained in the order as proposed to be further amended:

1. In § 978.51 (a) (1) (ii), add the following words: "except that such amount shall not be added or subtracted in computing prices for the months of October 1956 through January 1957, inclusive, and".

2. In § 978.51 (a), delete subparagraph (2) and substitute the following:

(2) For each percentage by which the utilization ratio calculated for the month pursuant to subparagraph (1) of this paragraph exceeds 130, subtract from, or for each percentage by which it is less than 125, add to, the Class I price, two cents.

3. In § 978.51 (a), delete subparagraph (3).

4. In § 978.51 (e), delete the language before the proviso, and substitute the following:

(a) *Class I milk price.* The Class I milk price shall be the basic formula price for the preceding month, plus $1.40 during the months of August through January, except that for the year 1957, the month of February shall be included; and plus $1.10 during all other months, plus or minus a supply-demand adjustment calculated for each month as follows:

Issued at Washington, D. C., this 23d day of August 1956.

DISPOSAL OF FOREIGN EXCESS PROPERTY

NOTICE OF PROPOSED ISSUANCE OF SUPPLEMENT NO. 1 TO FOREIGN EXCESS PROPERTY ORDER NO. 1 (REVOCATION OF CERTAIN OUTSTANDING AUTHORIZATIONS)

Insofar as the Administrative Procedure Act may be applicable herein, notice is hereby given of the proposed issuance of Supplement No. 1 to Foreign Excess Property Order No. 1, as amended, 44 CFR Part 401, 15 F. R. 5847.

It is proposed to publish Supplement No. 1 in substantially the following form:

FOREIGN EXCESS PROPERTY ORDER NO. 1, SUPPLEMENT NO. 1

Foreign Excess Property Order No. 1, as amended August 23, 1950 (15 F. R. 5847) is hereby supplemented as follows:

SECTION 1. [§ 401.11] All authorizations, permits, determinations, licenses, and approvals issued on or before December 31, 1955 by the Foreign Excess Property Officer of the Department of Commerce for the importation into the United States of nonagricultural foreign excess property are hereby cancelled, rescinded and revoked.

SEC. 2. [§ 401.121] The provisions of Section I [§ 401.111] of this Supplement shall not apply to importations into the United States of foreign excess property with respect to which authority for such importations is withdrawn pursuant to Section 1 hereof, provided such foreign excess property has been acquired prior to the date of this Supplement by holders of authorizations, permits, determinations, licenses or approvals issued on or before December 31, 1955 for such importation, if such foreign excess property shall be delivered on or before September 15, 1956 to a carrier for transportation to the United States.

The reason for the proposed publication of Supplement No. 1 is that it has now been ascertained that certain authorizations, permits, determinations, licenses or approvals have heretofore been issued for the importation of stated quantities of certain classes of foreign excess property which were unlimited as to expiration date. More than a reasonable time has elapsed since such issuance. Since January 1, 1956, all such authorizations, etc., have been limited to a period of six months from date of issuance. Since the conditions no longer prevail under which certain earlier authorizations, etc., were issued it is now deemed appropriate, in the national interest, to provide a reasonable opportunity within which foreign excess property already acquired thereunder may be delivered to a carrier for transportation to the United States, and thereafter to terminate such opportunity. Supplement No. 1 will also limit rights of importation of foreign excess property by holders of authorizations, etc., to such foreign excess property as they have acquired pursuant to such authorizations, etc., prior to the date of its issuance.

Interested persons may submit to the Foreign Excess Property Officer, Room 4120, Department of Commerce, Washington 25, D. C., data, views or arguments in writing but not orally relative to the proposed issuance of Supplement No. 1. All relevant material received within 20 days following the day of publication of this notice will be considered.

It is proposed to make Supplement No. 1 effective upon the date of its publication in the FEDERAL REGISTER.

(Sec. 402, 63 Stat. 393; 40 U. S. C. 512. Interprets or applies Foreign Excess Property Order No. 1, as amended, 44 CFR Part 401, 15 F. R. 4657)

CANNED TUNA FISH

NOTICE OF PROPOSALS TO ADOPT DEFINITION AND STANDARD OF IDENTITY AND STANDARD OF FILL OF CONTAINER

Notice is hereby given that a petition has been filed by National Canners Association, 1133 Twentieth Street NW., Washington, D. C., and the following canners of tuna fish: Barbey Packing Corporation, F. E. Booth Company, Inc., California Marine Curing and Packing Company, Columbia River Packers Association, Inc., Crown Packers, Inc., Farwest Fishermen, Inc., Franco-Italian Packing Company, Inc., Hawaiian Tuna Packers Ltd., High Seas Tuna Packing Company, Inc., Pan-Pacific Fisheries, Inc., Point Adams Packing Company, Portland Fish Company, Seattle Seafoods, Inc., South Coast Fisheries, Inc., Star-Kist Foods, Inc., Union Fishermen's Co-Operative Packing Company, Van Camp Sea Food Company, Inc., Washington Packing Corporation, West Coast Fish Company, Inc., Westgate-California Tuna Packing Company, Whiz Fish Products Company.

The petition sets forth proposals to adopt a definition and standard of identity and a standard of fill of container for canned tuna. The proposals are set forth below.

Notice is also given that supplementary petitions have been filed by Hawaiian Tuna Packers Limited, 215 Market Street, San Francisco 8, California, and by the California Fish Canners Association, Inc., Ferry Building, Terminal Island, California, each proposing certain additional provisions to be added to the definition and standard of identity for canned tuna proposed by the National Canners Association. The proposals contained in these supplementary petitions are also set forth below.

Pursuant to the authority of the Federal Food, Drug, and Cosmetic Act (sec. 401, 701, 52 Stat. 1046; Pub. Law 905, 84 Cong., 2d Sess.; 21 U. S. C. 341, 371) and delegated to him by the Secretary of Health, Education, and Welfare (20 F. R. 1996), the Commissioner of Food and Drugs invites all interested persons to present their views in writing regarding the proposals published below. Such views and comments should be submitted in quintuplicate, addressed to the Hearing Clerk, Department of Health, Education and Welfare, Room 5440, 330 Independence Avenue SW., Washington 25, D. C., prior to the thirtieth day following the date of publication of this notice in the FEDERAL REGISTER:

1. The definition and standard of identity and the standard of fill of container proposed for canned tuna by the National Canners Association are as follows:

§ 37.1 *Canned tuna; definition and standard of identity; label statement of optional ingredients.* (a) Canned tuna is the food consisting of processed fish of the species enumerated in paragraph (b) of this section, prepared in one of the optional forms of pack specified in paragraph (c) of this section, conforming to one of the color designations specified in paragraph (d) of this section, in one of the optional packing media specified in paragraph (e) of this section, and may contain one or more of the seasonings and flavorings specified in paragraph (f) of this section. It is packed in hermetically sealed containers and so processed by heat as to prevent spoilage. It is labeled in accordance with the provisions of paragraph (h) of this section.

(b) The fish included in the class known as tuna fish are:

Thunnus thynnus	Bluefin tuna.[1]
Thunnus maccoyii	Southern bluefin tuna.[1]
Thunnus orientalis	Oriental tuna.[2]
Thunnus germo	Albacore.[3]
Parathunnus mebachi	Big-eyed tuna.[4]
Neothunnus macropterus.	Yellowfin tuna.[4]
Neothunnus rarus	Northern bluefin.[2]
Katsuwonus pelamis	Skipjack.[3]
Euthynnus alletteratus	Little tunny.[3]
Euthynnus lineatus	Little tunny.[3]
Euthynnus yalto	Kawakawa.[4]

The description of each species will be found in the text to which reference is made.

(c) The optional forms of processed tuna consist of loins and other striated muscular tissue of the fish. The loin is the longitudinal quarter of the great lateral muscle freed, in accordance with good commercial practice, from skin, scales, visible blood clots, bones, gills, viscera, and black meat. Black meat is the nonstriated part of the great lateral muscle of tuna, known anatomically as the median superficial muscle, highly vascular in structure, dark in color because of retained blood, and granular in form. Canned tuna is prepared in one of the following forms of pack, the identity of which is determined in accordance with the methods prescribed in paragraph (b) of § 37.2.

(1) Solid or solid pack consists of loins cut in transverse segments to which no free fragments are added. In containers of 1 pound or less of net contents, such segments are cut in lengths suitable for packing in one layer. In containers of more than 1 pound net contents, such segments may be cut in lengths suitable for packing in one or more layers of equal thickness. A piece of a segment may be added if necessary to fill a container. The proportion of free flakes broken from loins in the canning operation shall not exceed 18 percent.

(2) Chunks or chunk style consists of a mixture of pieces of tuna in which the original muscle structure is retained. The pieces may vary in size, but not less than 50 percent of the weight of the pressed contents of a container is retained on ½-inch-mesh screen.

(3) Flakes consist of a mixture of pieces of tuna in which more than 50 percent of the weight of the pressed contents of the container will pass through a ½-inch-mesh screen, but in which the muscular structure of the fish is retained.

(4) Grated consists of a mixture of particles of tuna that have been reduced to uniform size and in which more than 50 percent of the pressed weight of the contents of the container will pass through a ½-inch-mesh screen, and in which the particles are discrete and do not comprise a paste.

(d) Canned tuna, in any of the forms of pack specified in paragraph (c) of this section, falls within one of the following color designations, measured by visual comparison with matte surface neutral reflectance standard corresponding to the specified Munsell units of value, determined in accordance with paragraph (g) of this section:

(1) *White tuna.* This color designation is limited to the species of tuna Thunnus germo (albacore), and is not darker than Munsell value 6.3.

(2) *Light tuna.* This color designation includes any tuna not darker than Munsell value 5.3.

(3) Dark tuna. This color designation includes all tuna darker than Munsell value 5.3.

(4) *Blended tuna.* This color designation may be applied only to tuna flakes specified in paragraph (c) (3) of this section, which consist of a mixture of tuna flakes a substantial portion of which meet the color standard for either white tuna or light tuna, and the remainder of which fall within the color standard for dark tuna. The color designation for blended tuna is determined in accordance with paragraph (g) of this section.

(e) Canned tuna is packed in one of the following optional packing media:

(1) Any edible vegetable oil other than olive oil, or any mixture of such oils not containing olive oil.

(2) Olive oil.

(3) Water.

(f) Canned tuna may be seasoned or flavored with one or more of the following:

(1) Salt.

(2) Purified monosodium glutamate.

(3) Hydrolyzed protein.

(4) Hydrolyzed protein with reduced monosodium glutamate content.

(5) Spices or spice oils or spice extracts.

(6) Vegetable broth or sauce, in an amount not in excess of 5 percent of the volume capacity of the container, such broth or sauce to consist of a minimum of 0.5 percent by weight of vegetable extractives and to be prepared from two or more of the following vegetables: Beans, cabbage, carrots, celery, garlic, onions, parsley, peas, potatoes, red bell peppers and green bell peppers, spinach, and tomatoes.

(g) For determination of the color designations specified in paragraph (d) of this section, the following method shall be used: Recombine the separations of presscake resulting from the method prescribed in § 37.2 (b). Pass the combined portions through a circular sieve 12 inches in diameter, fitted with woven-wire cloth of ¼-inch mesh which complies with the specifications for such wire cloth set forth in "Standard Specifications for Sieves," published March 1, 1940, in L. C. 581 of the U. S. Department of Commerce, National Bureau of Standards. Mix the sieved material by hand, and place a sufficient quantity into a 307 x 113 size container (bearing a top seam and having a false bottom approximately ½-inch deep and painted flat black inside and outside) so that after tamping and smoothing the surface of the sample, the material will be ⅛-inch to ¼-inch below the top of the container.

(1) Determine the Munsell color value of the sample surface by visual comparison, using a comparator eyepiece containing a color filter centering between 550 mμ and 560 mμ, which filter does not pass significant amounts of visible radiation of wavelengths below 540 mμ or above 570 mμ.

(2) The standards with which comparisons are to be made are any essentially neutral matte finish standards of luminous reflectance equivalent to 6.3 and 5.3 Munsell units of value. These standards shall be cut in circles 3¼ inches in diameter and shall be mounted in 307 x 113 size containers, bearing a top seam and painted flat black both inside and outside, so that the surfaces of the standard are 3/16-inch below the top of the containers in which they are mounted.

(3) In the case of blended tuna, the foregoing method shall be varied by first separating, as completely as feasible, the two different colors of tuna flakes, and then proceeding with each portion separately for the determination of its color value.

(h) (1) The specified names of the canned tuna for which definitions and standards of identity are prescribed by this section, except where water is the packing medium, are formed by combining the form of the pack with the color designation of the tuna; for example, "Solid Pack White Tuna," "Grated Dark Tuna," etc. In the case of blended tuna, there shall be used the applicable color designation of the blended flakes determined, in accordance with the color designation of the predominating portion found in the container; for example, "Blended White and Dark Tuna Flakes," "Blended Dark and Light Tuna Flakes."

(2) The specified name of the canned tuna when water is used as the packing medium is formed as described in subparagraph (1) of this paragraph, followed by the words "In water" for example, "Grated Light Tuna in Water."

(3) When the packing medium is vegetable oil or olive oil, the label shall bear the name of the optional packing medium used, as specified in paragraph (e) of this section, preceded by the word "in" or the words "packed in." In the case of the optional ingredient specified in paragraph (e) (1) of this section, the name or names of the oil used may be stated, of the general term "Vegetable Oil" may be used.

(4) In case solid pack white, light, or dark tuna is packed in olive oil, the designation "Tonno" may also appear.

(5) Where the canned tuna contains one of the ingredients listed in paragraph (f) of this section, the label shall bear the statement "Seasoned with ---------" the blank being filled in with the name or names of the ingredient or ingredients used, except that if the ingredient designated in paragraph (f) (6) of this section is used, the label shall bear the statement "Seasoned with Vegetable Broth" or "Seasoned with Vegetable Sauce," and if the ingredient designated in paragraph (f) (5) of this section is used alone, the label may bear the statement "Spiced" or "With Added Spice."

(6) Wherever the name of the food appears on the label so conspicuously as to be easily seen under customary conditions of purchase, the names of the optional ingredients used as specified by subparagraphs (3) and (5) of this paragraph shall immediately and conspicuously precede or follow such name without intervening written, printed, or graphic matter, except that the common name of the species of tuna fish used may be so intervened, but the species name "albacore" may be employed only for fish of that species which meets the color designation prescribed by paragraph (d)-(1) of this section.

§ 37.2 *Canned tuna; fill of container; label statement of substandard fill.* (a) (1) The standard of fill of container for canned tuna is a fill such that the average weight of the pressed cake from 24 cans, as determined by the method prescribed by paragraph (b) of this section, is not less than the minimum value specified for the corresponding can size and form of tuna ingredient in the following table:

I. Can size and form of tuna ingredient	II. Minimum value for weights of pressed cake (average of 24 cans)
	Ounces
211 x 109:	
Solid	2.25
Chunks	1.98
Flakes	1.58
Grated	2.00
307 x 113:	
Solid	4.47
Chunks	3.92
Flakes	3.92
Grated	3.93
401 x 206:	
Solid	8.76
Chunks	7.68
Flakes	7.63
Grated	7.73
603 x 408:	
Solid	43.2
Chunks	37.9
Flakes	37.9
Grated	38.3

If the can size in question is not listed, calculate the value for column II as follows: From the list select as the comparable can size that one which has nearest the water capacity of the can size in question and multiply the value listed in column II for the same form of tuna ingredient by the water capacity of the can size in question and divide by the water capacity of the comparable can size. Water capacities are determined by the general method provided in § 10.2 (a) of this chapter.

(b) The methods referred to in paragraph (a) of this section for determining the weight of the pressed cake and referred to in § 37.1 (c) for determining the percent of free flakes and the percent of pieces which pass through a ½-inch-mesh sieve are as follows:

(1) Have each of the 24 cans and contents at a temperature between 65° F.

and 80° F. Test each can in turn as follows:

(2) Cut out the top of the can (code end), using a can opener that does not remove nor distort the double seam.

(3) With the cut top held on the can contents, invert the can, and drain the free liquid by gently pressing on the cut lid with the fingers so that most of the free liquid comes from the can.

(4) With the cut lid still in place, cut out the bottom of the can with the can opener, then turn the can upright and remove the cut can top (code end). Scrape off any adhering tuna particles into the tuna mass in the can.

(5) Place the proper size press cylinder as provided in paragraph (c) (1) of this section in a horizontal position on a table, then using the cut bottom of the can as a pusher, gently force the can contents from the can into the cylinder. Remove the bottom of the can that was used as the pusher and scrape any adhering particles from the can body and bottom of the can, and put them in the cylinder.

(6) Place the cylinder plunger on top of the can contents in the cylinder. Remove the eyebolt and put the cylinder and plunger in position on the press (paragraph (c) (3) of this section).

(7) Begin the operation of the hydraulic ram of the press, and as soon as liquid is observed coming from the plunger start timing the operation. Apply pressure to the plunger slowly, so that a full minute is used to reach a pressure of 414 pounds per square inch on the can contents. Hold this pressure for 1 additional minute and then release the pressure. Tip the press cylinder so that any free liquid is drained out.

(8) Remove the piston from the pressing cup. Loosen the cake from the cup with a thin blade and remove the entire press cake as gently as possible, to keep the mass in a single cake during this operation. Place the cake and any pieces that adhered to the piston and pressing cup in a tared receiving pan and determine the weight of the pressed material.

(9) For cans larger than 401 x 206: Cut out the top of the can and drain off free liquid from the can contents as in subparagraphs (2) and (3) of this paragraph. Determine the gross weight of the can and remaining contents. Using a tared core cutter as provided for in paragraph (c) (2) of this section, cut vertically a core of the drained material in the can. Determine the weight of the core. With a thin spatula transfer the core to the pressing cup for 401 x 206 cans. Determine the press weight as in subparagraphs (5) and (8) of this paragraph. Remove the remaining drained contents of the can, reserving the contents for the determination of free flakes (subparagraph (11) of this paragraph), weigh the empty can, and calculate the weight of the total drained material. Calculate the weight of presscake on the entire can basis by multiplying the weight of the presscake of the core by the ratio of the weight of the drained contents of the can to the weight of the core before pressing.

(10) Repeat the press-weight determination on the remainder of the 24 cans and determine the average weight for the purpose of paragraph (a) of this section.

(11) Determination of free flakes: If the optional form of tuna ingredient is solid pack, determine the percent of free flakes. Only fragments that were broken in the canning procedure are considered to be free flakes. If the can is of such size that its entire drained contents were pressed as described in subparagraphs (1) to (8), inclusive, of this paragraph, examine the presscake carefully for free flakes; using a spatula, scrape free flakes gently from the outside of the cake. Examine the body of the presscake itself as carefully as possible for free flakes that may have been added in the packing. Weigh the total free flakes and determine the percent by weight of flakes to the total weight of presscake. If the can is of such size that a core was cut out for pressing as described in subparagraph (9) of this paragraph, make the examination for free flakes on a weighed portion of the drained material remaining after the core was removed. The weight of the portion should approximately equal the weight of the core before pressing. Carefully examine the weighed portion, pick out free flakes and weigh them. Calculate the weight of the free flakes as a percentage of the weight of the portion examined.

(12) Determination of particle size: If the optional form of tuna ingredient is chunks, flakes, or grated, the presscake resulting from the operations described in subparagraphs (1) to (9), inclusive, of this paragraph is gently separated by hand, care being taken to avoid breaking the pieces. The separated pieces are evenly distributed over the top sieve of the screen separation equipment described in paragraph (c) (4) of this section. Beginning with the top screen, lift and drop each sieve by its open edge three times. Each time, the open edge of the sieve is lifted the full distance permitted by the device. Combine and weigh the material remaining on the three top screens (1½-inch, 1-inch, ½-inch screens), and determine the combined percentage retention by weight in relation to the total press weight.

(c) (1) The pressing cups and pistons referred to in paragraph (b) of this section are made of stainless steel. The pressing cups are made with a lip to facilitate collection of the liquid. Pistons have a threaded center hole about half as deep as the thickness of the piston. The hole is for receiving a ringbolt to assist in removing the piston from the pressing cup. Dimensions for pressing cups and pistons are as follows:

For can size 211 x 209

Pressing cup:
Inside depth, approximately 3¾ inches.
Inside diameter, 2.593 inches.
Wall thickness, approximately ⅜ inch.
Piston:
Thickness, approximately 1 inch.
Diameter, 2.568 inches.

For can size 307 x 113

Pressing cup:
Inside depth, approximately 4 inches.
Inside diameter, 3.344 inches.
Wall thickness, approximately ⅜ inch.
Piston:
Thickness, approximately 1¼ inches.
Diameter, 3.319 inches.

For can size 401 x 206

Pressing cup:
Inside depth, approximately 4⅛ inches.
Inside diameter, 3.969 inches.
Wall thickness, approximately ½ inch.
Piston:
Thickness, approximately 1¼ inches.
Diameter, 3.944 inches.

For can sizes where the diameter is greater than 401, the core cutter described in subparagraph (2) of this paragraph shall be used and the resulting core pressed in the pressing cup for can size 401 x 206. For can sizes differing from those specified above, special pressing cups and pistons may be used. Special pressing cups have inside diameters $\frac{1}{10}$-inch less than the outside diameters at the double seam for the can sizes for which the cups are used, and the piston diameters are 0.025 inch less than the inside diameters of the pressing cups.

(2) The core cutter referred to in paragraphs (b) (9) and (11) of this section and subparagraph (1) of this paragraph is made from a previously sealed 300 x 407 can. The cover, including the top seam, is cut out. The edge is smoothed and sharpened. A small hole to permit passage of air is made in the bottom.

(3) The hydraulic press referred to in paragraph (b) (6) to (10), inclusive, of this section is made by so mounting a hydraulic jack in a strong frame that it will press horizontally against the center of the piston in the pressing cup used. The frame should be so braced that it does not change shape when pressure is applied. Provision is made for collecting the pressed-out liquid in a suitable receptacle. The gauge on the hydraulic jack is so calibrated that it will indicate for the piston being used when the piston is pressing against the contents of the pressing cup with a pressure of 414 pounds per square inch of piston face.

(4) The sieving device referred to in paragraph (b) (12) of this section consists of three sieves, each approximately 1 foot square, loosely mounted, one above the other, in a metal frame. The mesh in the top sieve complies with the specifications for 1½-inch woven-wire cloth as set forth in "Standard Specifications for Sieves," as published March 1, 1940, in L. C. 584 of the U. S. Department of Commerce, National Bureau of Standards. The meshes in the sieves below comply with similar specifications for 1-inch and ½-inch woven-mesh cloth as set forth in the same publication. The sides of each sieve are formed from ¾-inch metal strap. The frame has tracks made of ⅜-inch angle metal to support each sieve under each side. The tracks are so positioned as to permit each sieve a free vertical travel of 1¾ inches.

(d) If canned tuna falls below the applicable standard of fill of container prescribed in paragraph (a) of this section, the label shall bear the general statement of substandard fill provided in § 10.3 (b) of this chapter, in the manner and form therein specified.

2. The proposals of Hawaiian Tuna Packers Limited are as follows:

a. That § 37.1 (g) and (h) in the above-proposed standard of identity for canned tuna be redesignated as (h) and (i), respectively, and that a new paragraph (g), reading as follows, be inserted therein:

(g) Any one of the forms of pack of canned tuna specified in paragraph (c) of this section may be smoked. Canned smoked tuna will be labeled in accordance with the provisions of paragraph (i) (5) of this section.

b. In § 37.1 (i), redesignated as above, subparagraphs (5) and (6) would be redesignated as (6) and (7), respectively, and it is proposed that a new subparagraph (5), reading as follows, be inserted therein:

(5) In case any of the forms of canned tuna specified in paragraph (c) of this section are smoked, the designation "Smoked" shall appear on the label, as for example, "Light Smoked Tuna Flakes."

3. The proposal of the California Fish Canners Association, Inc., is as follows: That the proposed standard of identity for canned tuna fish submitted by the National Canners Association et al. be amended to incorporate garlic as an ingredient, under § 37.1 (f) of the proposal. Paragraph (f) would read as follows:

(f) Canned tuna may be seasoned or flavored with one or more of the following:

(1) Salt.
(2) Purified monosodium glutamate.
(3) Hydrolyzed protein.
(4) Hydrolyzed protein with reduced monosodium glutamate content.
(5) Spices or spice oils or spice extracts.
(6) Vegetable broth or sauce, in an amount not in excess of 5 percent of the volume capacity of the container, such broth or sauce to consist of a minimum of 0.5 percent by weight of vegetable extractives and to be prepared from two or more of the following vegetables: Beans, cabbage, carrots, celery, garlic, onions, parsley, peas, potatoes, red bell peppers, green bell peppers, spinach, and tomatoes.
(7) Garlic.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 11677]

REMOTE CONTROL OPERATION OF CERTAIN STANDARD, FM AND NONCOMMERCIAL EDUCATIONAL FM BROADCAST STATIONS

NOTICE OF EXTENSION OF TIME FOR FILING REPLY COMMENTS

In the matter of amendment of §§ 3.66, 3.274 and 3.572 of the rules and regulations relating to Remote Control Operation of certain Standard, FM and Noncommercial Educational FM Broadcast Stations.

1. The Commission has before it for consideration the request of the National Association of Radio and Television Broadcasters, filed August 20, 1956, for extension of time in which to file reply comments in the above-entitled proceeding.

2. In support of its request, the NARTB states that rule making was instituted on its proposal in this proceeding on April 12, 1956, with June 1, 1956, and twenty days thereafter, as the dates, respectively, for filing of comments and reply comments; that subsequently the time for filing comments was extended to July 2, 1956 and for reply comments to July 22, 1956 (Mimeo 32073) upon request of the International Brotherhood of Electrical Workers (AFL–CIO), and thereafter, the time for filing comments was again extended to August 2, 1956 and for reply comments to August 22, 1956 (Mimeo 33643) upon request of the National Association of Broadcast Employees and Technicians; that these parties and other principal opponents to the NARTB proposal have filed comments in the proceeding which challenge the data and conclusions of its proposal; and that the NARTB needs an additional 60-day extension of time to file reply comments rebutting the arguments raised by those opposing its proposal. The NARTB urges that since the time for filing comments in this proceeding was extended 60 days at the request of those opposing its proposal, neither the Commission nor any party would be prejudiced by a grant of its request.

3. In view of the numerous comments filed in this proceeding and the representations of petitioner, the Commission believes that the public interest would be served by affording a further extension of time for filing replies.

4. *Accordingly, it is ordered,* This 21st day of August 1956, that the time for filing reply comments in the above-entitled proceeding is extended from August 22, 1956 to October 21, 1956.

Released: August 21, 1956.

FEDERAL COMMUNICATIONS COMMISSION,

TABLE OF ASSIGNMENT, TELEVISION BROADCAST STATIONS, ST. JOSEPH, TENN.

ORDER EXTENDING TIME FOR FILING COMMENTS

In the matter of amendment of § 3.606 *Table of assignments,* Television Broadcast Stations, (St. Joseph, Tennessee).

1. On June 11, 1956, the Commission issued a Notice of Proposed Rule Making (FCC 56–679) instituting the subject rule making proceeding. The Notice provided that comments should be filed on or before August 15, 1956 and that reply comments should be filed on or before August 25, 1956.

2. On August 8, 1956, the Tennessee Educational Television Commission filed a petition requesting the Commission to extend the time for filing comments to October 15, 1956.

3. In support of its request the Tennessee Educational Television Commission states that additional time is required to consult with the many persons who are vitally concerned with this proceeding particularly Governor Clement, who is out of the State attending the National Democratic Convention, and the Executive Secretary of the Commission who will be on active duty from August 10 until after September 3, 1956.

4. The Commission believes that the Tennessee Educational Television Commission has established good cause for an extension of time for filing comments in this proceeding and that such an extension will serve the public interest, convenience and necessity. We do not believe, however, that an extension until October 15 is warranted.

In view of the foregoing: *It is ordered,* That the time for filing comments in the above-entitled proceeding is extended from August 15, 1956, to September 17, 1956, and that the time for filing reply comments is extended until September 27, 1956.

Adopted: August 15, 1956.

Released: August 17, 1956.

Bureau of Foreign Commerce

[Case 218]

JOSE BENCHIMOL AND ELIEZNER BENCHIMOL

ORDER REVOKING EXPORT LICENSES AND DENYING EXPORT PRIVILEGES

In the matter of Jose Benchimol and Eliezner Benchimol, copartners doing business under the firm names and styles of Benchimol & Company and Hollywood Enterprises, 8 East 52d Street, New York 22, New York, Respondents Case No. 218.

The Investigation Staff, Bureau of Foreign Commerce, having charged the respondents, Jose Benchimol and Eliezner Benchimol, copartners, doing business under the firm names and styles of Benchimol & Company and Hollywood Enterprises, with having inserted false export declaration numbers in dock receipts given for goods intended to be ex-

ported from the United States, with having placed on a dock for exportation goods for which no export declaration had been authenticated, and with having exported goods from the United States without first having authenticated an export declaration required for such exportation; and

The charging letter having been duly served on both of the respondents, who duly appeared herein, admitted the facts, offered an explanation for their conduct and demanded an oral hearing;

This proceeding was duly referred to the Compliance Commissioner, who, in accordance with the practice, held a hearing in New York City, at which hearing both respondents were present and represented by counsel. He has submitted his written report, including findings of fact and findings that violations have occurred.

Now, after reviewing and considering the entire record of this case, the Compliance Commissioner's Report and Recommendation, and the explanations and other data submitted on behalf of the respondents, I hereby make the following findings of fact:

1. At all times hereinafter mentioned the respondents, Jose Benchimol and Eliezner Benchimol, were and now are doing business under the firm names and styles of "Benchimol & Company" and of "Hollywood Enterprises" at 8 East 52d Street, in New York City, New York.

2. Respondents' business consisted mainly of purchasing goods in the United States for travellers who were returning or had returned to the Argentine from visits to the United States. Incidental to that phase of their business, respondents acted also as forwarding agents to expedite the shipment of personal baggage to or for such travellers.

3. On or about the 3d day of November 1955, for the purpose of shipping to about twenty-seven such travellers commodities purchased by or for such travellers, or baggage not already taken by such travellers, respondents delivered to the pier of Argentine State Line, a steamship line not a party hereto, about twenty-seven lots of goods.

4. The said steamship line refused to accept delivery of the said goods and refused to sign dock receipts therefor unless there were inserted in the said dock receipts the numbers of duly authenticated export declarations covering the goods sought to be delivered.

5. In order to induce the said steamship line to accept delivery of said lots of goods and sign the dock receipts tendered, respondents inserted in the said dock receipts false export declaration numbers because, at the time, they had not yet obtained authentication of export declarations for said lots of goods.

6. The purpose of the steamship line, in demanding such insertion of export declaration numbers, was to make certain that export declarations had been duly authenticated for goods sought to be exported from the United States.

7. Respondents thereafter, but not until after the ship on which the said lots of goods had been loaded had sailed from the United States, obtained duly authenticated shipper's export declarations for all the said lots of goods.

And, from the foregoing, it is my conclusion that respondents—

(a) Made false representations and statements and falsified and concealed material facts in connection with the preparation and submission of export control documents for the purpose of and in connection with effecting exports of commodities from the United States, thereby violating § 381.5 (a) and (b) of the export regulations.

(b) Placed or caused commodities to be placed on a pier or dock or other place for loading aboard a carrier for the purpose of exporting without first having presented duly executed shipper's export declarations to, and obtained authentication from, a U. S. Collector of Customs, thereby violating § 379.1 (a) of the export regulations.

(c) Exported commodities from the United States without the authorization of either a validated export license or a general license, thereby violating § 370.2 (a) of the export regulations.

In recommending, as he did, that the respondents be denied export privileges for a period of one month, and that the denial be deferred for a period of one month, the Compliance Commissioner took into consideration the prompt admission by respondents that they had committed the acts charged, their good reputation in the trade, the nature of their business, the fact that respondents had been confronted with strike difficulties at their packer's place of business, the possible effects on respondents' innocent customers of the denial action and that goods of no strategic importance were involved.

It is now therefore, after careful consideration of the entire record, the answer, the representations on behalf of the respondents and the report of the Compliance Commissioner, hereby ordered:

I. The respondents and each of them for a period of one month commencing September 23, 1956, be and they hereby are denied all privileges of participating directly or indirectly in any manner or capacity in an exportation of any commodity or technical data from the United States to any foreign destination, including Canada, whether such exportation has heretofore or hereafter been completed. Without limitation of the generality of the foregoing denial of export privileges, participation in an exportation is deemed to include and prohibit participation by either of the respondents, directly or indirectly, in any manner or capacity, (a) as a party or as a representative of a party to any validated export license application, (b) in the obtaining or using of any validated or general export license or other export control documents, (c) in the receiving, ordering, buying, selling, using, or disposing in any foreign country of any commodities in whole or in part exported or to be exported from the United States, and (d) in storing, financing, forwarding, transporting, or other servicing of such exports from the United States;

II. Such denial of export privileges shall apply not only to each of the respondents, but also to any person, firm, corporation, or business organization with which either of them may be now or hereafter related by ownership, control, position of responsibility, or other connection in the conduct of trade in which may be involved exports from the United States or services connected therewith;

III. All outstanding validated export licenses held by or issued in the name of either of the respondents or in which they appear or participate as purchaser, intermediate or ultimate consignee, or otherwise, shall, on September 23, 1956, be deemed to be revoked and shall be returned on that day to the Bureau of Foreign Commerce for cancellation;

IV. No person, firm, corporation, partnership, or other business organization, whether in the United States or elsewhere, during any time when either respondent is prohibited under the terms hereof from engaging in any activity within the scope of Part I hereof, shall, without prior disclosure to, and specific authorization from, the Bureau of Foreign Commerce, directly or indirectly, in any manner or capacity (a) apply for, obtain, or use any license, shipper's export declaration, bill of lading, or other export control document relating to any such prohibited activity, (b) order, receive, buy, use, dispose of, finance, transport or forward, any commodity on behalf of or in any association with such respondent, or (c) do any of the foregoing acts with respect to any commodity or exportation in which such respondent may have any interest of any kind or nature, direct or indirect.

Dated: August 23, 1956.

Acting Director,
Office of Export Supply.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Order 541, Amdt. 10]

REDELEGATION OF AUTHORITY CONCERNED WITH LANDS AND RESOURCES

AUGUST 22, 1956.

Bureau Order No. 541 is further amended as follows:

PART I—REDELGATION OF AUTHORITY TO AREA ADMINISTRATORS

1. Section 1.6 (a) is amended to read as follows:

(a) *Oil and gas leases.* Act on oil and gas leases pursuant to the act of February 25, 1920 (30 U. S. C. secs. 221 et seq.), as amended and supplemented, the Act of August 7, 1947 (30 U. S. C. secs. 351–359), and the Act of May 21, 1930 (30 U. S. C. secs. 301–305), and oil and gas leases issued pursuant to the act of August 21, 1916 (39 Stat. 519), embracing lands restored to the public domain pursuant to the provisions of the act of August 15, 1953 (67 Stat. 592). Also leases of oil and gas deposits transferred to this Department for measures to protect the deposits from drainage. This authority does not include any function pertaining to oil and gas deposits that involve approval or execution of unit or cooperative agreements, communization agreements, operating, drilling or development contracts without regard to acreage limitation or the sale of royalty oil taken in account of production.

2. Section 1.8 (k) is amended to read:

(k) *Mining claims.* Take all actions on claims pursuant to the general mining laws and laws supplemental thereto and 43 CFR Parts 69, 185 and 186.

3. Section 1.9 (i) is amended to read as follows:

(i) *Sites for recreational or any public purpose.* Take all actions with respect to conveyances and leases to Federal, State, Territory and local governmental units and to non-profit associations and corporations pursuant to 43 CFR Part 254, and to other applicable regulations and all actions in connection with the construction, maintenance and disposition of recreational facilities in Alaska pursuant to the Act of May 4, 1956 (70 Stat. 130).

4. Section 1.9 (p) (6) is amended to read:

(6) Every such permit issued to a Federal agency or to a State agency or political subdivision shall be restricted to the smallest area needed for the proposed use. Not more than 50,000 acres may be included in any such permit, except that in Alaska permits may be issued to the Department of Defense for maneuver purposes for such acreages in excess of 50,000 acres and for such periods as may be deemed warranted in the circumstances. No permit may be issued under this authority where a withdrawal of a class which the Director is not authorized to make is requested.

5. The present section 1.9 (w) is hereby revoked and a new section is substituted as follows:

(w) *Choctaw-Chickasaw lands.* Take all actions on matters pertaining to the management and disposition of the Choctaw-Chickasaw lands pursuant to 43 CFR Part 119.

PART III–B—REDELEGATIONS TO RANGE MANAGERS

6. Section 3.3 is amended by adding thereto the following:

(b) (1) Contributions and refunds.

* * * * * *

(d) *Trespass.* Determine liability and accept damages for trespass on the public lands and dispose of resources recovered in trespass cases for not less than the appraised value thereof when the amount involved does not exceed $2,000.

7. Section 3.8 is amended to read as follows:

SEC. 3.8 *Forest management.* The Range Manager may take all the actions on:

(a) Disposition of forest products.

PART III–C—REDELEGATION TO DISTRICT FORESTERS

8. Section 3.3 is amended by adding thereto the following:

(b) (1) Contributions and refunds.

(d) *Trespass.* Determine liability and accept damages for trespass on the public lands and dispose of resources recovered in trespass cases for not less than the appraised value thereof when the amount involved does not exceed $2,000.

PART 11—SPECIAL TRANSITIONAL AUTHORITIES

CONVERSION OF CAREER-CONDITIONAL TO CAREER APPOINTMENTS

Section 11.302 is amended as set out below.

§ 11.302 *Conversion of career-conditional to career appointments.* The career-conditional appointment of any employee entitled to veteran preference who has a compensable service-connected disability of ten percent or more may be converted to a career appointment if, not later than December 31, 1957, the agency in which he is employed so recommends and certifies to the Commission that he has satisfactorily completed a one-year probationary period.

Subchapter C—Export Programs

PART 481—WHEAT AND WHEAT-FLOUR EXPORT PAYMENT PROGRAM (IWA)

SUBPART—TERMS AND CONDITIONS OF 1956–57 PROGRAM

MISCELLANEOUS AMENDMENTS

Whereas the Terms and Conditions of the 1956–57 Wheat and Wheat-Flour Export Payment Program (21 F. R. 4645) were issued on June 21, 1956, by the Secretary of Agriculture pursuant to authority contained in section 32, Public Law 320, 74th Congress, as amended, and whereas subsequent thereto on August 3, 1956, the International Wheat Agreement Act was amended authorizing the President, acting through CCC, to carry out the functions set forth in said Terms and Conditions in connection with the renewed International Wheat Agreement, it has therefore been deemed advisable to amend the Terms and Conditions in order to enable CCC to carry out said functions. Accordingly, the Terms and Conditions of the 1956–57 Wheat and Wheat-Flour Export Payment Program (21 F. R. 4645) issued on June 21, 1956, are amended as follows:

The authority is amended by deleting "Sec. 32, 49 Stat. 774, as amended; 7 U. S. C. Sec. 612C" and substituting therefor "Sec. 2, 63 Stat. 945, 946, Sec. 104, 64 Stat. 198, 67 Stat. 358; 70 Stat. 966; 7 U. S. C. 1641, 1642."

Section 481.725 is amended by deleting "Section 32, Public Law 320, 74th Congress, as amended", and substituting therefor "Section 2 of the International Wheat Agreement Act of 1949, as amended".

Section 481.731 is amended to extend from December 31, 1956 until July 31, 1957, the period during which sales may be entered into for recording against the 1956–57 Wheat Agreement guaranteed quantities to be eligible for payment under the offer. Also, wherever the terms, "Secretary" and "Administrator" appear in §§ 481.725 to 481.789, inclusive, they are amended to make such terms mean "CCC" and "Vice President, CCC", respectively.

This amendment shall become effective on August 24, 1956, at 3:31 p. m., e. d. t., with respect to sales confirmed thereafter in accordance with § 481.748.

(Sec. 2, 63 Stat. 945, 946, Sec. 104, 64 Stat. 198, 67 Stat. 358; 70 Stat. 966; 7 U. S. C. 1641, 1642)

Issued this 24th day of August 1956.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter A—Civil Air Regulations

PART 20—PILOT AND INSTRUCTOR CERTIFICATES

REVISION OF PART

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 23d day of August 1956.

Experience under the provisions of currently effective Part 20 of the Civil Air Regulations, which establishes the requirements for the issuance of student, private, and commercial pilot certificates, and for aircraft, instrument, and instructor ratings, has shown the need for a revision of the part in order to identify more easily the applicable sections, clarify the intent of certain of the regulations, revise the age, knowledge, experience, and skill requirements, and delete those provisions which impose unnecessary burdens.

In order to make Part 20 more serviceable and to clarify its certification provisions, the requirements have been divided into subparts so as to include all of the requirements for the issuance of student, private, and commercial pilot certificates with an airplane rating under a single heading. A similar organization has been accomplished for the rotorcraft and glider rating requirements.

The following changes and additions have been incorporated in the certification and rating requirements:

1. *General.* (a) The present private, commercial, and instructor "ratings" have been changed to private, commercial, and instructor "certificates" to conform more closely with common usage.

(b) Since Part 20 no longer contains any citizenship requirements, the provisions which limit the duration of certificates to 12 months for non-citizens have been deleted.

(c) In 1945 the new photographically reproduced type of pilot certificate was introduced and the regulations were amended to provide for the expiration of all pilot certificates issued between January 1, 1942, and July 1, 1945, and the exchange of these certificates at any time prior to July 1, 1947, without any further showing of competence. This section was amended in 1947 extending the exchange privilege indefinitely. As ample time has been allowed for the exchange of those certificates which expired in 1947, this section is deleted from the revision and none of these certificates will be exchanged after the effective date of this revision.

(d) The identification card requirement contained in present Part 20 was intended to facilitate the identification of the holder in the event that future security restrictions might so require. However, after 5 years experience with the issuance of identification cards, it is now evident that they have served no useful purpose in the past and it appears unlikely that the carriage of such a card by airmen would have any future beneficial effect upon the exercise of security controls. In view of this experience and in view of the fact that the requirement has created a burden for the applicant as well as the Government, for which no safety or security justification exists, it has been deleted from this revision. All persons who commented on this requirement in Draft Release No. 55–12 were emphatically of the view that it should be rescinded and the record appears clearly to support this view.

(e) Draft Release No. 55–12 proposed to delete the minimum age requirements for student pilot applicants. Significant objection to authorizing children to operate aircraft in solo flights was offered by several of those who commented on this item. Consequently, the present minimum student pilot ages of 16 years for powered aircraft and 14 years for gliders are continued.

(f) The draft release proposed to require parental consent only for those students younger than the currently prescribed minimum ages for student pilot applicants. Considerable adverse comment was received to this proposal. The principal objections called attention to the financial responsibility of parents for property damage or personal injury which might result from any activity in which minor children are engaged. Upon reconsidering this matter, it was decided that the present parental consent requirement for all student pilot applicants under 21 years of age would be continued.

2. *Student pilot certificates; airplane rating.* (a) The draft release proposed that a student receive a demonstration of straight flight and turns solely by reference to instruments before he is authorized to make solo flights. The comment was overwhelmingly opposed to this proposal. Since the publication of the draft release, the Board has received other recommendations concerning requirements for instrument flight instruction for student, private, and commercial pilots. It is apparent that these recommendations involve conflicting views with respect to the importance of instrument flight instruction for such pilots, the type of instruction needed, and the degree of competence to be sought. In view of the obvious controversy surrounding this matter, the Board has decided that further study is required. Consequently, the proposal for instrument flight demonstration is being deferred and will be the subject of separate rule making, proposals concerning which will be circulated at a later date.

(b) The draft release proposed to require instruction in recovery from spins along with other maneuvers in which the student must receive instruction before being authorized to make solo flights. A spin requirement had previously been included in the skill tests for both private and commercial pilots but was eliminated in 1949. In view of the unfavorable comment on this proposal and considering the suggestions that greater emphasis on the recognition of and recovery from stalls would contribute more effectively to safety, this proposal has been omitted.

(c) To insure that the student pilot has received instruction in all the prescribed procedures and techniques prior to solo flight, the flight instructor will be required to endorse the student's logbook for each instruction flight.

3. *Private pilot certificates; airplane rating.* (a) In lieu of requiring a minimum number of hours of dual instruction, the rule has been amended to specify the particular procedures and maneuvers in which the student must receive instruction. However, 3 hours of dual instruction after the first solo cross-country flight have been included with the expectation that this instruction will tend to correct any bad flying habits which the student might develop between the time of his first solo cross-country flight and his final flight test.

(b) The draft release proposed to modify the flight test to consist of basic airwork and the satisfactory completion of the principal steps in making a cross-country flight. This change was proposed in order to make it possible to complete the test on a single flight and still provide the examiner with a satisfactory basis for judging the applicant's aeronautical skill. The Board is of the view that such a change is required, however, due to the suggestions received and the Board's intention to reconsider the tests for other grades of certificates as well, it has been decided to continue the present skill requirements pending further refinement of the substitute rules. A separate notice of proposed rule making in this matter will be circulated in the near future.

4. *Commercial pilot certificates; airplane rating.* (a) The experience requirements are modified by requiring 50 hours of cross-country time as pilot in command. Present regulations do not require dual instruction time for a commercial pilot certificate, but 10 hours required dual instruction time has been included in this revision to make more certain that the applicant possesses a satisfactory level of competence for the certificate.

(b) Night flight experience requirements have been deleted in this revision, but will be considered in connection with a project under way for evaluation of instrument flight experience require-

ments for both commercial and private pilots. Until action is taken with respect to this study, an applicant issued a commercial pilot certificate shall be limited in his night flying activity by the recent experience provisions of Part 43.

(c) In the skill tests proposed in the draft release, the acrobatic-type maneuvers were deleted and a cross-country flight similar to the one now required in the private pilot flight test was added. However, further consideration indicated that the proposed test did not differentiate sufficiently between the private and commercial requirements nor did it reflect the skill required of the commercial pilot in the performance of those privileges which he is authorized to exercise. Consequently, the skill test for the commercial pilot will be reevaluated together with the test for the private pilot to align them more closely with the privileges of each certificate. In the meantime, the present skill requirements are being continued.

5. *Pilot certificates; rotorcraft.* Due to the many improvements in rotorcraft since the present regulations were adopted, piloting techniques have changed correspondingly; hence, virtually all of the flight experience requirements are new. New skill requirements were proposed in the draft release for the rotorcraft pilot but the present ones are being continued with the understanding that new skill tests will be developed in conjunction with the consideration of new tests for pilots with airplane ratings.

6. *Pilot certificates; gliders.* Experience requirements for the private glider certificate have been modified to allow three methods for meeting the required flight time—100 glider flights, 10 hours of flight time, or 3 hours in light airplanes and 7 hours in gliders. The skill requirements for glider pilots contained in the draft release were substantively the same as those in the present regulations and no adverse comment was received. The proposed experience requirements are included in this revision with the addition of certain alternative experience provisions which have been suggested by interested persons.

7. *Special issuance of pilot certificates.* (a) The present regulations give the graduate of an approved flying school full credit for having met the aeronautical experience requirements. The draft release proposed to give the graduate credit for having met the knowledge and skill requirements also. However, comment in opposition to the extension of this credit indicated that the present level of training in approved schools is not always of sufficient caliber to warrant the proposed additional privileges. Consequently, the provisions of the draft release have been modified to authorize the Administrator to recognize the written examinations and flight tests of those schools in which the examination and tests are found by him to be the equivalent of those prescribed in Part 20, and at the same time, retain the provisions which give credit for aeronautical experience gained in a certificated flying school.

(b) The eligibility of members of the various branches of the armed forces for the issuance of pilot certificates on the basis of military competence has been expanded to include the National Guard and the Coast Guard and their reserve components.

(c) In consideration of the high standards of competence set by the military for the issuance of a military instrument certificate, a private or commercial pilot holding a currently effective military instrument certificate may be issued a civilian instrument rating if he meets the other requirements for the issuance of such rating.

(d) The revised regulation will permit the Administrator to credit an applicant, who possesses a foreign pilot certificate, with satisfactory completion of certain required examinations and tests when he finds that the corresponding foreign examinations and tests previously accomplished by such applicant are at least the equivalent of those prescribed pursuant to this part.

8. *Instrument ratings.* In lieu of a specified number of flight hours to satisfy the experience requirements for this rating, an applicant must either hold a commercial pilot certificate, or hold a private pilot certificate and meet the aeronautical experience requirements for the issuance of a commercial pilot certificate. However, a requirement for 10 hours of instrument flight instruction by a rated instrument flight instructor has been added in the belief that this will better insure meeting at least a minimum level of competence on the part of applicants for instrument ratings.

9. *Flight instructor certificates.* (a) The draft release proposed to change the flight instructor rating to a flight instructor certificate and to introduce a new junior flight instructor certificate that would be temporary in nature and enable the CAA to judge the competence of an applicant for a permanent flight instructor certificate by the proficiency of the students he had instructed. The comment was generally in favor of introducing the probationary type of certificate but serious objection to the word "junior" was indicated. The concept of the junior instructor certificate is retained in the revision with the name changed to "limited" flight instructor certificate which is considered to be a more appropriate term. The holder of this limited certificate must either qualify for a regular flight instructor certificate within 2 years or have his certificate renewed. In addition, he must have all of his students examined by a CAA Aviation Safety Agent rather than by a designated flight examiner.

(b) The issuance of the regular flight instructor certificate is based on the instruction record of the limited flight instructor rather than on the basis of a flight test as has been done in the past. In addition to aircraft category ratings for the flight instructor, a new instrument flight instructor rating has been added. A pilot with an instrument rating may secure a flight instructor certificate with an instrument instructor rating by demonstrating that he is competent to give instructions in instrument flying; he will not be required to comply with the general flight instructor provisions.

(c) In line with the general policy of giving the flight instructor more responsibility for preparing students for appropriate certificates and ratings, he will be required to keep a record of each instruction flight.

(d) The present flight instructor rating may be exchanged for a regular flight instructor certificate without further showing of competence.

Interested persons have been afforded an opportunity to participate in the revision of this part (20 F. R. 3028), and due consideration has been given to all relevant matter presented. Since persons affected by the provisions of this revised part need not comply until more than 30 days after it has become effective, it may be made effective immediately.

In consideration of the foregoing, the Civil Aeronautics Board hereby revises Part 20 of the Civil Air Regulations (14 CFR Part 20) as follows, effective August 23, 1956:

SUBPART A—GENERAL

APPLICABILITY AND DEFINITIONS

§ 20.1 *Applicability of this part.* This part prescribes standards for the issuance of student, private, and commercial pilot and flight instructor certificates and aircraft and instrument ratings. Regulations for the issuance of airline transport and lighter-than-air pilot certificates are specified in Parts 21 and 22, respectively, of this subchapter.

§ 20.2 *Optional compliance.* In lieu of compliance with the provisions of this part, the Administrator, prior to March 1, 1957, shall issue certificates and ratings, on request, in accordance with the provisions of this part that were effective immediately prior to the effective date of this revision.

§ 20.5 *Definitions.* As used in this part terms shall be defined as follows:

Actual instrument flight time. Actual instrument flight time is flight time during which the pilot is operating an aircraft solely by reference to instruments under actual instrument weather conditions.

Aircraft. An aircraft is any contrivance now known or hereafter invented, used, or designed for navigation of or flight in the air.

Airplane. An airplane is a power-driven fixed-wing aircraft, heavier than air, which is supported by the dynamic reaction of the air against its wings.

Calendar month. A calendar month is that period of time extending from the first day of any month as delineated by the calendar through the last day thereof.

NOTE: A period of 12 calendar months would extend from any day within any month to the end of the last day of the same month of the following year.

Category (of aircraft). A category is a broad classification of aircraft with distinct configuration and operating characteristics such as airplane, rotorcraft, or glider.

Class (of aircraft). A class is a classification of aircraft within a category differentiating between single-engine and multiengine and land and water configurations.

Day VFR flight time. Day VFR flight time is that flight time acquired under visual flight rules between the beginning of morning civil twilight and the ending of evening civil twilight, as published in the "American Air Almanac" converted to local time for the locality concerned.

Dual instruction time. Dual instruction time is that portion of flight time during which a person is receiving flight instruction from a certificated flight instructor on board the aircraft.

Flight instruction time. Flight instruction time is that portion of a flight during which a person is receiving flight instruction from a certificated pilot authorized by the Civil Air Regulations to give flight instruction.

Flight instructor. A flight instructor is a certificatcd pilot authorized by the Civil Air Regulations to give flight instruction.

Flight time. Flight time is the total time from the moment the aircraft first moves under its own power for the purpose of flight until the moment it comes to rest at the end of the flight.

Glider. A glider is a heavier-than-air aircraft the free flight of which does not depend principally upon a power-generating unit.

Instrument time. Instrument time is that time during which a pilot is operating an aircraft under actual or simulated instrument flight conditions solely by reference to instruments, or time acquired in a synthetic trainer approved for instrument flight training.

Night VFR flight time. Night VFR flight time is that flight time acquired under visual flight rules between the ending of evening civil twilight and the beginning of morning civil twilight, as published in the "American Air Almanac" converted to local time for the locality concerned.

Pilot in command. A pilot in command is the pilot responsible for the operation and safety of the aircraft during the time defined as flight time.

Rotorcraft. A rotorcraft is a power-driven aircraft, heavier than air, which is supported during flight by one or more rotors.

Second pilot. A second pilot is a certificated pilot serving in any piloting capacity other than as pilot in command on an aircraft equipped with dual controls.

Simulated instrument flight time. Simulated instrument flight time is flight time during which the pilot is operating an aircraft solely by reference to instruments under simulated instrument flight conditions.

Solo flight time. Solo flight time is flight time during which the pilot is the sole occupant of the aircraft.

Synthetic trainer. A synthetic trainer is a device the use of which is approved by the Administrator to simulate certain operating conditions.

Type [of aircraft]. Type is a specific classification of aircraft having the same basic design including all modifications thereto except those modifications which result in a change in handling or flight characteristics.

GENERAL

§ 20.10 *Application and issuance.* (a) An application for a pilot certificate or any rating shall be made on a form furnished by the Administrator.

(b) A student, private, or commercial pilot or flight instructor certificate with appropriate aircraft ratings shall be issued by the Administrator to an applicant who meets the applicable requirements. Additional aircraft category, class, and type, and instrument ratings for which an applicant has been found qualified shall be issued in connection with a pilot or flight instructor certificate. A pilot certificate with appropriate limitations shall be issued to an applicant who cannot comply with all the prescribed skill requirements due to the special characteristics of the aircraft used in the flight test if he meets all other requirements for the issuance of the certificate sought.

(c) An applicant for a pilot certificate who presents a medical certificate issued under the physical-deficiencies provision of Part 29 of this subchapter and meets all other requirements for the issuance of the certificate sought shall be issued a pilot certificate containing such operating limitations as the Administrator may find are commensurate with the physical deficiencies entered on his medical certificate.

(d) The prescribed examinations and tests shall be given by a person designated by the Administrator.

§ 20.11 *Duration of certificates.* (a) Student pilot and limited flight instructor certificates shall expire 24 calendar months after the date of issuance.

(b) Private and commercial pilot and flight instructor certificates shall remain

in effect until surrendered, suspended, or revoked, or until a general termination date is set by the Board.

(c) A temporary pilot certificate effective for a period not to exceed 90 days may be granted to an applicant pending issuance of the certificate or rating sought.

§ 20.12 *Citizenship.* An applicant for a pilot or flight instructor certificate may be a citizen of any country or a person without nationality.

§ 20.13 *Re-examination after failure.* An applicant who fails to pass any theoretical or practical examination may reapply after the expiration of 30 days or upon presenting a statement from a rated flight or ground instructor, as applicable, certifying that he has given the student additional instruction and now deems him competent to pass the examination.

§ 20.14 *Prerequisites for examinations and tests.* (a) To be eligible to take a flight test for a pilot or flight instructor certificate or aircraft or instrument rating, the applicant shall meet the following requirements:

(1) He must have passed the prescribed written examination within the preceding 24 calendar months;

(2) He must have acquired the prescribed aeronautical experience; and

(3) He must hold a valid medical certificate appropriate to the certificate or rating sought.

(b) There are no prerequisites for taking the written or physical examinations.

§ 20.15 *Aircraft used in flight tests.* The applicant shall furnish a certificated aircraft equipped with fully functioning dual controls for all flight tests except those for which the Administrator determines that fully functioning dual controls are not necessary.

§ 20.16 *Logging of flight time.* All flight time used to meet the experience requirements for any pilot certificate, rating, or operating privilege shall be substantiated by a reliable record but the logging of other flight time is not required. Such record shall include the following information:

(a) *General.* (1) Date,

(2) Duration,

(3) Cross-country distance and destination,

(4) Type of aircraft, and

(5) Identification mark of the aircraft.

(b) *Type of piloting time.* (1) Pilot-in-command,

(2) Second pilot,

(3) Dual instruction, including the procedures and maneuvers, or

(4) Synthetic trainer.

(c) *Conditions of flight.* (1) Day VFR,

(2) Night VFR,

(3) Actual instrument flight, or

(4) Simulated instrument flight.

§ 20.17 *Change of address.* Within 30 days after any change in the permanent mailing address of the holder of a pilot certificate, he shall notify the Administrator in writing of his new address. This notice shall be mailed to the Administrator of Civil Aeronautics, attention Airman Records Branch, Washington 25, D. C.

SUBPART B—PILOT CERTIFICATES; AIRPLANE RATING

STUDENT

§ 20.20 *Age.* An applicant shall be at least 16 years of age. If an applicant is less than 21 years of age and is not a regular or reserve member of the armed forces of the United States or enrolled in an established ROTC or other training program of such armed forces at the time of making application, he shall submit with his application the written consent of either parent or of his legal or natural guardian.

§ 20.21 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his student pilot certificate.

§ 20.22 *Physical standards.* An applicant shall hold at least a valid third class medical certificate issued in accordance with the physical standards prescribed in Part 29 of this subchapter.

§ 20.23 *Requirements for solo flight.* A student pilot shall not operate an airplane in solo flight until:

(a) He is familiar with the general and visual flight rules of Part 60 of this subchapter;

(b) He has received dual instruction in such preparatory and flight procedures as preflight inspection, starting, warming up, operating, and stopping the engine; taxying, take-offs, landings, and parking; traffic pattern procedures; level flight, turns, climbs, and glides; and stalls and emergency landings; and

(c) His student certificate has been endorsed by an appropriately rated flight instructor who has examined him and found him to have complied with the provisions of paragraphs (a) and (b) of this section and otherwise to be competent to make solo flights.

§ 20.24 *Flight area limitations.* A student pilot shall not operate an airplane in solo flight outside of a local area designated by his flight instructor until:

(a) He is familiar with such flight planning elements as plotting courses, estimating time en route and fuel required, and obtaining and evaluating weather reports;

(b) He has received dual instruction in crosswind and simulated soft-field take-offs and landings; climbing and gliding turns at minimum safe speeds; cross-country navigation by reference to aeronautical charts; conforming with air traffic control instructions furnished by radio or lights, as appropriate; and safe operating practices in simulated emergencies which might occur due to engine failure, loss of flying speed, deteriorating weather, getting lost, and similar critical situations; and

(c) His student pilot certificate has been endorsed by an appropriately rated flight instructor who has found him to have complied with paragraphs (a) and (b) of this section and otherwise to be competent to make solo cross-country flights.

§ 20.25 *Airplane type limitations.* A student pilot shall operate in solo flight only those types of airplanes that have been endorsed on his student pilot certificate by an appropriately rated flight instructor.

PRIVATE

§ 20.30 *Age.* An applicant shall be at least 17 years of age.

§ 20.31 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his pilot certificate.

§ 20.32 *Physical standards.* An applicant shall hold at least a valid third class medical certificate issued in accordance with the physical standards prescribed in Part 29 of this subchapter.

§ 20.33 *Aeronautical knowledge.* An applicant shall pass an examination on the following:

(a) The Civil Air Regulations governing private pilot privileges and limitations, and general operating, air traffic, and accident reporting rules;

(b) The practical aspects of cross-country flying, including flight planning, map reading, pilotage, and radio communication procedures;

(c) The recognition of dangerous weather conditions and the evaluation of weather reports; and

(d) General safety practices in the operation of airplanes.

§ 20.34 *Aeronautical experience.* An applicant shall present his student pilot certificate appropriately endorsed for solo and cross-country flights and meet each of the following minimum flight experience requirements:

(a) 40 hours total flight time;

(b) 20 hours of solo flight time at least 15 of which shall have been in airplanes;

(c) 10 hours of solo cross-country flight time. Each solo cross-country flight shall include a landing at a point more than 25 miles from the point of departure and at least one flight shall include a landing at a point more than 100 miles from the point of departure; and

(d) 3 hours of dual instruction after the first solo cross-country flight which shall include a review of the procedures and maneuvers previously learned and additional instruction in preparation for the private pilot flight test.

§ 20.35 *Aeronautical skill.* An applicant shall satisfactorily accomplish a practical examination with respect to the following procedures and maneuvers:

(a) Preflight inspection, starting, taxying, and run-up check of the airplane before take-off;

(b) Planning of a cross-country flight to a specified destination, reckoning with weather conditions, fuel requirements, check points, estimated time of arrival, and available alternate airports, and accomplishing such portion of the planned flight, including change of course to an alternate airport, as is necessary to demonstrate proficiency in cross-country flying;

(c) Straight and level flight, left and right medium banked turns, left and right climbing and gliding turns at normal and at minimum controllable speeds, and recovery from power-on and power-off stalls entered from all normally anticipated flight attitudes;

(d) Turns while maintaining a constant radius, or track, around a point, or area, including a 720° turn in each direction in a banked attitude of more than 45°;

(e) Normal and cross-wind take-offs and landings following appropriate traffic control procedures of the airport involved, using power, flaps, and slips at the applicant's discretion for assistance in landing; and

(f) Simulated emergencies, including one short or soft-field take-off, and one landing, if in single-engine aircraft, with engine throttled and using flaps, slips, or both, for assistance; or, if in multiengine aircraft, in accordance with proper engine-out procedure.

COMMERCIAL

§ 20.40 *Age.* An applicant shall be at least 18 years of age.

§ 20.41 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his pilot certificate.

§ 20.42 *Physical standards.* An applicant shall hold at least a valid second class medical certificate issued in accordance with the physical standards prescribed in Part 29 of this subchapter.

§ 20.43 *Aeronautical knowledge.* An applicant shall pass a written examination based on the following:

(a) Meteorology, including the recognition of basic weather conditions and trends, and the acquisition and use of weather information disseminated by the U. S. Weather Bureau;

(b) Navigation, including pilotage, dead reckoning, and the use of instruments and radio aids to air navigation;

(c) Principles of safe flight operations, including theory of flight and the operation and maintenance of airplanes and general safety practices and procedures for coping with emergencies and critical situations; and

(d) Civil Air Regulations pertaining to the privileges and limitations of a commercial pilot and the general operating, air traffic, and accident reporting rules.

§ 20.44 *Aeronautical experience.* An applicant shall have acquired at least 200 hours of flight time and meet each of the following minimum flight experience requirements:

(a) 100 hours in powered aircraft which shall include 50 hours in airplanes of which at least 15 hours shall have been solo;

(b) 100 hours as pilot in command, of which 50 hours shall have been cross-country and shall include one round-trip flight of not less than 350 miles in the course of which 3 full-stop landings were made at different points, one of which was at least 150 miles away from the point of departure;

(c) 10 hours of dual instruction in airplanes in preparation for the commercial pilot flight test; and

(d) 10 hours of instrument flight experience which shall include not less than 5 hours of instrument flight instruction given by an instrument flight instructor; the remaining 5 hours may be acquired in flight under simulated instrument conditions accompanied by a safety pilot or in a synthetic trainer approved for instrument flight training: *Provided,* That an applicant who does not meet the instrument flight experience requirements of this paragraph but does meet the other requirements may be issued a commercial pilot certificate in which event the Administrator shall appropriately endorse such certificate to show that the holder thereof does not meet the instrument flight experience requirements. At such time as the holder of a certificate so endorsed submits reliable documentary evidence to the Administrator that he has met such instrument flight experience requirements, he shall be reissued a certificate without such endorsement.

§ 20.45 *Aeronautical skill.* An applicant shall competently perform the following maneuvers:

(a) A series of 3 landings from an altitude not to exceed 1,000 feet with engine throttled and a 180° change in direction, the aircraft touching the ground in normal landing attitude beyond and within 200 feet of a designated line or point. At least one landing shall be accomplished from a forward slip;

(b) A spiral in each direction of not less than 3 full turns in a banked attitude of not less than 60°, with engine throttled;

(c) 3 shallow on-pylon figure eights, 3 steep on-pylon figure eights, and one 720° power turn in each direction in a banked attitude of at least 60°. During each of these maneuvers the total variation in altitude shall not exceed 100 feet; and

(d) Straight climbs, climbing turns, slips, maneuvers at minimum controllable speeds, and emergency maneuvers such as simulated forced landings and recovery from power-on and power-off stalls entered from all normally anticipated flight attitudes.

SUBPART C—PILOT CERTIFICATES; ROTORCRAFT RATING

STUDENT

§ 20.50 *Age.* An applicant shall be at least 16 years of age. If an applicant is less than 21 years of age and is not a regular or reserve member of the armed forces of the United States or enrolled in an established ROTC or other training program of such armed forces at the time of making application, he shall submit with his application the written consent of either parent or of his legal or natural guardian.

§ 20.51 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his student pilot certificate.

§ 20.52 *Physical standards.* An applicant shall hold at least a valid third class medical certificate issued in accordance with the physical standards prescribed in Part 29 of this subchapter.

§ 20.53 *Requirements for solo flight.* A student pilot shall not operate a rotorcraft in solo flight until:

(a) He is familiar with the general and visual flight rules of Part 60 of this subchapter;

(b) He has received dual instruction in such preparatory and flight procedures as preflight inspection, starting, warming up, operating, and stopping the engine; taxying, take-offs, hovering, landing, and parking; traffic pattern procedures; and emergency procedures, including engine failure; and

(c) His student certificate has been endorsed by an appropriately rated flight instructor who has examined him and found him to have complied with the provisions of paragraphs (a) and (b) of this section and otherwise to be competent to make solo flights.

§ 20.54 *Flight area limitations.* A student pilot shall not operate a rotorcraft in solo flight outside of a local area designated by his flight instructor until:

(a) He is familiar with such flight planning elements as plotting courses, estimating time en route and fuel required, and obtaining and evaluating weather reports;

(b) He has received dual instruction in pilotage by reference to aeronautical charts; conforming with air traffic control instructions furnished by radio or lights, as appropriate; and safe operating practices in simulated emergencies which might occur due to engine failure, deteriorating weather, getting lost, and similar critical situations; and

(c) His student pilot certificate has been endorsed by an appropriately rated flight instructor who has found him to have complied with paragraphs (a) and (b) of this section and otherwise to be competent to make solo cross-country flights.

PRIVATE

§ 20.60 *Age.* An applicant shall be at least 17 years of age.

§ 20.61 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his pilot certificate.

§ 20.62 *Physical standards.* An applicant shall hold at least a valid third class medical certificate issued in accordance with the physical standards prescribed in Part 29 of this subchapter.

§ 20.63 *Aeronautical knowledge.* An applicant shall pass an examination on the following:

(a) The Civil Air Regulations governing private pilot privileges and limitations, and general operating, air traffic, and accident reporting rules;

(b) The practical aspects of cross-country flying, including flight planning, map reading, pilotage, and radio communication procedures;

(c) The recognition of dangerous weather conditions and the evaluation of weather reports; and

(d) General safety practices in the operation of rotorcraft.

§ 20.64 *Aeronautical experience.* An applicant shall present his student pilot certificate appropriately endorsed for solo and cross-country flights and meet each of the following minimum flight experience requirements:

(a) 40 hours total flight time;
(b) 15 hours of solo flight time in rotorcraft; and
(c) 3 hours of solo cross-country flying which shall include a landing at an airport more than 25 miles from the point of departure.

§ 20.65 *Aeronautical skill.* An applicant shall satisfactorily accomplish a practical examination with respect to the maneuvers prescribed by the Administrator appropriate to the type of rotorcraft used.

COMMERCIAL

§ 20.70 *Age.* An applicant shall be at least 18 years of age.

§ 20.71 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his pilot certificate.

§ 20.72 *Physical standards.* An applicant shall hold at least a valid second class medical certificate issued in accordance with the physical standards prescribed in Part 29 of this subchapter.

§ 20.73 *Aeronautical knowledge.* An applicant shall pass a written examination based on the following:
(a) Meteorology, including the recognition of basic weather conditions and trends, and the acquisition and use of weather information disseminated by the U. S. Weather Bureau;
(b) Navigation, including pilotage, dead reckoning, and the use of instruments and radio aids to air navigation;
(c) Principles of safe flight operations, including theory of flight and the operation and maintenance of rotorcraft and general safety practices and procedures for coping with emergencies and critical situations; and
(d) Civil Air Regulations pertaining to the privileges and limitations of a commercial pilot and the general operating, air traffic, and accident reporting rules.

§ 20.74 *Aeronautical experience.* An applicant shall have acquired at least 150 hours of flight time and meet each of the following minimum flight experience requirements:
(a) 100 hours in powered aircraft which shall include 50 hours in rotorcraft of which at least 15 hours shall have been solo;
(b) 100 hours as pilot in command, of which 20 hours shall have been cross-country; and
(c) 10 hours of dual instruction in rotorcraft in preparation for the commercial pilot flight test.

§ 20.75 *Aeronautical skill.* An applicant shall competently perform the procedures and maneuvers prescribed by the Administrator appropriate to the type of rotorcraft used.

SUBPART D—PILOT CERTIFICATES; GLIDER RATING

STUDENT

§ 20.80 *Age.* An applicant shall be at least 14 years of age. If an applicant is less than 21 years of age and is not a regular or reserve member of the armed forces of the United States or enrolled in an established ROTC or other training program of such armed forces at the time of making application, he shall submit with his application the written consent of either parent or of his legal or natural guardian.

§ 20.81 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his student pilot certificate.

§ 20.82 *Physical standards.* An applicant shall certify that he has no known physical defect which renders him incompetent to pilot a glider.

§ 20.83 *Requirements for solo flight.* A student pilot shall not operate a glider in solo flight until:
(a) He is familiar with the general and visual flight rules of Part 60 of this subchapter and the procedure to follow in conducting preflight inspections;
(b) He has received flight instruction in take-offs, landings, glides, and gliding turns; and recovery from stalls entered from all normally anticipated flight attitudes; and
(c) His student certificate has been endorsed by an appropriately rated flight instructor who has examined him and found him to have complied with the provisions of paragraphs (a) and (b) of this section and otherwise to be competent to make solo flights.

§ 20.84 *Flight area limitations.* A student pilot shall not operate a glider in solo flight outside of a local area designated by his flight instructor until:
(a) He is familiar with obtaining and evaluating weather reports;
(b) He has received flight instruction in cross-country navigation by reference to aeronautical charts; and
(c) His student pilot certificate has been endorsed by an appropriately rated flight instructor who has found him to have complied with paragraphs (a) and (b) of this section and otherwise to be competent to make solo cross-country flights.

PRIVATE

§ 20.90 *Age.* An applicant shall be at least 16 years of age.

§ 20.91 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his pilot certificate.

§ 20.92 *Physical standards.* An applicant shall certify that he has no known physical defect which renders him incompetent to pilot a glider.

§ 20.93 *Aeronautical knowledge.* An applicant shall pass an examination on the following:
(a) The Civil Air Regulations governing private pilot privileges and limitations, and general operating, air traffic, and accident reporting rules;
(b) The practical aspects of cross-country flying;
(c) The recognition of dangerous weather conditions and the evaluation of weather reports; and
(d) General safety practices in the operation of gliders.

§ 20.94 *Aeronautical experience.* An applicant shall present his student pilot certificate appropriately endorsed for solo and cross-country flights and meet each of the following minimum flight experience requirements:
(a) 100 glider flights which shall include 25 flights during each of which a 360° turn was made; or 10 hours of flight time which shall include 50 glider flights or 30 flights if flight training has been accomplished using aero tows; or 3 hours dual instruction in light airplanes directed toward glider training and 7 hours of glider flight time which shall include 50 gliding flights; and
(b) One hour of flight instruction in recovery from stalls entered from all normally anticipated flight attitudes.

§ 20.95 *Aeronautical skill.* An applicant shall demonstrate a satisfactory level of competence in the following procedures and maneuvers:
(a) Preparatory flight procedures;
(b) At least 2 flights, of which one shall include a 360° approach to the left and one a 360° approach to the right, landing each time beyond and within 200 feet of a designated point or line; and
(c) Recovery from stalls entered from all normally anticipated flight attitudes.

COMMERCIAL

§ 20.100 *Age.* An applicant shall be at least 18 years of age.

§ 20.101 *Education.* An applicant shall be able to read, speak, and understand the English language, or an appropriate operation limitation shall be placed on his pilot certificate.

§ 20.102 *Physical standards.* An applicant shall certify that he has no known physical defect which renders him incompetent to pilot a glider.

§ 20.103 *Aeronautical knowledge.* An applicant shall pass a written examination based on the following:
(a) Meteorology, including the recognition of basic weather conditions and trends, and the acquisition and use of weather information disseminated by the U. S. Weather Bureau;
(b) Navigation, including pilotage and the use of navigational instruments;
(c) Principles of safe flight operations, including theory of flight and the operation and maintenance of gliders; and
(d) Civil Air Regulations pertaining to the privileges and limitations of a commercial pilot and the general operating, air traffic, and accident reporting rules.

§ 20.104 *Aeronautical experience.* An applicant shall have acquired at least 25 hours flight time and meet the following minimum experience requirements:
(a) 20 hours flight time in gliders;
(b) 2 hours of flight instruction in gliders in preparation for the commercial pilot flight test;
(c) 100 flights in gliders as pilot in command; and
(d) 25 glider flights with 360° right and left approaches.

§ 20.105 *Aeronautical skill.* An applicant shall demonstrate a satisfactory level of competence in the following procedures and maneuvers:
(a) Preparatory flight procedures;
(b) At least 2 flights, of which one shall include a 360° approach to the left and one a 360° approach to the right, landing each time beyond and within 100 feet of a designated point or line;
(c) A spiral in each direction of at least 3 full turns in a banked attitude of at least 45°;
(d) A glider flight when towed by an airplane during climb, and when above, below, and to one side of the slipstream during level flight;
(e) A glider flight when launched by an automobile or winch; and
(f) Recovery from stalls entered from all normally anticipated flight attitudes.

SUBPART E—SPECIAL ISSUANCE OF PILOT CERTIFICATES

§ 20.110 *Graduates of certificated flying schools.* (a) A graduate of a certificated flying school shall be deemed to have met the aeronautical experience requirements of this part if he presents an appropriate certificate of graduation within 60 days after his graduation date: *Provided*, That an applicant for an instrument rating or a limited flight instructor certificate shall meet the prescribed aeronautical experience requirements for the issuance of a commercial pilot certificate.
(b) The Administrator may issue a private or commercial pilot or limited flight instructor certificate or an instrument or aircraft rating without further showing of competence to an applicant who has graduated from an approved course of a certificated flying school within the preceding 90 days if the Administrator finds that the aeronautical knowledge and skill requirements of such course are the equivalent of those prescribed in this part.

§ 20.111 *Military competence.*—(a) *Pilot certificates.* An applicant for a private or commercial pilot certificate shall be deemed to have met the requirements for the issuance of such certificate if he passes a written examination on the Civil Air Regulations pertaining to pilot privileges and limitations, general operating, air traffic, and accident reporting rules, and presents reliable evidence that:
(1) He is a member of the armed forces of the United States, the National Guard, or the Coast Guard or any reserve component thereof and either is on solo flying status as a rated pilot or the equivalent, or has been graduated from and rated as a pilot or the equivalent by a military flying school within the preceding 12 months; or
(2) He has been honorably discharged from the armed forces, the National Guard, or the Coast Guard within the preceding 12 months, and was at the time of discharge on solo flying status as a rated pilot or the equivalent: *Provided*, That if he has been honorably discharged for a period longer than 12 months preceding the date of application, he shall be required to meet the prescribed physical standards and pass the appropriate flight test.

(b) *Aircraft category, class, and type ratings.* An applicant for a particular category, class, or type rating who has applied for or holds a pilot certificate issued on the basis of military competence or otherwise shall be issued appropriate ratings upon the presentation of reliable documentary evidence that he has had, within 12 months preceding the date of application, at least 10 hours of flight time as pilot in command in military aircraft of a category, class, or type for which the rating is sought, or has taken a flight test.
(c) *Instrument rating.* An instrument rating shall be issued to a private or commercial pilot who holds a currently effective military instrument rating.

§ 20.112 *Foreign pilot certificates.* (a) An applicant for a pilot certificate who holds a currently effective pilot certificate issued by a foreign government may receive credit for his flight experience and for those examinations and tests, completed in securing his pilot certificate, which the Administrator finds to be at least the equivalent of those required in the Civil Air Regulations for the issuance of a comparable U. S. pilot certificate.
(b) A pilot certificate with appropriate limitations may be issued for a specific purpose to an applicant who is a citizen of a foreign country and holds a currently effective pilot license issued by his government upon submitting to the Administrator reliable evidence of his aeronautical experience and passing an examination on the air traffic rules contained in Part 60 of this subchapter. The Administrator shall limit the duration of the certificate to not more than 90 days and may prescribe such additional limitations as he finds necessary for safety.

SUBPART F—AIRCRAFT AND INSTRUMENT RATINGS

AIRCRAFT RATINGS

§ 20.120 *Aircraft ratings.* Aircraft ratings issued to private and commercial pilots shall be classified as follows:
(a) *Category ratings.* (1) Airplane.
(2) Rotorcraft.
(3) Glider.
(b) *Class ratings.* (1) Single-engine land.
(2) Multiengine land.
(3) Single-engine sea.
(4) Multiengine sea.
(c) *Type ratings.* Each type of aircraft having a maximum certificated take-off weight of more than 12,500 pounds.

§ 20.121 *Additional aircraft ratings.* An applicant for an additional aircraft rating subsequent to the original issuance of a private or commercial pilot certificate shall meet the following requirements:
(a) *Category rating.* An applicant for an additional category rating shall:
(1) Meet all the aeronautical experience requirements for the original issuance of his grade of certificate with the category rating sought; and
(2) Pass an appropriate flight test.
(b) *Class or type rating.* An applicant for an additional class or type rating shall:
(1) Have made at least 5 take-offs and landings as pilot in command and sole manipulator of the controls of an aircraft of the class or type for which a rating is sought; and
(2) Pass an appropriate flight test.

INSTRUMENT RATING

§ 20.125 *Issuance.* An instrument rating shall be issued to a private or commercial pilot who meets the prescribed aeronautical knowledge, experience, and skill requirements.

§ 20.126 *Aeronautical knowledge.* An applicant shall pass a written examination based on the following:
(a) Civil Air Regulations as they apply to flight under IFR conditions;
(b) Radio navigation systems and procedures, instrument landing systems and procedures, and radio communication procedures; and
(c) Meteorology, including the characteristics of air masses and fronts and the weather associated with them; the elementary principles of forecasting; and the availability, evaluation, and utilization of the various types of meteorological reports.

§ 20.127 *Aeronautical experience.* An applicant shall meet the following minimum flight experience requirements:
(a) He shall hold a commercial pilot certificate or a private pilot certificate and meet the aeronautical experience requirements for the issuance of a commercial pilot certificate; and
(b) He shall have acquired 40 hours of instrument time under actual or simulated instrument conditions, of which not less than 20 hours shall have been in flight and have included 10 hours of instrument flight instruction given by a rated instrument flight instructor.

§ 20.128 *Aeronautical skill.* An applicant shall demonstrate a satisfactory level of competence in the following procedures and maneuvers:
(a) Flight maneuvers, solely by reference to instruments, including recovery from critical attitudes such as steep turns, spirals, and stalls using the minimum instrumentation prescribed for instrument flight in Part 43 of this subchapter.
(b) Planning and conducting a simulated instrument flight including:
(1) Preparing and filing an instrument flight plan;
(2) Radio navigation including orientation;
(3) Radio communications;
(4) A standard instrument approach complying with traffic control instructions and standard holding procedures; and
(5) Recovery from emergency situations such as a missed approach, radio or instrument failure, and failure of an engine if the test is conducted in a multiengine airplane.

SUBPART G—FLIGHT INSTRUCTOR CERTIFICATES

§ 20.130 *Limited flight instructor certificates.* A limited flight instructor cer-

tificate with appropriate ratings shall be issued to an applicant who meets the following requirements:

(a) He shall hold a valid airline transport or commercial pilot certificate of if he holds a private pilot certificate he shall meet the aeronautical knowledge, experience, and skill requirements for the issuance of a commercial pilot certificate;

(b) He shall demonstrate in each category of aircraft in which he desires to give flight instruction his ability to teach the performance of such flight maneuvers and procedures as are necessary and appropriate for the safe piloting of that category of aircraft; and

(c) He shall show that he is familiar with effective flight instruction methods and procedures as set forth in the CAA Flight Instruction Manual; or

(d) He shall demonstrate his ability to give instrument flight instruction if he desires to be rated as an instrument flight instructor.

§ 20.138 *Validity and exchange of flight instructor ratings and certificates.* The holder of a flight instructor rating may exercise the privileges of such rating until July 1, 1958. Prior to this date he may exchange such rating for a flight instructor certificate without further showing of competence. After July 1, 1958, the holder of a flight instructor rating shall not exercise the privileges of such rating but he may exchange it for a flight instructor certificate upon demonstrating continued competence to give flight instruction.

NOTE: The record-keeping requirements contained herein have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 1]

PART 514—TECHNICAL STANDARD ORDERS FOR AIRCRAFT MATERIALS, PARTS, PROCESSES, AND APPLIANCES

Under section 601 of the Civil Aeronautics Act of 1938 and the delegation of authority from the Civil Aeronautics Board in §§ 3.18, 4a.31, 4b.18, 6.18, and 7.18 of the Civil Air Regulations, the Administrator of Civil Aeronautics is authorized to adopt performance standards and specifications of materials, parts, processes, and appliances used in aircraft as he may find necessary to implement provisions of the Civil Air Regulations. The Administrator adopted the Technical Standard Order system as a means to carry out this delegated authority. This system, in brief, provides for CAA-industry cooperation in the development of these performance standards, and a form of self-regulation by industry in demonstrating compliance with these standards. Since the original adoption of this part, which contains the C series TSO's, it has been found desirable to make clarifying editorial and format changes. Hence, Part 514 of the regulations of the Administrator is being amended to provide two subparts. Subpart A contains the general requirements applicable to all Technical Standard Orders, such as "Method of Conformance," "Marking," and "Deviations." Subpart B contains the technical specifications to which a specific product must conform.

All existing technical standards in sections of Part 514 (14 CFR Rev. 1952) and subsequent Technical Standard Orders will be issued or re-issued as a section of the new Subpart B.

The changes to Part 514 as reflected in Subpart A are editorial in nature; hence, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is considered unnecessary.

In order to accomplish the proposed rearrangement of Part 514 (14 CFR Rev. 1952), the following new Subpart A—General, is hereby adopted to become effective September 15, 1956. The heading for Subpart B is hereby established, and §§ 514.1 through 514.25 of Part 514 (14 CFR Rev. 1952) are redesignated as §§ 514.11 through 514.35. This redesignation is required because the section numbers (§§ 514.1 through 514.4) have been reassigned within Subpart A of the new part.

Part 514 is amended as follows:

1. The part heading is revised to read as set forth above.

2. Sections 514.1 through 514.25 of this part are redesignated as §§ 514.11 through 514.35.

3. The following new §§ 514.1 through 514.4 are adopted to read as follows:

SUBPART A—GENERAL

Sec.
514.1 Basis and purpose.
514.2 Method of conformance.
514.3 Marking.
514.4 Deviations.

AUTHORITY: §§ 514.1 to 514.4 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425.

§ 514.1 *Basis and purpose*—(a) *Basis.* Section 601 of the Civil Aeronautics Act of 1938, as amended, and §§ 3.18, 4a.31, 4b.18, 6.18, and 7.18 of this title.

(b) *Purpose.* The purpose of this part is to establish minimum performance standards for aircraft materials, parts, processes, and appliances which are to be used on civil aircraft of the United States, and to prescribe the manner by which the manufacturer must show compliance with such performance standards.

§ 514.2 *Method of conformance.* (1) A manufacturer of an aircraft material, part, process, or appliance for which standards are established in Subpart B of this part, prior to distribution for use on a civil aircraft of the United States shall furnish a written statement of conformance certifying that the material, part, process, or appliance meets the applicable performance standards established in this part. The statement of conformance shall be signed by a person duly authorized by the manufacturer, and shall be furnished to the Chief, Aircraft Engineering Division, Office of Aviation Safety, Civil Aeronautics Administration, Washington 25, D. C.

(2) If complaints of nonconformance with the requirements of this order are brought to the attention of the CAA and investigation indicates that such complaints are justified, the Administrator will take appropriate action to restrict the use of the product in civil aircraft.

§ 514.3 *Marking.* Materials, parts, processes, and appliances for which a statement of conformance has been submitted, shall be legibly and permanently marked with the following information:

(a) Name and address of the manufacturer responsible for compliance,

(b) Equipment name, or type or model designation,

(c) Weight to the nearest pound and fraction thereof,

(d) Serial number and/or date of manufacture, and

(e) Applicable Technical Standard Order (TSO) number.

§ 514.4 *Deviations* No deviation will be granted from the performance standards established in Subpart B of this part. Requests for deviation from other requirements of this part should be addressed to the Aircraft Engineering Division, Office of Aviation Safety, Civil Aeronautics Administration, Washington 25, D. C.

3. The following heading for Subpart B is adopted: Subpart B—Minimum Performance Standards.

(Sec. 205, 54 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply Sec. 601, 52 Stat. 1007, as amended, 49 U. S. C. 551)

This amendment shall become effective September 15, 1956.

[SEAL] JAMES T. PYLE,
Acting Administrator, of Civil Aeronautics.

PART 608—RESTRICTED AREAS

ALTERATION; CHERRY POINT, N. C.

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.41, the Cherry Point, North Carolina, area No. 2 (R-125), amended on July 7, 1956, in 21 F. R. 5049, is redesignated as follows:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
Cherry Point, N. C., restricted area (R-125) (Norfolk).	Beginning at latitude 35°46'30", longitude 76°47'00"; thence southwesterly along the East edge of Amber Civil Airway #2 to latitude 34°21'40", longitude 77°41'30"; thence clockwise along the arc of a circle with a radius of 60 statute miles centered at latitude 34°54'30", longitude 76°53'00"; to latitude 34°26'50", longitude 77°46'35"; thence North to latitude 35°20'30", longitude 77°40'50"; thence Northeast to latitude 35°40'00", longitude 77°23'40"; thence clockwise along the arc of a circle with a radius of 60 statute miles centered at latitude 34°54'30", longitude 76°53'00"; to the point of beginning.	6,000 feet mean sea level to unlimited.	Sunset to sunrise daily.	MCAS, Cherry Point, N. C.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on September 20, 1956.

[SEAL] J. M. BEARDSLEE,
Acting Administrator of Civil Aeronautics.

PART 610—MINIMUM EN ROUTE IFR ALTITUDES

MISCELLANEOUS AMENDMENTS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 610 is amended as follows: (Listed items to be placed in appropriate sequence in the sections indicated.)

Section 610.12 *Green civil airway 2* is amended to read in part:

From North Scituate, INT, R. I.; to Boston, Mass., LFR; MEA 1,800.

Section 610.13 *Green civil airway 3* is amended to read in part:

From Allentown, Pa., LFR; to Belle Mead INT, N. J.; MEA 2,500.
From Youngstown, Ohio, LFR; to Pardoe INT, Pa.; MEA 2,600.
From Pardoe INT, Pa.; to Philipsburg, Pa., LFR; MEA 4,000.

Section 610.16 *Green civil airway 6* is amended to read in part:

PART 146—GENERAL REGULATIONS FOR THE CERTIFICATION OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146a—CERTIFICATION OF PENICILLIN AND PENICILLIN-CONTAINING DRUGS

PART 146e—CERTIFICATION OF BACITRACIN-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Secretary of Health, Education, and Welfare by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463; 61 Stat. 11, 63 Stat. 409, 67 Stat. 389; sec. 701, 52 Stat. 1055; 21 U. S. C. 357, 371) and delegated to the Commissioner of Food and Drugs by the Secretary (20 F. R. 1996), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR Part 141e) and certification of antibiotic and antibiotic-containing drugs (21 CFR Parts 146a, 146e) are amended as indicated below:

1. Part 141e is amended by adding the following new section:

§ 141e.428 *Capsules bacitracin methylene disalicylate and streptomycin sulfate oral veterinary*—(a) *Potency*—(1) *Bacitracin content.* Using a representative number of capsules (usually six) in a blending jar, proceed as directed in § 141e.417 (a) (1). Its bacitracin content is satisfactory if it contains not less than 85 percent of that which it is represented to contain.

(2) *Streptomycin content.* Using the contents of a representative number of capsules (usually six), proceed as directed in § 141b.101 (a) to (i), inclusive, of this chapter, and use 0.1 *M* potassium phosphate buffer, pH 8.0, for preparing the sample instead of sterile distilled water as directed in § 141b.101 (e). Its content of streptomycin is satisfactory if it contains not less than 85 percent of that which it is represented to contain.

(b) *Moisture.* Proceed as directed in § 141a.5 (a) of this chapter.

2. In § 146.26 *Animal feed containing penicillin* • • •, paragraph (b) (18) (ii) is amended by changing the reference "(6) and (7) or (16) and (17)" at both places where used to read "(6) and (7) and/or (9) and (10) or (16) and (17)".

3. Section 146a.104 *Penicillin V for oral suspension* • • • is amended in the following respects:

a. Paragraph (a) *Standards of identity* • • • is amended by changing the first sentence to read as follows: "Penicillin V for oral suspension is a mixture of penicillin V and one or more suitable and harmless suspending agents, colorings, and flavorings, with or without one or more suitable and harmless buffer substances and preservatives, and with or without one or more suitable sulfonamides."

b. In paragraph (c) *Labeling*, subparagraph (1) is amended by renumbering subdivision (iii) as (iv) and inserting a new subdivision (iii), reading as follows, between subdivision (ii) and renumbered subdivision (iv):

(iii) The name of each buffer substance and the name and quantity of each sulfonamide and preservative used in making the batch.

c. In paragraph (c) (1), renumbered subdivision (iv) is amended by changing the colon after the word "certified" to a comma and adding the following new clause: "except that if it contains sulfonamides the blank shall be filled in with the date that is 12 months after the month during which the batch was certified:".

d. Paragraph (c) (2) (ii) is amended by inserting after "may be omitted" the words "from the immediate container".

e. Paragraph (c) is further amended by renumbering subparagraph (3) as (4) and inserting a new subparagraph (3), reading as follows, between subparagraph (2) and renumbered subparagraph (4):

(3) On the label and labeling, if it contains sulfonamides, after the name "penicillin V for oral suspension," wherever it appears, the words "with sulphonamides," in juxtaposition with such name.

4. Part 146e is amended by adding the following new section:

§ 146e.428 *Capsules bacitracin methylene disalicylate and streptomycin sulfate oral veterinary.* Capsules bacitracin methylene disalicylate and streptomycin sulfate oral veterinary are capsules that conform to all requirements and are subject to all procedures prescribed by § 146e.426 for tablets bacitracin methylene disalicylate and streptomycin sulfate oral veterinary, except that each capsule shall contain not less than 150 units of bacitracin activity and not less than 15 milligrams of streptomycin activity.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry and since it would be against public interest to delay providing for the amendments set forth above.

Effective date. This order shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

Dated: August 23, 1956.

TITLE 29—LABOR

Chapter V—Wage and Hour Division, Department of Labor

PART 689—SUGAR MANUFACTURING INDUSTRY IN PUERTO RICO

On May 19, 1956, pursuant to section 5 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended; 29 U. S. C. 201 et seq.), the Secretary of Labor by Administrative Order No. 462 (21 F. R. 3328) appointed, convened, and noticed the hearings of Industry Committee No. 21 for Puerto Rico. The committee was directed to recommend the minimum wage rate or rates to be paid under section 6 (c) of the act to employees in the sugar manufacturing industry in Puerto Rico who are engaged in commerce or in the production of goods for commerce.

Subsequent to an investigation and hearing, conducted pursuant to the notice, the committee filed with the Administrator a report containing its findings of fact and recommendations with respect to the matters referred to it. Accordingly, as authorized and required by section 8 of the act and General Order No. 45-A of the Secretary (15 F. R. 3290), (1) the recommendations of the committee are hereby published in the following amendments to the Code of Federal Regulations, and (2) effective September 14, 1956, Part 689 of Title 29 is amended to read as follows:

Sec.
689.1 Definition of the sugar manufacturing industry in Puerto Rico.
689.2 Wage rate.
689.3 Notices.

AUTHORITY: §§ 689.1 to 689.3 issued under sec. 8, 52 Stat. 1064, as amended; 29 U. S. C. 208. Interpret or apply sec. 5, 52 Stat. 1064, as amended; 29 U. S. C. 205.

§ 689.1 *Definition of the sugar manufacturing industry in Puerto Rico.* The sugar manufacturing industry in Puerto Rico to which this part shall apply is hereby defined as follows: The production of raw sugar, cane juice, molasses and refined sugar, and incidental by-products and all railroad transportation activities carried on by a producer of any of these products (or by any firm owned or controlled by, or owning and controlling such producer, or by any firm owned or controlled by the parent company of such producer), where the railroad transportation activities are in whole or in part used for the production or shipment of the products of the industry, and any transportation activities by truck or other vehicle performed by a producer of the products of the industry in connection with the production or shipment of such products by such producer: *Provided, however,* That the industry shall not include any transportation activity covered by the wage orders for the shipping industry, or the railroad, railway express and property motor transport industry in Puerto Rico, or any transportation activity to which the agricultural exemption contained in section 13 (a) (6) of the act is applicable.

§ 689.2 *Wage rates.* Wages at a rate of not less than 90 cents an hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the sugar manufacturing industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

§ 689.3 *Notices.* Every employer subject to the provisions of § 689.2 shall post in a conspicuous place in each department of his establishment where employees subject to the provisions of § 689.2 are working such notices of this order as shall be prescribed from time to time by the Administsrator of the Wage and Hour Division of the United States Department of Labor and shall give such other notice as the Administrator may prescribe.

Signed at Washington, D. C., this 23d day of August 1956.

NEWELL BROWN,
Administrator, Wage and Hour Division.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Rules Amdt. 7-12]

PART 7—STATIONS ON LAND IN THE MARITIME SERVICES

OPERATIONAL DESIGNATOR FOR CERTAIN COAST STATIONS

In the matter of amendment of Part 7 of the Commission's rules to include therein a new operational designator for certain coast stations.

The Commission having under consideration the above-captioned matter;

It appearing that a new operational designator "(L)" is now being used on coast station licenses to indicate that certain coast stations render local service on a frequency assignment above 30 Mc, as well as on other frequencies; and

It further appearing that the definitions in Part 7 should be amended in order to reflect this new operational designator; and

It further appearing that because the amendment is minor in nature and merely conforms the Commission's rules to the current licensing procedure, compliance with the public notice and rule making procedure prescribed by sections 4 (a) and (b) of the Administrative Procedure Act is unnecessary; and

It further appearing that since the amendment is non-substantive in nature, compliance with the effective date provisions of section 4 (c) of the Administrative Procedure Act is not required;

It is ordered, This 21st day of August 1956, that, pursuant to authority contained in section 303 (a) and (r) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's Statement of Organization, Delegations of Authority and Other Information § 7.3 (k) is amended, effective August 28, 1956, by inserting therein operational designator "(L)" with a brief explanation of its function. As amended, § 7.3 (k) reads as follows:

(k) *Operational designator.* The letter "A", "B", or "F", appended to the term "class I", "class II", or "class III", as these terms are defined in paragraphs (h), (i), and (j) of this section, designates that the coast station is licensed to render its normal service by means of (A) telegraphy, (B) telephony, or (F) facsimile. The designator "L" means "local" and is used to indicate (in lieu of a separate class III coast station license for the same station) that a class I or a class II station provides maritime mobile service of a local character on a frequency or frequencies above 30 Mc in addition to its service on other frequencies. Operational designators are used individually or in combinations of two or more, as may be appropriate to a particular coast station. Examples of coast station classification for regulatory and administrative purposes in accordance with these rules: Public I-A, Public III-B, Limited II-A, Limited III-BF, Public II-AB, Public II-BL, Public I-AL, etc.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interprets or applies sec. 303, 49 Stat. 1082, as amended; 47 U. S. C. 303)

Released: August 23, 1956.

[SEAL] DEE W. PINCOCK,
Acting Secretary.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 903]

[Docket No. AO-10-A21]

HANDLING OF MILK IN ST. LOUIS, MO., MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT OF TENTATIVE MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at St. Louis, Missouri, on July 26, 1956, pursuant to notice thereof issued on July 17, 1956, and published in the FEDERAL REGISTER on July 20, 1956 (21 F. R. 5447).

The material issues of record are concerned with:

1. The pricing of Class I milk; and
2. The need for prompt action by the Secretary with respect to Issue No. 1.

Findings and conclusions—1. *Class I price.* The amount of Class I price adjustment per percentage point of indicated undersupply or oversupply in the market should be continued at a rate of 5 cents per point through November 1956, with a limit of plus or minus 45 cents per hundredweight.

The supply-demand adjustment is one of the components of the Class I pricing formula. In the St. Louis order Class I prices are based upon the value of the milk for manufacturing uses as reflected in a "basic formula price". To this manufacturing value is added a Class I differential which varies seasonally from a low of 70 cents per hundredweight during the flush production months to a high of $1.45 in the months of lowest production. These differentials are further subject to a supply-demand adjustment which automatically reduces the Class I price when supplies are above normal in relation to sales and raises the price when supplies are below normal.

The permanent rates of supply-demand adjustment provided in the order are 3 cents per point of indicated oversupply or undersupply during the three short production months of September, October, and November, 1 cent per point during the flush months of April, May, and June, and 2 cents per point during the intermediate months of December, January, February, March, July, and August. However, as a result of a hearing held in October 1955, the order was amended, effective December 1, to provide a rate of 4 cents per point during April, May, and June 1956, and 5 cents per point in all other months through August 1956.

These higher rates were based principally on the prospective results of a requirement by the St. Louis Health Department that milk received from producers at milk plants be not over 50 degrees Fahrenheit. It was then apparent that many producers had to undertake significant additional investments in cooling equipment to meet the requirements and that some of them might seek other markets or terminate their dairy operations in preference to making the necessary investment.

The conditions which prompted the increased rate of supply-demand adjustment are still operating in the market and require extension of the higher rates for the next three months. The 12-month moving average of supplies in relation to sales has been declining steadily since the period ending October 1954. It has averaged 117 percent for the 12-month period ending June 1956 as compared with a "normal" of 125 percent. It was testified that the 50-degree requirement has been a significant factor in the failure of supplies to keep pace with Class I sales. Many farmers have purchased highly efficient bulk coolers. In December 1955, 11.3 percent of the total supply came from farmers so equipped and by June 1956 this proportion has risen to 29.7 percent. However, many producers have not been willing or able to make the large additional investments involved in conversion to bulk tank. Alternative markets have been particularly attractive in recent months, especially to producers whose farms are located in or near Illinois. The Illinois legislature has approved a requirement that all milk sold for fluid purposes within the State after July 1, 1957, must meet Grade A standards. As a result, milk dealers in Southwestern Illinois cities have been soliciting St. Louis Grade A shippers in order to assure themselves of an adequate supply by the effective date of the new enactment. The 50-degree ordinance of the St. Louis Health Department is being actively enforced. The milk delivered by individual producers is checked frequently and some producers had already received a second warning at the time of the hearing. The problem involves the farm-to-plant hauling of the milk as well as its care at the farm; one producer whose milk was in excess of 50 degrees upon receipt at the plant had shipped it at 38 degrees. Some haulers are helping to meet the requirement by picking up the milk in the evenings, icing their loads, or installing mechanical refrigeration on their trucks, but any extensive alterations on their part involve additional costs which must be passed back to the farmer.

The effects of the pricing action herein contained will automatically be adjusted in proportion to the amount by which supplies remain less than normal in relation to Class I sales. The supply-demand adjustment for July 1956 was based on utilization data for the 12-month period ending May 31, 1956. This percentage was 117, 8 points less than the normal of 125. In addition, pursuant to the amendments of December 1, 1955, the fact that supplies were 1 point shorter for the 12 months ending May than for the 12 months ending February 1956 made a total deficit of 9 points. At 5 cents per point of indicated undersupply, the supply-demand adjustment was plus 45 cents. If the same relationships continue, the use of a 5-cent rate instead of a 3-cent rate will increase Class I prices by 18 cents per hundredweight through November 1956. However, if supplies increase in relation to sales, the amount of supply-demand adjustment will be rather rapidly diminished.

It appears that this action will maintain St. Louis prices in appropriate relationship to those under the Chicago order. If present supply-demand relationships continue, there will be a supply-demand adjustment of minus 6 cents under the Chicago order and one of plus 45 cents under the St. Louis order for the months of September-November. The Class I price for St. Louis would then exceed the Chicago Class I price by 81 cents per hundredweight in September, October, and November 1956. Hauling costs, less location adjustments under the Chicago order at plants from which milk was procured in 1955 approximate 45 cents. In addition, plant charges on irregular shipments such as these are commonly larger than at the St. Louis country plants which regularly supply bulk milk to the bottling plants. In late 1955 the extra plant charges incurred by one of the handlers averaged 45 cents in September, 50 cents in October, 38 cents in November, and 29 cents in December. These amounts, plus the hauling charges, make the prospective net cost of Chicago to St. Louis handlers milk higher than the cost of producer milk through December.

The range of action of the supply-demand adjustment has been limited to plus or minus 45 cents. Under the marketing conditions in prospect for the next three months an addition of 45 cents appears to be as great as competitive relationships with other areas, especially Chicago, will allow. Limits of this magnitude are common in the supply-demand adjustments in other markets. Any greater departure from normal in supply-demand relationships should be considered at an amendment proceeding where the level of the Class I price and all other features of the order could be fully explored.

2. *Prompt action.* The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto, on the above issue.

The conditions complained of are such that it is urgent that remedial action be taken as soon as possible. It is therefore found that good cause exists for omission of the recommended decision in order to inform interested parties of the conclusions reached. Uncertainty on the part of interested parties might lead to instability in the market. Knowledge of the action decided upon by the Secretary will permit those affected to adjust their operations promptly in accordance with such decision.

Delay beyond September 1, 1956, will defeat the purpose of the amendment. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereof, would make such relief substantially ineffective and therefore should be eliminated in this instance. The notice of hearing stated that consideration would be given to the question of whether economic and marketing conditions require emergency action with respect to any or all amendments deemed necessary as a result of the hearing. Action under the procedure described above was requested by proponents at the hearing.

Rulings on proposed findings and conclusions. Briefs which were filed on behalf of interested parties contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendment. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of June 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, as amended, now in effect, regulating the handling of milk in the St. Louis marketing area, in the manner set forth in the attached amending order is approved or favored by producers who, during such period, were engaged in the production of milk for sale in the marketing area specified in such marketing order.

Marketing agreement and order, as amended. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the St. Louis, Missouri, Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the St. Louis, Missouri, Marketing Area," which have been decided upon as the detailed and appropriate means of effecting the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of August 1956.

Acting Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the St. Louis, Missouri, Milk Marketing Area

§ 903.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and of the previously issued amendments thereto and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect

market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the St. Louis, Missouri, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

In § 903.51 (a) (2) delete the proviso and substitute therefor the following: "*Provided*, That for the months of September, October, and November, 1956 such rate shall be five cents and the maximum amount shall be plus or minus 45 cents."

[Docket No. AO-249-A2]

HANDLING OF MILK IN SOUTHWEST KANSAS MARKETING AREA

DECISION WITH RESPECT TO PROPOSED AMENDMENT OF TENTATIVE MARKETING AGREEMENT AND ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held at Dodge City, Kansas, on August 8, 1956, pursuant to notice thereof dated July 31, 1956, and published in the FEDERAL REGISTER on August 3, 1956 (21 F. R. 5807).

The material issues of record are concerned with:

1. The pricing of Class I milk for the period September–November 1956; and

2. The need for immediate action by the Secretary with respect to issue No. 1.

Findings and conclusions. The following findings and conclusions are based upon evidence in the record of the hearing:

1. *Class I price.* The Class I price should be increased by 25 cents per hundredweight during the months of September, October, and November 1956.

The producers regularly supplying the Southwest Kansas marketing area face exceptionally unfavorable production conditions. These conditions are so widespread and serious that they threaten to impair the maintenance of adequate supplies of milk for the market.

The Department's report of pasture feed conditions as of July 1 indicates that pasture conditions throughout almost the entire milkshed were less than 35 percent of normal, a condition characterized as one of "extreme drought". Official notice is taken of the report of pasture feed conditions as of August 1, showing that conditions in the milkshed varied from "extreme drought" to "severe drought", a term applying to pastures ranging from 35 to 50 percent of normal.

Twenty-five counties in Western and Southwestern Kansas have been declared as drought disaster areas by the Department and farmers are eligible to purchase feed grains at a discount upon appropriate certification. Almost the entire Southwestern Kansas milkshed is within this drought disaster territory.

Individual producers described the impact of these officially reported conditions on their own operations. The almost complete lack of pasture and the failure of feed and forage crops have left dairymen largely dependent on purchased concentrates and roughages. These add greatly to the cash costs of producing milk. It appears that only the lack of any more favorable alternative farm enterprises have kept many milk producers in business.

Substantial quantities of other source milk were drawn upon by Southwest Kansas handlers during the months of September, October, and November 1955. They were equal to approximately 10 percent of the total supply of milk during that period, and prospects are that similarly large quantities will need to be drawn upon in the same months of 1956. During June 1956, supplies were 2.4 percent less in relation to sales than in June 1955, although official notice is taken of the fact that in July 1956 supplies were 9.9 percent greater in relation to sales than in July 1955.

Farmers supplying the Southwest Kansas market need some encouragement under the present adverse conditions to maintain production at as near normal levels as possible. The increase in the Class I prices provided herein will restore prices to approximately the July 1956 level.

The limiting factor in the amount of price increase is the close relationship between the Southwest Kansas and the Wichita markets. At the time of the original hearing on an order for the Southwest Kansas area, there was already considerable competition with Wichita handlers, both in the sale and procurement of milk. Based upon such competition, Class I prices in Southwest Kansas were set at the same level as the Wichita Class I prices. Since the inception of this order, the competition has become even more widespread. One of the Wichita handlers now distributes milk over virtually the entire Southwest Kansas area. In recent months, another Wichita handler has begun to compete for sales in the eastern portion of this marketing area. The Wichita market is also a source of supplemental supplies. A considerable proportion of other source milk obtained by Southwest Kansas handlers in the fall of 1955 was from Wichita. The Wichita market currently has larger supplies than are needed for Class I uses and it appears likely that this market would again be drawn upon for supplemental milk.

It is approximately 160 miles from Wichita to Dodge City, which is roughly the geographic center of the Southwest Kansas marketing area. Frequently quoted contract rates for transporting bulk milk in large tank trucks approximate 1.5 to 1.8 cents per hundredweight per 10 miles. These rates are also in line with the cost quoted by the cooperative association for transporting milk in a tank truck owned by the association. It is apparent, therefore, that the bulk supplemental milk obtained from Wichita would cost from 24 to 29 cents per hundredweight more than milk from local producers. No evidence was presented at the hearing relative to the additional costs incurred by Wichita handlers in moving packaged milk to the Southwest Kansas area. It is, however, apparent that any Southwest Kansas handlers covering the entire market also incur comparatively large hauling costs. It is concluded that an increase of 25 cents in the Class I price for the 3 months will not too seriously disrupt competitive relationships between the Southwest Kansas and the Wichita handlers and that such increase should be granted to help offset adverse production conditions.

2. *Prompt action.* The due and timely execution of the function of the Secretary under the act imperatively and unavoidably requires the omission of a recommended decision by the Deputy Administrator, Agricultural Marketing Service, and the opportunity for exceptions thereto, on the above issue.

The conditions complained of are such that it is urgent that remedial action be taken as soon as possible. It is therefore found that good cause exists for omission of the recommended decision in order to inform interested parties of the conclusions reached. Uncertainty on the part of interested parties might lead to instability in the market. Knowledge of the action decided upon by the Secretary will permit those affected to adjust their operations promptly in accordance with such decision.

Delay beyond September 1, 1956, will defeat the purpose of the amendment. Accordingly, the time necessarily involved in the preparation, filing, and publication of a recommended decision, and exceptions thereof, would make such relief substantially ineffective and therefore should be eliminated in this instance. The notice of hearing stated that consideration would be given to the question of whether economic and marketing conditions require emergency action with respect to any or all amendments deemed necessary as a result of the hearing. Action under the procedure described above was requested by proponents at the hearing.

Rulings on proposed findings and conclusions. Briefs which were filed on behalf of interested parties contained statements of fact, proposed findings and conclusions, and arguments with respect to the provisions of the proposed amendment. Every point covered in the briefs was carefully considered along with the evidence in the record in making the findings and reaching the conclusions hereinbefore set forth. To the extent that the findings and conclusions proposed in the briefs are inconsistent with the findings and conclusions contained herein, the request to make such findings or to reach such conclusions is denied on the basis of the facts found and stated in connection with the conclusions in this decision.

General findings. (a) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(b) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply and demand for milk in the said marketing area, and the minimum prices specified in the proposed marketing agreement and in the order, as amended, and as hereby proposed to be further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(c) The proposed marketing agreement and the order, as amended, and as hereby proposed to be further amended, will regulate the handling of milk in the same manner as, and are applicable only to persons in the respective classes of industrial and commercial activity specified in, the said marketing agreement upon which a hearing has been held.

Determination of representative period. The month of June 1956 is hereby determined to be the representative period for the purpose of ascertaining whether the issuance of the order amending the order, as amended, regulating the handling of milk in the Southwest Kansas marketing area, in the manner set forth in the attached amending order, is approved or favored by producers, as defined in the order, as amended, and as proposed hereby to be further amended, who during such representative period were engaged in the production of milk for sale in the marketing area as defined in the order, as amended, and as proposed hereby to be further amended.

Marketing agreement and order, as amended. Annexed hereto and made a part hereof are two documents entitled, respectively, "Marketing Agreement Regulating the Handling of Milk in the Southwest Kansas Marketing Area," and "Order Amending the Order, as Amended, Regulating the Handling of Milk in the Southwest Kansas Marketing Area," which have been decided upon as the detailed and appropriate means of effectuating the foregoing conclusions. These documents shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure, as amended, governing proceedings to formulate marketing agreements and orders have been met.

It is hereby ordered, That all of this decision, except the attached marketing agreement, be published in the FEDERAL REGISTER. The regulatory provisions of said marketing agreement are identical with those contained in the order as hereby proposed to be amended by the attached order which will be published with this decision.

This decision filed at Washington, D. C., this 24th day of August 1956.

Acting Secretary.

Order[1] Amending the Order, as Amended, Regulating the Handling of Milk in the Southwest Kansas Marketing Area

§ 919.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and of the previously issued amendments thereto and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Southwest Kansas marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in a marketing agreement upon which a hearing has been held.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Southwest Kansas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

Change the period at the end of § 919.51 (a) to a colon and add the following: "*Provided*, That during each of the months of September, October, and November 1956, such price should be increased by 25 cents per hundredweight."

HANDLING OF BEURRE D'ANJOU, BEURRE BOSC, WINTER NELIS, DOYENNE DU COMICE, BEURRE EASTER, AND BUERRE CLAIRGEAU PEARS GROWN IN OREGON, WASHINGTON, AND CALIFORNIA

EXPENSES AND FIXING OF RATE OF ASSESSMENT FOR 1956–57 FISCAL PERIOD

Consideration is being given to the following proposals which were submitted by the Control Committee, established under the marketing agreement, as amended, and Order No. 39, as amended (7 CFR Part 939), regulating the handling of Beurre d'Anjou, Beurre Bosc, Winter Nelis, Doyenne du Comice, Beurre Easter, and Beurre Clairgeau varieties of pears grown in Oregon, Washington, and California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), as the agency to administer the terms and provisions thereof:

(a) That the Secretary of Agriculture find that expenses not to exceed $28,657.50 are likely to be incurred by said committee during the fiscal period beginning July 1, 1956, and ending June 30, 1957, both dates inclusive, for its maintenance and functioning under the aforesaid amended marketing agreement and order; and

(b) That the Secretary of Agriculture fix, as the pro rata share of such expenses which each handler shall pay in accordance with the provisions of the aforesaid amended marketing agreement and order during the aforesaid period, the rate of assessment at six mills ($0.006) per standard western pear box of pears or its equivalent of pears in other containers or in bulk, shipped by such handler during said fiscal period.

All persons who desire to submit written data, views, or arguments for consideration in connection with the aforesaid proposals may do so by mailing the same to the Director, Fruit and Vegetable Division, Agricultural Marketing Service, Room 2077, South Building, Washington 25, D. C., not later than the 10th day after the publication of this notice in the FEDERAL REGISTER.

Terms used in the amended marketing agreement and order shall, when used herein, have the same meaning as is given to the respective term in said amended marketing agreement and order.

[Economic Regs. Draft Release No. 83]

REVISED UNIFORM SYSTEM OF ACCOUNTS AND REPORTS FOR CERTIFICATED AIR CARRIERS

ACCOUNTING AND REPORTING FOR DEFENSE AND OTHER NONSCHEDULED OPERATIONS

AUGUST 24, 1956.

Notice is hereby given that the Civil Aeronautics Board has under consideration amendment of the accounting and reporting requirements of Part 241 of the Economic Regulations (14 CFR Part 241). This proposed rule prescribes uniform accounting and reporting requirements for nonscheduled transport services of the certificated air carriers, including operations conducted for the defense establishment, and would be incorporated into the uniform system which becomes effective on January 1, 1957.

The principal features of the proposed amendment are explained in the Explanatory Statement set forth below, and the proposed revision to Part 241 is also set forth below.

This regulation is proposed under authority of sections 205 (a) and 407 of the Civil Aeronautics Act of 1938, as amended (52 Stat. 984, 1000; 49 U. S. C. 425, 487).

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate and addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All communications received on or before the thirtieth day following the date of publication of the proposed rule in the FEDERAL REGISTER will be considered by the Board before taking further action thereupon. Copies of such communications will be available for examination by interested persons in the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

By the Civil Aeronautics Board.

[SEAL] JOHN B. RUSSELL,
Acting Secretary.

Explanatory statement. In Draft Release No. 68, dated July 6, 1954, which proposed a Revised Uniform System of Accounts and Reports for Certificated Air Carriers, the Board gave notice that changes in the accounting and reporting requirements with respect to defense contract activities would be deferred for later modification in order to conform them to the revised accounting and reporting system adopted by the Board. The revised uniform system was adopted on April 30, 1956, to be effective January 1, 1957.

In reviewing the needs of the Board with respect to the accounting and reporting requirements for defense activities it was apparent that a review of the requirements for all nonscheduled transport and non-common carrier activities was also desirable. After consideration of these over-all requirements, it appears that certain modifications of the accounting and reporting system are required to achieve consistency in the principles to be applied to both defense and other special nonscheduled transport activities.

The major provisions of the proposed rule, which encompasses the accounting and reporting requirements for all nonscheduled transport services, are as follows:

1. The name of profit and loss account 07 Charter has been changed to 07 Charter and Special. It is intended that this account include gross revenues from all nonscheduled transport services, whether derived at published tariff or contractual rates, where the responsibility for providing transportation rests in the air carrier and the remuneration paid by the party receiving transportation for the exclusive use of the aircraft accrues directly to the air carrier.

Expenses associated with the operation of such nonscheduled transport services would be included, in gross, in the appropriate transport operations expense accounts.

2. Revenues and related expenses, associated with flight facilities furnished or operated by the air carrier, where the responsibility for providing transportation rests in others and the remuneration paid by the party receiving transportation accrues directly to others would continue to be included in classification 4600 Incidental Revenues—Net.

3. Nonscheduled transport services may become of such magnitude as to distort the results of regularly scheduled certificated services. The proposed rule sets forth a standard to define this magnitude. Where such distortion occurs, the Board is handicapped in its regulatory functions to the extent that the nonscheduled services are not separately identified in CAB Form 41 reports. Consequently, such services would be reported on appropriate schedules of CAB Form 41 in the same manner as if conducted by a separate transport entity.

4. A new schedule (D–1), which is essentially the same as the Form 41–D Waiver Report now required, is proposed for reporting in summary form the volume of activities performed for the defense establishment. It is not proposed to require special accounting treatment for nontransport activities conducted for the defense establishment. Accounting for such activities would follow the same accounting procedures as prescribed for other similar nontransport activities. However, both transport and nontransport defense activities would be reported on Schedule D–1.

5. Aircraft days assigned to aircraft rented, leased or loaned to others (exclusive of interchange aircraft), would be reported by aircraft type as a footnote to Schedule T–3 Quarterly Statement of Aircraft Operating Statistics.

6. Under the proposed procedure information related to defense operations may be accorded a restricted classification when, and as, required by the national interest without disturbing standard operating and accounting practices or comparability with results during periods in which defense operations are not classified.

It is proposed to revise Part 241 of the Economic Regulations (14 CFR Part 241) which will become effective January 1, 1957, in the following respects:

1. By amending account 07 of § 241.12 to read as follows:

07 *Charter and Special.* (a) Record here the revenue from nonscheduled transport services provided by the accounting air carrier where the party receiving the transportation obtains exclusive use of an aircraft at either published tariff or other contractual rates and the remuneration paid by the party receiving transportation accrues directly to, and the responsibility for providing transportation is that of, the air carrier.

(b) This account shall not include revenues or fees received from other air carriers or others for flight facilities furnished or operated by the accounting air carrier where the remuneration paid by the party receiving transportation accrues directly to, and the responsibility for providing transportation is that of, other air carriers or others. Such revenues and related expenses shall be included in profit and loss accounts 11 Rents, 13 Interchange Sales-Associated Companies, 15 Interchange Sales-Outside, or 18 Other Incidental Revenues, as appropriate.

2. By amending account 18 of § 241.12 to read as follows:

18. *Other Incidental Revenues.* (a) Record here revenues from and expenses related to incidental services not provided for in profit and loss accounts 10 through 17, inclusive, such as revenues and expenses incident to flight facilities operated by the accounting air carrier, except those operated under aircraft interchange agreements, where the remuneration paid by the party receiving transportation accrues directly to, and the responsibility for providing transportation is that of, other air carriers or others; and revenues and expenses incident to vending machines, parcel rooms, storage facilities, etc.

(b) Revenues from the rental of property and equipment to others shall not be included in this account but in profit and loss account 11 Rents.

(c) This account shall be subdivided as follows by all air carrier groups:

18.1 Gross Revenues.
18.2 Depreciation Expense.
18.3 Other Expenses.

3. By amending account 19 of § 241.12 to read as follows:

19 *Other Operating Revenues.* (a) Record here revenues associated with air transportation conducted by the air carrier, not provided for in profit and loss accounts 01 through 09, inclusive, such as revenue from service charges for failure to cancel or for late cancellation of air transportation reservations, revenue from the transportation of corpses, and revenue from nontransportation service charges collected on both revenue and nonrevenue flights.

(b) Revenues derived from aerial photography, advertising, or other special flights shall not be included in this account but in account 07 Charter and Special.

(c) This account shall be subdivided as follows by all air carrier groups:

19.1 Reservations Cancellation Fees.
19.9 Miscellaneous Operating Revenues.

4. By amending § 241.21 (i) to read as follows:

(i) The entities for which separate reports are hereinafter prescribed shall be those for which separate reports are being made as of December 31, 1956; provided:

(1) Where the total available ton-miles flown in, or gross revenues from, all nonscheduled transport services of a reporting entity, in any two consecutive calendar quarters exceed, respectively, 10 percent of such volumes of the scheduled transport services of such reporting entity, the air carrier shall make reports of such nonscheduled transport services as if they were conducted by a physically separated transport entity. Such reports shall be made on the appropriate schedules of Form 41 designated for the reporting by separate transport entities of balance sheet, profit and loss, and traffic and capacity elements.

(2) Where a carrier has more than one reporting entity, nonscheduled transport services shall be assigned to the entity to which most closely related and the determination as to whether separate reports for the nonscheduled transport services are required shall be made on the basis of such assignment. However, where separate reports of nonscheduled transport services are not required in accordance with the foregoing, such services shall be included in the reports of the reporting entity to which they are most closely related.

5. By amending the second sentence of paragraph (h), instructions for Schedule T–3 Quarterly Statement of Aircraft Operating Statistics, § 241.25, to read as follows: "It shall not include aircraft which are otherwise rented, leased, or loaned to others, for which aircraft days shall be reported by equipment type as a footnote to this schedule, or aircraft of others used by the air carrier under interchange agreements."

6. By inserting § 241.27 to read as follows:

§ 241.27 *National defense elements.*

SCHEDULE D–1—SERVICES PERFORMED FOR THE DEFENSE ESTABLISHMENT [1]

(a) This schedule shall be filed by all air carrier groups.

(b) Separate sets of this schedule shall be filed for each separate operating entity of the air carrier.

(c) Item 1 or item 2 shall be checked, as appropriate to indicate the status of the operating entity with respect to services performed for the defense establishment.

(d) The volume of services performed for the defense establishment shall be indicated, where item 2 has been checked, by inserting the required information. These data shall not include transportation performed in the air carrier's regularly scheduled transport services. Item 2A, Gross revenues, fees, and reimbursements, shall include all gross revenues and fees, together with reimbursements of expenses which are properly chargeable against income under the principles reflected in this system of accounts, for services performed for the defense establishment. Hours and miles flown in transport services shall be reported by aircraft type in columns (1) and (2) of item 2C.

Office of the Secretary

NORTH DAKOTA

DESIGNATION OF AREA FOR PRODUCTION EMERGENCY LOANS

For the purpose of making production emergency loans pursuant to section 2 (a) of Public Law 38, 81st Congress (12 U. S. C. 1148a–2 (a)), as amended, it has been determined that in Cavalier County, North Dakota, a production disaster has caused a need for agricultural credit not readily available from commercial banks, cooperative lending agencies, or other responsible sources.

Pursuant to the authority set forth above, production emergency loans will not be made in the above-named county after June 30, 1957, except to applicants who previously received such assistance and who can qualify under established policies and procedures.

Done at Washington, D. C., this 24th day of August 1956.

ATOMIC ENERGY COMMISSION

[Docket No. F–6]

BATTELLE MEMORIAL INSTITUTE

NOTICE OF ISSUANCE OF FACILITY LICENSE

Please take notice that the Atomic Energy Commission has issued the facility license set forth below to Battelle Memorial Institute, Columbus, Ohio. In accordance with the procedures set forth in the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing upon timely receipt of a request therefor from the applicant or an intervenor.

License; No. R–4. 1. Subject to the conditions and requirements incorporated herein, the Atomic Energy Commission hereby licenses Battelle Memorial Institute, Columbus, Ohio (hereinafter referred to as "the Institute"):

(a) Pursuant to section 104c of the Atomic Energy Act of 1954 (hereinafter referred to as "the act"), and 10 CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities," to possess and operate as a utilization facility the nuclear reactor (hereinafter referred to as "the facility") designated below;

(b) Pursuant to the act and 10 CFR, Chapter I, Part 70, "Special Nuclear Materials Regulations," to receive, possess and use:

(1) 5.2 kilograms of contained uranium 235 in fuel element assemblies as fuel for operation of the facility;

(2) 1.63 grams of contained uranium 235 in neutron measuring instruments incorporated in the facility.

(c) Pursuant to the act and 10 CFR, Chapter I, Part 30, "Licensing of By-Product Material," to possess, but not to separate from the fuel, such special nuclear and by-product material as may be produced from operation of the reactor.

2. This license applies to the nuclear reactor which is owned by the Institute and located at West Jefferson, Ohio, and described in the Institute's application dated May 4, 1955.

3. This license shall be deemed to contain and be subject to the conditions specified in § 50.54 of Part 50 and § 70.32 of Part 70; is subject to all applicable provisions of the Atomic Energy Act of 1954 and rules, regulations and orders of the Atomic Energy Commission now or hereafter in effect, including the proposed "Standards for Protection Against Radiation" regulation (10 CFR, Part 20) published in the FEDERAL REGISTER July 15, 1955; and is subject to any additional conditions specified or incorporated below.

4. The conditions and requirements contained in Appendix "A", attached hereto, are a part of this license.

5. This license is effective as of the date of issuance and shall expire at midnight, August 5, 1965, unless sooner terminated.

Date of issuance: August 10, 1956.

Dated at Washington, D. C., this 23d day of August 1956.

For the Atomic Energy Commission.

FRANK K. PITTMAN,
Acting Director,
Division of Civilian Application.

APPENDIX "A"

I. *Operating restrictions.* a. The Institute shall operate the reactor in accordance with the procedures described in its application dated May 4, 1955, and supplements transmitted by the Institute on April 4, 1956 and June 5, 1956.

b. The Institute shall not by-pass any control mechanism during the operation of the facility.

c. The Institute shall not operate the reactor at power levels in excess of 1,000 kilowatts without previous authorization from the Commission.

d. The reactor shall be operated in such a manner that all positive reactivity additions by the shim-safety rods are made by manual manipulation only.

[1] Filed as part of the original document.

e. The fuel loading in the reactor shall be such that the excess reactivity will not exceed that required for operation without experiments at 1,000 kilowatts in the particular operating position being utilized.

II. *Records.* In addition to those otherwise required under this license, the Institute shall keep the following records:

a. Reactor operating records, including power levels.

b. Record of in-pile irradiations.

c. Records showing radioactivity released or discharged into the air or water beyond the effective control of the Institute as measured at the point of such release or discharge.

d. Records of emergency reactor scrams, including reasons for emergency shutdowns.

III. *Reports.* The Institute shall make a prompt report to the Commission of any unusual operating incident of the reactor.

[Docket No. F-15]

AEROJET-GENERAL NUCLEONICS

NOTICE OF ISSUANCE OF CONSTRUCTION PERMIT

Please take notice that the Atomic Energy Commission has issued the construction permit set forth below to Aerojet-General Nucleonics, Walnut Creek, California. In accordance with the procedures set forth in the Commission's rules of practice (10 CFR Part 2), the Commission will direct the holding of a formal hearing upon timely receipt of a request therefor from the applicant or an intervenor.

Construction permit; No. CPRR-6. Aerojet-General Nucleonics, Walnut Creek, California (hereinafter "AGN"), on May 28, 1956, filed its application for a Class 104 license defined in § 50.21 of Part 50, 10 CFR, Chapter I, to construct and operate a nuclear reactor (hereafter "the reactor"). Amendments to the application were filed on June 12, 1956, and July 5, 1956. The original application together with said amendments is hereinafter referred to as "the application."

Based on the information submitted by AGN in its application, the Atomic Energy Commission (hereinafter "the Commission") has found that:

(A) The reactor will be a utilization facility as defined in the Commission's regulations contained in 10 CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities."

(B) AGN proposes to utilize the reactor in the conduct of research and development activities of the types specified in section 31 of the Atomic Energy Act of 1954.

(C) AGN is financially qualified to construct and operate the reactor in accordance with the regulations contained in 10 CFR, Chapter I; to assume financial responsibility for the payment of Commission charges for special nuclear material and to undertake and carry out the proposed use of such material for a reasonable period of time.

(D) AGN is technically qualified to design and construct the reactor.

(E) AGN has submitted sufficient information to provide reasonable assurance that the reactor can be constructed and operated at the proposed location without undue risk to the health and safety of the public and that additional information required to complete its application will be supplied.

Pursuant to the Atomic Energy Act of 1954 and 10 CFR, Chapter I, Part 50, "Licensing of Production and Utilization Facilities," the Commission hereby issues a construction permit to AGN to construct the reactor as a utilization facility. This permit shall be deemed to contain and be subject to the conditions specified in §§ 50.54 and 50.55 of said regulations; is subject to all applicable provisions of the Atomic Energy Act of 1954 and rules, regulations, and orders of the Atomic Energy Commission now or hereafter in effect; and is subject to any additional conditions specified or incorporated below.

(A) The earliest date for the completion of the reactor is October 1, 1956. The latest date for completion of the reactor is January 1, 1957. The term "completion date" as used herein means the date on which construction of the reactor is completed except for the introduction of the fuel material.

(B) The site proposed for the location of the reactor is the location in San Ramon, Contra Costa County, California, specified in the "Reactor Hazards Evaluation Report and Site Survey for the AGN-201 Nuclear Reactor" submitted by AGN.

(C) The reactor authorized for construction is a self-contained nuclear reactor designed to operate at a power level of 100 milliwatts, using uranium enriched in the isotope uranium 235 as fuel, and designated as AGN-201. The reactor shall be constructed in accordance with design described in the "AGN Model 201 Nuclear Reactor—Preliminary Design Study, May 1956".

The conversion of this permit to a license is subject to submittal by AGN to the Commission (by amendment of the application) of a complete, final Hazards Summary Report. The final Hazards Summary Report must show that the final design provides reasonable assurance that the health and safety of the public will not be endangered by operation of the reactor in accordance with the specified procedures.

Upon completion (as defined in Paragraph "A" above) of the construction of the facility in accordance with the terms and conditions of this permit, upon the filing of any additional information needed to bring the original application up to date, and upon finding that the facility authorized has been constructed in conformity with the application as amended and in conformity with the provisions of the act and of the rules and regulations of the Commission, and in the absence of any good cause being shown to the Commission why the granting of a license would not be in accordance with the provisions of the act, the Commission will issue a Class 104 license to AGN pursuant to section 104c of the Atomic Energy Act of 1954, which license shall expire twenty (20) years after the date of this construction permit.

Date of issuance: August 16, 1956.

Dated at Washington, D. C., this 23d day of August 1956.

For the Atomic Energy Commission.

Acting Director,
Division of Civilian Application.

FEDERAL RESERVE SYSTEM

CONTINENTAL BANK AND TRUST CO.

NOTICE OF INSTITUTION OF PROCEEDING AND OF HEARING THEREIN

In the matter of The Continental Bank and Trust Company, Salt Lake City 10, Utah.

1. At a meeting of the Board of Governors of the Federal Reserve System held at its offices in the city of Washington, D. C. on the 29th day of June 1956, the reports of examination made by the Federal Reserve Bank of San Francisco of the condition of The Continental Bank and Trust Company of Salt Lake City, Utah, a member bank of the Federal Reserve System, were presented and considered. The Board, having considered the aforesaid reports, which, if correct and true, would appear to indicate that the net capital and surplus funds of The Continental Bank and Trust Company may be inadequate in relation to the character and condition of its assets and to its present and prospective deposit liabilities and other corporate responsibilities, deemed it necessary and appropriate to initiate this proceeding with formal hearing under Section 9 of the Federal Reserve Act (12 U. S. C. sec. 327), and so ordered, for the purpose of determining:

(a) The adequacy or inadequacy of the net capital stock and surplus of The Continental Bank and Trust Company in relation to the character and condition of its assets and to its present and prospective deposit liabilities and its other corporate responsibilitles; and

(b) What net additional amount, if any, of capital funds is needed by The Continental Bank and Trust Company to have an adequate capital structure; and

(c) What is a reasonable period of time to allow The Continental Bank and Trust Company to effect any increase of its capital funds as may be found to be needed to make them adequate before being required by the Board of Governors to surrender its capital stock in the Federal Reserve Bank of San Francisco and to forfeit all its rights and privileges of membership in the Federal Reserve System for failure to do so.

2. Pursuant to this action at the meeting of June 29, 1956, the Board of Governors further ordered:

(a) That a formal, on the record, adjudicatory hearing for the purpose of taking evidence on the questions set forth in paragraph 1 of this notice be held commencing at 10:00 a. m., on September 10, 1956, in room 230, United States Post Office Building, 350 South Main Street, Salt Lake City, Utah.

(b) That the hearing be held before a trial examiner to be appointed or selected by the Civil Service Commission in accord with the provisions of section 11 of the Administrative Procedure Act of 1946, as amended (5 U. S. C. sec. 1010), and that the hearing, and the proceedings following the hearing, be conducted in accord with the applicable requirements of that act and the Rules of Practice for Formal Hearings (12 CFR Part 263), of the Rules of Procedure of the Board of Governors of the Federal Reserve System (12 CFR Part 262).

(c) That in accord with Rule III (b) of the aforesaid Rules of Practice (12 CFR 263.3 (b)), the hearing before the trial examiner will be private, attended only by the representatives, counsel and witnesses of The Continental Bank and Trust Company, and of the Board of Governors of the Federal Reserve System, unless The Continental Bank and Trust Company makes a written request to the Board of Governors that other persons be permitted to attend or that the hearing be made public, in which event such request will be granted.

(d) That authority is granted under section 8 (a) of the Rules of Organization of the Board of Governors of the Federal Reserve System (12 CFR 261.3 (a)) to disclose and introduce as evidence in this proceeding all reports of examinations of The Continental Bank and Trust Company made by examiners of the Federal Reserve Bank of San Francisco: provided, neither the names nor the identities of persons indebted to The Continental Bank and Trust Company shall be in any way disclosed or introduced in evidence.

(e) That formal notice of the institution of this proceeding and of the hearing therein be forthwith served upon The Continental Bank and Trust Company by postage prepaid, registered mail, with return receipt.

By order of the Board of Governors.

JUNE 29, 1956.

Statement. The Continental Bank and Trust Company, Respondent herein, has filed with the Board its written request that the formal hearing scheduled to commence in the above-entitled matter on September 10, 1956, be made public.

The Board's Rules of Practice for Formal Hearings (Rule III (b)) (12 CFR 263.3 (b)) provides that all formal hearings before the Board shall be private with the exception noted below. Accordingly, in its "Notice of Institution of Proceedings and of Hearing Therein" to The Continental Bank and Trust Company the Board ordered that the hearing before the trial examiner be private unless the Respondent requested that the hearing be made public, in which event such request would be granted. The aforesaid Notice also authorized all reports of examinations of Respondent made by examiners of the Federal Reserve Bank of San Francisco to be disclosed and introduced as evidence, provided neither the names nor the identities of persons indebted to Respondent shall be in any way disclosed or introduced in evidence.

The exception to Rule III (b) (12 CFR 263.3 (b)) referred to above is that, on the written request of Respondent or counsel to the Board, the Board when not prohibited by law may order the hearing to be public. Since the Respondent has so requested, the Board has issued the following order:

Order. In view of Respondent's request and subject to the above-mentioned limitation that the names or identities of persons indebted to Respondent shall not in any way be disclosed or introduced in evidence, Respondent's request that the hearing be public is granted, and the Board's Secretary is instructed to make the docket in this proceeding available to the public.

By order of the Board of Governors.

JULY 19, 1956.

Order. In view of the unavailability on September 10, 1956, of the trial examiner selected in the manner stated in section 2 of the "Notice of Institution of Proceeding and of Hearing Therein" in this matter, it is hereby ordered that the time designated in said notice for commencing the hearing be, and is hereby, changed to 10:00 a. m. on October 3, 1956.

By order of the Board of Governors.

SECURITIES AND EXCHANGE COMMISSION

[File No. 240-1316]

UTAH MOAB URANIUM CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 23, 1956.

I. Utah Moab Uranium Corp., a Utah corporation, 47 North University Avenue, Provo, Utah, filed with the Commission on June 28, 1954, a notification on Form 1-A and an offering circular, and subsequently filed amendments thereto, relating to an offering of 1,200,000 shares of 1 cent par value common stock, at $2\frac{1}{2}$ cents per share for an aggregate of $300,000 for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder.

II. The Commission has been advised that A. J. Shapiro, principal underwriter named in the filing, is the subject of an order entered in the United States District Court for the Western District of Washington, permanently enjoining him from further violations of the registration requirements of the Securities Act of 1933.

III. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been complied with in that:

1. The aggregate amount of securities to be offered by the issuer exceeded the limitation of $300,000 prescribed by Rule 217 (a) of Regulation A.

2. Sales of the company's securities have been effected without there having been previously or concurrently furnished to the purchaser an offering circular required by Rule 219 (a).

3. The notification and offering circular are false and misleading in failing to show contingent liabilities resulting from sales of securities made by the underwriter in violation of the Securities Act.

4. The issuer has failed to file reports of sales on Form 2-A as required by Rule 224 of Regulation A.

IV. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any person having interest in the matter may file with the Secretary of the Commission a written request for a hearing; that, within twenty days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place of said hearing will be promptly given by the Commission.

ALBUQUERQUE ELECTRONICS CORP.

ORDER TEMPORARILY SUSPENDING EXEMPTION, STATEMENT OF REASONS THEREFOR, AND NOTICE OF OPPORTUNITY FOR HEARING

AUGUST 23, 1956.

I. Albuquerque Electronics Corporation, a New Mexico corporation, 2318 Valencia Drive NE., Albuquerque, New Mexico, having filed with the Commission on September 10, 1954, a notification on Form 1-A and statements required by Rule 219 (b), and subsequently having filed amendments thereto, relating to an offering of 5,000 shares of its $10 par value common stock at $10 per share, amounting to aggregate proceeds to the issuer of $50,000, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, as amended, pursuant to the provisions of section 3 (b) thereof and Regulation A promulgated thereunder; and

II. The Commission having reasonable cause to believe that the terms and conditions of Regulation A have not been compiled with in that the company has failed to file reports of sales on Form 2-A as is required by Rule 224 of Regulation A, and has ignored requests by the Commission's staff for such reports.

III. *It is ordered*, Pursuant to Rule 223 (a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption under Regulation A be, and it hereby is, temporarily suspended.

Notice is hereby given that any persons having an interest in the matter may file with the Secretary of the Commission a written request for hearing; that, within 20 days after receipt of such request, the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission for the purpose of determining whether this Order of Suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; and that notice of the time and place for said hearing will be promptly given by the Commission.

TRUAX-TRAER COAL CO.

NOTICE OF APPLICATION TO WITHDRAW FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

AUGUST 23, 1956.

In the matter of Truax-Traer Coal Company, common stock; File No. 1-526.

The above named issuer, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to withdraw the specified security from listing and registration on the Los Angeles Stock Exchange.

The reasons alleged in the application for withdrawing this security from listing and registration include the following:

The stock is comparatively inactive on the Los Angeles Stock Exchange. It will remain listed on the New York Stock Exchange and on the Midwest Stock Exchange.

Upon receipt of a request, on or before September 11, 1956, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

Protests, consisting of an original and two copies, to the granting of an application must be filed with the Commission within 30 days from the date of publication of this notice in the FEDERAL REGISTER and a copy of such protest served on the applicant. Each protest must clearly state the name and street number, city and state address of each protestant on behalf of whom the protest is filed (49 CFR 1.240 and 1.241). Failure to seasonably file a protest will be construed as a waiver of opposition and participation in the proceeding unless an oral hearing is held. In addition to other requirements of Rule 40 of the general rules of practice of the Commission (49 CFR 1.40), protests shall include a request for a public hearing, if one is desired, and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests containing general allegations may be rejected. Requests for an oral hearing must be supported by an explanation as to why the evidence cannot be submitted in the form of affidavits. Any interested person not a protestant, desiring to receive notice of the time and place of any hearing, pre-hearing conference, taking of depositions, or other proceedings shall notify the Commission by letter or telegram within 30 days from the date of publication of this notice in the FEDERAL REGISTER. Except when circumstances require immediate action, an application for approval, under section 210a (b) of the act, of the temporary operation of Motor Carrier properties sought to be acquired in an application under section 5 (2) will not be disposed of sooner than 10 days from the date of publication of this notice in the FEDERAL REGISTER. If a protest is received prior to action being taken, it will be considered.

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.12, as amended February 28, 1955, 20 F. R. 645).

The following learner certificates were issued to the companies listed below manufacturing miscellaneous products. The effective and expiration dates, learner rates, occupations, learning periods, and the number or proportion of learners authorized to be employed are as indicated:

Art Cut Glass Shop, 231 North Roosevelt Avenue, Salem, Ohio; effective 8–20–56 to 2–19–57; not less than 85 cents per hour for the first 240 hours and 90 cents per hour for the remaning 240 hours of the 480-hour learning period, for the occupation of glass cutter; authorizing the employment of 2 learners for normal labor turnover purposes (engraved glassware).

C & C Clothing Co., Inc., 1234 Carpenter Street, Philadephia, Pa.; effective 8–20–56 to 2–19–57; not less than 85 cents per hour for a maximum of 160 hours, for the occupations of sewing machine operators, hand sewers and finishing operations involving hand sewing; authorizing the employment of 5 percent of factory production workers for normal labor turnover purposes (men's wool serge coats, U .S. Army).

Lambert Manufacturing Co., Plant No. 4, Headwear Division, Gallatin, Mo.; effective 8–20–56 to 2–19–57; not less than 85 cents per hour for a maximum of 240 hours, for the occupation of sewing machine operators; authorizing the employment of 5 learners for normal labor turnover purposes (work, sport and dress caps).

Milford Stitching Co., Inc., South Marshall Street, Milford, Del.; effective 8–17–56 to 2–16–57; not less than 85 cents per hour for a maximum of 320 hours, for the occupation of sewing machine operators; authorizing the employment of 10 learners for normal labor turnover purposes (mattress and pillow covers, bedspreads and drapes).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 21st day of August 1956.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

PART 941—MILK IN CHICAGO, ILL., MARKETING AREA

ORDER AMENDING THE ORDER, AS AMENDED, REGULATING THE HANDLING OF MILK IN THE CHICAGO, ILLINOIS, MARKETING AREA

Findings and determinations. The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and each of the previously issued amendments thereto; and all previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), a public hearing was held at Chicago, Illinois, on June 4, 6 and 7, 1956, upon proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is hereby found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions of said order, as amended, and as hereby further amended, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk produced for sale in said marketing area as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply and demand for such milk, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is hereby found and determined that good cause exists for making effective not later than September 1, 1956, this order amending the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area. Action by that date is necessary to reflect current marketing conditions. At the hearing, proposals were made for revision of the requirements for pool plant status, and it was requested that such revisions be effective this year beginning with the month of September. The order changes which will be effectuated by this amendment are needed to assure an adequate supply of milk for the market for September 1956 and other fall months.

Producer groups also requested that the special 70-cent differential on Class I and Class II milk moved in bulk to places outside the surplus milk manufacturing area be eliminated beginning with September 1956. This change will be effected by this amendment. This is an additional reason why it is necessary that the change in pool plant requirements be made effective September 1, 1956, so as to assure an adequate supply of milk for the market.

The provisions of the said amendatory order are well known to handlers. The public hearing was held on June 4, 6 and 7, 1956. A recommended decision in this matter was issued on July 20, 1956. A final decision in this matter was issued on August 13, 1956. Reasonable time, under the circumstances, has been afforded persons affected to prepare for its effective date. Therefore, it would be impracticable, unnecessary, and contrary to the public interest to delay the

effective date of this amendatory order 30 days after its publication in the FEDERAL REGISTER (see section 4 (c) Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determination.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping the milk covered by this order amending the order, as amended, which is marketed within the Chicago, Illinois, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of this order amending the order, as amended, is the only practical means pursuant to the declared policy of the act of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who participated in a referendum on the question of approval of its issuance and who, during the determined representative period (April 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Chicago, Illinois, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, and the aforesaid order, as amended, is hereby further amended as follows:

1. Amend § 941.8 by eliminating the word "or" at the end of paragraph (c), substituting a comma (,) for the period (.) at the end of paragraph (d), adding the word "or" following the comma and adding a new paragraph (e) as follows:

(e) Operates a nonpool plant qualified to supply Class I milk to the marketing area from which milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form, is shipped to a regulated plant.

2. Amend § 941.45 by deleting paragraphs (e), (f), (g), (h), (i), and (j) and substituting therefor the following:

(e) Subtract, in the case of other source milk received in the form of a product named in Class III milk, Class III (a) milk, or Class IV milk, the pounds of such other source milk used in Class I milk and Class II milk, respectively, from the remaining pounds in the class of use unless such other source milk is in violation of the applicable health requirements;

(f) Subtract from the remaining pounds of milk in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk which is not approved by the applicable health authority for distribution in the marketing area as any Class I milk product or as any Class II milk product required to be made from inspected milk;

(g) Subtract from the remaining pounds of milk in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk received at a pool plant which is not engaged in processing and packaging any Class I milk product specified in § 941.41(a)(1) or any Class II milk product required to be made from inspected milk by any health authority having jurisdiction in the marketing area, all or a part of which Class I or Class II milk product is disposed of in the marketing area;

(h) Subtract from the remaining pounds of milk in each class (except the pounds in inventory variation and shrinkage) in series beginning with the lowest-priced class, the pounds of other source milk not deducted pursuant to paragraphs (e), (f) and (g) of this section;

(i) Subtract from the remaining pounds in each class in series beginning with the lowest-priced class, the pounds of overrun;

(j) If deductions have been made pursuant to paragraph (e), (f), (g) or (h) of this section, and the remaining amount of Class I milk plus the 18 percent cream equivalent of butterfat remaining in the pounds in Class II, III, III (a) and IV milk are greater than the amount of milk received from producers, the difference shall be considered as other source milk and subtracted from the remaining amount of Class I milk; and

3. Amend § 941.52 by deleting the following:

a. The phrase "except as set forth in subparagraph (3) of this paragraph," from paragraphs (a) (1), (2), (b) (1) and (2),

b. Paragraphs (a) (3) and (b) (3), and

c. Paragraph (e).

4. Delete § 941.61 and substitute therefor the following:

§ 941.61 *Obligation for other source milk.* The market administrator, in computing the net pool obligation for each handler pursuant to § 941.70, shall:

(a) Add an amount determined by multiplying the pounds of other source milk allocated to Class I milk and Class II milk pursuant to § 941.45 (f) by the difference between the appropriate class price and the lowest announced class price per hundredweight applicable for the delivery period;

(b) For the delivery periods March through June, inclusive, add an amount computed as follows:

(1) Multiply the pounds of other source milk which is allocated to Class I milk or Class II milk pursuant to paragraphs (g), (h) and (j) of § 941.45, by the difference between the appropriate class price and the lowest announced class price per hundredweight applicable for the delivery period, and

(2) Subtract therefrom the value obtained by multiplying such Class I milk and the 36 percent cream equivalent of the butterfat in such Class II milk by the rates of location adjustment credit set forth in paragraphs (a) and (b), respectively, of § 941.53.

(c) For the delivery periods July through February, inclusive, add or subtract, as the case may be, an amount computed as follows:

(1) Multiply the pounds of other source milk allocated to Class I and Class II milk pursuant to paragraphs (g), (h) and (j) of § 941.45, and to Class III, Class III (a) and Class IV milk pursuant to paragraph (h) of that section by the appropriate class prices, and add together the resulting amounts.

(2) Subtract therefrom the values obtained by multiplying (i) the pounds of other source milk allocated to Class I milk pursuant to paragraphs (g) and (j) of § 941.45, and the pounds of other source milk received as milk or skim milk in fluid form at a plant which processes and packages any Class I milk specified in § 941.41 (a) (1) or any Class II milk product required to be made from inspected milk by a health authority having jurisdiction in the marketing area by the rate(s) of location adjustment credit set forth in § 941.53 (a), and (ii) the pounds of 36 percent cream equivalent of the butterfat in other source milk allocated to Class II milk pursuant to paragraph (g) of § 941.45, and the other source milk received as cream in fluid form at a plant which processes and packages any Class I milk specified in § 941.41 (a), or any Class II milk product required to be made from inspected milk by a health authority having jurisdiction in the marketing area by the rate(s) of location adjustment credit set forth in § 941.53 (b).

(3) Multiply the total pounds of milk used in computing the value in subparagraph (1) of this paragraph by the uniform price applicable to milk received from producers during the delivery period, adjusted by the rate(s) of location adjustment specified in § 941.81, and

(4) Subtract the value obtained in subparagraph (3) of this paragraph from the value remaining in subparagraph (2) of this paragraph and any plus difference shall be added to, and any minus difference shall be subtracted from, the handler's net pool obligation.

5. Delete § 941.66 and substitute therefor the following:

§ 941.66 *Pool plant.* "Pool plant" means any plant or reload point which receives milk from dairy farmers and which:

(a) Processes and packages any Class I milk product specified in § 941.41 (a) (1) or any Class II milk product required to be made from inspected milk by a health authority having jurisdiction in the marketing area, all or a part of which Class I or Class II milk product is disposed of in the marketing area, or;

(b) Ships during the delivery period at least 50 percent of the pounds of butterfat in, or at least 50 percent of the volume of, milk received from dairy farmers at such plant, as milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form to (and is physically received in) a plant(s) which operates in the manner described in paragraph (a) of this section, irrespective of whether or not such plant(s) receives milk from dairy farmers: *Provided*, That:

(1) In computing the percentages of milk, skim milk and cream on a product pounds basis, any shipments of concentrated milk or condensed skim milk to such a plant shall be based upon the quantity of milk or skim milk used in its production rather than upon the quantity of concentrated milk or condensed skim milk shipped;

(2) If, during September, October or November, a plant other than one which performs the functions described in paragraph (a) of this section receives milk, skim milk, concentrated milk, condensed skim milk or cream in fluid form from another plant, any shipments by the receiving plant under the foregoing conditions set forth in this paragraph, which are in excess of the minimum quantity which qualified it as a pool plant shall be credited to the supplying plant toward its pool qualification, but such credit shall not exceed the quantity of butterfat or milk shipped from the supplying plant to the receiving plant. In the event the plant which has qualified as a pool plant under this paragraph receives but-

terfat or milk in any of the forms described in this subparagraph from more than one plant, any credit to be extended to the respective supplying plants (subject to the limitation above specified) shall be allocated to such plants in direct ratio to the quantity of butterfat or milk which each shipped to the receiving plant;

(3) If, during September, October or November, a handler notifies the market administrator in writing that a plant is unable to meet the requirements set forth herein because of a work stoppage due to a labor dispute between employer and employees, the market administrator, upon verification of the handler's claim, shall not include the receipts and utilization of milk at such plant for those days from the date of notification through the last day of the work stoppage in determining the percentage of milk or butterfat shipped pursuant to this paragraph; and

(4) Any plant which, during the three-month period of September, October and November, ships, or is credited (pursuant to subparagraph (2) of this paragraph) with shipments of, at least 50 percent of the pounds of butterfat in, or at least 50 percent of the volume of, milk received from dairy farmers at such plant, as milk, skim milk, concentrated milk, condensed skim milk, or cream in fluid form to (and is physically received in) a plant(s) which operates in the manner described in paragraph (a) of this section, irrespective of whether or not such plant(s) receives milk from dairy farmers, shall be a pool plant beginning with December of the same year and continuing through August of the following year, unless the milk received by the plant does not continue to be qualified for use in Grade A Class I milk products in the marketing area, or the plant operator notifies the market administrator that the plant should be withdrawn from the pool; in the event such notification is given the plant will no longer be a pool plant starting with the beginning of the delivery period following receipt of the notification by the market administrator, except during any delivery period(s) in which the pool plant requirements under this paragraph are fulfilled: *Provided*, That no plant shall acquire pool plant status pursuant to this subparagraph if it fails to ship (or be credited with shipments of) in any one of the months of September, October and November, at least 30 percent of the pounds of butterfat in, or at least 30 percent of the volume of, milk received from dairy farmers at such plant, in the forms and in the manner specified in this subparagraph to a plant(s) which operates in the manner described in paragraph (a) of this section.

6. Delete § 941.67 and substitute therefor the following:

§ 941.67 *Handlers who operate nonpool plants.* No provision of this order shall apply to the milk received at a nonpool plant from which some milk, skim milk, concentrated milk, condensed skim milk or cream in fluid form, meeting the requirements of an applicable health authority in the marketing area, is shipped to a regulated plant, except that the handler operating such nonpool plant shall make reports to the market administrator at such time and in such manner as the market administrator may request.

7. Amend § 941.70 (b) by inserting after the word "Add" the following phrase: "or subtract, as the case may be,".

8. Amend § 941.86 by deleting the words following "other source milk" and substituting therefor the following: "used in the computations made pursuant to § 941.61".

(Sec. 5, 49 Stat. 753, as amended, 7 U. S. C. 608c)

Issued at Washington, D. C., this 27th day of August 1956, to be effective on and after the 1st day of September 1956.

[SEAL] EARL L. BUTZ,
Assistant Secretary.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 210]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

PROCEDURE ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

NOTE: Where the general classification (LFR, VAR, ADF, ILS, GCA, or VOR), location, and procedure number (if any) of any procedure in the amendments which follow, are identical with an existing procedure, that procedure is to be substituted for the existing one, as of the effective date given, to the extent that it differs from the existing procedure; where a procedure is cancelled, the existing procedure is revoked; new procedures are to be placed in appropriate alphabetical sequence within the section amended.

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LFR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, and courses are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If an LFR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

2. The very high frequency omnirange (VOR) procedures prescribed in § 609.9 are amended to read in part:

VOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a VOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for en route operation in the particular area or as set forth below.

3. The terminal very high frequency omnirange (TVOR) procedures prescribed in § 609.9 are amended to read in part:

TVOR STANDARD INSTRUMENT APPROACH PROCEDURE

Bearings, headings, courses, and radials are magnetic. NOTE: Distances are in nautical miles unless otherwise indicated, except visibilities which are in statute miles. Elevations and altitudes are in feet, MSL. Ceilings are in feet above airport elevation.

If a TVOR instrument approach is conducted at the below named airport, it shall be in accordance with the following instrument approach procedure, unless an approach is conducted in accordance with a different procedure for such airport authorized by the Administrator of Civil Aeronautics. Initial approaches shall be made over specified routes. Minimum altitude(s) shall correspond with those established for an en route operation in the particular area or as set forth below.

MISCELLANEOUS AMENDMENTS

On June 2, 1956, there was published in the FEDERAL REGISTER (21 F. R. 3801) a notice of proposed amendments of the Meat Inspection Regulations (9 CFR, Chapter I, Subchapter A, as amended). After due consideration of all relevant matters submitted in connection with the notice, and pursuant to the authority conferred by the Meat Inspection Act, as amended (21 U. S. C. 71–91) and Section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) the aforesaid regulations are hereby amended as follows:

1. Section 4.3 is amended by the addition of a new paragraph (d):

(d) A certificate of exemption will be issued only in one name at one location. A certificate will not be issued if any business is transacted at the location in the name of anyone other than the applicant for the certificate of exemption, for example, in the name of a parent company, subsidiary, or tenant of the applicant.

2. Section 16.13 (b) is amended to read as follows:

(b) Meat food products in casings, other than sausage, which possess the characteristics of or resemble sausage, shall bear on each link or piece the word "imitation" prominently displayed: *Provided,* That such products in casings as coppa, capocollo, lachschinken, bacon, pork loins, pork shoulder butts, and similar cuts of meat which are prepared without added substances other than curing materials or condiments, and meat rolls, bockwurst, and similar products in casings which do not contain cereal or vegetables, and headcheese, souse, sulze, scrapple, blood pudding, and liver pudding in casings need not be so marked; other products in casings such as loaves, chili con carne, and meat and cheese products when prepared with sufficient cheese to give definite characteristics to the finished products, may bear on each link or piece the true name of the product in lieu of the word "imitation"; and imitation sausage packed in properly labeled containers having a capacity of 1 pound or less and of a kind usually sold at retail intact, need not bear the word "imitation" on each link or piece if no other marking or labeling is applied to the product.

3. Section 16.13 (c) is amended by deleting the references to "dried skim milk" wherever they appear and substituting therefor references to "nonfat dry milk."

4. Section 16.13 (e), (f) and (g) is redesignated as § 16.13 (f), (g) and (h), the reference in redesignated paragraph (g) to paragraph (e) is changed to refer to paragraph (f), and a new paragraph (e) is added to read:

(e) When approved antioxidant type preservatives are added to unsmoked dry sausage in casings, the product shall be legibly and conspicuously marked in an approved manner to show the presence and the percentage amount of such ingredients.

5. Redesignated § 16.13 (f) is amended by changing the portion thereof preceding the proviso to read: "A cloth bag, artificial casing, or similar container of sausage or other product of a size larger than that customarily sold at retail intact shall be printed with the mark of inspection and any other marks required under paragraphs (b) through (e), near each end of the product, so as to be clearly visible to the consumer:"

6. Section 16.15 (a) is amended by changing the portion of the second sentence preceding the illustration of the domestic meat label to read: "The domestic meat label shall be 2¾ by 4 inches in size and shall be in form and substance as illustrated below, except that the name and address of the establishment, or the name only, may be printed on the label, at the bottom thereof:"

Section 16.15 (a) is further amended by adding after said illustration the following sentence: "The domestic meat label shall be printed with black ink on white paper of good quality, except that in the case of fiberboard shipping containers it may be printed directly on such containers in black ink on any color background, except green, which offers sufficient contrast so that it is prominently and informatively displayed."

7. In § 17.2 the following is inserted in paragraph (b) as a new proviso preceding what is now the first proviso: "*Provided,* That in lieu of showing the inspection legend and the establishment number in such form, in the case of large size fiberboard immediate containers a domestic meat label may be printed directly on such containers in size, form and substance as provided in § 16.15 (a) for use on fiberboard shipping containers."

Section 17.2 is further amended by the addition of a new paragraph (f):

(f) Meat and meat food products packaged in consumer size impervious film containers which are usually displayed in self-service refrigerated counters shall have a statement such as "Keep Refrigerated" prominently displayed on the principal display panel of the label.

8. Section 17.8 (c) (9) is amended to read as follows:

(9) Product (other than canned product) labeled with the term "loaf" as its name or part of its name shall be prepared in loaf form.

9. Section 17.8 (c) (16), (27), (32), (39), and (48) is amended by deleting the references to "dried skim milk" wherever they appear and substituting therefore references to "non-fat dry milk."

10. Section 17.8 (c) (55) is amended to read as follows:

(55) Product labeled "Chopped Ham," "Pressed Ham," "Chopped Ham With Natural Juices," and "Pressed Ham With Natural Juices," may contain finely chopped ham shank meat to the extent of 25 percent over that normally present in the boneless ham. The weight of the cured chopped ham prior to processing shall not exceed the weight of the fresh uncured ham, exclusive of the bones and fat removed in the boning operations, plus the weight of the curing ingredients and 3 percent moisture.

11. Section 17.8 (c) is amended by the addition of a new subparagraph (56):

(56) When approved proteolytic enzymes are used on steaks or other meat cuts which are frozen or cooked within the official establishment where they are produced, there shall appear on the labels of the frozen or cooked cuts, contiguous to the name of the products, a prominent descriptive statement such as "Dipped in a Solution of Papain," to indicate the use of such enzymes.

12. Section 18.6 (a) (5) is amended to read as follows:

(5) Casings for products shall be carefully inspected by Branch employees. Only those casings which have been carefully washed and thoroughly flushed with clean water immediately before stuffing, are suitable for containers, are clean, and are passed on such inspection shall be used, except that preflushed animal casings packed in salt or salt and glycerine solution or other approved medium may be used without additional flushing provided they are found to be clean and otherwise acceptable and are thoroughly rinsed before use.

13. Section 18.7 (b) is amended to read as follows:

(b) There may be added to product, with appropriate declaration as required under Parts 16 and 17 of this subchapter, common salt, approved sugars (sucrose (cane or beet sugar), maple sugar, dextrose, invert sugar, honey, corn syrup solids, corn syrup and glucose syrup), wood smoke, vinegar, flavorings, spices, sodium nitrate, sodium nitrite, potassium nitrate (saltpetre) and potassium nitrite.

14. Section 18.7 (g) is amended by deleting the reference to "dried skim milk" and substituting therefor a reference to "non-fat dry milk."

15. Section 18.7 is amended by the addition of new paragraphs (q), (r), (s), and (t).

(q) Corn syrup solids, corn syrup, or glucose syrup shall not be used individually or collectively in an amount exceeding 2 percent (calculated on a dry basis) of all of the ingredients used in preparing such meat food products as sausage, hamburger, meat loaf, luncheon meat, chopped ham, or pressed ham.

(r) Disodium phosphate, sodium hexametaphosphate, sodium tripolyphosphate, sodium pyrophosphate, and sodium acid pyrophosphate, may be added to the pumping pickle for cured hams and pork shoulder picnics and may be used in the preparation of canned chopped ham, provided such use shall not result in more than ½ of 1 percent of added phosphate in the finished product and provided that the maximum amount of such phosphate which may be so used is as follows:

(1) Pumping pickle shall not contain more than 5 percent of such phosphate. When dissolved in pumping pickle, a small quantity of a crystalline precipitate material may be formed. Such pickle shall be filtered or the precipitate allowed to settle so that only the clear solution is injected into product.

(2) With appropriate declaration as required under Parts 16 and 17 of this subchapter, such phosphate may be used in the preparation of canned chopped ham in an amount not to exceed 8 ounces for each 100 pounds of the fresh uncured comminuted ham.

(s) Ascorbic acid or sodium ascorbate may be used in the preparation of cured pork and beef products and comminuted meat food products as follows:

(1) Pickle used for pumping, curing, or packing pork and beef products shall not contain more than 7½ ounces of ascorbic acid or sodium ascorbate to each 100 gallons of pickle.

(2) With appropriate declaration as required under Parts 16 and 17 of this subchapter, ascorbic acid or sodium ascorbate may be used in the preparation of cooked, cured, comminuted meat food products in amounts not to exceed ¾ ounce of ascorbic acid or ⅞ ounce of sodium ascorbate for each 100 pounds fresh meat or meat food product. A solution containing not more than 5 percent ascorbic acid or sodium ascorbate in water or brine may be applied to the outer surface of sliced or unsliced cured pork and beef products and comminuted meat food products prior to packaging. The use of such solution shall not result in the addition of a significant amount of moisture to the product.

(t) With appropriate declaration as required under Parts 16 and 17 of this subchapter, not more than 3/1000 of 1 percent of butylated hydroxyanisole and 1/1000 of 1 percent of citric acid may be used in unsmoked dry sausage which is held during preparation in a drying room for purposes of trichinae treatment for the periods prescribed in this subchapter.

16. Section 18.10 (a) and (b) is amended to read as follows:

(a) All forms of fresh pork, including fresh unsmoked sausage containing pork muscle tissue, and pork such as bacon and jowls, other than those covered by paragraph (b) of this section, are classed as products that are customarily well cooked in the home or elsewhere before being served to the consumer. Therefore, the treatment of such products for the destruction of trichinae is not required.

(b) Products named in this paragraph, and products of the character thereof, containing pork muscle tissue (including hearts, pork stomachs and pork livers), or the pork muscle tissue which forms an ingredient of such products, shall be effectively heated, refrigerated, or cured at a federally inspected establishment to destroy any possible live trichinae: Bologna; frankfurts; viennas; smoked sausage; knoblauch sausage; mortadella; all forms of summer or dried sausage, including mettwurst; cooked loaves; roasted, baked, boiled, or cooked hams, pork shoulders, or pork shoulder picnics; Italian-style hams; Westphalia-style hams; smoked boneless pork shoulder butts; cured meat rolls; capocollo (capicola, capacola); coppa; fresh or cured boneless pork shoulder butts, hams, loins, shoulders, shoulder picnics, and similar pork cuts, in casings or other containers in which ready-to-eat delicatessen articles are customarily enclosed (excepting Scotch-style hams); frozen breaded pork products over ½ inch in thickness; cured boneless pork loins; boneless back bacon; smoked pork cuts such as hams, shoulders, loins and pork shoulder picnics (excepting smoked hams and smoked pork shoulder picnics which are specially prepared for distribution in tropical climates or smoked hams delivered to the Armed Services). Cured boneless pork loins shall be subjected to prescribed treatment for destruction of trichinae prior to being shipped from the establishment where cured.

17. In § 18.10 (c) (2), the fifth and sixth undesignated paragraphs are amended to read as follows:

During the period of refrigeration the product shall be kept separate from other products and in the custody of the Branch. Rooms or compartments equipped for being made secure with Branch lock or seal shall be provided. The rooms or compartments containing product undergoing freezing shall be equipped with accurate thermometers placed at or above the highest level at which the product undergoing treatment is stored and away from refrigerating coils. After completion of the prescribed freezing of pork to be used in the preparation of product covered by paragraph (b) of this section, the pork shall be kept under close supervision of an inspector until it is prepared in finished form as one of the products enumerated in paragraph (b) of this section, or until it is transferred under Branch control to another establishment for preparation in such finished form.

Pork which has been refrigerated as specified in this subparagraph may be transferred in sealed railroad cars, sealed motortrucks, sealed trailers, or sealed closed containers to another official establishment at the same or another station, for use in the preparation of product covered by paragraph (b) of this section. The sealing of closed containers, such as boxes and slack barrels, shall be effected by cording and affixing thereto Branch seals, and such containers as tierces and kegs shall be held in Branch custody by sealing with wax impressed with a Branch metal brand. Railroad cars, motortrucks, and trailers shall, when necessary, be sealed with Branch car seals. Properly sealed and marked closed containers may be shipped with other meat in unsealed railroad cars, motortrucks, and trailers. Containers such as boxes, barrels and tierces shall be plainly and conspicuously marked with a label or stencil furnished by the establishment, as follows: "Pork product -- degrees F. -- days' refrigeration," indicating the temperature at which the product was refrigerated and the length of time so treated. For each consignment there shall be promptly issued and forwarded to the inspector in charge at destination a report on the form entitled "Notice of Unmarked Meats Shipped In Sealed Cars," appropriately modified to show the character of the containers, and that the contents are "Pork product -- degrees F. -- days' refrigeration." A duplicate copy shall be retained in the station file.

18. Section 24.4 (b) is amended to read as follows:

(b) *France.* Pork livers which have not been refrigerated at a temperature of 15° below 0° C. for twenty (20) days are eligible for importation into France only when destined to pate de foie factories.

19. Section 24.5 (b) is amended to read as follows:

(b) Form MI 415–5 shall be issued in duplicate for animal casings destined to Australia, Austria, Canada, Poland and the Union of South Africa. Upon the request of the exporter, Form MI 415–5 may be issued to cover animal casings destined to any foreign country if the factual knowledge available justifies such certification.

20. Section 24.5, paragraph (i) is deleted and paragraphs (d), (e), (f), (g) and (h) are redesignated respectively as (e), (f), (g), (i) and (j) and new paragraphs (d) and (h) are added as follows:

(d) *Belgium.* Containers of animal casings destined to Belgium shall be marked with the blue export animal cas-

ing stamp (MI 415–7). Each exportation shall be covered by a "Sanitary Certificate in French" (MI 412–8) with the words "Animal Casings" substituted for the word "Products". The certificate shall bear the serial number of the export animal casings stamps used. Nodular casings shall be described on the certificate as "Nodular (not clear)".

* * * * *

(b) *Ireland.* Containers of animal casings consigned to Ireland shall be marked with the regular export stamp (MI 412–10). Each exportation shall be covered by a certificate in the form of MI 415–5.

21. Part 27 is amended by the addition of a new section reading as follows:

§ 27.21 *Specimens for laboratory examination and similar purposes.* The provisions in this part do not apply to specimens of product for laboratory examination, research or similar purposes when authorized importation by the Chief of the Branch under conditions specified by him, but the Chief of the Branch may not authorize the importation of fresh, chilled or frozen or other product ineligible for importation into the United States from countries in which the contagious and communicable diseases of rinderpest or foot-and-mouth disease exist.

The foregoing amendments bring into the regulations orders and instructions that have been given to the field operating forces of the Meat Inspection Branch and inspected establishments and in this respect will not impose requirements not now being adhered to by affected persons. The amendments also make formal changes coordinating the provisions of the regulations with recent legislation (Pub. Law 646, 84th Congress) prescribing new nomenclature for the product now referred to in the regulations as dried skim milk. So far as these amendments are concerned good cause is therefore found under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) for making them effective less than 30 days after publication in the FEDERAL REGISTER. The amendments further make possible the importation of specimens of product for laboratory examination, research and similar purposes, when properly authorized and to this extent they relieve restrictions and may also be made effective under section 4 of the Administrative Procedure Act less than 30 days after publication in the FEDERAL REGISTER.

(Ch. 2907, 34 Stat. 1264, sec. 306, 46 Stat. 689; 19 U. S. C. 1306, 21 U. S. C. 89)

The amendments shall become effective August 30, 1956.

Done at Washington, D. C., this 24th day of August 1956.

Acting Administrator,
Agricultural Research Service.

(Sec. 6, 38 Stat. 721; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Israel Rettinger et al. doing business as Rettinger Raincoat Mfg. Co., New York, N. Y., Docket 6534, August 17, 1956]

In the Matter of Israel Rettinger and David Rettinger, Individually and as Copartners, Doing Business as Rettinger Raincoat Mfg. Co.

This proceeding was heard by a hearing examiner on the complaint of the Commission—charging two individuals engaged in New York City in the manufacture of rainwear, including raincoats and rainsuits, with labeling and branding their products with the word "Goodyear", thereby furnishing jobbers and retailers with means for misleading the public as to the identity of the manufacturer—and an agreement between the parties containing a consent order to cease and desist.

On this basis, the hearing examiner made his initial decision[1] and order to cease and desist which, on August 17, became the decision of the Commission.

The order to cease and desist is as follows:

It is ordered, That respondents Israel Rettinger and David Rettinger, as individuals or as copartners trading and doing business as Rettinger Raincoat Mfg. Co., or under any other trade name, and respondents' agents, representatives and employees, directly or through any corporate or other device, in connection with the offering for sale, sale or distribution of rainwear, including rubber raincoats and rainsuits, and other similar kinds of merchandise, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Using the name "Goodyear" unless in immediate connection therewith the name of the person, firm or corporation manufacturing such merchandise and the fact that such person, firm or corporation is the manufacturer thereof, is clearly and conspicuously revealed.

By "Decision of the Commission", etc., report of compliance was required as follows:

It is ordered, That respondents Israel Rettinger and David Rettinger, individually and as copartners, doing business as Rettinger Raincoat Mfg. Co., shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist.

By the Commission, Commissioner Anderson not participating.

Issued: August 17, 1956.

Secretary.

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 8—NATIONAL SERVICE LIFE INSURANCE

RENEWAL OF NATIONAL SERVICE LIFE INSURANCE ON THE 5-YEAR LEVEL PREMIUM TERM PLAN

In § 8.85, the present text is amended and numbered paragraph (a) and a new paragraph (b) is added so that § 8.85 reads as follows:

§ 8.85 *Renewal of National Service Life Insurance on the 5-year level premium term plan.* (a) Pursuant to the provisions of an amendment approved July 23, 1953, amending section 602 (f) of the National Service Life Insurance Act of 1940, as amended (Pub. Law 148, 83d Congress, approved July 23, 1953), all or any part of National Service Life Insurance on the 5-year level premium term plan, in any multiple of $500 and not less than $1,000, which is not lapsed at the expiration of any 5-year level premium term period, shall be automatically renewed without application or medical examination for a successive 5-year period at the 5-year level premium term rate for the then attained age of the insured: *Provided,* That in any case in which the insured is shown by evidence satisfactory to the Administrator to be totally disabled at the expiration of the level premium term period of his insurance under conditions which would entitle him to continued insurance protection but for such expiration, such insurance, if subject to renewal under this paragraph, shall be automatically renewed for an additional period of 5 years at the premium rate for the then attained age. The renewal of insurance for any successive 5-year period will become effective as of the day following the expiration of the preceding term period, and the premium for such renewal will be at the 5-year level premium term rate for the attained age of the policyholder on that day: *Provided further,* That no insurance is subject to renewal if the policyholder has exercised his optional right to change to another plan of insurance.

(b) A 5-year level premium term policy which lapsed for nonpayment of the premium due for the 59th or 60th month and subsequently expired on or after July 23, 1953, while in lapsed status, may be renewed subsequent to the expiration of the old term period provided the insured prior to the expiration of the new term period:

(1) Submits written application for reinstatement of the insurance.

(2) Tenders two monthly premiums, one for the month of lapse at the rate for the expired term and the other for the month of reinstatement at the rate for the new term.

(3) (i) If application for reinstatement is submitted and the premiums tendered within three premium months after lapse, including the premium month for which the unpaid premium was due, insurance will be reinstated provided the applicant be in as good health on the date of application and tender of premiums as he was on the due date of the premium in default and furnishes evidence thereof satisfactory to the Administrator.

(ii) If application for reinstatement is submitted and the premiums tendered after expiration of the 3-month period mentioned in subdivision (i) of this subparagraph, insurance will be reinstated provided applicant is in good health (§ 8.1) on the date of application and tender of premiums and furnishes evidence thereof satisfactory to the Administrator.

[Circular No. 1958]

PART 193—COAL PERMITS, LEASES AND LICENSES

MISCELLANEOUS AMENDMENTS

On pages 4931 and 4932 of the FEDERAL REGISTER for July 3, 1956, there was published a notice of proposed rule making to implement amendments of certain sections of the coal regulations approved March 27, 1951, as amended September 7, 1955. Interested persons were given 30 days in which to submit written comments, suggestions, or objections with respect to the proposed amendments. No adverse comments having been received, the proposed amended regulations are hereby adopted without change and are set forth below.

(Sec. 32, 41 Stat. 450; 30 U. S. C. 189)

FRED G. AANDAHL,
Acting Secretary of the Interior.

AUGUST 24, 1956.

Sections 193.9 and 193.14 are revised; §§ 193.10 and 193.17 are amended; the present text of § 193.24 is designated as paragraph (a) and a new paragraph (b) added thereto; and paragraph (c) of § 193.25 is amended and new paragraphs (d) and (e) added thereto, as follows:

1. Section 193.9 is revised to read:

§ 193.9 *Lease bond.* A compliance bond, in no event less than $1,000, with approved corporate surety (Form 4–1113), or the lessee's personal bond in similar amount (Form 4–1114), will be required prior to the issuance of a lease. Personal bonds must be accompanied by negotiable Federal securities in the amount of the bond. If the amount of the bond is fixed at $1,000, the lessee may, instead, furnish a bond on Form 4–1113 with two qualified individual sureties, as provided in § 191.13 of this subchapter. The right is reserved at any time before or after issuance of the lease to require an increase of the amount of the bond, whether a corporate, personal or individual surety bond, in any case where the Bureau of Land Management deems it proper to do so.

2. Section 193.10 is amended to read:

§ 193.10 *Minimum production.* Leases shall be conditioned upon the payment of a royalty on a minimum annual production beginning with the sixth year of the lease, except when operation is interrupted by strikes, the elements, or casualties not attributable to the lessee, unless, on application and showing made, operations shall be suspended when market conditions are such that the lease cannot be operated except at a loss or for the other reasons specified in section 39 of the act.[1] Operations under the lease shall be continuous except in the circumstances described or unless the lessee shall pay a royalty, less rent, on the minimum production for one year in advance, in which case operations may be suspended for that year.

3. Section 193.14 is revised to read:

§ 193.14 *Sale; bidding requirements, action by successful bidder.* (a) When the sale is by public auction, before bidding is commenced by those persons present, the Manager or other officer conducting the sale will open and read to those persons the sealed bids received on or before the time set in the notice of lease offer. The successful bidder at a sale by public auction must on the day of sale deposit with the Manager or other officer conducting the sale and each bidder at a sale by sealed bid must submit with his bid, the following: Certified check, cashier's check, bank draft, money order or cash for one-fifth of the amount of the bid by him, and a statement over the bidder's own signature with respect to citizenship and interests held, similar to that prescribed in § 193.11 (a) (2) and (3).

(b) Upon receipt of the high bid at, and at the close of, an oral auction, or the opening of the sealed bids, the authorized officer, subject to his right to reject any and all bids, will award the lease to the successful bidder, who will be notified accordingly. If the land is surveyed, four lease forms will be sent to the successful bidder, who will be required within 30 days from receipt thereof to execute them, pay the balance of the bonus bid, the first year's rental, and the cost of publication of the notice of lease offer as specified in § 193.13, and file a bond as required by § 193.9. The lease will be dated as of the first day of the month following its issuance unless the successful bidder requests that it be dated as of the first day of the month of issuance. If the land is unsurveyed, the successful bidder will not be required to comply with the requirements of this subsection until the land has been surveyed and the plat of such survey accepted and officially filed. Such survey will be at the expense of the Government. If the bidder, after being awarded a lease, fails to execute it or otherwise comply with the applicable regulations, his deposit will be forfeited and disposed of as other receipts under the Mineral Leasing Act. If the lease awarded to the successful bidder, is executed by an attorney acting in behalf of the bidder, the lease must be accompanied by evidence that the bidder authorized the attorney to execute the lease. If the bidder dies before the lease is issued, there must be furnished satisfactory evidence, such as specified in § 193.24 (b), in order that the Manager of the appropriate land office may determine to whom the lease may be issued.

4. Section 193.17 is amended to read:

§ 193.17 *Relinquishment of lease.* Upon a satisfactory showing that the public interest will not be impaired, the lessee may surrender the entire lease or any legal subdivision thereof. A relinquishment must be filed in duplicate in the appropriate land office. Upon its acceptance it shall be effective as of the date it is filed, subject to the continued obligation of the lessee and his surety to make payment of all accrued rentals and royalties and to provide for the preservation of any mines or productive works or permanent improvements on the leased lands in accordance with the regulations and terms of the lease.

5. The present text of § 193.24 is designated paragraph (a) and a new paragraph (b) added, as follows:

§ 193.24 *Reward for discovery.* (a) * * *

(b) If the permittee dies before the lease is issued, the lease will be issued to the executor or administrator of the estate if probate of the estate has not been completed; if probate has been completed, or is not required, to the heirs or devisees; and if there are minor heirs or devisees, to their legal guardian or trustee in his name, provided there is filed in all cases the following information:

(1) Where probate of the estate has not been completed:

(i) Evidence that the person, who as executor or administrator submits forms of lease and bond, has authority to act in that capacity and to sign such forms.

(ii) Evidence that the heirs or devisees are the heirs or devisees of the deceased permittees and are the only heirs or devisees of the deceased.

[1] See showing required under § 191.26 of this subchapter.

(iii) A statement over the signature of each heir or devisee concerning citizenship and holdings similar to that required by § 193.11 (a) (2) and (3).

(2) Where the executor or administrator has been discharged or no probate proceedings are required:

(i) A certified copy of the will or decree of distribution, if any, and if not, a statement signed by the heirs that they are the only heirs of the permittees and citing the provisions of the law of the deceased's last domicile showing no probate is required.

(ii) A statement over the signature of each of the heirs or devisees with reference to citizenship and holdings similar to that required by § 193.11 (a) (2) and (3), except that if the heir or devisee is a minor, the statement must be over the signature of the guardian or trustee.

(3) Where there is a legal guardian or trustee:

(i) A certified copy of the court order authorizing the guardian or trustee to act as such and to fulfill in behalf of the minor or minors all obligations of the lease or arising thereunder; statements by the guardian or trustee as to the citizenship and holdings of each of the minors and as to his own citizenship and holdings, including his holdings for the benefit of other minors similar to that required by § 193.11 (a) (2) and (3).

6. Paragraph (c) of § 193.25 is amended and new paragraphs (d) and (e) added, as follows:

§ 193.25 *Transfers, including subleases.*

* * * * *

(c) An application for approval of any instrument transferring a lease or permit, or interest therein, must be accompanied by a service fee of $10. An application not accompanied by such a fee will not be accepted. The fee will not be returned even though the application is later withdrawn or rejected.

(d) No transfer will be approved if the transferee is not qualified to take and hold a permit or lease or if his bond is insufficient. A minor, except a minor heir or devisee of a permittee or lessee, is not qualified to hold a permit or lease and a transfer to a minor will not be approved.

(e) In order for the heirs or devisees of a deceased holder of a permit or lease, an operating agreement, or a royalty interest in a permit or lease, to be recognized by the Secretary as the holder of the permit or lease, agreement or interest, there must be furnished the appropriate showing required under § 193.24 (b).

ALASKA

MODIFYING EXECUTIVE ORDER NO. 5391 OF JULY 8, 1930, WHICH RESERVED CERTAIN PUBLIC LANDS FOR EDUCATIONAL PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

Executive Order No. 5391 of July 8, 1930, which reserved certain public lands in Alaska for use of the Office of Education, is hereby modified to the extent necessary to permit conveyance of the following tract at Point Hope to the Territory of Alaska under the provisions of the act of May 13, 1946 (60 Stat. 170; 49 U. S. C. 1101):

From a reference point consisting of a 4 in. x 4 in. x 10 ft. wooden stake comprising the northwest corner of property belonging to the Episcopal Mission, proceed N. 43° 43' E. for a distance of 316.36 ft. to the point of beginning comprising the northwest corner to the Point Hope Airport property. From this point proceed N. 78° 29' E. for a distance of 596.34 ft.; thence S. 78° 09' E. for a distance of 507.18 ft.; thence S. 21° 30' W. for a distance of 4,195.00 ft.; thence N. 82° W. for a distance of 1,028.4 ft.; thence N. 21° 30' E. for a distance of 4,025 ft. to the point of beginning.

The area described contains 95.73 acres.

FRED G. AANDAHL,
Acting Secretary of the Interior.

[Public Land Order 1330]

MICHIGAN

REVOKING EXECUTIVE ORDER OF JUNE 19, 1894 AND PARTIALLY REVOKING EXECUTIVE ORDER OF MARCH 16, 1875, WHICH RESERVED CERTAIN LANDS FOR LIFE-SAVING PURPOSES

By virtue of the authority vested in the President and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

[70005]

1. The Executive Order of June 19, 1894, reserving the following-described public lands in Michigan for life-saving purposes, is hereby revoked:

MICHIGAN MERIDIAN

T. 29 N., R. 14 W.,
Sec. 18, lot 2.

The area described contains 55.5 acres.

[69373]

2. The Executive order of March 16, 1875, reserving certain lands in Michigan for life-saving purposes, is hereby revoked so far as it affects the following-described lands:

MICHIGAN MERIDIAN

T. 49 N., R. 11 W.,
Sec. 2, lots 1 and 2.

The areas described aggregate 72.65 acres.

3. The released lands are embraced in forest exchange application, BLM 042116, filed by the State of Michigan under the act of July 31, 1912 (37 Stat. 241), by which the offered lands will benefit a Federal land program. This restoration is, therefore, not subject to the provisions contained in the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

FRED G. AANDAHL,
Acting Secretary of the Interior.

TITLE 50—WILDLIFE

Chapter I—Fish and Wildlife Service, Department of the Interior

Subchapter F—Alaska Commercial Fisheries

PART 107—CHIGNIK AREA

ADDITIONAL FISHING TIME

Basis and purpose. On the basis of good escapements of red salmon in the Chignik Bay district, it has been determined that additional fishing time can be permitted.

Therefore, effective immediately upon publication in the FEDERAL REGISTER, § 107.3 is amended in paragraph (b) by deleting "Friday" and substituting in lieu thereof "Saturday", effective in 1956 only.

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

ROBERT H. JOHNSON,
Acting Director.

PART 122—SOUTHEASTERN ALASKA AREA, CLARENCE STRAIT DISTRICT, SALMON FISHERIES

PART 123—SOUTHEASTERN ALASKA AREA, SOUTH PRINCE OF WALES ISLAND DISTRICT, SALMON FISHERIES

ADDITIONAL FISHING TIME

Basis and purpose. On the basis of continuing good runs of pink salmon in certain districts of Southeastern Alaska, it has been determined that some additional fishing time can be permitted.

Therefore, effective immediately upon publication in the FEDERAL REGISTER:

1. Sections 122.4 and 123.3 are amended in text by deleting "August 28" and substituting in lieu thereof "August 30."

2. Section 122.5a is amended in text by deleting "August 28" and substituting in lieu thereof "August 29."

Since immediate action is necessary, notice and public procedure on this amendment are impracticable (60 Stat. 237; 5 U. S. C. 1001 et seq.).

(Sec. 1, 43 Stat. 464, as amended; 48 U. S. C. 221)

The areas described aggregate approximately 27,600 acres.

2. Sections 2, 4, 6, 8, 10, 14, 22, 26, 34, T. 11 S., R. 10 E., aggregating approximately 5,760 acres, are included in State exchange application, LA 0106793, filed under the provisions of section 8 of the Taylor Grazing Act of June 28, 1934 (48 Stat. 1272; 43 U. S. C. 315g) as amended, by which the offered lands will benefit a Federal land program. These lands are therefore not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

3. The SW¼, sec. 30, T. 17 S., R. 11 E., is included in allowed Desert Land Entry, LA 039446, and is therefore not subject to the provisions of the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284) as amended, granting preference rights to veterans of World War II, the Korean Conflict, and others.

4. The following-described lands are included in other existing withdrawals:

SAN BERNARDINO MERIDIAN

T. 11 S., R. 10 E.,
Secs. 1, 12, 13, and 24.
T. 17 S., R. 11 E.,
Sec. 4, SW¼SW¼;
Sec. 5, S½SE¼ and SE¼SW¼;
Sec. 8, NE¼, E½NW¼, NW¼SW¼, and N½SE¼;
Sec. 9, W½NW¼ and NW¼SW¼;
Secs. 25 to 32, inclusive.
T. 7 S., R. 12 E.,
Secs. 1 to 36, inclusive.

The areas described aggregate approximately 8,320 acres.

5. The remaining lands, aggregating approximately 89,162 acres, are situated in the inland desert region of Southern California. The area comprises lands located in the south-central edge of Riverside County near the Santa Rosa and Orocopia Mountains and in Imperial County. Nearly all of the lands are characterized by rough, irregular, broken or rugged mountain topography. The lands are not valuable for agriculture nor grazing purposes.

6. No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other non-mineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

7. Subject to any valid existing rights and the requirements of applicable law, the restored lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the non-mineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on September 29, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 29, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the non-mineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 29, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on December 29, 1956.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Los Angeles, California.

CHARLES P. MEAD,
Acting Director.

SMALL TRACT CLASSIFICATION

AUGUST 22, 1956.

1. Pursuant to authority delegated to me by Document No. 43, Arizona, effective May 19, 1955 (20 F. R. 3514–15), I hereby open the following described lands, which were classified by Classification Order No. 46, Document No. 71, dated November 7, 1955 (20 F. R. 8503), to application for lease and sale for residence and/or business purposes under the Small Tract Act of June 1, 1938 (52 Stat. 609; 43 U. S. C. 682a), as amended:

GILA AND SALT RIVER MERIDIAN

T. 5 N., R. 4 E.,
Sec. 15: W½, SE¼;
Sec. 21: E½, SW¼;
Sec. 22: All;
Sec. 26: S½;
Sec. 27: S½S½;
Sec. 28: N½;
Sec. 35: E½.

aggregating 2,720 acres subdivided into 1,088 small tracts none of which are covered by applications from persons entitled to preference under 43 CFR 257.5 (a).

2. The tracts are situated in Paradise Valley, Maricopa County, approximately 16 miles north of Phoenix, Arizona, and approximately 3½ miles south of Cave Creek, Arizona. The topography is flat to rolling with numerous small shallow washes throughout. Soils are sandy clay loam interspersed with fine gravel. A power line parallels the east line of sections 15, 22, and 27. Culinary water is not available from any presently developed source. Schools, stores, and other public facilities are available in the communities of Sunnyslope and Phoenix. Native vegetation is typical of the Southwestern desert region and consists primarily of creosote, bursage, paloverde, cacti, and mesquite. There is no evidence of metallic or non-metallic minerals.

3. (a) The individual tracts contain 2½ acres and conform to 1/256 of a section. All tracts in the S½S½S½, NE¼SE¼SE¼, E½NE¼SE¼ section 15; N½N½NE¼ section 21; N½N½N½, SE¼NE¼NE¼, E½SE¼NE¼, E½E½SE¼ section 22; W½W½SW¼ section 26; E½SE¼SE¼ section 27, and S½S½SE¼ section 35 are appraised at $375.00 per tract. All remaining tracts are appraised at $300.00 per tract.

(b) The advance three year rental for residence tracts appraised at $375.00 is $56.25. The advance three year rental for those tracts appraised at $300.00 is $45.00. The advance three year rental for a business tract is $60.00. However, if the gross business exceeds $2,000.00 per annum, the rental will be calculated in accordance with the schedule incorporated in the lease.

(c) Rights-of-way 33 feet in width for streets, roads and public utilities will be reserved on all tract boundary lines facing the section lines, quarter, sixteenth and sixty-fourth subdivision lines. All minerals in the lands will be reserved to the United States.

4. Leases will be issued for a term of three years and will contain an option to purchase in accordance with 43 CFR 257.13. Lessees who comply with the general terms and conditions of their leases will be permitted to purchase their tracts at the prices listed above, provided that during the period of their leases they either (a) construct the improvements specified in paragraph 6 or (b) file a copy of an agreement in accordance with 43 CFR 257.13 (d). Leases will be renewable at the discretion of the Bureau of Land Management and the renewal lease will be subject to such terms and conditions as are deemed necessary in the light of the circumstances and the regulations existing at the time of renewal. However, a lease will not be renewable unless failure to construct the required improvements is justified under the circumstances and nonrenewal would work an extreme hardship on the lessee.

5. Persons who have previously acquired a tract under the Small Tract Act are not qualified to secure a tract unless they can make a showing satisfactory to the Bureau of Land Management that the acquisition of another tract is warranted in the circumstances.

6. The improvements referred to in paragraph 4 above must conform with health, sanitation, and construction requirements of local ordinances and must, in addition, meet the following standards. Each living unit should provide complete living facilities, ordinarily considered to be a permanent home, arranged and completed to provide suitable and desirable living, sleeping and cooking accommodations for year round occupancy. Each living unit should contain not less than 500 square feet of floor space and shall be divided into at least two rooms. The homes must be built in a workmanlike manner out of attractive properly finished materials. They must be of substantial construction to withstand the elements and on a full solid foundation. Adequate disposal and sanitary facilities must be installed.

7. (a) Applicants must file, in duplicate, with the Manager, Land Office, Room 251 Main Post Office Building, Phoenix, Arizona, application Form 4–776 filled out in compliance with the instructions on the form and accompanied by any showings or documents required by those instructions. Copies of the application form can be secured from the above-named official.

(b) The applications must be accompanied by a filing fee of $10.00 plus the advance rental as specified in paragraph 3. Failure to transmit these payments with the application will render the application invalid. Advance rentals will be returned to the unsuccessful applicants. All filing fees will be retained by the United States.

8. The lands are now subject to application under the Small Tract Act. All valid applications from persons entitled to veterans' preference filed after August 22, 1956 and prior to 10:00 a. m., September 27, 1956, will be considered as simultaneously filed at that time. All valid applications from persons entitled to veterans' preference filed after that time will be considered in the order of filing. All valid applications from other persons filed after August 22, 1956 and prior to 10:00 a. m. December 27, 1956 will be considered as simultaneously filed at that time. All valid applications filed after that time will be considered in the order of filing.

9. Inquiries concerning these lands shall be addressed to Manager, Land Office, Room 251 Main Post Office Building, Phoenix, Arizona.

E. R. TRACITT,
State Lands and Minerals, Staff Officer.

AUGUST 24, 1946.

I concur. The records of the Bureau of Land Management will be noted accordingly.

Of the lands released from withdrawal by this order, approximately 31,200 acres have been patented without a mineral reservation, 7,640 acres are included in an application for withdrawal by the Department of the Navy (LA–0106066), 5,120 acres are State school lands, 2,320 acres are withdrawn by Public Land Order No. 281 for use of the Department of the Navy, and 1,280 acres are included in allowed desert-land entries, and 280 acres are withdrawn for power purposes in Power Site Reserve No. 530. Approximately 19,994 acres are vacant public domain.

No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on September 29, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 29, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 29, 1956, will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

b. The restored lands have been open to applications and offers under the mineral-leasing laws. They will be open to location under the United States mining laws beginning at 10:00 a. m. on December 29, 1956.

The lands are in Imperial and Riverside Counties, between the Salton Sea and the Orocopia and Chocolate Mountains. They range from fairly level to rough, broken and mountainous. There are numerous shallow washes throughout the lower reaches of the area.

Applications for the lands in Navy application LA–0106066 will be suspended in accordance with 43 CFR 295.10 until action has been taken on the withdrawal application.

The lands in Power Site Reserve No. 530 will be opened to mining location pursuant to the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621) at 10:00 a. m. on September 29, 1956.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Los Angeles, California.

CHARLES P. MEAD,
Acting Director, Bureau of Land Management.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-3504]

PHILADELPHIA CO., AND STANDARD GAS AND ELECTRIC CO.

NOTICE OF PROPOSED RENEWAL OF PROMISSORY NOTE

AUGUST 24, 1956.

Notice is hereby given that Standard Gas and Electric Company ("Standard Gas"), a registered holding company and a subsidiary of Standard Shares, Inc., a registered holding company in the process of conversion into an investment company, and Philadelphia Company ("Philadelphia"), a subsidiary of Standard Gas and also a registered holding company, have filed with this Commission a joint application-declaration pursuant to the Public Utility Holding Company Act of 1935 ("act"), designating sections 6 (a), 7, 9 and 10 thereof as applicable to the proposed transaction, which is summarized as follows:

Philadelphia will issue and deliver to Standard Gas a renewal promissory note in replacement of a promissory note in the principal amount of $2,500,000 which will mature on September 10, 1956, and which bears interest at the rate of 3¼ percent per annum, payable monthly. The renewal note, in the same principal amount, will bear interest payable monthly at the prime interest rate prevailing at the date of the new note for short-term commercial bank loans, and will mature September 10, 1957, with the right of the issuer to anticipate at any time the payment of all or any part of the principal thereof.

It is stated that the expenses, if any, in connection with the proposed transaction will be nominal in amount.

Notice is further given that any interested person may, not later than September 7, 1956, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the Act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100, or take such other action as it may deem appropriate.

By the Commission.

TRI-STATE INVESTMENT CO.

NOTICE OF APPLICATION FOR ORDER DECLARING THAT COMPANY HAS CEASED TO BE AN INVESTMENT COMPANY

AUGUST 24, 1956.

Notice is hereby given that Tri-State Investment Company ("Applicant"), a New Jersey corporation and a closed-end, non-diversified investment company registered as such under the Investment Company Act of 1940 ("act") has filed an application and an amendment thereto pursuant to section 8 (f) of the act for an order declaring that Applicant has ceased to be an investment company under the act.

Applicant filed its Notification of Registration on June 30, 1955. On May 11, 1956, the Secretary of State of New Jersey issued a certificate of dissolution of Applicant upon delivery to him of the written consent of all of Applicant's stockholders. Applicant's assets amounting to $28,973.61 have all been distributed to its stockholders.

Section 8 (f) of the act provides, in part, that whenever the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than September 14, 1956, at 5:30 p. m., submit to the Commission in writing any facts bearing upon the desirability of a hearing on the matter and may request that a hearing be held, such request stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after

said date, the application may be granted as provided in Rule N-5 of the rules and regulations promulgated under the act.

By the Commission.

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF DRIED CURRANTS[1]

Pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.) and by virtue of the authority vested in me by the Secretary of Agriculture, the United States Standards for Grades of Dried Currants (§§ 52.981 to 52.985) are revised as hereinafter set forth.

The revision provides for an additional style of "Seeded" for Zante type currants.

It is hereby found that notice and public procedure thereon with respect to the revised standards are impracticable, unnecessary and contrary to the public interest; and good cause is found for making these revised standards effective on September 1, 1956, for the reasons that:

(1) The additional style is included in the grade-standards to facilitate operations under the modified Raisin Marketing Order No. 89, as amended;

(2) The processing season for raisins, which includes dried currants, is imminent and it is necessary for purposes of inspection and marketing that these revised standards be effective at the beginning of the packing season; and

(3) Additional time will not be needed for the industry to make preparation for compliance with these amendments.

The revised standards are as follows:

PRODUCT DESCRIPTION, TYPES, AND GRADES

52.981 Product description.
52.982 Types (varieties) and styles of dried currants.
52.983 Grades of dried currants.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

WORK SHEET

Sec.
52.985 Work sheet for dried currants.

AUTHORITY: §§ 52.981 to 52.985 issued under sec. 205, 60 Stat. 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, TYPES, AND GRADES

§ 52.981 *Product description.* Dried currants are dried grapes of such Vinifera varieties as Black Corinth or White Corinth that have been properly processed by removing seeds in Seeded style and by stemming, capstemming, and cleaning to assure a wholesome product.

§ 52.982 *Types (varieties) and styles of dried currants*—(a) *Type I.* Zante Type (Domestic):

(1) Unseeded.
(2) Seeded.

(b) *Type II.* Other than Zante Type (Domestic), such as Amalias, Patras, Vostizza, and Zante varieties.

§ 52.983 *Grades of dried currants.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of dried currants that possess similar varietal characteristics; that possess a good typical color; that possess a good characteristic flavor; that show development characteristic of dried currants prepared from well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in table I of this subpart:

(1) Not more than 1 piece of stem per 24 ounces of dried currants may be present;

(2) Not more than 12 seeds per 16 ounces may be present in seeded dried currants;

(3) Not more than 1½ percent, by weight, of dried currants may possess capstems;

(4) Not more than 1 percent, by weight, of dried currants may be poorly developed, blowovers;

(5) Not more than 2 percent, by weight, of dried currants may be damaged;

(6) Not more than 5 percent, by weight, of dried currants may be sugared;

(7) Not more than 1 percent, by count, of dried currents may be moldy;

(8) The appearance or edibility of the product may not be affected by dried currants damaged by fermentation; and

from sunburn, scars, mechanical, or other means which seriously affects the appearance, edibility, keeping quality, or shipping quality of the currants.

(e) "Sugared" means either external or internal sugar crystals are present and the accumulation of such crystalized fruit sugars in the flesh of the dried currant or on the surface are readily apparent.

(f) "Moldy" currants are those that show mold on more than one-fourth of the surface when ascertained in accordance with the following method:

(1) *Currants showing catalase activity.* (For use on currants where catalase activity has not been destroyed by treatment with lye, oil, or heat.) Count out 100 currants from a well-mixed sample and place 10 or 15 at a time in a crystallizing dish. Cover each lot with a fresh solution made up to contain 5 percent hydrogen peroxide and 1 percent NH_4OH. The moldy areas are detected by the presence of copious oxygen bubbles. Place the crystallizing dish over black glazed paper to give greater contrast. Confirm the presence of mold filaments microscopically. Do not class as "moldy" currants, those in which yeasts also give a reaction with hydrogen peroxide.

(g) "Grit, sand, or silt" means any particle of earthy material.

(h) "Moisture" means the percentage by weight of moisture in dried currants when determined by the Dried Fruit Moisture Tester Method or in accordance with methods that give equivalent results.

(5) Not more than 3 percent, by weight, of dried currants may be damaged;

(6) Not more than 10 percent, by weight, of dried currants may be sugared;

(7) Not more than 2 percent, by count, of dried currants may be moldy;

(8) The appearance or edibility of the product may not be more than slightly affected by dried currants damaged by fermentation; and

(9) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the dried currants.

(c) "Substandard" is the quality of dried currants that fail to meet the requirements of U. S. Grade B or U. S. Choice.

§ 52.984 *Definitions of terms.* (a) A "piece of stem" means a portion of the branch or main stem.

(b) "Capstems" means small woody stems exceeding ⅛ inch in length which attach the grapes to the branches of the bunch. A currant for each capstem which is not attached to a currant is included and weighed with "currants with capstems" in ascertaining compliance with the allowance permitted.

(c) "Poorly developed, blowovers" refers to currants that are immature or hard, contain practically no flesh, are very light in weight, and have very coarse wrinkles.

(d) "Damaged" currants means currants affected by insect injury or injury

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

SUBPART—UNITED STATES STANDARDS FOR GRADES OF PROCESSED RAISINS [1]

Pursuant to the Agricultural Marketing Act of 1946 (60 Stat. 1087 et seq., 7 U. S. C. 1621 et seq.) and by virtue of the authority invested in me by the Secretary of Agriculture, the United States Standards for Grades of Processed Raisins (§§ 52.1841 to 52.1851) are revised as hereinafter set forth.

The revision provides for additional types of Uncapstemmed and Soda-dipped Seeded Muscat raisins and Mixed types of raisins; a change in maximum moisture content for Layer Muscat raisins from 21 percent to 23 percent; and a decrease in allowances for pieces of stems in all grades of Thompson Seedless Raisins.

It is hereby found that notice and public procedure thereon with respect to the revised standards are impracticable, unnecessary and contrary to the public interest; and good cause is found for making these revised standards effective on September 1, 1956 for the reasons that:

(1) The changes in these revised grade-standards are made to conform with modifications to provisions of the modified Raisin Marketing Order No. 89, as amended; and they have been discussed with interested members of the affected industry;

(2) The processing season for raisins is imminent and it is necessary for purposes of inspection and marketing that these revised standards be effective at the beginning of the packing season; and

(3) Additional time will not be needed for the industry to make preparation for compliance with these amendments.

The revised standards are as follows:

AUTHORITY: §§ 52.1841 to 52.1852 issued under sec. 205, 60 Stat., 1090, as amended; 7 U. S. C. 1624.

PRODUCT DESCRIPTION, SUMMARY OF TYPES

§ 52.1841 *Product description.* Processed raisins are dried grapes of the Vinifera varieties, such as Thompson Seedless (Sultanina), Muscat of Alexandria, Muscatel Gordo Blanco, and Sultana. The processed raisins are prepared from clean, sound, dried grapes; are properly stemmed and capstemmed except for cluster or uncapstemmed raisins; and are sorted or cleaned, or both, to assure a wholesome product.

§ 52.1841a *Product description of Layer (or Cluster) Muscat Raisins.* Muscat raisins of the variety Muscat of Alexandria when referred to as "Layer (or Cluster) Muscat raisins" means that the raisins have not been detached from the main bunch stem.

§ 52.1842 *Summary of types (varieties) of processed raisins*—(a) *Type I—Thompson Seedless.* (1) Unbleached (natural).
(2) Sulfur Bleached and Golden Seedless.
(3) Soda Dipped.
(b) *Type II—Muscat.* (1) Seeded (seeds removed).
(2) Unseeded-capstemmed (loose).
(3) Unseeded-uncapstemmed (loose).
(4) Soda-dipped Unseeded-capstemmed (Valencia).
(5) Soda-dipped Unseeded-uncapstemmed (Valencia).
(6) Soda-dipped Seeded (Valencia).
(7) Layer (or Cluster).
(c) *Type III—Sultana.*
(d) *Type IV—Mixed types.* A mixture of two or more different types (varieties) of raisins including sub-types outlined in this section but other than (1) mixtures containing Layer (or Cluster) Muscats, (2) mixtures containing Unseeded-uncapstemmed Muscats, and (3) mixtures of Seeded and Unseeded Muscats.

TYPE I—THOMPSON SEEDLESS RAISINS; SIZES, COLORS, GRADES

§ 52.1843 *Sizes of Thompson Seedless Raisins.* The sizes of Thompson Seedless Raisins are not incorporated in grades of the finished product since size, as such, is not a factor of quality for the purposes of these grades. The common size designations and measurement requirements applicable thereto include, but are not limited to, the following:

(a) "Select" size raisins means that not less than 35 percent, by weight, but not more than 85 percent, by weight, of all the raisins will pass through round perforations $2\frac{1}{64}$ inch in diameter, but not more than 5 percent, by weight of all the raisins may pass through round perforations $20/64$ inch in diameter.

(b) "Small" (or "midget") size raisins means that all of the raisins will pass through round perforations $2\frac{1}{64}$ inch in diameter and not less than 90 percent, by weight, of all the raisins will pass through round perforations $20/64$ inch in diameter.

(c) "Mixed" size raisins means a mixture which does not meet the requirements of "Select" size.

§ 52.1844 *Colors of Sulfur Bleached and Golden Seedless Thompson Seedless Raisins.* The color of Sulfur Bleached and Golden Seedless Thompson Seedless Raisins is not a factor of quality for the purposes of these grades. The color requirements applicable to the respective color designations are as follows:

(a) "Well-bleached color" (or "extra fancy color") means that the raisins are practically uniform in color and may range from yellow or golden to light amber color with a predominating yellow or golden color and that not more than 1 percent, by weight, of all the raisins may be definitely dark berries.

(b) "Reasonably well-bleached color" (or "fancy color") means that the raisins are reasonably uniform in color and may range from yellow or golden or greenish yellow to light amber wherein the predominating color may be greenish yellow or light amber and that not more than 3 percent, by weight, of all the raisins may be definitely dark berries.

(c) "Fairly well-bleached color" (or "extra choice color") means that the raisins are fairly uniform in color and may range from yellow or greenish yellow to amber or light greenish amber and that not more than 6 percent, by weight, of all the raisins may be definitely dark berries.

(d) "Bleached color" (or "choice color") means that the raisins may be variable in color and may range from yellowish green to dark amber or dark greenish amber; that not more than 15 percent, by weight, or all the raisins may be definitely dark berries in Sulfur Bleached; that not more than 20 percent, by weight, of all the raisins may be definitely dark berries in Golden Seedless.

(e) "Definitely dark berries" means raisins which are definitely darker than dark amber and characteristic of naturally "raisined" grapes.

§ 52.1845 *Grades of Thompson Seedless Raisins.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of Thompson Seedless Raisins that possess similar varietal characteristics; that in Unbleached and Soda Dipped raisins possess a good typical color; that possess a good characteristic flavor; that show development characteristics of raisins prepared from well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table I of this subpart:

(1) Not more than 1 piece of stem per 96 ounces of raisins may be present;

(2) Not more than 15 capstems per 16 ounces of raisins may be present;

(3) Not more than 1 percent, by weight, of raisins may be poorly developed, blowovers;

(4) Not more than 2 percent, by weight, of raisins may be damaged;

(5) Not more than 5 percent, by weight, of raisins may be sugared;

(6) Not more than 2 percent, by count, of raisins may be moldy;

(7) The appearance or edibility of the product may not be affected by raisins damaged by fermentation; and

(8) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the raisins.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of Thompson Seedless Raisins that possess similar varietal characteristics; that in Unbleached and Soda Dipped raisins possess a reasonably good typical color; that possess a good characteristic flavor; that show development characteristic of raisins prepared from reasonably well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table I of this subpart:

(1) Not more than 2 pieces of stem per 96 ounces of raisins may be present;

(2) Not more than 25 capstems per 16 ounces of raisins may be present;

(3) Not more than 2 percent, by weight, of raisins may be poorly developed, blowovers;

(4) Not more than 3 percent, by weight, of raisins may be damaged;

(5) Not more than 10 percent, by weight, of raisins may be sugared;

(6) Not more than 3 percent, by count, of raisins may be moldy;

(7) The appearance or edibility of the product may not be more than slightly affected by raisins damaged by fermentation; and

(8) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of their raisins.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of Thompson Seedless Raisins that possess similar varietal characteristics; that in Unbleached and Soda Dipped raisins possess a fairly good typical color; that possess a fairly good flavor; that show development characteristic of raisins prepared from fairly well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table I of this subpart:

(1) Not more than 4 pieces of stem per 96 ounces of raisins may be present;

(2) Not more than 35 capstems per 16 ounces of raisins may be present;

(3) Not more than 2 percent, by weight, of raisins may be poorly developed, blowovers; except that in "Small" (or "midget") size not more than 3 percent, by weight, of raisins may be poorly developed, blowovers.

(4) Not more than 5 percent, by weight, of raisins may be damaged;

(5) Not more than 15 percent, by weight, of raisins may be sugared;

(6) Not more than 4 percent, by count, of raisins may be moldy;

(7) The appearance or edibility of the product may not be materially affected by raisins damaged by fermentation; and

(8) Not more than a trace of grit, sand, or silt may be present that affects the appearance or edibility of the raisins.

(d) "Substandard" is the quality of Thompson Seedless Raisins that fail to meet the requirements of U. S. Grade C or U. S. Standard.

[1] Compliance with the provisions of these standards shall not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act.

TYPE II—MUSCAT RAISINS; SIZES, GRADES

§ 52.1846 *Sizes of Muscat Raisins.* The sizes of Muscat Raisins except for Layer (or Cluster) Muscat raisins, are not incorporated in the grades of the finished product since size, as such, is not a factor of quality for the purposes of these grades. The common size designations and measurement requirements applicable thereto include, but are not limited to, the following:

(a) *Seeded.* (1) "Select" size raisins means that not less than 30 percent, by weight, of all the raisins will not pass through round perforations $3\frac{1}{64}$ inch in diameter; and the balance will pass through round perforations $3\frac{1}{64}$ inch in diameter but not more than 5 percent, by weight, of all the raisins may pass through round perforations $2\frac{3}{64}$ inch in diameter.

(2) "Small" (or "midget") size raisins means that all of the raisins will pass through round perforations $3\frac{1}{64}$ inch in diameter and not less than 90 percent, by weight, of all the raisins will pass through round perforations $2\frac{3}{64}$ inch in diameter.

(3) "Mixed" size raisins means a mixture of sizes that do not meet the requirements of "select" size.

(b) *Unseeded.* (1) "4 Crown" means raisins that will not pass through round perforations $4\frac{2}{64}$ inch in diameter.

(2) "3 Crown" means raisins that will pass through round perforations $4\frac{2}{64}$ inch in diameter but will not pass through round perforations $3\frac{1}{64}$ inch in diameter.

(3) "2 Crown" means raisins that will pass through round perforations $3\frac{1}{64}$ inch in diameter but will not pass through round perforations $3\frac{1}{64}$ inch in diameter.

(4) "1 Crown" means raisins that will pass through round perforations $2\frac{1}{64}$ inch in diameter.

§ 52.1846a *Sizes of Layer (or Cluster) Muscat Raisins.* The size of Layer (or Cluster) Muscat raisins is incorporated in the grades of the finished product. The size designation and measurement as applicable to Layer (or Cluster) Muscat Raisins are:

(a) *"3-Crown size or larger".* "3-Crown size or larger" in Layer (or Cluster) Muscat raisins means that the raisins, exclusive of stems and branches, are of such a size that they will not pass through round perforations $3\frac{1}{64}$ inch in diameter.

§ 52.1847 *Grades of Muscat Raisins.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of Muscat Raisins that possess similar varietal characteristics; that possess a good typical color with not more than 10 percent, by weight, of raisins that may be dark reddish-brown berries in Soda Dipped Unseeded or Seeded (Valencia) raisins; that possess a good characteristic flavor; that show development characteristics of raisins prepared from well-matured grapes; that contain not more than 18 percent, by weight, of moisture, except that Seeded or Soda-Dipped Seeded raisins may contain not more than 19 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table II of this subpart:

(1) Not more than 1 piece of stem per 32 ounces of raisins may be present;

(2) Not more than 10 capstems per 16 ounces of raisins may be present in other than uncapstemmed raisins; and not more than 20 loose capstems per 16

ounces of raisins may be present in uncapstemmed raisins;

(3) Not more than 12 seeds per 16 ounces of raisins in Seeded or Soda-dipped Seeded raisins may be present;

(4) Not more than 1 percent, by weight, of raisins may be poorly developed, blowovers;

(5) Not more than 3 percent, by weight, of raisins may be damaged;

(6) Not more than 5 percent, by weight, of raisins may be sugared;

(7) Not more than 2 percent, by count, of raisins may be moldy;

(8) The appearance or edibility of the product may not be affected by raisins damaged by fermentation; and

(9) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the raisins.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of Muscat Raisins that possess similar varietal characteristics; that possess a reasonably good typical color with not more than 15 percent, by weight, of raisins that may be dark reddish-brown berries in Soda Dipped Unseeded or Seeded (Valencia) raisins; that possess a good characteristic flavor; that show development characteristic of raisins prepared from reasonably well-matured grapes; that contain not more than 18 percent, by weight, of moisture, except that Seeded or Soda-dipped Seeded raisins may contain not more than 19 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table II of this subpart:

(1) Not more than 2 pieces of stems per 32 ounces of raisins may be present;

(2) Not more than 15 capstems per 16 ounces of raisins may be present in other than uncapstemmed raisins; and not more than 20 loose capstems per 16 ounces of raisins may be present in uncapstemmed raisins;

(3) Not more than 15 seeds per 16 ounces of raisins in Seeded or Soda-dipped Seeded raisins may be present;

(4) Not more than 2 percent, by weight, of raisins may be poorly developed, blowovers;

(5) Not more than 4 percent, by weight, of raisins may be damaged;

(6) Not more than 10 percent, by weight, of raisins may be sugared;

(7) Not more than 3 percent, by count, of raisins may be moldy;

(8) The appearance or edibility of the product may not be more than slightly affected by raisins damaged by fermentation; and

(9) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the raisins.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of Muscat Raisins that possess similar varietal characteristics; that possess a fairly good typical color with not more than 20 percent, by weight, of raisins that may be dark reddish-brown berries in Soda Dipped Unseeded or Seeded (Valencia) raisins; that possess a fairly good flavor; that show development characteristic of raisins prepared from fairly well-matured grapes; that contain not more than 18 percent, by weight, of moisture, except that Seeded or Soda-dipped Seeded raisins may contain not more than 19 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table II of this subpart:

(1) Not more than 3 pieces of stems per 32 ounces of raisins may be present;

(2) Not more than 20 capstems per 16 ounces of raisins may be present in other than uncapstemmed raisins; and not more than 20 loose capstems per 16 ounces of raisins may be present in uncapstemmed raisins;

(3) Not more than 20 seeds per 16 ounces of raisins in Seeded or Soda-dipped Seeded raisins may be present;

(4) Not more than 2 percent, by weight, of raisins may be poorly developed, blowovers;

(5) Not more than 5 percent, by weight, of raisins may be damaged;

(6) Not more than 15 percent, by weight, of raisins may be sugared;

(7) Not more than 4 percent, by count, of raisins may be moldy;

(8) The appearance or edibility of the product may not be materially affected by raisins damaged by fermentation; and

(9) Not more than a trace of grit, sand, or silt may be present that affects the appearance or edibility of the raisins.

(d) "Substandard" is the quality of Muscat Raisins that fail to meet the requirements of U. S. Grade C or U. S. Standard.

§ 52.1847a *Grades of Layer (or Cluster) Muscat Raisins.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of Layer (or Cluster) Muscat raisins that possess similar varietal characteristics; that possess a good typical color; that possess a good characteristic flavor; that are uniformly cured and show development characteristic of raisins prepared from well-matured grapes; that contain not more than 23 percent, by weight, of moisture; that not less than 30 percent, by weight, of the raisins, exclusive of stems and branches, are 3-Crown size or larger; and that meet the following additional requirements as also outlined in Table IIa of this subpart:

(1) The raisins are practically free from shattered (or loose) individual berries and small clusters of 2 or 3 berries each;

(2) Not more than 1 percent, by weight, of raisins may be poorly developed, blowovers;

(3) Not more than 3 percent, by weight, of raisins may be damaged;

(4) Not more than 5 percent, by weight, of raisins may be sugared;

(5) Not more than 2 percent, by count, of raisins may be moldy;

(6) The appearance or edibility of the product may not be affected by raisins damaged by fermentation; and

(7) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the raisins.

(b) "U. S. Grade B" or "U. S. Choice" is the quality of Layer (or Cluster) Muscat raisins that possess similar varietal characteristics; that possess a reasonably good typical color; that possess a good characteristic flavor; that are uniformly cured and show development characteristic of raisins prepared from reasonably well-matured grapes; that contain not more than 23 percent, by weight, of moisture; that not less than 30 percent, by weight, of the raisins, exclusive of stems and branches, are 3-Crown size or larger; and that meet the following additional requirements as also outlined in Table IIa of this subpart:

(1) The raisins are reasonably free from shattered (or loose) individual berries and small clusters of 2 or 3 berries each;

(2) Not more than 2 percent, by weight, of raisins may be poorly developed, blowovers;

(3) Not more than 4 percent, by weight, of raisins may be damaged;

(4) Not more than 10 percent, by weight, of raisins may be sugared;

(5) Not more than 3 percent, by count, of raisins may be moldy;

(6) The appearance or edibility of the product may not be more than slightly affected by raisins damaged by fermentation; and

(7) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the raisins.

(c) "Substandard" is the quality of Layer (or Cluster) Muscat raisins that fail to meet the requirements of "U. S. Grade B" or "U. S. Choice."

TYPE III—SULTANA RAISINS; SIZES, GRADES

§ 52.1848 *Sizes of Sultana Raisins.* Size designations are not applicable to Sultana Raisins.

§ 52.1849 *Grades of Sultana Raisins.* (a) "U. S. Grade A" or "U. S. Fancy" is the quality of Sultana Raisins that possess similar varietal characteristics; that possess a good typical color; that possess a good characteristic flavor; that show development characteristic of raisins prepared from well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table III of this subpart:

(1) Not more than 1 piece of stem per 32 ounces of raisins may be present;

(2) Not more than 25 capstems per 16 ounces of raisins may be present;

(3) Not more than 1 percent, by weight, of raisins may be poorly developed, blowovers;

(7) The appearance or edibility of the product may not be more than slightly affected by raisins damaged by fermentation; and

(8) No grit, sand, or silt of any consequence may be present that affects the appearance or edibility of the raisins.

(c) "U. S. Grade C" or "U. S. Standard" is the quality of Sultana Raisins that possess similar varietal characteristics; that possess a fairly good typical color; that possess a fairly good flavor; that show development characteristic of raisins prepared from fairly well-matured grapes; that contain not more than 18 percent, by weight, of moisture; and that meet the following additional requirements as also outlined in Table III of this subpart:

(1) Not more than 3 pieces of stem per 32 ounces of raisins may be present;

(2) Not more than 65 capstems per 16 ounces of raisins may be present;

(3) Not more than 2 percent, by weight, of raisins may be poorly developed, blowovers;

(4) Not more than 5 percent, by weight, of raisins may be damaged;

(5) Not more than 15 percent, by weight, of raisins may be sugared;

(6) Not more than 4 percent, by count, of raisins may be moldy;

(7) The appearance or edibility of the product may not be materially affected by raisins damaged by fermentation; and

(8) Not more than a trace of grit, sand, or silt may be present that affects the appearance or edibility of the raisins.

(d) "Substandard" is the quality of Sultana Raisins that fails to meet the requirements of U. S. Grade C or U. S. Standard.

moldy areas are detected by the presence of copious oxygen bubbles. Place the crystallizing dish over black glazed paper to give greater contrast. Confirm the presence of mold filaments microscopically. Do not class as "moldy" raisins those in which yeasts also give a reaction with hydrogen peroxide.

(2) Bleached raisins and others treated with lye, oil, or heat. Count out 100 raisins from a well-mixed sample. Place them in a 400 ml. beaker, cover with H_2O, heat to boiling and boil approximately 5 minutes. Drain off H_2O, and place raisins in a white pan. Cover completely with H_2O and examine with an ocular loupe or jeweler's eyepiece with magnification of approximately 5X. Count as moldy those that are obviously moldy, and examine microscopically those that are suspected of being moldy to determine the presence or absence of mold filaments.

(h) "Grit, sand, or silt" means any particle of earthy material.

(i) "Moisture" means the percentage by weight of the processed raisins, exclusive of branch and heavy stem material, that is moisture when determined by the Dried Fruit Moisture Tester Method or in accordance with methods that give equivalent results.

TYPE IV—MIXED TYPES OF RAISINS; GRADES

§ 52.1850 *Grades of mixed types.* The grade for a lot of mixed types of processed raisins shall be the lower (or lowest) grade of any varietal type in the mixture based on the respective requirements for each type, except for moisture in accordance with this subpart. Mixed types of processed raisins of U. S. Grade A or U. S. Fancy, U. S. Grade B or U. S. Choice, or U. S. Grade C or U. S. Standard may contain not more than 18 percent, by weight, of moisture. Mixed types of processed raisins that as a mixture exceed 18 percent, by weight, of moisture are "Substandard."

EXPLANATIONS AND METHODS OF ANALYSES

§ 52.1851 *Definitions of terms.* (a) "Capstems" means small woody stems exceeding ⅛ inch in length which attach the raisins to the branches of the bunch.

(b) A "piece of stem" means a portion of the branch or main stem.

(c) "Seeds" refers to the whole, fully developed seeds which have not been removed during the processing of Muscat Seeded Raisins.

(d) "Poorly developed, blowovers" refers to berries that are immature, contain practically no flesh, are very light in weight, and have very coarse wrinkles.

(e) "Damaged" raisins means raisins affected by sunburn, scars, mechanical injury, or other similar means which seriously affect the appearance, edibility, keeping quality, or shipping quality of the raisins. In Muscat Seeded Raisins, mechanical injury resulting from normal seeding operations is not considered damage.

(f) "Sugared" means either external or internal sugar crystals are present and the accumulation of such crystallized fruit sugars in the flesh of the raisins or on the surface are readily apparent.

(g) "Moldy" raisins are those that show mold on more than one-fourth of the surface when ascertained in accordance with whichever of the following methods is applicable:

(1) *Raisins showing catalase activity.* (For use on raisins where catalase activity has not been destroyed by treatment with lye, oil, or heat). Count out 100 raisins from a well-mixed sample and place 10 or 15 at a time in a crystallizing dish. Cover each lot with a fresh solution made up to contain 5 percent hydrogen peroxide and 1 percent NH_4OH. The

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Docket No. AO-10-A21]

PART 903—MILK IN ST. LOUIS, MO. MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 903.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and of the previously issued amendments thereto; and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the St. Louis, Missouri, marketing area. Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective not later than September 1, 1956, so as to reflect current marketing conditions. Any delay beyond September 1, 1956, in the effective date of this order amending the order, as amended, will impair the orderly marketing of milk in the St. Louis, Missouri, marketing area. The changes effected by this order amending the order, as amended, do not require of persons affected, substantial or extensive preparation prior to the effective date.

In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective September 1, 1956, and that it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order 30 days after its publication in the FEDERAL REGISTER (sec. 4 (c), Administrative Procedure Act, 5 U. S. C. 1001 et seq.).

(c) *Determinations.* It is hereby determined that handlers (excluding cooperative associations of producers who are not engaged in processing, distributing or shipping milk covered by this order amending the order, as amended, which is marketed within the St. Louis, Missouri, marketing area) of more than 50 percent of the milk which is marketed within the said marketing area, refused or failed to sign the proposed marketing agreement regulating the handling of milk in the said marketing area, and it is hereby further determined that:

(1) The refusal or failure of such handlers to sign said proposed marketing agreement tends to prevent the effectuation of the declared policy of the act;

(2) The issuance of the order amending the order, as amended, is the only practical means, pursuant to the declared policy of the act, of advancing the interests of producers of milk which is produced for sale in the said marketing area; and

(3) The issuance of this order amending the order, as amended, is approved or favored by at least two-thirds of the producers who, during the determined representative period (June 1956), were engaged in the production of milk for sale in the said marketing area.

Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the St. Louis, Missouri, marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

In § 903.51 (a) (2) delete the proviso and substitute therefor the following: "*Provided*, That for the months of September, October, and November, 1956 such rate shall be five cents and the maximum amount shall be plus or minus 45 cents."

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued at Washington, D. C., this 29th day of August 1956, to be effective on and after September 1, 1956.

PART 919—MILK IN SOUTHWEST KANSAS MARKETING AREA

ORDER AMENDING ORDER, AS AMENDED, REGULATING HANDLING

§ 919.0 *Findings and determinations.* The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order, and of the previously issued amendments thereto; and all said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings upon the basis of the hearing record.* Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), a public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Southwest Kansas marketing area.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order, as amended, and as hereby further amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The parity prices of milk as determined pursuant to section 2 of the act are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which affect market supply of and demand for milk in the said marketing area, and the minimum prices specified in the order, as amended, and as hereby further amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk and be in the public interest; and

(3) The said order, as amended, and as hereby further amended, regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial and commercial activity specified in, a marketing agreement upon which a hearing has been held.

(b) *Additional findings.* It is necessary, in the public interest, to make this order amending the order, as amended, effective not later than September 1, 1956, so as to reflect current marketing conditions. Any delay beyond September 1, 1956, in the effective date of this order amending the order, as amended, will impair the orderly marketing of milk in the Southwest Kansas, marketing area. The changes effected by this order amending the order, as amended, do not require of persons affected, substantial or extensive preparation prior to the effective date.

In view of the foregoing, it is hereby found and determined that good cause exists for making this order amending the order, as amended, effective September 1, 1956, and that it would be impracticable, unnecessary, and contrary to the public interest to delay the effective date of this order 30 days after its publication in the FEDERAL REGISTER (sec. 4 (c), Administrative Procedure Act, 5 U. Order relative to handling. It is therefore ordered, that on and after the effective date hereof the handling of milk in the Southwest Kansas marketing area shall be in conformity to and in compliance with the terms and conditions of the aforesaid order, as amended, and as hereby further amended, as follows:

Change the period at the end of § 919.51 (a) to a colon and add the following: "*Provided*, That during each of the months of September, October, and November 1956, such price should be increased by 25 cents per hundredweight."

PART 958—IRISH POTATOES GROWN IN COLORADO

LIMITATION OF SHIPMENTS

§ 958.323 *Limitation of shipments*—(a) *Findings.* (1) Pursuant to Marketing Agreement No. 97 and Order No. 58 (7 CFR Part 958), regulating the handling of Irish potatoes grown in the State of Colorado, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et. seq.), and upon the basis of the recommendation and information submitted by the area committee for Area No. 1, etsablished pursuant to said marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U. S. C. 1001 et seq.) in that (i) the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, (ii) more orderly marketing in the public interest, than would otherwise prevail, will be promoted by regulating the shipment of potatoes, in the manner set forth below, on and after the effective date of this section, (iii) compliance with this section will not require any preparation on the part of handlers which cannot be completed by the effective date, (iv) a reasonable time is permitted under the circumstances, for such preparation, and (v) information regarding the committee's recommendations has been made available to producers and handlers in the production area.

(b) *Order.* (1) During the period from September 3, 1956, through May 31, 1957, no handler shall ship any potatoes of the round varieties grown in Area No. 1 unless such potatoes meet the requirements of the U. S. No. 2, or better, grade, and are of a size not less than 2 inches minimum diameter, as such terms are defined in the United States Standards for Potatoes (§§ 51.1540 to 51.1559 of this title), including the tolerances set forth therein.

(2) During the period from September 3, 1956, through November 1, 1956, and subject to the requirements set forth in subparagraph (1) of this paragraph, no handler shall ship any lot of potatoes of the round varieties grown in Area No. 1 if such potatoes are more than "slightly skinned," as such term is defined in said United States Standards, which means that not more than 10 percent of such potatoes have more than one-fourth of the skin missing or "feathered."

(3) Notwithstanding the restrictions of this section, any handler may ship potatoes for livestock feed only if such handler had (i) first made application to the area committee for Area No. 1 for permission to make such shipment and (ii) obtained the committee's permission to make such shipment. Such application to the committee shall be accompanied by a certification from both the handler and the consignee or buyer that the potatoes will in fact be used as livestock feed.

(4) Terms used in this section shall have the same meaning as when used in Marketing Agreement No. 97 and Order No. 58.

TITLE 14—CIVIL AVIATION

Chapter I—Civil Aeronautics Board

Subchapter B—Economic Regulations

[Reg. ER-216]

PART 242—FILING OF REPORTS BY SUPPLEMENTAL AIR CARRIERS AND LARGE IRREGULAR AIR CARRIERS

Adopted by the Civil Aeronautics Board at its office in Washington, D. C., on the 28th day of August 1956.

In its decision in the Large Irregular Air Carrier Investigation, Docket No. 5132, et al, dated November 15, 1955, the Board adopted Order No. E-9744 creating the classification of "supplemental air carriers" and establishing certain policies with regard to the permissible

operations of these carriers. The amendments contained herein are largely designed to make Part 242 applicable to this new classification of carriers and to implement the policy determinations contained in the aforementioned order.

The revised Part 242 requires supplemental air carriers and large irregular air carriers to file flight reports monthly rather than quarterly. This revision also clarifies and expands the definitions now contained in Part 242. Inasmuch as these changes serve merely to implement the Board's order in the Large Irregular Air Carrier Investigation, cited supra, all interested parties have had notice concerning such changes. It should be noted that no objections were raised to those parts of the order upon which these modificatoins are predicated. Furthermore, the Board has informally requested the carriers to submit flight reports on a monthly basis and this request is currently being complied with.

The requirement of this part that the supplemental air carriers and the large irregular air carriers shall file a copy of each agreement with ticket agents is expanded herein to include cargo agents as well. The further provision is included to require these carriers to file with the Board a copy of each type of ticket sold for the transportation of persons by air, as well as the names and addresses of ticket and cargo agents with whom agreements have been concluded by the carriers. Noncertificated cargo carriers have been eliminated from the classification of carriers subject to this part.

Since these changes are relatively minor in nature, and in view of all of the foregoing circumstances, the Board finds that notice and public procedure hereon appear unnecessary and not in the public interest. However, the usual 30-day notice is being provided by making the revised Part 242 effective on October 1, 1956.

Accordingly, the Civil Aeronautics Board hereby amends Part 242 of the Economic Regulations (14 CFR, Chapter I) effective October 1, 1956, to read as follows:

Sec.
242.1 Definitions.
242.2 Statistical and flight reports required.
242.3 Filing of copies of agreements, manifests, and other flight data and publicity material.

AUTHORITY: §§ 242.1 to 242.3 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 407, 52 Stat. 1000 as amended; 49 U. S. C. 487.

§ 242.1 *Definitions.* For the purposes of this part:

(a) "Agreement" means any oral or written agreement, contract, understanding, or arrangement, and any amendment, revision, modification, renewal, extension, cancellation or termination thereof.

(b) "Ticket agent" means any person (other than the air carrier actually performing the direct air transportation or one of its bona fide regular employees) who for compensation or profit:

(1) Solicits, obtains, receives, or furnishes directly or indirectly passengers or groups of passengers for transportation upon the aircraft of an air carrier subject to this part, or

(2) Procures or arranges for air transportation of passengers or groups of passengers upon aircraft of an air carrier subject to this part by charter, lease, or any other arrangement.

(c) "Cargo agent" means any person (other than the air carrier actually performing the direct air transportation or one of its bona fide regular employees or an indirect air carrier lawfully engaged in air transportation under the exemption authority conferred by any applicable part of the Economic Regulations of the Board) who for compensation or profit:

(1) Solicits, obtains, receives or furnishes directly or indirectly property or consolidated shipments of property for transportation upon the aircraft of an air carrier subject to this part, or

(2) Procures or arranges for air transportation of property or consolidated shipments of property upon aircraft of an air carrier subject to this part by charter, lease, or any other arrangement.

(d) "Supplemental air carrier" means any air carrier classified and defined as such in Board Order No. E-9744, and holding an "Interim Operating Authorization" issued thereunder.

(e) "Large irregular air carrier" means any air carrier which:

(1) Directly engages in air transportation,

(2) Utilizes in such transportation one or more aircraft of more than 12,500 pounds maximum certificated take-off weight (as defined in § 42.1 of this chapter),

(3) Does not hold a certificate of public convenience and necessity under section 401 of the Civil Aeronautics Act of 1938, as amended, and

(4) Does not operate, or hold out to the public expressly or by course of conduct that it operates, one or more aircraft between designated points, or within a designated point, regularly or with a reasonable degree of regularity, upon which aircraft it accepts for transportation, for compensation or hire, such members of the public as apply therefor or such property as the public offers. No air carrier shall be deemed to be an irregular air carrier unless the air transportation services offered and performed by it are of such infrequency as to preclude an implication of a uniform pattern or normal consistency of operation between, or within, such designated points.

§ 242.2 *Statistical and flight reports required.* Each supplemental air carrier, and each large irregular air carrier, shall file with the Board monthly the prescribed number of copies of Schedule F of completed CAB Form 242, entitled "Report of Financial and Operating Statistics for Supplemental Air Carriers" and shall file all other schedules comprising CAB Form 242 in accordance with the instructions accompanying such form. Each such supplemental air carrier and large irregular air carrier shall keep all accounts, records, and memoranda (including accounts, records and memoranda of the movement of traffic as well as the receipts and expenditures of money), which are needed in order to accomplish full compliance with the reporting requirements of this part. Such accounts, records, and memoranda as relate to statistical reports shall be preserved for three years, and such as relate to flight reports shall be preserved for one year. The reports to be filed by such carriers shall be prepared in accordance with the following provisions and shall be certified to be correct by the responsible officers of the reporting carriers.

§ 242.3 *Filing of copies of agreements, manifests, other flight data and publicity material.* (a) All supplemental air carriers and large irregular air carriers shall file with the Board, contemporaneously with filing the flight reports under Schedule F of CAB Form 242 as required by § 242.2, one copy of each of the following supplements to Schedule F:

(1) *Agreements and manifests.* All written agreements, memoranda of all oral agreements, and all passenger and cargo manifests covering flights in the following categories:

(i) Each flight on which persons, either revenue or nonrevenue (other than crew required by applicable Civil Air Regulations), were carried between a point in the United States (as defined by section 1 (33) of the Civil Aeronautics Act) and a point outside thereof.

(ii) Each flight which does not constitute common carriage.

(2) *Other flight data.* A tabulation of the following data for each flight of the categories designated under subdivisions (i) and (ii) of subparagraph (1) of this paragraph (unless the information is available from instruments filed pursuant to said subparagraph):

(i) Name and address of the person for whom the flight was operated.

(ii) Manner in which passengers and cargo transported on such flight were obtained (solicitation, advertising, circular, etc.).

(iii) Nature, terms, and conditions of the arrangements for such flight.

(iv) Obligations and responsibilities of the parties to the arrangement in connection with the transportation.

(v) Number of persons (other than crew required by applicable Civil Air Regulations) carried on each flight of the category designated by subdivision (i) of subparagraph (1) of this paragraph.

(3 *Agreements with ticket and cargo agents.* If it is pertinent to any of the subjects listed below in subdivision (i), (ii), (iii) or (iv) of this subparagraph, true and complete lists of the names and addresses of each ticket and cargo agent by whom agreements have been made with a supplemental or large irregular air carrier and true and complete copies of all agreements between supplemental or large irregular air carrier and any ticket or cargo agent:

(i) The furnishing of passengers, groups of passengers or cargo for transportation by air.

(ii) The making of arrangements for flights for the accommodation of passengers, groups of passengers or cargo.

(iii) The solicitation or generation of passenger or cargo traffic to be trans-

ported by the supplemental air carrier or large irregular air carrier; or

(iv) The charter or lease of aircraft.

(4) *Publicity material on supplemental air carrier and large irregular air carrier operations.* Each advertisement, circular, pamphlet, brochure, or other publicity material and each announcement or notice issued by a supplemental carrier or large irregular carrier during the preceding period and pertaining to any of its air transportation services for passengers, and information with respect to each such item showing, if published in a newspaper, magazine or other advertising medium, the place and date or dates of issue, and the name of the publication, or if distributed otherwise, (such as through circulars, bulletins, pamphlets, or brochures), the dates, manner and extent of distribution.

(5) *Tickets.* True and complete copies of each type of tickets sold for the transportation of persons by air.

(b) Data reported pursuant to paragraphs (a) (1) and (a) (2) of this section shall be available for official use on behalf of the Civil Aeronautics Board, but shall otherwise be withheld from public disclosure except as disclosure may be necessary in carrying out responsibilities under section 412 of the act.

Effective date. This part shall become effective October 1, 1956.

NOTE: The record keeping and reporting requirements of this amendment have been coordinated with the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

By the Civil Aeronautics Board.

Sec. 34;
Sec. 35, W½NE¼, NW¼, N½SW¼, and NW¼SE¼;
Sec. 36, lots 1, 2, 3, and 4.

The areas described aggregate 4,470.67 acres.

3. Approximately 16,040 acres of the released lands are within the Saint Joe National Forest and shall be opened, subject to any valid existing rights, the provisions of existing withdrawals, and the requirements of applicable law, to such applications, selections, and locations as are permitted on national forest lands effective at 10:00 a. m. on September 29, 1956.

4. The restored lands are located in the general locality of Saint Maries, Idaho. They are mainly of rough and mountainous topography and are valuable for timber production.

5. No application for the restored lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

6. Subject to any valid existing rights and the requirements of applicable law, the restored lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean Conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on September 29, 1956 will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 29, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 29, 1956 will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws and to location for metalliferous minerals. They will be open to location for non-metalliferous minerals under the United States mining laws beginning at 10:00 a. m. on December 29, 1956.

7. Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Boise, Idaho.

FRED G. AANDAHL,
Acting Secretary of the Interior.

[Misc. 68155]

OREGON

POWER SITE RESTORATION NO. 516; PARTIALLY REVOKING THE EXECUTIVE ORDER OF JULY 2, 1910, SO FAR AS IT CREATED POWER SITE RESERVE NO. 126

By virtue of the authority contained in section 1 of the act of June 25, 1910, c. 421 (36 Stat. 847; 43 U. S. C. 141), and pursuant to Executive Order No. 10355 of May 26, 1952, it is ordered as follows:

The Executive order of July 2, 1910, so far as it withdrew the following-described lands as Power Site Reserve No. 126, is hereby revoked:

WILLAMETTE MERIDIAN

T. 14 S., R. 42 E.,
Sec. 19, S½N½;
Sec. 20, S½N½, S½;
Sec. 21, N½SW¼;
Sec. 28, NE¼, NE¼NW¼, NE¼SE¼;
Sec. 34, E½, E½W½.
T. 15 S., R. 42 E.,
Sec. 2, W½NW¼, SE¼NW¼, SW¼.

The areas described aggregate 1,720 acres.

The lands are grazing lands located in the northeast corner of Malheur County, Oregon, within the boundaries of Oregon Grazing District No. 3. They lie from 3 to 8 miles northwest of Brogan, Oregon, which is on U. S. Highway No. 28, twenty-four miles northwest of Vale, Oregon, the County Seat of Malheur County. Willow Creek flows through part of the lands, and a road along this creek runs through or near all the lands. They are at an average elevation of 3,000 feet and are rolling to rough. The soil is generally sandy clay, quite often intermingled with rock and gravel. The annual precipitation is ten inches, most of which falls during the nongrowing season. The vegetative cover consists of cheat grass, sage brush, some browse, and weeds.

No application for the lands may be allowed under the homestead, desert-land, small tract, or any other nonmineral public-land law unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon the consideration of an application. Any application that is filed will be considered on its merits. The lands will not be subject to occupancy or disposition until they have been classified.

Subject to any valid existing rights and the requirements of applicable law, the lands are hereby opened to filing of applications, selections, and locations in accordance with the following:

a. Applications and selections under the nonmineral public-land laws may be presented to the Manager mentioned below, beginning on the date of this order. Such applications and selections will be considered as filed on the hour and respective dates shown for the various classes enumerated in the following paragraphs:

(1) Applications by persons having prior existing valid settlement rights, preference rights conferred by existing laws, or equitable claims subject to allowance and confirmation will be adjudicated on the facts presented in support of each claim or right. All applications presented by persons other than those referred to in this paragraph will be subject to the applications and claims mentioned in this paragraph.

(2) All valid applications under the Homestead, Desert Land, and Small Tract Laws by qualified veterans of World War II or of the Korean conflict, and by others entitled to preference rights under the act of September 27, 1944 (58 Stat. 747; 43 U. S. C. 279–284 as amended), presented prior to 10:00 a. m. on September 29, 1956, will be considered as simultaneously filed at that hour. Rights under such preference right applications filed after that hour and before 10:00 a. m. on December 29, 1956, will be governed by the time of filing.

(3) All valid applications and selections under the nonmineral public-land laws, other than those coming under paragraphs (1) and (2) above, presented prior to 10:00 a. m. on December 29, 1956 will be considered as simultaneously filed at that hour. Rights under such applications and selections filed after that hour will be governed by the time of filing.

b. The lands have been open to applications and offers under the mineral-leasing laws. They also have been open to location under the United States mining laws pursuant to the provisions of the act of August 11, 1955 (69 Stat. 683; 30 U. S. C. 621).

Persons claiming veterans preference rights must enclose with their applications proper evidence of military or naval service, preferably a complete photostatic copy of the certificate of honorable discharge. Persons claiming preference rights based upon valid settlement, statutory preference, or equitable claims must enclose properly corroborated statements in support of their claims. Detailed rules and regulations governing applications which may be filed pursuant to this notice can be found in Title 43 of the Code of Federal Regulations.

The lands released from withdrawal by this order shall be subject, until 10:00 a. m. on December 28, 1956, to application by the State of Oregon, under any statute or regulation applicable thereto, for rights-of-way for public highways or as a source of material for the construction and maintenance of such highways pursuant to section 24 of the Federal Power Act of June 10, 1920 (41 Stat. 1075; 16 U. S. C. 818) as amended.

Inquiries concerning the lands shall be addressed to the Manager, Land Office, Bureau of Land Management, Portland, Oregon.

FRED G. AANDAHL,
Acting Secretary of the Interior.

AUTHORITY: §§ 172.1 to 172.62 issued under 68A Stat. 917, 62 Stat. 761, as amended; 52 Stat. 1252, 53 Stat. 1292; 26 U. S. C. 7805, 18 U. S. C. 1261, 15 U. S. C. 907, 49 U. S. C. 788. Other statutory provisions interpreted or applied are cited to text in parentheses.

SUBPART A—SCOPE OF REGULATIONS

§ 172.1 *Procedures relating to personal property.* Regulations in this part shall relate to personal property seized by officers of the Internal Revenue Service as subject to forfeiture as being used, or intended to be used, as the case may be, to violate Federal laws.

SUBPART B—DEFINITIONS

§ 172.5 *Meaning of terms.* As used in this part, unless the context otherwise requires, terms shall have the meanings ascribed in this subpart.

§ 172.6 *Appraised value.* "Appraised value" shall mean the value placed upon seized property by qualified appraisers designated for the purpose of determining whether the property may be forfeited administratively.

§ 172.7 *Assistant regional commissioner.* "Assistant regional commissioner" shall mean the assistant regional commissioner, Alcohol and Tobacco Tax, who is responsible to, and functions under the direction and supervision of, the regional commissioner.

§ 172.8 *Carrier.* "Carrier" shall mean a vessel, vehicle or aircraft seized for having been used to transport, carry or conceal a contraband firearm.

§ 172.9 *Commercial crimes.* "Commercial crimes" shall be deemed to mean any of the following types of crimes (Federal or State): Offenses against the revenue laws; burglary; counterfeiting; forgery; kidnapping; larceny; robbery; illegal sale or possession of deadly weapons; prostitution (including soliciting, procuring, pandering, white slaving, keeping house of ill fame, and like offenses); extortion; swindling and confidence games; offenses involving gambling or wagering; and attempting to commit, conspiring to comit, compounding or aiding, abetting, counselling, commanding, inducing or procuring the commission of any of the foregoing crimes.

§ 172.10 *Commissioner.* "Commissioner" shall mean the Commissioner of Internal Revenue.

§ 172.11 *Contraband firearm.* "Contraband firearm" shall mean a firearm with respect to which there has been committed a violation of the National Firearms Act (I. R. C., chapter 53) or any regulation issued thereunder.

§ 172.12 *Director, Alcohol and Tobacco Tax Division.* "Director, Alcohol and Tobacco Tax Division" shall mean the Director, Alcohol and Tobacco Tax Division, Internal Revenue Service, Treasury Department, Washington, D. C.

§ 172.13 *I. R. C.* "I. R. C." shall mean the Internal Revenue Code of 1954.

§ 172.14 *Person.* "Person" shall mean and include an individual, trust, estate, partnership, association, company or a corporation.

§ 172.15 *Re-appraisal.* The term "re-appraisal" shall mean an up-to-date statutory appraisal to determine the present value of the property involved in a petition for remission or mitigation of forfeiture, made by qualified appraisers as required by the applicable statute at the specific request of the petitioner whose petition in regard to the property has been allowed and who, for reasonable cause, is not satisfied that the original, statutory appraisal represents the present value of the property.

§ 172.16 *Recognized lien.* The term "recognized lien", as used in administrative action on petitions for remission or mitigation of forfeitures, shall mean that present, recognizable interest which a petitioner has in the personal property or carrier petitioned for at the time of filing of the petition, or at the time of final administrative action on the petition if the said interest has been reduced since filing of the petition, but in either event shall not be considered to include any unearned finance charges, insurance from date of seizure, or attorneys' fees for collection.

§ 172.17 *Region.* "Region" shall mean the area designated by the Secretary, or his delegate, comprising the geographical jurisdiction of a regional commissioner of internal revenue.

§ 172.18 *Regional Commissioner.* "Regional Commissioner" shall mean the Regional Commissioner of Internal Revenue of an internal revenue region.

§ 172.19 *Supervisor in Charge.* "Supervisor in Charge" shall mean the Supervisor in Charge, Alcohol and Tobacco Tax, Internal Revenue Service, who is responsible to, and functions under the direction and supervision of, the Assistant Regional Commissioner, Alcohol and Tobacco Tax.

§ 172.20 *U. S. C.* "U. S. C." shall mean the United States Code of 1952.

SUBPART C—SEIZURES AND FORFEITURES

§ 172.25 *Personal property subject to seizure.* Personal property may be seized by duly authorized officers of the Internal Revenue Service for forfeiture to the United States when used or intended to be used, in violation of the internal revenue laws, and certain other laws of the United States which such officers are empowered to enforce, including title 18 U. S. C. chapters 59, 229 (liquor); title 27 U. S. C. section 206 (liquor); title 15 U. S. C. chapter 18 (firearms); title 49 U. S. C. chapter 11 (transportation et cetera of contraband firearms).

§ 172.26 *Forfeiture of seized personal property.* Personal property seized as subject to forfeiture under the internal revenue laws and appraised at a value of $1,000.00 or less, and any carrier appraised at $2,500.00 or less under the customs laws shall be forfeited to the United States in administrative or summary forfeiture proceedings, unless within 30 days from the date of the first advertisement of seizure as required by I. R. C., section 7325, or within 20 days from the date of first publication of notice of seizure of carriers as required by 19 U. S. C., section 1608, a claimant appears and files proper claim supported by a $250.00 cost bond, thereby removing the forfeiture status of the property or carrier in question to the jurisdiction of the Federal court for adjudication, in which event the seizure in question shall be referred to the United States Attorney for appropriate judicial forfeiture proceedings or other disposition.

§ 172.27 *Type and conditions of cost bond.* The cost bond delivered by a claimant to effect removal of the forfeiture status of the property or carrier claimed to the jurisdiction of the Federal court for adjudication shall be a corporate surety bond: *Provided, however,* That upon a showing to the satisfaction of the Supervisor in Charge that the claimant is unable to furnish a corporate surety bond such claimant may deliver a cost bond with individual sureties acceptable to the Supervisor in Charge; provided, further, that in lieu of a cost bond with corporate or individual sureties the claimant may deposit collateral as provided in § 172.29. The cost bond shall be conditioned that in the case of the condemnation of the property the obligors shall pay all costs and expenses of the proceedings to obtain such condemnation.

§ 172.28 *Corporate surety bonds.* Corporate surety bonds may be given only with surety companies holding certificates of authority from the Secretary of the Treasury as acceptable sureties on Federal bonds, subject to the limitations prescribed by the Secretary in Treasury Department Form 356—Revised, and subject to such amendments as may be issued from time to time.

(61 Stat. 646, 68A Stat. 847; 6 U. S. C. 6, 26 U. S. C. 7101)

§ 172.29 *Deposit of collateral.* Bonds or notes of the United States, or other obligations which are unconditionally guaranteed as to both interest and principal by the United States, may be pledged and deposited by claimants as collateral security in lieu of corporate sureties in accordance with the provisions of Department Circular No. 154, revised (31 CFR Part 225): *Provided,* That United States Savings Bonds, Defense Savings Bonds and War Savings Bonds issued under the authority of section 22 of the Second Liberty Bond Act, as amended, and other bonds and notes of the United States, which are nontransferable or the hypothecation of which will not be recognized by the Treasury Department, may not be pledged and deposited as security in lieu of corporate sureties.

(61 Stat. 646, 68A Stat. 847; 6 U. S. C. 15, 26 U. S. C. 7101)

§ 172.30 *Bond for return of seized perishable goods.* The proceedings to enforce forfeiture of perishable goods shall be in the nature of a proceeding in rem in the district court of the United States for the district wherein such seizure is made. Whenever such property is liable to perish or become greatly reduced in price or value by keeping, or when it cannot be kept without great expense, the owner thereof may apply to the Supervisor in Charge to examine it, and, if in the opinion of the Supervisor in Charge, it shall be necessary to sell such property to prevent waste or expense, the Supervisor in Charge shall appraise the property. Thereupon the owner shall have the property returned to him upon giving a corporate surety bond (see § 172.28) in an amount equal to the appraised value of the property, which bond shall be conditioned to abide the final order, decree, or judgment of the court having cognizance of the case, and to pay the amount of the appraised value to the Supervisor in Charge, the United States Marshal, or otherwise, as may be ordered and directed by the court, which bond shall be filed by the Supervisor in Charge with the United States Attorney for the district in which the proceedings may be commenced. If the owner of such property neglects or refuses to give such bond within a reasonable time considering the condition of the property the Supervisor in Charge shall request the United States Marshal to proceed to sell the property at public sale as soon as practicable and to pay the proceeds of sale, less reasonable costs of the seizure and sale, to the court to abide its final order, decree, or judgment.

(68A Stat. 869, 870; 26 U. S. C. 7322, 7323, 7324)

SUBPART D—REMISSION OR MITIGATION OF FORFEITURES

§ 172.35 *Laws applicable.* Remission or mitigation of forfeitures shall be governed by the applicable customs laws.

(68A Stat. 871, 46 Stat. 756, 757, 53 Stat. 1292; 26 U. S. C. 7327, 19 U. S. C. 1613, 1618, 49 U. S. C. 784)

§ 172.36 *Interest claimed.* Any person claiming an interest in property seized by internal revenue officers as subject to administrative forfeiture may file a petition addressed to the Director, Alcohol and Tobacco Tax Division, for remission or mitigation of the forfeiture of such property.

§ 172.37 *Form of the petition.* There is no set or standardized form provided or required by the Department for use in filing a petition for remission or mitigation of forfeiture. However, it is preferable that the petition be typewritten on legal size paper; and it is necessary that the petition be executed under oath, prepared in triplicate and addressed to the Director, Alcohol and Tobacco Tax Division, and that all copies of original documents submitted as exhibits in support of allegations of the petition be certified as true and accurate copies of originals. Each copy of the petition must contain a complete set of exhibits.

§ 172.38 *Contents of the petition*—(a) *Description of property.* The petition should give such a description of the property and such facts of the seizure as will enable the officers of the Internal Revenue Service concerned to identify the property.

(b) *Statement regarding administrative forfeiture or sale.* If an executive proceeding for summary forfeiture is pending or has been consummated, the petition should state such fact and cite the sections of law under which forfeiture is sought or was accomplished; and if the property has been sold, the petition should also state the date and place of sale, and the gross amount of proceeds derived from the sale. If the property was acquired for official use in lieu of sale the petition should so state.

(c) *Statement regarding knowledge of seizure.* In the event the petition is filed for the restoration of the proceeds derived from sale of the property pursuant to summary forfeiture, it should also contain, or be supported by, satisfactory proof that the petitioner did not know of the seizure prior to the declaration or condemnation of forfeiture, and that he was in such circumstances as prevented him from knowing of the same. (See also § 172.39.)

(d) *Statement regarding judicial forfeiture or sale.* If a forfeiture proceeding is pending in court, or has resulted in forfeiture and sale of the property pursuant to court order, the petition should state the style of the case, and the sections of law cited as basis for forfeiture, the court, in which forfeiture is pending or in which the property was ordered forfeited and sold, the docket number, and the fact either that the property has not yet been sold, if forfeited and sold, the date and place of sale and the gross amount received from sale. If the forfeited property was acquired for official use in lieu of sale the petition should so state.

(e) *Interest of petitioner.* The petition should state in clear and concise terms the nature and amount of the present, recognizable interest of the petitioner in the property to be forfeited, or which has been forfeited and sold or otherwise disposed of, and the facts relied upon to show that the forfeiture was incurred without willful negligence or without any intention upon the part of the petitioner to defraud the revenue or to violate the law, or such other mitigating circumstances as, in the opinion of the petitioner, would justify the remission or mitigation of the forfeiture.

(f) *Petitioner innocent party.* If the petitioner is not the one who in person committed the act which caused the seizure, the petition should state how the property came into the possession of such other person, and that the petitioner had no knowledge or reason to believe, if such be the fact, that the property would be used in violation of law. The petition should also state the investigation, if any, made of such other person, through principal Federal, State or local law enforcement officers having jurisdiction of the locality in which such other person acquired his right under any contract or agreement, of the locality in which such other person resided and of each locality in which the petitioner made any other inquiry as to the character or financial standing of such other person, prior to parting with the property, to determine whether such other person had either a record or a reputation, or both, as a violator of the laws of the United States or of any State relating, for instance, to intoxicating liquors (in the case of seizures for violation of Federal laws relating to liquor) or to commercial crimes (in the case of seizures of carriers or seizures for violation of internal revenue laws relating to wagering), and the information obtained from said investigation.

(g) *Documents supporting claim.* The petition should also be accompanied by copies, certified by the petitioner under oath as correct, of contracts, bills of sale, chattel mortgages, reports of investigators or credit reporting agencies, affidavits, and any other papers or documents that would tend to support the claims made in the petition.

(h) *Costs and expenses.* The petitioner shall undertake to pay all the costs and expenses incurred in seizing and storing the property, as well as the costs borne or to be borne by the United States, the taxes, if any, payable by the petitioner or imposed in respect of the property to which the petition relates, and, if the property has been sold, or is in the course of being sold, the expenses so incurred.

§ 172.39 *Time of filing petition.* A petition may be filed at any time prior to the sale or other disposition of the property involved pursuant to administrative forfeiture, but a petition in regard to property which has already been sold or otherwise disposed of pursuant to administrative forfeiture must be filed within three months from the date of sale, and must contain the proof defined in § 172.38 (c). Acquisition for official use is equivalent to sale so far as remission or mitigation of any forfeiture is concerned.

(49 Stat. 880; 40 U. S. C. 304k)

§ 172.40 *Place of filing.* The petition should be filed, originally and in triplicate, with the Supervisor in Charge for the State or other territorial jurisdiction in which the seizure was made.

§ 172.41 *Discontinuance of administrative proceedings.* If the petition covers property pending administrative forfeiture or disposition and is filed prior to the administrative sale of the property, or prior to retention of the property for official use, any further proceedings for forfeiture or disposition, as the case may be, will be discontinued.

§ 172.42 *Return of defective petition.* If the petition is defective in some correctible respect, the Supervisor in Charge will return all copies of it by letter to the petitioner for proper corrections, amendments, et cetera, or for the submission of a new petition supplying the deficiencies of the one returned, within a reasonable time in either event.

§ 172.43 *Types of final action.* The Director, Alcohol and Tobacco Tax Division, shall take final action on any petition filed pursuant to these regulations.

Such final action shall consist either of the allowance or denial of a petition. Petitions allowed by the Director, Alcohol and Tobacco Tax Division, will fall generally into the following five classes on the basis of the terms and conditions of allowance:

(a) The property itself is returnable to the petitioner upon payment by him of all costs and storage charges; or

(b) The property is returnable to the petitioner provided he pays the difference between the recognized lien and the appraised value, plus all costs and storage charges, otherwise the property is sold, or acquired for official use by a governmental agency, pursuant to forfeiture, and the petitioner's recognized lien is paid as provided in § 172.44 or out of the proper appropriation of the receiving agency if the property was acquired for official use, less all costs and storage charges in either event; or

(c) The property, if a vehicle, is returnable to the petitioner provided he pays any difference between the amount of his recognized lien and the present appraised value, plus all costs and storage charges, subject, however, to the right of the Internal Revenue Service to pay the petitioner the amount of his recognized lien, less all costs and storage charges, and to acquire the vehicle for official use; or

(d) The property is returnable to the petitioner upon payment by him of a specified sum in mitigation, proposed by him, accepted by the Director, Alcohol and Tobacco Tax Division, and made a condition of allowance, or by the Director, Alcohol and Tobacco Tax Division, on his own initiative made a condition of allowance, in either event the petitioner to pay all costs and storage charges (plus the difference between the recognized lien and the appraised value when that condition is imposed); or

(e) The petitioner's lien is recognized in the amount as established, in the case wherein the property has been sold or acquired for official use, to be paid, less all costs and storage charges, in full, or pro tanto, in conformance with the applicable provisions of § 172.44, or out of the proper appropriation of the receiving agency if the property is acquired for official use.

§ 172.44 *Payment of liens.* In an allowed petition case wherein the petitioner does not elect to pay the difference between his recognized lien and the present appraised value, plus all costs and storage charges, thus necessitating sale of the property or carrier, pursuant to clearance for sale, the petitioner's recognized lien shall be paid as follows:

(a) If the property or carrier involved is forfeitable, or has been forfeited but not sold or otherwise disposed of, the property shall be sold pursuant to forfeiture, the petitioner's recognized lien thereafter to be paid on certification by the regional commissioner's office out of the proper appropriation, in full or pro tanto, to the extent of the gross proceeds of sale, less all costs and storage charges; or

(b) If the property or carrier has been sold, the petitioner's recognized lien shall be paid on certification by the regional commissioner's office out of the proper appropriation, in full or pro tanto, to the extent of the gross proceeds of sale, less all costs and storage charges.

§ 172.45 *Re-appraisal of property involved in an allowed petition.* In determining the nature and extent of the relief to be afforded a petitioner pursuant to allowance of his petition, the value of the property or carrier involved in the allowed petition shall be considered to mean the value placed on said property or carrier pursuant to official appraisal thereof by the qualified appraisers immediately following seizure; provided, however, that if the petitioner desires an up-to-date re-appraisal made of the property or carrier, after notification as to the terms of allowance of the petition, and makes written request therefor, undertaking in said request to pay, or to be liable for, the total costs of such re-appraisal, the property or carrier shall be re-appraised officially in the same manner in which the original appraisal was made, and the terms and conditions of allowance shall stand modified to the extent required by such re-appraisal.

SUBPART E—APPRAISER'S FEES

§ 172.50 *Rate of compensation.* Each appraiser shall receive compensation of $3.00 per day for the performance of his duties in appraising property or carriers seized by the Internal Revenue Service.

(68A Stat. 870; 26 U. S. C. 7325)

SUBPART F—ADMINISTRATIVE SALE OF PERSONAL PROPERTY

§ 172.55 *Alternative methods of sale.* When personal property or a carrier forfeited administratively has been cleared for administrative sale, the Supervisor in Charge shall give 10 days' notice of the sale of the said property or carrier by notice placed in a newspaper of general circulation published in the internal revenue collection district wherein the seizure was made. At the discretion of the Supervisor in Charge, based upon which method in his sound judgment is most advantageous to the best interests of the United States, the forfeited personal property or carrier may be advertised for sale, and sold, at public auction to the highest bidder on open, competitive bids, or to the highest bidder on sealed, competitive bids.

(68A Stat. 870; 26 U. S. C. 7325)

§ 172.56 *All bids on unit basis.* All competitive bids, whether sealed or otherwise, shall be on a unit basis, i. e. if a number of forfeited automobiles are advertised for sale at the same date, hour and place, whether or not in the same notice of sale, there shall be a separate, individual bid required as to each automobile, and it shall not be permissible to accept one blanket bid to cover the entire group of cars offered for sale.

§ 172.57 *Conditions of sale.* All personal property to be sold shall be offered for sale "as is" and without recourse against the United States. No guarantee or warranty, express or implied, shall be given or understood in respect of any forfeited seizure offered for sale.

§ 172.58 *Terms of sale.* The terms of sale shall be cash in the amount of the accepted bid.

§ 172.59 *Sale of forfeited tobacco materials and products.* All tobacco materials, tobacco products and cigarette papers and tubes, shall be sold at a price which will include the tax due and payable thereon; provided, however, that tobacco materials may be sold to the highest bidder, without regard to any tax, whether by sealed bid or otherwise, if such bidder is a manufacturer of tobacco products or a dealer in tobacco materials holding a permit to engage in such business, such materials to be accounted for in records required to be kept by him for internal revenue purposes. Written, timely notice shall be given by the Supervisor in Charge to the manufacturer of any forfeited tobacco product offered for sale.

§ 172.60 *Purchaser entitled to bill of sale.* Each purchaser of administratively forfeited property, including carriers, shall be entitled to receive a suitable and authentic bill of sale on a form to be provided for the purpose.

§ 172.61 *Sale on open, competitive bids.* If the personal property is to be sold at public auction to the highest bidder on open, competitive bids, the notice of sale shall so specify, and state the date, hour and place of sale.

§ 172.62 *Sale on sealed, competitive bids.* If the property is to be sold to the highest bidder on sealed, competitive bids, the notice of sale shall so specify, and shall state the date, hour and place of sale, and the date, hour and place before the sale when and where the property, including carriers, may be viewed by prospective sealed bidders, and necessary information obtained. All sealed bids must be filed with the Supervisor in Charge before the sale. No bids will be accepted after the sale starts. The United States reserves the right to reject any and all such bids, to declare "no sale", and to re-advertise the property for sale. At the appointed date, hour and place of sale, all sealed bids timely filed shall be opened in the presence of all bidders attending the sale, who shall have the privilege of inspecting the bids if they so desire.

[Hearing Clerk Docket No. SH-139]

SUGARCANE; HAWAII

NOTICE OF REOPENING OF HEARING ON PRICES AND DESIGNATION OF PRESIDING OFFICERS

Pursuant to the authority contained in subsection (c) (2) of section 301 of the Sugar Act of 1948, as amended (61 Stat. 929; 7 U. S. C. Sup. 1131), and in accordance with the rules of practice and procedure applicable to fair price proceedings (7 CFR 802.1 et seq.), notice is hereby given that a public hearing will be held as follows:

At Hilo, on the Island of Hawaii, in the Auditorium of the Hilo Electric Light Company, Limited, on Kilauea Avenue, on September 14, 1956, at 9:00 a. m.

The Olaa Sugar Company, Ltd., Olaa, Hawaii, T. H., has filed with the Department a formal protest alleging that the fair price determination applicable to the 1956 crop, issued on July 9, 1956, did not establish a fair and reasonable rate for processing sugarcane, delivered to Olaa Sugar Company by other producers. The company states that certain operating costs during the first part of 1956 are higher than the estimates furnished at the original hearing and has requested another hearing to present additional cost data and to review the entire hearing record in the light of current operating conditions.

The purpose of reopening the record and hearing (identified as Hearing Clerk Docket No. SH-139) is to afford an opportunity for the presentation of additional facts to be taken into consideration in reappraising the processing rate which would be fair and reasonable for sugarcane delivered by other producers and processed by the Olaa Sugar Company, Ltd. The scope of such hearing will therefore be limited to the presentation of evidence relative and pertinent to a fair and reasonable rate to be charged by Olaa Sugar Company, Ltd. for processing sugarcane delivered to it by other producers.

The hearing after being called to order at the time and place mentioned herein, may be continued from day to day within the discretion of the presiding officers, and may be adjourned to a later day or to a different place without notice other than the announcement thereof at the hearing by the presiding officers.

In the interest of obtaining the best possible information, all interested persons are requested to appear at the hearing to express their views and present appropriate data in regard to the foregoing matter.

A. A. Greenwood, Will N. King, and Tom O. Murphy are hereby designated as presiding officers to conduct either jointly or severally the foregoing hearing.

Issued this 27th day of August 1956.

[SEAL] THOS. H. ALLEN,
Acting Director, Sugar Division.

[14 CFR Part 406]

AIR NAVIGATION CERTIFICATE AND NOTICES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the Administrator of Civil Aeronautics contemplates the adoption of the following rules which would revise Part 406 of the regulations of the Administrator. Form ACA-115, "Air Navigation Facility Certificate," is no longer used by the Administration to issue lawful authority to operate a true light. Form ACA-114, "Certification and Lawful Authority to Operate a True Light," is now issued for such lawful authority. In addition, a temporary certificate is no longer issued for such lights. The purpose of this amendment is to advise the public of such changes and make minor clarifying corrections in the language of § 406.17.

All interested persons who desire to submit comments and suggestions for consideration by the Administrator of Civil Aeronautics in connection with the proposed rules shall send them to the Civil Aeronautics Administration, Washington 26, D. C., within 30 days after publication of this notice in the FEDERAL REGISTER.

Part 406 would be amended as follows:

§ 406.17 *Air navigation certificate and notices.* The following air navigation certificate will be issued by the Administrator to qualified applicants. In addition, the following air navigation notices are required for the construction or alteration of certain structures and landing areas.

(a) *Authorization to operate true light*—(1) *Purpose.* Upon certification by an applicant that a light will be established, maintained and operated as an aid to air navigation in accordance with the applicable requirements of the Administration, the Administrator will issue an authorization to the applicant authorizing him to operate such light as a "true light."

(2) *Application.* The application shall be submitted on Form ACA-114, "Certification and Lawful Authority to Operate a True Light."

(b) *Notice of construction or alteration*—(1) *Purpose.* The purpose of this notice is to advise the Administrator of the construction or alteration of certain structures and landing areas along or near civil airways for which a notice is required under Part 625 of this chapter.

(2) *Submittal of notice.* Notice shall be submitted to the Administrator in accordance with the provisions of Part 625 of this chapter on Form ACA-117, "Notice of Construction or Alteration."

EMPLOYMENT OF LEARNERS

DECISION WITH RESPECT TO WAGES IN MANUFACTURE OF HOUSE DRESSES

Pursuant to notice published in the FEDERAL REGISTER (21 F. R. 3230), interested person were given opportunity to submit oral and written data, views, and arguments before Harry Weiss, my authorized representative, on June 5, 1956, in the Department of Labor Building, Washington, D. C., on the question of what provision, if any, for the employment of learners at wages lower than $1.00 per hour in the manufacture of house dresses is necessary in order to prevent curtailment of opportunities for employment. Mr. Weiss has reported his findings to me and recommended that the supplemental learner regulations applicable to the manufacture of house dresses (29 CFR 522.21 (a)) be left unchanged.

Having fully considered all pertinent data available to me, I accept these findings. I have decided not to amend the learner regulations applicable to the manufacture of house dresses, because I have concluded that the regulations as they now stand are necessary and adequate to prevent any curtailment of opportunities for employment flowing from the $1.00 per hour minimum wage requirement in the manufacture of house dresses.

A copy of the findings will be sent to any interested person upon request. All requests should be addressed to the Wage and Hour Division, United States Department of Labor Building, Fourteenth and Constitution Avenue NW., Washington 25, D. C.

Signed at Washington, D. C., this 28th day of August 1956.

NEWELL BROWN,
Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42]

[Draft Release 56-24]

ADMISSION TO FLIGHT DECK

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board amendments to Parts 40, 41, and 42 of the Civil Air Regulations as set forth below.

Interested persons may participate in the making of the proposed rule by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rule, communications must be received by Nov. 1, 1956. Copies of such communications will be available after Nov. 6, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Currently effective § 40.356 of Part 40 of the Civil Air Regulations specifies the persons who may be admitted to the flight deck of an air carrier. Although it was the intention of the Board to limit admission to the flight deck to the per-

sons specified in this section, it is apparent from comments received from interested observers that there is ambiguity as to whether other persons not expressly authorized to be admitted to the flight deck are prohibited from admission therein. To dispel such ambiguity, it is proposed to amend this section to specifically deny admittance to the flight deck of an airplane to all persons except those authorized in accordance with the provisions of this section.

A growing need for in-flight observation of equipment and procedures has been verified by the Board in the granting of many recent waivers, and the experience gained in operations subject to such waivers has been excellent. Accordingly, it is also proposed to include in the list of persons authorized to be admitted to the flight deck, without having a seat available in the passenger compartment, certain operations personnel of the air carrier and technical representatives of the manufacturer of the airplane or components thereof. It is contemplated that authorizations for such operations personnel and technical representatives will be granted by the air carrier only when the presence of such persons in the cockpit is required in the furtherance of their functions of observing and monitoring the in-flight operations of the air carrier or its equipment. It should be clearly understood that it is not intended by this proposal to compromise in any way the authority of the pilot in command to refuse such persons admission to the flight deck.

In order to achieve uniformity in the Civil Air Regulations, it is proposed to make similar amendments to the corresponding sections in Parts 41 and 42 of the Civil Air Regulations which pertain to admission to the flight deck. It is recognized that some aircraft operating pursuant to Part 42 do not have separate pilot compartments. The proposal as finally adopted will be so worded as to take this condition into account.

In view of the foregoing, notice is hereby given that it is proposed to amend §§ 40.356, 41.121, and 42.51 (g) respectively of Parts 40, 41, and 42 of the Civil Air Regulations to read as follows:

Admission to flight deck. No persons, other than crew members, shall be admitted to the flight deck of an airplane except those authorized in paragraphs (a) and (b) of this section. For the purposes of this section, the Administrator shall determine what constitutes the flight deck.

(a) CAA Aviation Safety Agents and authorized representatives of the Board while in the performance of official duties shall be admitted to the flight deck.

NOTE: Nothing contained in this paragraph shall be construed as limiting the emergency authority of the pilot in command to exclude any person from the flight deck in the interest of safety.

(b) The persons listed below may be admitted to the flight deck when authorized by the pilot in command:

(1) An employee of the Federal Government or of an air carrier or other aeronautical enterprise whose duties are such that his presence on the flight deck is necessary or advantageous to the conduct of safe air carrier operations, or

NOTE: Federal employees who deal responsibly with maters relating to air carrier safety and such air carrier employees as pilots, dispatchers, meteorologists, communication operators, and mechanics whose efficiency would be increased by familiarity with flight conditions may be considered eligible under this requirement. Employees of traffic, sales, and other air carrier departments not directly related to flight operations cannot be considered eligible unless authorized under subparagraph (2) of this paragraph.

(2) Any other person specifically authorized by the air carrier management and the Administrator.

(c) All persons admitted to the flight deck shall have seats available for their use in the passenger compartment except:

(1) CAA Aviation Safety Agents or other authorized representatives of the Civil Aeronautics Administration or the Civil Aeronautics Board engaged in checking flight operations;

(2) Air traffic controllers who have been authorized by the Administrator to observe ATC procedures;

(3) Certificated airmen of the air carrier;

(4) Certificated airmen of another air carrier who have been authorized by the air carrier concerned to make specific trips over the route;

(5) Employees of the air carrier, whose functions are directly related to the conduct or planning of flight operations or the in-flight monitoring of aircraft equipment or operating procedures, but only when their presence in the cockpit is required in the furtherance of such functions and when specifically authorized, in writing, by a responsible supervisor in the operations department of the air carrier, who is listed in the Operations Manual as having such authority; and

(6) Technical representatives of the manufacturer of the airplane or its components whose functions are directly related to the in-flight monitoring of aircraft equipment or operating procedures, but only when their presence in the cockpit is required in the furtherance of such functions and only when specifically authorized in writing by the Administrator and by a responsible supervisor in the operations department of the air carrier, who is listed in the Operations Manual as having such authority.

This regulation is proposed under the authority of Title VI of the Civil Aeronautics Act as amended. The proposal may be changed in the light of comment received in response to this notice of proposed rule making.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012, as amended; 49 U. S. C. 551–560)

Dated at Washington, D. C., August 22, 1956.

[Draft Release 56-23]

TRANSPORTATION OF EXPLOSIVES AND OTHER DANGEROUS ARTICLES

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of a revision of Part 49 of the Civil Air Regulations as hereinafter set forth.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by November 1, 1956. Copies of such communications will be available after November 6, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

Regulations governing the air transportation of explosives were originally promulgated in 1942 and expanded to cover "other dangerous articles" in 1944. These rules were amended in 1949 to permit the carriage of additional articles as the experience gained by operators had shown that they were capable of handling a greater variety of these materials with safety. The basis used was the then current ICC regulations applicable to shipments by rail express since this type of shipment closely approximated conditions met in air transportation. These requirements were more conservative and provided a greater margin of safety than were required for other means of transportation.

In 1949, Appendices A and B were added which listed those articles prohibited from transportation by air and those articles prohibited from transportation on passenger-carrying aircraft, respectively. The articles listed in Appendix A were derived from those which were not acceptable under the ICC regulations for shipment by rail express. The articles listed in Appendix B were derived from those which were not exempt from the packing, marking, and labeling requirements of the ICC regulations for shipment by rail express.

In promulgating Part 49, the Board envisioned that the commodities listed in the appendices would be examined periodically on the basis of information furnished by the Bureau of Explosives, changes in the ICC regulations, and such other data as became available. On the basis of information furnished by the Bureau of Explosives, the ICC regulations have been amended quarterly. However, the appendices of Part 49 have not been amended since they were adopted in 1949. As a consequence, Part 49 is, and will continue to be, out of date if appropriate amendments are not made. In order to insure that Part 49, without further amendment, is continuously in accord with the ICC regulations as they are amended from time to time, this proposed revision contains references to the appropriate ICC regulations and the appendices have been deleted. This proposed action will obviate the continual amendment of Part 49. However, it should be emphasized that the Board's close working relationship with the Bureau of Explosives, the Interstate Commerce Commission, the Civil Aeronautics Administration, and other organizations expert in this field will be continued. This is particularly significant in the light of the fact that commodities intended for shipment by air typically involve the use of surface carriers for at least some portion of the total shipment.

Present Part 49, as amended by Amendment 49-2, refers to Board action on December 27, 1954, approving, under Section 412 of the Civil Aeronautics Act, IATA Traffic Conference Resolution 608 (as amended) with respect to shippers certification and labeling requirements. Subsequent action was taken by the Board on June 15 and December 16, 1955, approving the IATA Resolutions which contain "IATA Regulations Relating to the Carriage of Restricted Articles." Labels approved by this subsequent Board action may be used in complying with the labeling requirements of this part, since such labels have been adopted by the ICC and are presently specified in the ICC regulations.

Present Part 49 permits the carriage of nitrocellulose base film and nitrocellulose pyroxylin plastics in both passenger and cargo operations. However, interested experts have advised that studies made of nitrocellulose base film indicate that such film deteriorates with age, and that with such deterioration the film becomes more susceptible to spontaneous combustion. The Bureau has been advised also that none of this film has been manufactured in the United States since 1950. It is proposed that nitrocellulose base film be prohibited from shipment in air commerce. In addition, by reference to the ICC regulations certain nitrocellulose pyroxylin plastic products would be permitted to be shipped on cargo aircraft only rather than on both passenger and cargo aircraft, as is presently permitted by Part 49.

The present ICC regulations exempt certain flammable liquids, when packed in inside containers not exceeding one pint capacity each, from the packing, marking, and labeling requirements for shipment by rail express. Present Part 49 permits flammable liquids to be carried when packed in quantities of not more than one quart in inside metal containers, or in quantities of not more than one pint in inside glass or earthenware containers. By reference to the ICC regulations, this proposed revision limits the quantities of such flammable liquids to one pint per inside container when shipped by air on passenger-carrying aircraft. Furthermore, by referencing the ICC regulations, the present requirements in Part 49 prescribing glass or metal containers only will also be eliminated so that other adequate containers may be used.

Part 49 presently permits the carriage of most nonflammable compressed gases. However, there are seven such gases which, according to expert opinion, should continue to be prohibited in passenger-carrying operations. The proposed revision continues such a prohibition. Also safety matches (strike-on-the-box type) are presently listed by Part 49 as flammable solids and are required to be packed in tightly closed metal containers in quantities of not more than 25 pounds in strong outside containers. However, these articles are not presently subject to ICC regulation and, accordingly, will not be regulated under the proposed revision.

Although not specifically covered in this proposed revision, the Board also has under consideration the inclusion of certain categories of infectious biologic agents in the group of dangerous articles prohibited from transportation by air.

In preparing this proposed revision, extensive discussions have been held with representatives of the Civil Aeronautics Administration, the Interstate Commerce Commission, the Bureau of Explosives, industry associations, and other interested persons.

In view of the foregoing, notice is hereby given that it is proposed to recommend to the Board that Part 49 of the Civil Air Regulations be revised as set forth below.

This revision is proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

CARGO AIRCRAFT

49.41 Articles which may be carried on cargo aircraft.

APPLICABILITY AND DEFINITIONS

§ 49.1 *Applicability of this part.* Explosives and other dangerous articles, as defined and regulated in Parts 72 through 78 of the ICC regulations (49 CFR Parts 72–78), including but not limited to flammable liquids, flammable solids, oxidizing materials, corrosive liquids, compressed gases, and poisonous articles, shall not be loaded in or transported by civil aircraft in the United States, or transported anywhere in air commerce in civil aircraft of United States registry, except as hereinafter provided. Explosives and other dangerous articles listed in Part 72 of the ICC regulations (49 CFR Part 72) as articles not accepted for rail express shall not be carried on aircraft subject to the provisions of this part. The provisions of this part shall not be applicable to aircraft equipment such as signaling devices, aviation fuel and oil carried in tanks complying with the fuel and oil tank installation provisions of the Civil Air Regulations, and other equipment and materials necessary for the safe operation of the aircraft on which they are carried.

NOTE: In addition to other authorized sanctions, section 902 of Title IX of the Civil Aeronautics Act of 1938, as amended (52 Stat. 1015, as amended; 49 U. S. C. 622), provides that any person who knowingly delivers or causes to be delivered to an air carrier or to the operator of any civil aircraft for transportation in air commerce, or who causes the transportation in air commerce of, any shipment, baggage, or property, the transportation of which is prohibited by any rule, regulation, or requirement prescribed by the Civil Aeronautics Board, pursuant to authority under Title VI of the Civil Aeronautics Act of 1938, as amended, relating to the transportation, packing, marking, or description of explosives or other dangerous articles shall, upon conviction thereof for each such offense, be subject to the applicable penalties set forth therein.

§ 49.2 *Special authority.* (a) In emergency situations or where other forms of transportation are impracticable:

(1) Deviations from any of the provisions of this part for a particular flight may be authorized by the Administrator where he finds that the conditions under which the articles are to be carried are such as to permit the safe carriage of persons and cargo.

(2) Shipments made by the Atomic Energy Commission shall be exempt from quantity limitation prescribed for radioactive materials by § 49.31 (d), provided such shipments are otherwise in accordance with the requirements approved by the Interstate Commerce Commission for shipment by rail express and prior notification of each shipment is given by the Atomic Energy Commission in the form and manner prescribed by the Administrator.

(b) Shipments of radioactive materials made by the Atomic Energy Commission or under its direction or supervision, which are escorted by personnel who are especially designated by the Atomic Energy Commission, shall be exempt from the provisions of these regulations where special arrangements are made and approved by the Administrator.

§ 49.5 *Definitions.* As used in this part terms are defined as follows:

Cargo Aircraft. A cargo aircraft is an aircraft which is not a passenger-carrying aircraft and which is used for the carriage of goods.

Commodities. (As defined in Part 73 of the ICC regulations (49 CFR Part 73)):

Compressed gas.
Corrosive liquids.
Explosives and other dangerous articles.
Flammable liquid.[1]
Flammable solid.[1]
Oxidising material.
Poisonous articles.

ICC regulations. ICC regulations mean the currently effective "Interstate Commerce Commission's Regulations for Transportion of Explosives and Other Dangerous Articles," as amended or revised from time to time.

NOTE: These ICC regulations may be obtained from the Government Printing Office, Washington 25, D. C., or from the Bureau of Explosives, 30 Vesey Street, New York 7, New York.

Labeling. Labeling is the display on the container of an appropriate label specified in the ICC regulations for the particular class of article.

Marking. Marking is the display on the outside of the container of the name of the article inside as required by this part.

Operator of aircraft. Operator of aircraft means any person who causes or authorizes the operation of any civil aircraft, whether with or without the right of legal control (in the capacity of owner, lessee, or otherwise) of such aircraft.

Passenger-carrying aircraft. A passenger-carrying aircraft is an aircraft carrying any individual other than a flight crew or crew member, company employee, or an authorized Government representative.

Person. Person means any individual, firm, copartnership, corporation, company, association, joint-stock association, or body politic; and includes any trustee, receiver, assignee, or other similar representative thereof.

Quantity. Quantity is that net amount specified in United States liquid measure or in avoirdupois weight, unless otherwise provided in this part.

Unit of radiation. As defined in part 75 of the ICC regulations (49 CFR Part 75).

SHIPPING REQUIREMENTS

§ 49.11 *Packing and marking requirements.* Unless otherwise specifically provided in this part, explosives and other dangerous articles shall be packed and marked in accordance with the requirements prescribed in Parts 72, 73, and 78 of the ICC regulations (49 CFR Parts 72, 73, 78) as are applicable to rail express. Liquids shall be packed only in containers which are securely closed, sufficient in strength to prevent any leakage or distortion of the containers caused by change in temperature or pressure during transit, and so filled as to provide adequate outage.

§ 49.12 *Labeling requirements.* Unless otherwise specifically provided in this part, explosives and other dangerous articles shall be conspicuously labeled by the shipper, even though they may be exempted from ICC labeling requirements by virtue of ICC quantity and packing limitations. Explosives and other dangerous articles acceptable under the provisions of this part for transportation in air commerce shall bear the appropriate label specified in the ICC regulations.

§ 49.13 *Shipper's certification for carriage by air.* (a) No shipper shall offer and no air carrier or other operator of aircraft shall knowingly accept explosives and other dangerous articles for carriage by air unless the package is accompanied by or shows a clear and plainly visible statement signed by the shipper or his duly authorized agent that the shipment complies with the requirements of this part. No such shipment shall be accepted for transportation by passenger-carrying aircraft unless the shipper's certification includes an additional statement that the shipment is within the limits prescribed by this part for passenger-carrying aircraft. Any air carrier or other operator of aircraft may rely on such a certification as prima facie evidence that the shipment so certified complies with the requirements of this part.

NOTE: The following statement signed by the shipper or his duly authorized agent will be accepted as meeting this requirement: This is to certify that the contents of this package are properly described by name and are packed, marked, and labeled and are in proper condition for transportation according to the regulations prescribed by the Interstate Commerce Commission and the Civil Aeronautics Board.

For shipment on passenger-carrying aircraft the following must be added to the above: This shipment is within the limitations prescribed for passenger-carrying aircraft.

(b) The shipper's certification of compliance with this part shall be made upon the ICC label affixed to each package containing explosives or other dangerous articles when there is a provision on the face of the label for such certification. When the label used does not so provide, such certification shall be made in duplicate and signed by the shipper or his duly authorized agent for each consignment. One signed copy shall accompany the shipment and the other signed copy shall be retained by the originating carrier. The air carrier or other operator of aircraft may also require the shipper to have the shipper's statement certified by an authority approved by the carrier.

§ 49.14 *Quantity equivalents.* Quantities measured by the metric system or the imperial system may be substituted on the basis of one liter or one imperial quart per quart specified and 500 grams per pound specified up to one gallon for liquids or 10 pounds for solids.

LOADING AND HANDLING REQUIREMENTS

§ 49.21 *Cargo location.* (a) Articles subject to the requirements of this part shall not be carried in the cabins of passenger-carrying aircraft.

(b) Any article aceptable only for cargo aircraft shall be carried in accessible cargo pits or bins or in the cabin.

(c) Articles shall not be placed in the same cargo pit or bin nor placed side by side in cabins so that yellow label material is mixed with white label material.

§ 49.22 *Pilot notification.* When articles subject to the packing, marking, and labeling requirements of this part are carried on aircraft, the operator shall be responsible for notifying the pilot of the name of the article as shown in the commodity list of Part 72 of the ICC regulations (49 CFR Part 72), the type of label, quantity, and the location thereof. The pilot notification requirement may be met by entering the required information on the airplane load manifest.

§ 49.23 *Damaged or improperly marked articles.* If any package subject to the provisions of this part appears to the operator of the aircraft to be damaged, leaking, or improperly marked or labeled, the operator shall remove it from the aircraft and immediately report any indicated violation of the requirements of this part to the nearest representative of the Administrator or the Board.

§ 49.24 *Quantity limitations.* Except as provided below, not more than 50 pounds net weight of any article of the same classification subject to the packing, marking, and labeling provisions of this part may be carried in any cargo pit or bin on passenger-carrying aircraft, or in any inaccessible cargo pit or bin on any aircraft:

(a) Not more than 150 pounds net weight of compressed nonflammable gas may be carried in any single cargo pit or bin on passenger-carrying aircraft or in any inaccessible cargo pit or bin on any aircraft.

(b) Not more than 40 units of radioactive material Groups I or II shall be carried on any aircraft.

§ 49.25 *Special requirements for radioactive materials.* (a) Whenever any shipment of radioactive materials is damaged or appears to the operator of the aircraft to be damaged, the operator shall remove it from the aircraft and segregate it as far as possible from human contact. The operator of the aircraft shall immediately contact the shipper for disposal instructions and notify the Administrator or the Board of the incident.

(b) Whenever there is any actual spillage of radioactive materials of such nature that the materials are no longer contained within their inner containers, no attempt shall be made to remove or clean up the materials until instructions are received from the shipper or other qualified persons, and then only when necessary protective measures have been taken, and qualified persons are present to supervise the handling.

(c) A container or group of containers of radioactive materials shall not be placed closer than the distance specified in the distance table below to any area that may be continuously occupied by crew members or passengers. If more than one such container is present the distance shall be computed from such table by adding together the number of units shown on the label of each package.

TABLE FOR PERSONNEL SEPARATION[1]

Total number of units[2]	Minimum distance to crew members and passengers (feet)[3]	
	Up to 8 hours	Exceeding 8 hours
1 to 10	3	5
11 to 20	4	7
21 to 30	5	9
31 to 40	6	10

[1] This table is designed to afford maximum protection to human beings from the effects of radiation and will not protect X-ray film from such effects under all conditions of exposure. Distance separation required by this table for Groups I and II (red label) radioactive materials is not required for Group III (blue label) radioactive materials.

[2] Total number of units refers to the number found on the red label of a single package entered on the line reading, "Radiation Units from Package No. * * *." For two or more packages stored together, the total of the numbers of all such packages is meant.

[3] Distance means the number of feet from the nearest edge of the nearest radioactive container.

(d) If any aircraft is engaged principally or entirely in the transportation of radioactive materials, it shall be the responsibility jointly of the shipper and the operator of the aircraft to monitor all personnel involved so that the accepted limits of personnel radiation exposure are not exceeded.

PASSENGER-CARRYING AIRCRAFT

§ 49.31 *Articles which may be carried on passenger-carrying aircraft.* No explosives or other dangerous articles shall be carried on passenger-carrying aircraft, other than the following:

(a) Explosives and other dangerous articles which are exempt under the ICC regulations from the specification packing, marking, and labeling requirements of Parts 72, 73, and 78 (49 CFR Parts 72, 73, 78) thereof applicable to rail express.

(b) Class C explosives. The maximum quantity that may be packed in one outside container is 50 pounds.

(c) Nonflammable compressed gases. Such gases may be carried in quantities in excess of those permitted by paragraph (a) of this section in ICC approved cylinders and at pressures not to exceed those permitted by the ICC regulations, except that the following may not be carried: Anhydrous ammonia, boron trifluoride, chlorine, hydrogen bromide, hydrogen chloride, nitrosyl chloride, and sulfur dioxide.

(d) Radioactive materials, Class D, Groups I, II, and III (liquid, solid, or gaseous), may be carried when packed, marked, and labeled in accordance with Parts 72 and 73 of the ICC regulations (49 CFR Parts 72, 73). (See § 49.2 (a) and (b) for deviations and exemptions from the requirements of this part.)

CARGO AIRCRAFT

§ 49.41 *Articles which may be carried on cargo aircraft.* In addition to the articles acceptable for transportation on passenger-carrying aircraft, any article, except photographic film (nitrocellulose base), acceptable under the ICC regulations for transportation by rail express may be carried on cargo aircraft. The maximum quantity in any one outside package or container shall not exceed that prescribed for rail express in the commodity list of Part 72 of the ICC regulations (49 CFR Part 72).

EXTENSION OF TIME FOR FILING STATEMENTS OR BRIEFS

In the matter of amendment of §§ 10.101, 10.103, and 10.255 of the Commission's rules.

On July 10, 1956, the Commission released a notice of proposed rule making in the above entitled matter. The time for filing comments in the proceeding was specified as August 22, 1956, with reply comments due ten days thereafter.

On August 23, 1956, the Aircraft Owners and Pilots Association (AOPA) filed a request for an extension of time in which to file comments in this proceeding.

It appears that the request of the Aircraft Owners and Pilots Association is reasonable, and

Therefore, it is ordered, This 23d day of August 1956, that the date for filing written statements or briefs setting forth comments of the interested parties in this proceeding is extended until August 29, 1956, and the date for filing comments or briefs in reply to the original comments is extended to September 10, 1956.

Released: August 24, 1956.

I. *Authority and purpose.* A. Pursuant to the authority vested in the Secretary of Defense by the National Security Act of 1947, as amended, a single Manager Commodity Assignment is hereby directed within the Department of Defense, with authority, functions, responsibilities and relationships as set forth below, recognizing that the primary mission is to effectively support the military effort of the country.

B. The purposes and objectives of this assignment are:

1. To increase the efficiency of the Armed Services petroleum supply organization.

2. To eliminate duplication and overlapping of effort between and among military services.

3. To apply the basic pattern for all organizations performing a Single Manager support mission, as prescribed in reference (b) above, to the mission of supplying petroleum to the Armed Services.

II. *Scope*—A. The Single Manager Plan will be employed, as appropriate, for the management of petroleum and petroleum products, within the Continental United States, and is extended to include operations outside the Continental United States as provided herein. Further extension will be made only with the approval of the Secretary of Defense.

B. The scope of this commodity assignment is limited to the extent that neither ownership nor funding by a single stcok fund is provided for the management of petroleum and petroleum products. This deviation from the principles established in reference (b) is justified by the characteristics of petroleum and the exceptional conditions encountered in the supply and distribution of this commodity by the military departments.

III. *Definitions*—A. *Single Manager.* The Secretary of the Military Department who is designated by the Secretary of Defense to be responsible for the organization and operation of the Single Manager assignment for petroleum.

B. *Executive Director for Petroleum.* The individual designated by the Single Manager to manage the Single Manager operating agency for petroleum.

C. *Single Manager Operating Agency.* An organization which, under the direction of the Executive Director for Petroleum, shall manage, direct, or control all assigned functions of supply management of petroleum for all military services. It shall be titled the Military Petroleum Supply Agency.

D. *Administrative Committee.* A group designated to assist the Executive Director in identifying and overcoming problems concerning the operation of this assignment. The Committee shall be neither a policy board nor an executive directorate, but rather a group of specialists meeting to recommend solutions to particular problems and to promote the effectiveness and economy with which the Agency meets the needs of the military services. Its membership shall be as follows:

1. Executive Director-Chairman.

2. A representative from the Army, Navy, Marine Corps, and the Air Force.

3. The Assistant Secretaries of Defense (Comptroller) and (Supply and Logistics), or their representatives.

4. Such technical or professional personnel augmentations from the military services as the Single Manager determines to be necessary and as petroleum supply problems under consideration dictate.

E. *Administrative support.* The provision of personnel, space, facilities, equipment and supplies, including the related budgeting, funding, fiscal control, training, manpower control and utilization, personnel administration, security administration, mobilization planning, and other administrative provisions and services, necessary to carry out assigned missions.

F. *Petroleum and petroleum products.* All items listed as petroleum and petroleum products in DOD Instruction 4115.1, dated 12 October 1955, or amendments or changes thereto, and containers therefor, including packaging, preservation and marking; and all other items of related material authorized by the Office of the Secretary of Defense.

G. *Supply management of petroleum.* The exercise of direction and control by the Single Manager of supply operations for petroleum and petroleum products as provided for herein, including the functions of cataloging, standardization, collation of net requirements, procurement and procurement inspection and production; and the coordination of functions related to storage, distribution, transportation and disposal.

H. *Distribution.* An area, terminal, or depot distribution system designed to distribute and issue petroleum in bulk quantities to the post, camp, station, or base level of all services. This distribution system shall employ the facilities best suited to the requirements of the area served, regardless of service ownership.

IV. *Delegation of authorities and responsibilities.* A. The Secretary of the Navy is hereby designated as the Single Manager for Petroleum, subject to overall guidance, policies and programs of the Office of the Secretary of Defense, with the responsibilities and authorities assigned under this Directive. Additions or deletions of specific items from the cognizance of the Single Manager will be authorized only by the Office of the Secretary of Defense. Requests for changes may be initiated by a military service and shall be forwarded through the Single Manager for his recommendation to the Secretary of Defense.

B. As Single Manager for Petroleum, the primary responsibility of the Secretary of the Navy shall be to meet effectively the petroleum supply support requirements of the military services. He shall also be responsible for fulfilling other support responsibilities placed upon the Department of Defense for such items. The Single Manager shall be responsible for the utilization of all applicable portions of reference (b) except where such portions are specifically modified or amplified herein.

C. The Secretary of each military department shall be responsible for the support of all installations and activities under his jurisdiction.

D. The Secretary of each military department shall be responsible for requirements determination; for supply of petroleum, petroleum products and materiel to using elements of his department and for control and ownership of reserve and operating stocks. Departmental planned requirements will be submitted to the Military Petroleum Supply Agency on a cyclical basis, in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics).

E. The Secretary of each military department will initiate action to include all materiel referenced under paragraph IIIF, above, in an appropriate division or category of the respective Departmental Stock Funds.

F. The Secretary of each military department shall be responsible for full cooperation with the Single Manager in carrying out the provisions of the applicable portions of reference (b) and the provisions of this Directive.

V. *Authorities and responsibilities of the single manager—A. Organization and management.* 1. Designate an Executive Director for Petroleum, subject to approval by the Secretary of Defense. The Executive Director shall have no other duties but to direct the operations of the Military Petroleum Supply Agency. The Executive Director shall be responsible to the Secretary of the Navy through channels prescribed by that Secretary.

2. Establish and organize the Military Petroleum Supply Agency in accordance with reference (b) above, except as otherwise specifically modified herein.

3. The Agency shall be staffed by civilian personnel employed by the Department of the Navy, and by military personnel from all military services, as appropriate, not necessarily with equal representation. Positions within the Agency staff will be identified as military or civilian, based on criteria established by the Secretary of Defense. Key military staff positions subordinate to the Executive Director shall be subject to rotation on a periodic basis among the military services, as agreed to by the Single Manager and the Secretaries of the other two military departments, with due consideration being given to the qualifications of the individuals concerned and the career program needs of each military service.

4. The Department of the Navy will be responsible for providing the administrative support for the Agency. Initially, however, personnel, personnel spaces, funds, facilities and equipment will be adjusted among the military services for responsibilities assigned to the Agency in order to meet the support requirements of the Single Manager created by this Directive. Such personnel adjustments will be accomplished in accordance with the provisions of DoD Instruction 140.4.4, dated April 19, 1955.

5. Organize the administrative committee in accordance with paragraph III D. above.

B. *Requirements.* 1. Receive from the military services on a cyclical basis statements of peacetime and mobilization requirements, computed and submitted in accordance with policies and procedures established by the Assistant Secretary of Defense (Supply and Logistics), together with necessary supporting data, including basic assumptions and factors upon which the requirements were premised, to enable review and comment.

2. Receive from the military services and collate reports of net requirements for procurement purposes by the Agency.

3. Receive from the military services the requirements for Mutual Defense Assistance Program and civilian aid programs.

4. Establish slating procedures to be utilized by the Area Petroleum Offices in overseas commands in submission of petroleum requirements.

C. *Procurement.* 1. Conduct or direct procurement, world-wide, pursuant to the provisions of the Armed Services Procurement Act, Armed Services Procurement Regulation (ASPR), and the Navy procurement directives, including contract administration, as a single service purchase assignment to the Single Manager for all petroleum and petroleum products. Designate those items to be procured locally. The designation or redesignation of items from local procurement to central procurement or vice versa will be coordinated with the military services with sufficient time allowed for an orderly adjustment of the affected programs.

2. Obtain and furnish to the military services procurement and production data for use in requirements and supply studies.

3. The secretaries of the respective military departments shall be responsible for accounting and control of government-furnished materiel in the hands of contractors utilizing the services of the Single Manager to maximum feasible extent.

4. Procure petroleum products for Mutual Defense Assistance Program and civilian aid programs to fulfill requirements submitted by the military departments.

5. Purchase petroleum products and related items to the extent authorized by law for other Federal departments and agencies, on the basis of mutual agreements.

6. Administer the priorities and allocation authority, in the purchase of petroleum and petroleum products, delegated by the Assistant Secretary of Defense (Supply and Logistics), in accordance with the Department of Defense Priorities and Allocations Manual, pursuant to Department of Defense Instruction 4410.1, June 8, 1954, and plan for administration in accordance with Department of Defense Emergencies Priorities Allocation Manual (4410.2, August 18, 1955).

D. *Inspection.* Direct the program of procurement inspection world-wide, utilizing established inspection services and facilities of the military departments. Assign responsibilities for making procurement inspections.

E. *Storage.* 1. In collaboration with the military departments, periodically review the requirements for operating and reserve storage in overseas commands and CONUS and make recommendations thereon to the military departments and the Assistant Secretary of Defense (Supply and Logistics) concerning acquisition of storage by Public Works construction and by contracting for commercial storage services.

2. Contract on a world-wide basis for bulk commercial petroleum storage required by the military departments and administer the contracts. The Single Manager may delegate, when desirable, the contracting responsibility for commercial storage in specific overseas areas to overseas commanders concerned through appropriate channels.

F. *Inventory control and distribution.* 1. Coordinate the distribution systems for petroleum and petroleum products for the Department of Defense. Coordinate or direct agreements, as appropriate, to insure the maximum of cross-servicing. Coordinate the redistribution of stocks in CONUS. Redistribute and dispose of stocks in overseas commands only upon the request of or agreement of the commander concerned. This latter action will be coordinated with the interested military departments.

2. Coordinate a program for the positioning of mobilization reserve and operating stocks to obtain maximum availability and minimum loss in the event of enemy attack, in accordance with Department of Defense policies and the operational needs and wartime missions of the military services.

3. Coordinate a world-wide system of uniform prices and pricing procedures for cross-servicing in accordance with policies as established in reference (c).

4. Coordinate and promulgate the interservice supply support agreements for petroleum and petroleum products supply to oversea areas.

5. Report to General Services Administration, in accordance with Department of Defense policies, those items excess to the Department of Defense requirements.

6. Prepare reports, as required by the military services, for the development of operating and reserve requirements and supply studies.

7. Advise the Assistant Secretary of Defense (Comptroller) and the military departments as to financial and budgetary management data required by the Single Manager.

G. *Research and development.* The Single Manager will be kept informed of all research and development pertaining to his commodity area. He may recommend to the military services research and development into improved materials, items and methods within his commodity jurisdiction, and will recommend to the Assistant Secretary of Defense (Research and Development) any changes in the program he considers desirable. The military departments, under the policies and procedures of the Secretary of Defense, are responsible for research and development programs; the Assistant Secretary of Defense (Research and Development) is responsible for reviewing these programs.

H. *Cataloging and standardization.* 1. Responsible for coordinating the cataloging operations of the military services for petroleum and petroleum products in accordance with prescribed Department of Defense policies, procedures, and operations established for the Federal Catalog System; operate as a single Department of Defense submitting activity in the Federal Catalog System for petroleum and petroleum products.

2. Develop and direct a program of standardization and of standards and specification preparation and maintenance for petroleum and petroleum products within over-all Department of Defense policies and guidance.

I. *Transportation.* Coordinate and arrange for required tanker transportation for the movement of military petroleum products in accordance with criteria and procedures established by the Executive Director, Military Sea Transportation Service.

J. *Commercial facilities and services.* 1. Contractually implement approved military programs for expansion of petroleum industrial facilities and administer the contracts therefor.

2. Contract for commercial petroleum services (such as storage and handling service, and into-plane contracts) on a world-wide basis, except that each military service may contract for into-plane refueling service at individual air stations or bases where the fuels are government furnished.

K. *Personnel and training.* 1. In planning the organization and staffing required for the Agency, establish military and civilian career development patterns which shall be coordinated with and supplement programs of the military services. Personnel training requirements peculiar to a particular military service will be considered in the development of the program and incorporated therein by the Single Manager.

2. Coordinate departmental requirements for and implementation of training provided by the petroleum industry. Review training programs of the services and recommend measures to provide for maximum cross-servicing in the training of units and individuals within available departmental facilities in the Continental United States.

3. Assist the military departments in obtaining their needs and requirements for personnel and consulting services through contacts with the petroleum industry and organizations.

L. *General.* 1. Prepare reports as required by the Office of the Secretary of Defense.

2. The Single Manager is authorized and expected to communicate directly on administrative and technical matters with organizational elements of the military services and with the Area Petroleum Offices in overseas commands to carry out the responsibilities assigned in this Directive. Matters concerning petroleum policies affecting the Department of Defense or other governmental agencies and departments will be referred to the Assistant Secretary of Defense (Supply and Logistics).

3. The Single Manager is authorized and expected to maintain close liaison with non-governmental organizations, associations and industry on matters affecting the responsibilities under this Directive, subject to the provisions of Department of Defense Directive 5500.2, 13 September 1954.

4. Direct the submissions, on a periodic basis, of such reports as may be necessary for the accomplishment of the Single Manager's mission.

VI. *Implementation.* A. Implementation of the Single Manager assignment for petroleum will obviate the requirements for any military service to perform the management functions assigned herein to the Single Manager. Thus, all existing organizations within the military services in the Continental United States which perform such functions shall have their missions, status, and manning modified, redefined, and adjusted as early as possible so as to exclude the functions assumed by the Military Petroleum Supply Agency and to reflect their reduced mission status. Thus, the Armed Services Petroleum Purchasing Agency (ASPPA), established by DoD Directive 5154.7, October 7, 1953, and appropriate elements of the military services shall be disestablished as early as their functions can be phased into the Military Petroleum Supply Agency.

B. The operating agency shall be so organized that, as a minimum, it will perform directly within its organization, at one location, the responsibilities designated in paragraphs VB, VC, and VF, above.

C. Within ninety (90) days, regulations, procedures, organizational arrangements, and adjustments among military services as to personnel, personnel spaces and funds, required to implement the provisions of this Directive, will be developed and coordinated with the military services by the Single Manager and transmitted to the Secretary of Defense for approval. The Assistant Secretary of Defense (Supply and Logistics) will coordinate the approval of such matters with other cognizant elements of the Office of the Secretary of Defense.

D. Within one year following approval of the measures implementing this Directive, the Single Manager will submit recommendations to the Assistant Secretary of Defense (Supply and Logistics) for modification or extension of appropriate elements of this Directive.

VII. *Annex.* The following Annex is incorporated as a part of this Directive: Annex A—Statement of the related responsibilities of the Single Manager and the military services in connection with this commodity assignment.

VIII. *Effective date.* Development of implementation measures will be commenced immediately.

REUBEN B. ROBERTSON, JR.,
Deputy Secretary of Defense.

b. Receive from military departments requirements for Mutual Defense Assistance and civilian aid programs.	b. Furnish Mutual Defense Programs and Civilian Aid Program requirements as necessary.
3. *Procurement.* a. Conduct or direct procurement, worldwide, pursuant to the provisions of the Armed Services Procurement Regulation (ASPR), and Navy Purchase Directive, including contract administration, as a single service purchase assignment to the Single Manager for all petroleum and petroleum products. Designate those items to be procured locally.	a. Procure locally those items designated by the Single Manager. Conduct such central purchase as directed by the Single Manager.
b. Obtain and furnish to the military departments procurement and production data for use in requirements and supply studies.	b. Request the Single Manager for any data regarding procurement and production required for use in requirements and supply studies.
4. *Inspection.* a. Direct the program of procurement inspection worldwide, utilizing established inspection services and facilities to the maximum degree. Assign responsibilities for making procurement inspections.	a. Conform with the program of procurement inspection including prescribed standards of inspection and perform such procurement inspections as the Single Manager directs.
5. *Storage.* a. In collaboration with the military departments, review the requirements for operating and reserve storage in overseas commands and in CONUS and make recommendations thereon to the Assistant Secretary of Defense (Supply and Logistics).	a. Collaborate with the Single Manager in the review of requirements for operating and reserve storage in overseas commands and in CONUS.
b. Contract for bulk commercial petroleum storage on a world-wide basis and administer the contracts. This responsibility may be delegated to overseas commanders for specific areas when desirable.	b. Submit requirements to the Agency for bulk commercial petroleum storage contract implementation except when this contracting responsibility has been delegated to appropriate overseas commanders.
6. *Inventory control and distribution.* a. Coordinate the distribution systems of petroleum and petroleum products for the Department of Defense. Coordinate or direct agreements, as appropriate, to insure the maximum of cross-servicing. Redistribute and dispose of stocks in overseas commands only upon request and by agreement of the commander concerned. This latter action will be coordinated with interested military departments. Coordinate the redistribution of stocks in CONUS.	a. Provide such data as required by the Single Manager on distribution and redistribution of stocks so as to permit maximum coordination and cross-servicing.
b. Coordinate program for the positioning of mobilization reserve stocks to obtain maximum availability at minimum loss in the event of enemy attack, in accordance with Department of Defense policies.	b. Collaborate with and provide such data as to departmental programs as required by the Single Manager for coordination purposes.
c. Coordinate a world-wide system of uniform prices and pricing procedures for cross-servicing in accordance with Department of Defense Directive No. 7420.1.	c. Collaborate with the Single Manager in establishment of prices for cross-servicing pursuant to Department of Defense Directive No. 7420.1.
7. *Research and development.* a. Recommend to a military service or services research and development into improved products, items, materials and methods within his commodity jurisdiction. He will be kept informed on research and development in his commodity area. Recommend to the Assistant Secretary of Defense (Research and Development) any changes in the over-all programs he considers desirable.	a. Initiate requirements for research and development, and perform research and development. The services may initiate and perform research and development in areas of peculiar interest to their requirements in accordance with established coordinating procedures.
8. *Cataloging and Standardization.* a. Coordinate the Cataloging operations of the military services for petroleum and petroleum products in accordance with prescribed Department of Defense policies and procedures, and operations established for the Federal Catalog System; operate as a single Department of Defense submitting activity in the Federal Catalog System for petroleum and petroleum products.	a. Perform those functions of the Federal Catalog System for petroleum and petroleum products as prescribed by the Single Manager; utilize Federal Catalog Data as the prime identification data in all supply and logistics operation, consistent with Department of Defense policies.
b. Develop and direct a program of standardization and of standards and specifications preparation and maintenance within over-all Department of Defense policies and guidance.	b. Accomplish such standards and specifications work as is assigned by the Single Manager. Inform the Single Manager of use needs, and recommend or concur in adoption and standardization or rejection of petroleum and petroleum products.
9. *Transportation.* a. Coordinate and arrange for required tanker transportation for the movement of military petroleum products in accordance with criteria and procedures established by the Executive Director, Military Sea Transportation Service.	a. Obtain required transportation or traffic management services in accordance with criteria and procedures established by the Single Managers for Military Traffic Management, Military Sea Transportation Service, and Military Air Transport Service, when appropriate, or as may otherwise be authorized by the Secretary of Defense.
10. *Commercial Facilities and Services.* a. Contract for commercial petroleum services on a world-wide basis, except that each military department may contract for into-plane refueling service at individual air stations or bases where the fuels are government furnished.	a. Forward requirements for commercial petroleum services to the Single Manager.

ANNEX A—RELATED RESPONSIBILITIES OF SINGLE MANAGER AND THE MILITARY DEPARTMENTS—Continued

Single Manager	*Military Departments*

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1820]

PANHANDLE OIL CORP.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

AUGUST 27, 1956.

In the matter of application by the Philadelphia-Baltimore stock exchange for unlisted trading privileges in Panhandle Oil Corporation, Common Stock, File No. 7-1820.

The above named stock exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 promulgated thereunder, has made application for unlisted trading privileges in the specified security, which is listed and registered on the New York Stock Exchange.

Upon receipt of a request, on or before September 12, 1956, from any interested person, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person making the request and the position he proposes to take at the hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington 25, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application and other information contained in the official file of the Commission pertaining to the matter.

AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING REGARDING PROPOSED ACQUISITION BY REGISTERED HOLDING COMPANY OF COMMON STOCK OF A PUBLIC UTILITY COMPANY AND ISSUANCE BY REGISTERED HOLDING COMPANY OF SHARES OF ITS COMMON STOCK TO BE USED IN PAYMENT FOR THIS ACQUISITION

AUGUST 27, 1956.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, has made a filing with this Commission designating sections 6, 7, 9, and 10 of the Public Utility Holding Company Act of 1935 ("act") as applicable to the transactions described therein which are summarized as follows:

American Gas proposes to acquire all of the outstanding shares of common capital stock of Seneca Light and Power Company ("Seneca"), consisting of 1,000 shares, no par value, in exchange for an aggregate total of shares of the common stock of American Gas, par value $10 a share, equal to a market value of $500,000 (subject to adjustment for changes in net current assets up to the date of closing), the exact number of shares being determined on the basis of the average market price from August 15, 1956, the date of the acceptance by the stockholders of Seneca of the offer of American Gas, to the date of closing.

It is represented in the filing that the 1,000 shares of Seneca's common capital stock are held by three individuals in a single family none of whom is affiliated with American Gas or any of its subsidiaries. It is further represented in the filing that the negotiations between Seneca and American Gas have been carried on at arm's length.

The filing states that Seneca is an Ohio corporation which operates an electric power distribution system in the communities of Attica, Carrothers, Chatfield, Siam and adjacent territory, in Seneca and Crawford Counties, Ohio. This service area of Seneca is surrounded by the service areas of subsidiaries of American Gas and Seneca purchases all its electric energy from Ohio Power Company, a subsidiary of American Gas.

American Gas represents in the filing that it is its belief that consummation of the proposed transactions will be of benefit to the consumers of Seneca through contemplated rate reductions to be effectuated after acquisition and will be of benefit to investors through increased earnings by Seneca arising from economies growing out of expected greater efficiency in the operations of Seneca.

The filing also seeks approval of an application by American Gas to issue the number of shares of its common stock (the precise amount of which is not presently determinable) necessary to effectuate this proposed acquisition. The filing indicates that it is presently estimated that the number of shares of common stock to be issued by American Gas will not exceed 13,000 shares and that the precise number of shares will be set forth in the Certificate of Notification to be filed with this Commission pursuant to Rule U-24.

It is stated in the filing that legal fees of counsel for American Gas are estimated not to exceed $1,000, and that miscellaneous expenses, primarily for Federal issuance tax and registration of the American Gas stock on the New York Stock Exchange, estimated not to exceed $500, are to be paid by American Gas. Certain routine services incident to the transaction are to be performed by American Gas and Electric Service Corporation, no estimate in respect to the amount of these fees being set forth in the filing.

American Gas states that it is its belief that no State commission and no Federal commission other than this Commission has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than September 12, 1956 at 5:30 p. m., e. d. s. t., request the Commission in writing that a hearing be held on this matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by such filing which he proposes to controvert, or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date, the application as filed, or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rules U-20 (a) and U-100 or take such other action as it may deem appropriate.

By the Commission.

PAVILION NATURAL GAS CO.

NOTICE OF FILING OF APPLICATION REGARDING PROPOSED ACQUISITION FROM PARENT OF CAPITAL STOCK OF ASSOCIATE PUBLIC UTILITY

AUGUST 27, 1956.

Notice is hereby given that The Pavilion Natural Gas Company ("Pavilion"), a public-utility company and an exempt public utility holding company which is a subsidiary of Genesee Valley Gas Company, Inc. ("Genesee") an exempt public utility holding company, has filed with this Commission an application, pursuant to section 9 (a) (2) of the Public Utility Holding Company Act of 1935 ("act"), regarding the proposed acquisition by Pavilion from Genesee of the outstanding capital stock of Churchville Oil & Natural Gas Company ("Churchville"), a direct public utility subsidiary of Genesee.

All interested persons are referred to the application on file in the office of the Commission for a statement of the transactions therein proposed, which are summarized as follows:

Pavilion, a New York corporation, is engaged in purchasing, producing, distributing and selling, principally at retail, natural gas in the counties of Livingston, Wyoming and Genesee in the State of New York. It owns all of the outsanding capital stock of Valley Gas Corporation, a public utility organized and operating in the State of New York. Pavilion is exempt from the provisions of the act, pursuant to Rule U-2.

Genesee, a New York corporation, is solely a holding company, owning all of the capital stocks of Pavilion and Churchville. Genesee is exempt from the provisions of the act, pursuant to an order issued by the Commission under section 3 (a) (1) of the act on August 2, 1938 (3 S. E. C. 672).

Churchville, a New York corporation, is engaged in purchasing, producing, distributing and selling at retail natural gas in the counties of Genesee and Monroe in the State of New York. Churchville's principal source of natural gas is Pavilion, and the two systems are contiguous and interconnected.

Genesee, whose liquidation and dissolution is contemplated in the relatively near future, proposes to transfer to Pavilion, and Pavilion proposes to acquire, as a capital contribution, all of the outstanding 500 shares of $100 par value common stock of Churchville, and to record such investment on its books at $50,000 which is the cost thereof to Genesee.

In support of the application, it is stated that both Genesee and Pavilion believe that the best interests of both Pavilion and Churchville will be served by their continuance under common ownership and control; and that the proposed acquisition by Pavilion will not change either the intrastate character of the holding company system of which it is a part or Pavilion's status as predominantly an operating company.

It is further stated that the proposed acquisition by Pavilion is subject to the jurisdiction of the Public Service Commission of New York, that a petition has been filed with that commission for approval of the proposed acquisition, and that no other State commission, and no Federal commission other than this Commission, has jurisdiction over any of the proposed transactions.

Notice is further given that any interested persons may, not later than September 12, 1956, at 5:30 p. m., request in writing that a hearing be held in respect of such matters, stating the nature of his interest, the reasons for such request, and the issues of fact or law which he desires to controvert or he may request that he be notified if the Commission orders a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C. At any time after said date the Commission may grant the application, as filed or as it may be amended, pursuant to Rule U-23 of the rules and regulations promulgated under the act, or the Commission may grant exemption from its rules as provided in Rule U-100 and 20 (a) thereof, or take such other action as it may deem appropriate.

By the Commission.

Secretary.
